DUQUESNE LIGHT COMPANY

(Controlled by Philadelphia Company)

History and Properties—Incorporated Aug. 5, 1903, in Pa., and operates under perpetual franchise. On Nov. 25, 1912, the Monongahela Light Co. and the Oakmont & Verona Light, Heat & Power Co. were consolidated and merged with the Duquesne Light Co. under the name Duquesne Light Co. During 1913, the Pittsburgh City Light & Power Co. was merged. Acquired all the property and franchises of Diamond Light & Power Co., Feb. 28, 1921, and of Millvale Light Co., May 31, 1921. On July 27, 1921, the Duquesne Light Co. purchased all the capital stock of the Cheswick Power Co. and of the Equitable Coal & Coke Co. from the Philadelphia Company; and on the same date also purchased all the property and franchises of said companies, at which time they ceased to exist. On Jan. 16, 1922, the Pittsburgh Beaver Light Co. sold all of its property and franchises to the Duquesne Light Co.; on June 13, 1922, the Pennsylvania Light and Power Co.; on Aug. 1, 1922, the Midland Electric Light & Power Co., and on Dec. 30, 1922, the Beaver County Light Co. were absorbed by the Duquesne Light Co. A number of smaller companies were also merged during 1922, 1923, 1924, 1925 and 1926.

During 1926 Duquesne Light Co. purchased the Oliver Estate Power Plant, the largest independent plant in the Pittsburgh Downtown District.

Control of The United Electric Light Company (see 1927 Manual, page 1401) which operated in the Wilmerding and Turtle Creek sections, was acquired toward the close of 1926 by interests associated with the Duquesne Company. On May 17, 1927, The United Electric Light Company was merged with the Duquesne Light Company, the latter company having purchased all of its properties, franchises and leaseholds. In 1927, The Allegheny County Light Company (see 1927 Manual, page 1395), Southern Heat, Light & Power Co. (see 1927 Manual, page 1395) and Sewickley Light, Heat & Power Co. were merged with the Duquesne Light Company, through purchase of all of their properties, franchises and leaseholds. Company owns all of the capital stock of Allegheny County Steam Heating Co., and through acquisition of The Allegheny County Light Co. in 1927, now leases directly the property of Monongahela Light & Power Co.

The Duquesne Light Co. purchases energy from the West Penn Power Co. by means of the 132,000-volt line which connects their Springdale station with the Colfax station of the Duquesne Company. In addition to the West Penn interconnection, the Duquesne Company has constructed the necessary substation and line equipment to provide a 66,000-volt inter-connection with The Pennsylvania-Ohio Power & Light Co. This inter-connection provides the customers of both companies with an additional guaranty of continuous service in case of emergency.

Properties—The properties include 3 power plants of an aggregate capacity of 384,000 kilowatts. Current of the Duquesne Light Co. system is distributed through 214 sub-stations (not including seven which are used exclusively to "step up" the voltage for the transmission lines), 21,402 miles of distribution and 932 miles of transmission lines. A large part of Pittsburgh is served by underground lines, the Duquesne system having altogether 132 miles of underground subway. There are now in service 293,593 meters and current is being supplied to 274,690 customers.

Principal generating stations are Colfax with an installed capacity of 262,500 k.w. and Brunot Island of 116,500 k.w. capacity. Colfax ranks as one of the most important power stations in the country and is unusually well located for a plant of such magnitude. It is situated on the Allegheny River within 16 miles of the business center of Pittsburgh and within 1½ miles of a mine from which its entire fuel requirements are available. This mine, owned by the Company, is operated by an affiliated company and connected with the plant by a railroad owned and operated by another affiliated company. The mine with equipment recently installed has a developed output capacity of 4,000 tons per day and a content found by survey to be in excess of 25,000,000 tons of high thermal value coal. Colfax is designed for an ultimate capacity of 400,000 horsepower. To supply the constantly growing demands for electric energy two additional generating units aggregating 80,000 kilo-

watts capacity were constructed at Colfax and placed in operation during the year 1927. Brunot Island plant is on an island owned by the Company in the Ohio River at practically the center of Pittsburgh's most active manufacturing district. At both of these plants ample water for condensing purposes is assured and facilities are provided for receiving fuel by rail, and by water in equipment owned and operated by an affiliated company. The plants are interconnected by a 75 mile steel tower high tension transmission ring serving the Pittsburgh district.

Business—The Company does all the electric light and power business in the City of Pittsburgh. It also supplies substantially all the electric light and power service in the surrounding Boroughs and in the greater parts of Allegheny and Beaver counties, Pa. Population served is over 1,360,000 and area approximately 1,000 square miles. On Jan. 1, 1913, the Company entered into a 50-year contract to furnish the Pittsburgh Railways Co. with all of its requirements of electrical energy. Also furnishes electric street lighting service to the City of Pittsburgh.

Franchises—Franchises, with minor exceptions, are unlimited in time or for 999-year periods.

CAPITAL STOCK

Authorized, 4,000,000 shares Common of no par value and $120,000,000 First Pfd., par, $100; outstanding, 2,000,000 shares Common and $20,000,000 5% cumulative First Pfd.. All the Common stock is owned by Philadelphia Company and pledged under its 5% Secured Gold Bonds, Series "A," due Dec. 1, 1967.

Capital Stock Changes—At a stockholders meeting held March 10, 1928, stockholders approved the proposition to convert 250,000 shares of Participating Pfd. stock, par $100, into 1,000,000 shares of Common stock of no par value and to convert 250,000 shares of old Common stock of $100 par value into 1,000,000 shares Common of no par value, making a total of 2,000,000 shares Common of no par value outstanding. Stockholders also approved an increase in the number of Common shares authorized, from 2,000,000 to 4,000,000 shares. The authorized capital stock before these changes were made was $25,000,000 Common, $150,000,000 First Pfd. and $125,000,000 Participating Pfd., par of all classes, $100.

7% First Preferred Stock Called—All the outstanding 7% First Pfd. stock, Series "A," was called for redemption on March 15, 1928 at 115 and accrued dividends at Chase National Bank of New York.

First Preferred Stock Provisions—5% First Pfd. stock has preference as to dividends over every class of stock other than First Pfd. stock. In the event of any voluntary distribution of capital assets among stockholders (except in dissolution or liquidation) 5% First Pfd. is entitled to $110 per share and accrued dividends and no more, for which it has preference over all other classes of stock except First Pfd. stock; in case of involuntary distribution and in dissolution or liquidation, 5% First Pfd. is entitled to $100 per share and accrued dividends and no more.

Additional First Pfd. stock may be issued in series of varying characteristics, including dividend rate, redemption price and preference as to assets, ranking equally with the 5% cumulative First Pfd. stock; provided that additional First Pfd. stock may not be issued unless net income as defined in the provisions of the 5% cumulative First Pfd. stock, for 12 consecutive months ended not more than 90 days prior to the date on which it is proposed to issue the additional stock, has been equal to at least three times the annual dividend requirement on all First Pfd. stock then outstanding, including the amount about to be issued. While any of this 5% First Pfd. stock is outstanding, no stock can be created superior to it, and no stock can be created ranking equally with it except First Pfd. stock.

Except as required by the laws of Pennsylvania, the 5% First Pfd. stock will have no voting power on any question unless and only so long as dividends aggregating 5% shall have accrued and be unpaid upon it, in which case the holder of each share of this stock shall be entitled to one vote. The holders of First Pfd. stock are not entitled to subscribe for capital stock or for securities convertible into capital stock of this Company.

Callability—The 5% First Pfd. stock is subject to redemption as a whole or in part at any time upon 30 days' notice at $110 per share and accrued dividend.

Purpose of Issue—The proceeds from the sale of the 5% First Pfd. stock together with proceeds from sale at par of $5,000,000 Common and $15,000,000 Participating Pfd. 8% Series "A" of the Company to Philadelphia Company provided funds for the retirement of the $30,000,000 par value of 7% cumulative First Pfd. stock, Series "A," which was called for redemption, and for other corporate purposes.

Transfer Agents—George Borcino and T. J. Kerr, 111 Broadway, New York; K. B. Morweiser and E. Schlegel, 231 S. La Salle St., Chicago, and C. F. Gaut and C. H. Rickert, 435 Sixth Ave., Pittsburgh, Pa.

CONSOLIDATED GAS CO. OF THE CITY OF PITTSBURGH

(Controlled by Philadelphia Company)

History—Incorporated May 19, 1871, under the laws of Pennsylvania by a special Act of Legislature, May 19, 1871; re-chartered Feb. 15, 1895, under Act of April 29, 1874. On June 14, 1898, purchased all the franchises, rights, privileges and property of the Franklin Gas Co., by which it acquired exclusive franchise for supplying artificial gas for light to that portion of Pittsburgh lying between the Monongahela and Allegheny Rivers. On June 15, 1898, acquired franchises, rights, privileges and property of the Pittsburgh Gas Co., and East End Gas Co. In June, 1919, the operation of the property was discontinued. Subsequently all property of the Company was sold and the proceeds applied to the retirement of First Mortgage bonds, only $317,000 of which remain outstanding.

Purchase Approved—In Jan., 1924, the Pennsylvania Public Service Commission approved the purchase by the Company of the Wilkinsburg Gas Co.

Default—The Company defaulted in the payment of interest due Feb. 1, 1916, on its First Mortgage 5% bonds of 1898.

No proceedings against the Consolidated Gas Co. of the City of Pittsburgh on the default was taken, and the Philadelphia Company acquired the bonds through a bondholders' committee, on the basis of 18½ shares of 6% cumulative Pfd. stock of the Philadelphia Company for each $1,000 bond, and has acquired $4,991,000.

CAPITAL STOCK

Authorized, $4,000,000 Common and $2,500,000 Pfd.; issued: $4,000,000 Common and $2,000,000 Pfd.; par, $50. The entire $4,000,000 Common stock and $208,100 Pfd., is owned by the Philadelphia Co., which guarantees dividend of 4% per annum on the Pfd. stock. The $500,000 unissued Pfd. can only be used for the purpose of improvement to the plant of the Consolidated Gas Co.

Transfer Agent—Union Trust Co., Pittsburgh, Pa.

Registrar—Farmers' Deposit National Bank, Pittsburgh, Pa.

Listed (Pfd. Stock)—Pittsburgh Stock Exchange.

Dividends—Pfd. dividends regularly paid, semi-annually, Feb. and August 1. No dividends paid on Common stock since 1899.

FUNDED DEBT

$317,000 First Gold 5s; dated Feb. 1, 1898; due Feb. 1, 1948; int. Feb. and August 1, at office of Alexander Brown & Sons, Baltimore, Md., and Brown Bros. & Co., New York, N. Y. Coupon, $1,000; principal may be registered. Maryland Trust Co., Baltimore, Md., Trustee. There is no sinking fund and no provision for the redemption of these bonds. A first lien on entire properties, embracing entire gas manufacturing industries of Pittsburgh. Listed on Pittsburgh Stock Exchange. The Equitable Real Estate Co. (a subsidiary of the Philadelphia Company) owns $308,000 of the outstanding bonds. Company pays Normal Federal Income Tax up to 2%. Interest in default from and including Feb. 1, 1916.

EQUITABLE GAS COMPANY

(Controlled by Philadelphia Company)

History—Incorporated Oct. 22, 1888, in Pa. Supplies natural gas to the city of Pittsburgh and vicinity. On Dec. 1, 1913, the transportation and service lines, regulating and pumping station, in fact what may be termed the natural gas operating plant and service of the Philadelphia Co., all located in the State of Pennsylvania were leased to the Equitable Gas Co. for a term of 35 years. On Jan. 1, 1923, the Philadelphia Co. leased all its natural gas leases and wells, drilled and to be drilled, to the Equitable Gas Co.

By deed dated Jan. 31, 1923, The Peoples Natural Gas & Pipeage Co. sold all its property and franchises to the Equitable Gas Co. and was dissolved early in 1923 (see 1922 Public Utility Manual, page 1360, or apply to our Information Department).

Supply—In order to reduce the cost of purchased gas to a minimum, the Byllesby interests inaugurated during 1926 an arrangement whereby approximately 1,000,000 acres of gas-bearing land will be made available for the production therefrom of natural gas, a share of which can be used to augment the supply to the Pittsburgh District. Thus will it be possible for the Equitable Company and Affiliated Companies to become more independent with respect to the necessity of purchasing from outside companies all of the gas which may be needed over and above their own production.

Consolidated Statistics (Equitable Gas Co. and Affiliated Natural Gas Companies)—Property consists of one gas holders with a capacity of 500,000 cu. ft.; 13 compressor stations with a capacity of 30,620 h.p. The manufactured gas plants have a daily capacity of 30,000,000 cu. ft. There are 335,777½ owned or leased acres of gas fields on which 1,781 gas wells are owned, 29 new producing wells being placed in operation during 1927. There are 3,800.67 miles of pipe line, of which 2,306.36 miles are transportation and field lines and 1,494.31 miles are distribution lines.

HARWICK COAL AND COKE COMPANY

(Controlled by Philadelphia Company)

History—Incorporated Aug. 11, 1921, under the laws of Pennsylvania for the purpose of mining coal and manufacturing coke and its by-products. This Company leased for the term of 15 years from Aug. 1, 1921, the coal property of the Duquesne Light Co., containing approximately 2,522 acres of coal and 354 acres of surface land, together with a developed coal mine, comprising mine workings, shaft, tipple, and other appurtenances, having a present capacity of 4,000 tons of coal per day, all of which is sold to the Duquesne Light Co. No. of mine cars, 700. The Equitable Coal & Coke Co., successor by change of name to the Equitable Coke Co., on July 27, 1921 sold all of its property and franchises to the Duquesne Light Co., at which time it ceased to exist. The Harwick Coal & Coke Co. was organized to acquire an interest in the Warwick Coal Co., located in the Seventh Pool, Monongahela River, and also to operate the mine of the Duquesne Light Co.

Company produced 290,280 tons of coal in 1927 compared with 620,779 tons in 1926, 32,381 tons in 1925 and 267,893 tons in 1924. Average output per day

worked in 1927, 1,860 tons. Low average in 1927 due to starting production with reduced forces after long shut down.

WISCONSIN VALLEY ELECTRIC COMPANY

(Controlled by Standard Gas and Electric Co.)

History and Properties—Incorporated Aug. 28, 1906, in Wis., as the Wausau Street R.R. Co.; name changed as above Dec. 18, 1915. On Dec. 1, 1915, all the property of the Merrill Ry. & Lighting Co. (see Manual for 1915, page 1445) was purchased and merged with the Wisconsin Valley Electric Co. The plant of the Lindauer Pulp & Mfg. Co. at Merrill, Wis., was also purchased.

On Nov. 1, 1916, purchased the property of the Stevens Point Lighting Co. and the Stevens Point Power Co., and on July 1, 1922, the property of the Tomahawk Light, Telephone & Improvement Co. was purchased. In 1926 the Company sold its telephone properties at Tomahawk. Standard Gas and Electric Company acquired, effective July 1, 1927, control of the properties of Wisconsin Valley Electric Company and its subsidiaries, Wisconsin Valley Power Company, Waupaca Electric Service and Railway Company and Valley Transit Company.

Business and Territory—The territory served by Wisconsin Valley Electric Company and subsidiaries comprises the entire valley of the Wisconsin River from Stevens Point on the south to Rhinelander on the north, a distance of about 120 miles and includes most of the territory from 30 to 50 miles east of the river. Electricity for power and light is furnished to total of 35 cities and towns having a combined population of 78,000. Manufactured gas is distributed in Stevens Point, Wisconsin, and street railway service is furnished in Wausau, Schofield and Rothschild.

The territory served by Wisconsin Valley Electric Company and subsidiaries lies between that of Northern States Power Company on the west and Wisconsin Public Service Corporation on the east both of which Companies are part of the Standard Gas and Electric Company System and its properties are strategically located for connection with properties of the two other Companies. Construction of a high voltage transmission line from Stevens Point to Green Bay is under construction which will connect the Wisconsin Valley System with that of Wisconsin Public Service Corporation, thereby effecting operating economies for both Companies through the interchange of power.

Wisconsin Valley Electric Company furnishes electricity for power and light to 26 communities having combined population of 55,000 including the communities of Wausau, Stevens Point, Merrill, Tomahawk, Mosinee and Schofield. All communities served are interconnected with transmission lines and connections are made with the System of Wisconsin Valley Power Company, Consolidated Water Power Company, and with paper mills operating their own hydro-electric power plants. Company also furnishes street railway service in Wausau, Schofield and Rothschild and manufactured gas at Stevens Point. The properties of the Company include 6 hydro-electric generating stations having a combined total of 12,452 kilowatts capacity, 2 steam-electric generation stations having a combined total of 2,100 kilowatts capacity, the distribution and transmission systems in and connecting the communities served, the gas plant of 150,000 cubic feet daily manufacturing capacity and distribution system at Stevens Point and the street railway system furnishing Wausau, Schofield and Rothschild. At Dec. 31, 1927 the Company served 15,858 electric and 1,373 gas customers.

Franchises are indeterminate under Wisconsin laws, excepting traction franchise in Wausau, which extends to 1940.

Owns the entire capital stock of Wisconsin Valley Power Co. and Waupaca Electric Service & Ry. Co. (see appended statements), and $7,500 outstanding ($15,000 authorized) Common stock of the **Valley Transit Company,** which was incorporated Nov. 28, 1921 in Wisconsin and operates motor buses in Merrill, Wis. This company has no funded debt.

CHIPPEWA & FLAMBEAU IMPROVEMENT COMPANY

History and Property—Incorporated in Wisconsin, Feb. 4, 1909. Organized under special act of Legislature which authorized Company to collect tolls for storage water, sufficient to pay all operating expenses and pay 6% dividends on outstanding stock. Owns property and water rights, consisting of two dams and reservoirs, one in Iron County and one in Vilas County, Wisconsin. Company also leases and operates two other dams and reservoirs in Sawyer County, Wisconsin. These reservoirs furnish storage water used for power purposes by Northern States Power Co., Cornell Wood Products Co., Flambeau Paper Co., Lake Superior District Power Co., Great Western Paper Co. and Eau Claire Dells Improvement Co.

CAPITAL STOCK

Authorized, $1,100,000; outstanding, $588,700. All owned by companies named above. Annual meeting, second Tuesday in April.

Dividends—No dividends may be paid on the outstanding shares of stock while there are bonds outstanding. This provision was made by act of Legislature.

FUNDED DEBT

$416,000 FIRST MORTGAGE 5½% GOLD BONDS; DUE NOVEMBER 1, 1937

Dated May 1, 1925.

Interest Payable May and November 1 in New York and Chicago.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized and issued, $500,000, of which $84,000 retired to Dec. 31, 1927. The proceeds from the sale of these bonds, together with funds provided by the sale of other securities of Co., were used in the construction and installation of the reservoirs with the necessary dams and headwork equipment.

Callability—Subject to call as a whole or in part at any time on 30 days' notice, until Nov. 1, 1927, at 102½ and interest, the premium decreasing ½% for each two years thereafter to Nov. 1, 1935, and thereafter at par and interest to maturity.

Sinking Fund—In addition to $48,000 per annum paid to the Trustee as provided by the mortgage, the Company pays the bond interest on all outstanding bonds so that the entire sinking fund payment is applied to the retirement of bonds by purchase in the open market or by call. The operation of this sinking fund should retire the entire issue by maturity. Payments are made semi-annually, May 1 and Nov. 1.

Security—Bonds are a direct first mortgage on all the property of Co. now owned or hereafter acquired.

Tax Provisions—Company pays Normal Federal Income tax up to 2%.

THE NORTHERN OHIO POWER COMPANY

(Controlled by Penn-Ohio Edison Company)

History—Incorporated Jan. 3, 1925 in Md., as a holding company and as of Feb. 1, 1925 acquired under the reorganization plan (see 1926 Public Utility Manual, page 2131), dated Dec. 30, 1924, all the assets of the Northern Ohio Electric Corp., including over 99% of the Common stock of Northern Ohio Power & Light Company, formerly The Northern Ohio Traction & Light Company.

Plan and Agreement of Reorganization—Under offer of the Penn-Ohio Edison Company, dated April 21, 1928, holders of the capital stock of The Northern Ohio Power Co. were invited to deposit their certificates of stock with the Bankers Trust Co., New York, Depositary, under the Plan and Agreement or Reorganization, dated April 12, 1928, under which Penn-Ohio Edison Company is to acquire capital stock of The Northern Ohio Power Company, and receive the Deposit Receipts of Bankers Trust Co. therefor, calling for the delivery of Common stock and Option War-

rants, Series "B," of the Penn-Ohio Edison Company on the conditions stated in the offer as follows:

For each share of capital stock The Northern Ohio Power Company there will be deliverable (a) 2/3 share of Common stock of the Penn-Ohio Edison Company and (b) 1/3 of an Option Warrant, Series "B," each such Option Warrant, Series "B," entitling the holder to purchase one share of Common stock of the Penn-Ohio Edison Company, as such Common stock may be constituted at the time of the exercise thereof, at $50 per share if exercised on or prior to Dec. 31, 1928; at $55 per share if exercised during the calendar year 1929; or at $60 per share if exercised thereafter, but on or prior to its expiration date, Nov. 1, 1935.

Under date of May 16, 1928, it was announced that more than a majority of the capital of The Northern Ohio Power Company having been deposited under the Plan, the Plan was declared operative. Time for deposits under the Plan were extended until June 11, 1928.

Upon completion of the exchange, giving effect to the deposit of all of the capital stock of The Northern Ohio Power Company, the outstanding capitalization of the Penn-Ohio Edison Company will be:

$5,999,000 Debentures 6% due Nov. 1, 1950.
$8,151,800 7% Prior Preference stock.
49,229 shares $6 Pfd. stock (no par).
717,003 1/5 shares Common stock (no par), including scrip for fractional shares.
119,270 Option Warrants issued in 1925 expiring Nov. 1, 1935, for purchase of Common stock at $25 per share.
166,650 Option Warrants, Series "B," for purchase of Common stock at $50 per share to Dec. 31, 1928; at $55 during 1929, and at $60 thereafter to expiration date, Nov. 1, 1935.

CONSOLIDATED EARNINGS, TWELVE MONTHS ENDED FEBRUARY 29, 1928

(The Northern Ohio Power Company and Penn-Ohio Edison Company)

Gross earnings	$25,745,252
Operating expenses including maintenance & taxes	16,122,635
Gross income after taxes	$9,622,617
Interest, dividends on Pfd. stocks, amortization and other fixed charges	6,674,368
Balance applicable to Common stock, retirement reserve, etc.	$2,948,249

It is planned that the generating plants of the respective companies ultimately will be physically interconnected as are the railways at the present time. This interconnection should be conducive to higher operating efficiencies, not only through diversification of load, but because the Northern Ohio property is now purchasing a substantial part of its power requirements, and the Penn-Ohio property has generating capacity greater than its immediate needs and ready means of adding thereto. It is believed, therefore, that the consummation of this Plan will be of signal benefit to the stockholders of both The Northern Ohio Company and the Penn-Ohio Edison Company.

History and Property—Incorporated Nov. 24, 1902, in Ohio as The Northern Ohio Traction and Light Co.; successor to the Northern Ohio Traction Co. Name changed to present title on April 7, 1926. In Oct., 1906, acquired the entire outstanding stock of the Canton-Akron Consolidated Ry., which had previously absorbed the Canton-Akron Ry., Canton-New Philadelphia Ry., and the Tuscarawas Traction Co. Also owns the entire capital stock of the Akron, Wadsworth & Western Traction Co., which has in operation an extension to Wadsworth. In 1922 acquired the electric property of the Kent Water & Light Co. consisting of the distribution system in the city of Kent, Ohio.

The Company owns and operates 287 miles (single track equivalent) of standard constructed electric railway, and in addition has trackage rights affording an entrance into the City of Cleveland, comprising all the transportation lines within the cities of Akron, Canton and Massillon and the interurban road between these cities and Cleveland, Uhrichsville, Wadsworth, Warren and Alliance, Ohio; also does the exclusive commercial electric light and power business in Akron and directly supplies electric energy to 48 other communities. Electric energy is also sold on a wholesale basis to other utility companies which serve 20 other communities. Population of communities directly served is estimated to be in excess of 288,000. Operates a fleet of 224 motor buses in interurban and city transportation service. Also owns two parks, one in Akron and one in Canton.

The interurban railway comprises 174 miles of track, for the most part laid with 70 and 80-pound steel rails. The city lines aggregate 113 miles of track, a large part of which consists of 70 to 114-pound steel rails laid in concrete on paved streets. The railway overhead system is partly of span and partly of bracket construction. The Company's cars enter Cleveland over the tracks of the Cleveland Ry., under a trackage agreement. The Stark Electric R.R. Company's cars enter Canton under a trackage agreement. The rolling stock consists of 363 passenger motors; 86 freight and baggage motors; 41 miscellaneous and service cars; 224 auxiliary motor buses.

Under date of April 16, 1928, the interurban railway line between North Canton and Springfield Lake outside of Canton was discontinued. The short line from Springfield Lake to Akron will be continued in service. In lieu of railway service over the route abandoned, motor buses will handle the passenger service. The freight traffic between Canton and Akron will be routed over the line of the Stark Electric Railroad Co. to Alliance, where connection is made with the electric railway lines of the Northern Ohio Power and Light Co.

The company conducts a high speed freight service, which has shown a substantial growth since its inception in 1922.

The Company now operates the property formerly belonging to The Cleveland, Alliance & Mahoning Valley Railroad Company, acquired March 12, 1924, which extends its lines eastward to Warren and Alliance, adding forty-five miles to its former railway system, including seven stations, the more important being Warren, Newton Falls and Alliance.

In 1924 the Company developed a type of electric refrigerator car which is considered to be the first of its kind. The car is equipped with a refrigerator plant, operated by electricity from the trolley, thermostat control insuring even temperature—a condition that is not always possible in the ordinary type of refrigerator car. The new car was placed in operation between Cleveland and other points located on the Company's interurban railway lines and very satisfactory results were obtained. An over night delivery service is maintained.

About June 1, 1924, Company completed the construction of a high tension steel tower transmission line which forms part of the great inter-connected power system linking together practically all of the industrial centers of eastern and northern Ohio, as well as western Pennsylvania and the western part of West Virginia. The Company purchases on a favorable basis a large supply of electric current which is transmitted over the line from Cleveland to Akron; also from another outside source over transmission lines from Windsor, West Virginia.

The Company was among the first of its kind to recognize the desirability of motor buses to supplement the urban and interurban transportation service rendered by electric railways. Equipment of this character was added to the transportation system from time to time until on Dec. 31, 1927, the Company had in operation a total of 176 motor buses in conjunction with its city railway service and 48 motor coaches in conjunction with its interurban service.

The Company has generating stations with an aggregate capacity of 92,500 h. p. The generating plants are connected with the main points of distribution by high voltage transmission lines.

NOTE—During 1927, 140,523 tons of freight were handled as compared with 140,696 tons in 1926.

Franchises—The principal electric light and power properties are operated under rights without specified limit as to duration. The city railway franchises expire as follows: Akron, 1928; Canton, 1928, and Massillon, 1932. Fifty-five percent of the interurban system trackage is on private right-of-way or subject to franchises without specified limit of time; the remaining 45% is subject to franchises of various maturities from 1920 to 1931.

A franchise for transportation service in Akron was drawn up and upon submission to the voters at the general election on November 4th, 1924, it was approved by a satisfactory majority. The franchise which provides for a co-ordinated street railway motor bus transportation service was accepted by the Company on November 12, 1924 (when it became effective), and will expire four years from that date. It was not deemed advisable either by the Public Authorities or the management at the time to enter into a long term franchise containing fixed rates of fare as the next four years are expected to furnish a more reliable guide to future normal prices and means of modern urban and interurban transportation. New rates of fares were established viz.: 7 cents for single fares, 4 tickets for 25 cents and 17 tickets for $1. with free transfer privilege between city street cars and motor buses. These rates compare with a straight five-cent fare, transfers free, in effect up to February 1, 1924, and a five cent fare with one cent additional for transfers, in effect from February 28 to November 12, 1924. Provision was made for the elimination of "jitney" and motor bus competition on streets where the Company furnished transportation service, and for the extension of new motor bus routes under direction of the City Council and by agreement with the Company, including express lines on which a fare of not to exceed 10 cents may be charged.

$4,466,000 THE NORTHERN OHIO TRACTION AND LIGHT CO. FIRST LIEN AND REFUNDING GOLD 5s; DUE AUGUST 1, 1956

Dated August 1, 1916.

Interest Payable February and August 1, at Hodenpyl, Hardy & Co., Inc., 14 Wall St., New York, and The Union Trust Co., Cleveland, Ohio.

Denominations—Coupon, $100, $500 and $1,000. Coupon bonds of $1,000 and multiples may be registered. Registered bonds, $1,000 and multiples, interchangeable with coupon bonds of $1,000 denomination.

Trustees—The Union Trust Co., Cleveland, Ohio, and The New York Trust Co., New York.

Provisions of Issue—Authorized by Ohio Public Utilities Commission (Dec. 31, 1922), $22,234,000, of which sufficient may be issued, par for par, for refunding or acquiring underlying bonds and for 85% of the cost of new construction, additions, betterments and extensions, or for 85% of the cost of additional public utility properties, but not to exceed 85% of their replacement value. Additional First Lien and Refunding bonds may be issued for the acquisition of properties, on which there are existing liens, only under carefully restricted provisions of the mortgage. No additional bonds may be certified except for refunding purposes unless net earnings for the preceding twelve months shall have equalled at least twice the annual interest charges on all the bonds then outstanding, including underlying bonds and those proposed to be issued. The amount of bonds which may be issued is not limited providing the above restrictions are observed. Under the terms of mortgage securing General & Refunding 6% Series "A" bonds, due 1947, all additional First Lien & Refunding Bonds issued shall be pledged thereunder.

In addition to the $4,466,000 outstanding First Lien & Refunding bonds, $20,587,000 bonds are pledged under the General and Refunding Mortgage.

Callability—Subject to call as a whole or in part at 105 and interest on any interest date.

Maintenance and Depreciation Fund and Insurance Reserve—Beginning with the fiscal year 1916 and each year thereafter, the Company covenants under this mortgage to provide a Maintenance and Depreciation Fund aggregating 20% of its gross earnings. This fund is calculated as amply sufficient to prevent any deterioration and to keep the property in excellent physical condition. Any part of this fund not expended in any fiscal year for maintenance or replacements may be used for additions or betterments, against which no First Lien and Refunding Mortgage Bonds may be issued. The mortgage further provides that, beginning with the fiscal year 1916, the Company shall create an Insurance Reserve for the settlement of damage claims or other similar liabilities, by setting aside before payment of any dividends a sum equal to 4% of its gross earnings. After the reserve has reached $100,000, the Company is required to set aside only a sufficient amount to maintain the fund at this figure.

Security—These bonds are a direct mortgage on all the properties now owned by the Company, subject only to the liens of underlying divisional bonds in the hands of the public aggregating $3,980,000, and are further secured through the pledge thereunder of $6,774,000 additional underlying bonds.

Tax Provision—Company pays 1% of Normal Federal Income Tax for individuals.

Original Offering—First publicly offered ($4,000,000) in Sept., 1916, by the National City Co., New York at 94 and interest.

Denominations—Coupon, $500, and $1,000; principal may be registered; interchangeable with fully registered bonds in denominations of $1,000, $5,000 and $10,000.

Trustee—The National City Bank of New York.

Provisions of Issue—The mortgage provides for the issuance of bonds thereunder in series, bearing the same or different rates of interest, dates, maturities, redemption privileges and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Com-

pany at the time of the original issue of each series, subject always to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future in principal amounts equal to and for: (1) The acquisition or retirement of underlying divisional mortgage bonds and of First Lien and Refunding Mortgage bonds; (2) the redemption or retirement of bonds of another series issued under the General and Refunding Mortgage; and (3) not exceeding 75% of actual and reasonable expenditures made after March 1, 1922, for permanent extensions and additions to the properties, provided that net earnings for twelve consecutive calendar months ending not more than sixty days prior to the application for the issuance of such bonds, shall have been at least equal to 1¾ times the annual interest charges on, and in no case less than 10% of the principal amount of, the aggregate of underlying divisional mortgage bonds, First Lien and Refunding Mortgage bonds and all bonds issued under the General and Refunding Mortgage then remaining uncancelled, as well as those for the issuance of which application is made.

Callability—Subject to call on any interest date upon 30 days' notice at 110 on or before March 1, 1932; at 107½ thereafter to and including March 1, 1942, and at 102½ thereafter prior to maturity.

Sinking Fund—The mortgage provides for a sinking fund requiring cash payments to the Trustee on Dec. 1, 1922, and semi-annually thereafter, equal in each case to ½% of the aggregate principal amount of bonds issued thereunder and remaining uncancelled on each of such dates respectively. Such moneys shall be utilized by the Trustee so far as possible for the purchase of General and Refunding Mortgage bonds of such series as the Board of Directors of the Company may specify, at or below the then existing redemption prices. If at the end of 45 days from the date of such payments, the unexpended balance in the Sinking Fund shall amount to $25,000 or more, it shall be utilized in the redemption of bonds at the then current redemption prices.

General Reserve Fund—The mortgage requires the company, beginning with the year 1922, either to expend for maintenance, repairs, renewals and replacements, for extensions, enlargements and additions against which no bonds may be issued, or for the purchase of General & Refunding Mortgage bonds, an amount equal to 7½% (which may be reduced to 5% in the event of possible changes in operating conditions) of the total bonded indebtedness of the company outstanding in the hands of the public at Dec. 31, of each year, or in so far as such amount is not so expended, to deposit with the Trustee cash, which may in turn be drawn out to reimburse the company for expenditures for one or more of the said purposes.

Security—See under description of Northern Ohio Power and Light Company General and Refunding Mortgage Gold Bonds 5½% Series, due 1951, (No. 6).

Tax Provision—Company pays Normal Federal Income Tax up to 2%.

(7)

$2,401,000 THE NORTHERN OHIO TRACTION & LIGHT CO. FIFTEEN-YEAR 6½% DEBENTURES; DUE JANUARY 1, 1941.

Dated January 1, 1926.

Interest Payable January and July 1 at The National City Bank of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The National City Bank of New York.

Provisions of Issue—Authorized and issued, $2,500,000 of which $99,000 redeemed to Dec. 31, 1927. The proceeds of these Debentures were applied toward reduction of outstanding indebtedness and for other corporate purposes.

Callability—Subject to call as a whole or in part on the first day of any month upon 30 days' notice at 102½ and interest prior to and including January 1, 1931; at 101½ and interest thereafter to and including January 1, 1936; at 100½ and interest thereafter to and including July 1, 1940, and at 100 and interest thereafter to maturity.

Sinking Fund—The Trust Agreement requires Company to deposit with the Trustee, in semi-annual instalments, so long as any of these debentures shall remain outstanding, $50,000 in each of the first four years; $75,000 in each of the next four years; $100,000 in each of the next four years, and $125,000 in each of the last three years. Such moneys shall be applied to the purchase and retirement of those Debentures if obtainable at or below 100 and interest, or, if not so obtainable, either to the purchase and retirement of Debentures at prices above 100 and interest, or, at option of the Company, to the purchase of its mortgage bonds which shall be held by the Trustee as additional security for these debentures, subject to appropriate provisions for the release thereof upon the deposit of cash or the surrender of Debentures for cancellation.

Security—These Debentures are direct obligations of The Northern Ohio Traction & Light Co. In the Trust Agreement Company covenants not to execute any mortgage upon, or make any pledge of, any of its properties, real or personal, as security for any bonds or funded obligations (other than bonds issued

or to be issued in accordance with the conservative provisions of its General & Refunding Mortgage) unless all of the Debentures at the time outstanding shall be secured equally and ratably therewith.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse the owners resident in the respective states, upon proper application, the following taxes paid with respect to the Debentures: The Four Mills Tax in Pennsylvania; any Securities Taxes in Maryland not exceeding in the aggregate, in any year, 45 cents on each $100 of assessed value; and any Personal Property or Exemption Tax in Connecticut not exceeding, in any year, 4/10% of the principal.

Legal Opinion—Shearman & Sterling, New York.

Original Offering—First publicly offered ($2,500,000) in January, 1926 at 97½ and interest, yielding over 6.75% by The National City Co., New York.

FUNDED DEBT

(1)

$4,500,000 6% GOLD DEBENTURES, SERIES "A"; DUE FEBRUARY 1, 1952

Dated February 1, 1927.

Interest Payable February and August 1, at principal office of The New York Trust Co., New York.

Denominations—Coupon debentures in interchangeable denominations of $500 and $1,000; registerable as to principal only.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Open indenture, issued, $4,500,000 Series "A" 6s and $4,500,000 5½% Series (see paragraph 2).

Issued under an agreement which provides among other things: (a) That additional gold Debentures may be issued in series bearing such rates of interest maturing on such dates, redeemable on such terms and containing such other rights, limitations and provisions permitted by the Agreement as the Board of Directors or the Executive Committee of the Corporation may determine prior to the issue thereof. (b) That, except for refunding Debentures of another series, par for par, no additional gold Debentures may be issued unless the consolidated net income of the Corporation and its subsidiaries as defined in the Agreement for twelve consecutive calendar months within the fifteen calendar months immediately preceding shall have been not less than twice the annual interest charges upon the Debentures, and secured obligations if any, then outstanding, and on the further amount then proposed to be issued. (c) That the Corporation shall issue no secured obligations, as defined in the Agreement (other than secured temporary bank loans and Debentures secured by pledge of property acquired with the proceeds of such Debentures) unless the mortgage or pledge whereunder the same are issued shall by its terms secure in a like manner and to the same extent all Debentures at the time outstanding under the Agreement. (d) That the Corporation may secure any Debentures issued under the Agreement for the purpose of acquiring any property by the sole pledge of the property so acquired. That no unsecured obligations, as defined in the Agreement, except Debentures issued under the Agreement and except temporary bank loans, shall be issued by the Corporation so long as there shall be outstanding under the Agreement any Debentures not secured as above provided. (e) That certain provisions of the Agreement or any supplement thereto may be modified in any particular with the assent of the holders of 85% in aggregate principal amount of the outstanding Debentures, not including any Debentures owned or controlled by the Corporation, provided that nothing shall permit the extension of the maturity of any Debentures or the reduction in rate of interest thereon or any other modification in the terms of payment of such interest without the consent of the holder thereof.

Purpose of Issue—Proceeds of the $3,500,000 6% Series A Debentures were used toward the acquisition of Common stock of Community Power & Light Company, while the proceeds from the other $1,000,000 of Debentures were used to pay in part for acquisition of Jacksonville Gas Co.

Callability—Subject to call as a whole or in part upon 30 days' notice at 105 to February 1, 1937, thereafter to February 1, 1951, at 102½ and thereafter to maturity at 100, in each case plus accrued interest.

Sinking Fund—No provision.

Security—These debentures are the direct obligations of American Commonwealths Power Corporation, having assets, as represented in the ownership of the Common stocks of its subsidiary companies, and in the diversified public utility investments above referred to of an estimated aggregate value of approximately $14,000,000.

Tax Provisions—Corporation pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders of these Debentures upon timely application for the personal property tax of the States of Connecticut, Pennsylvania and California, not exceeding four mills, Maryland, not exceeding four and one-half mills, District of Columbia, not exceeding five mills, Michigan, exemption tax not exceeding five mills, and for the Massachusetts Income Tax on the interest not exceeding 6% of such interest.

Legal Opinion—Chapman, Cutler and Parker (for the Bankers) and Humes, Buck & Smith (for the Corporation).

Original Offering—First publicly offered ($3,500,000 Series "A") in January, 1927, at 95 and interest, to yield about 6.40% by G. E. Barrett & Co., Inc., New York and Chicago; an additional $1,000,000 were offered in April, 1927, at 96 and interest to yield about 6.32%, by G. E. Barrett & Co., Inc., and Frederick Peirce & Co., New York, etc.

DEBENTURES ISSUED SINCE CLOSE OF FISCAL YEAR

(2)

$4,500,000 AMERICAN COMMONWEALTHS POWER CORP. GOLD DEBENTURES, 5½% SERIES; DUE MAY 1, 1953

Dated May 1, 1928.

Interest Payable May and November 1, at principal office of The New York Trust Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Open indenture outstanding, $4,500,000 5½% Series and $4,500,000 Series "A" 6s. (For other details see under description of Series "A" 6s, paragraph 1.)

Purpose of Issue—The proceeds from the sale of these $4,500,000 debentures, 5½% Series, were applied in payment of a portion of the cost of the Preference and Common stocks of American Gas & Power Company and for other corporate purposes.

Callability—Subject to call as a whole or in part upon thirty days' published notice at 105 to May 1, 1938, thereafter to May 1, 1952, at 102½ and thereafter to maturity at 100 in each case plus accrued interest.

Sinking Fund—No provision.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders of these Debentures upon timely application for personal property taxes imposed by the States of Connecticut, Pennsylvania and California, not exceeding 4 mills, Maryland not exceeding 4½ mills, District of Columbia, not exceeding 5 mills, Michigan not exceeding 5 mills, and for the Massachusetts Income Tax on the interest not exceeding 6% of such interest.

Legal Opinion—Chapman & Cutler, Chicago (for the Bankers) and Humes, Buck & Smith (for the Corporation).

Original Offering—First publicly offered ($4,500,000 5½% Series) in May, 1928, at 96½ and interest to yield over 5.75% by G. E. Barrett & Co., Inc., and A. C. Allyn & Co., Inc.

COMMUNITY POWER AND LIGHT COMPANY

(Controlled by American Commonwealths Power Corp.)

History and Property—Incorporated Feb. 9, 1927 in Delaware, and on Feb. 14, 1927 the assets of the Illinois Corporation of the same name (see 1926 Public Utility Manual, page 857) were transferred to and its liabilities assumed by the present Delaware Company.

Company owns the entire outstanding Common stocks, except director's qualifying shares, and all the outstanding bonds of the Missouri Utilities Company (formerly Public Service Company of Missouri), the Arkansas Utilities Company, the Community Power and Light Company of Texas; The Kansas Utilities Company and the Texas Utilities Company (acquired Feb. 11, 1925); also the capital stock of New Mexico Utilities Co. The Arkansas Utilities Co. pur-

chased the Helena Water Co. on April 1, 1925. During 1926 Company acquired the Chanute Ice and Light Co.

The New Mexico Utilities Company was organized in 1925 to own and operate the electric and water properties in Clovis and the electric property in Portales, N. M., acquired from the respective municipalities. It has $240,000 non-negotiable First Mortgage bonds outstanding, which were necessary to issue to the City of Clovis in connection with the purchase of its properties. It is also indebted to the city of Clovis in the amount of $119,167 on a purchase contract. Other than a small interest item on notes of this Company, held by the Community company, no income from its operations was reflected in the 1925 figures, but it is now included as a controlled company.

Through its subsidiaries, located in five states—Missouri, Arkansas, Texas, Kansas, and New Mexico—the Company serves 144 communities having a population of approximately 295,000. Electric light and power is furnished to 139 communities centered around and including Cape Girardeau, Poplar Bluff, Charleston, Eldon and California in Missouri; Helena and Paragould in Arkansas; Mexia, Marlin, Plainview and Lubbock, in Texas; Fort Scott, Paola, Burlington and Chanute in Kansas; and Clovis and Portales in New Mexico. Gas service is furnished to over 53,000 population in Columbia and Cape Girardeau, Mo., Helena, Ark., and Ft. Scott, Kan.; water service to Cape Girardeau, Webb City and Carterville, Mo., Helena, Ark., and Clovis, N. M. Steam heat is also furnished to one community, while ice service is furnished to over 140,000 population. The power, gas, ice and water plants are well located to serve their respective territories. No. of customers served, approximately 46,000. The power plants have a total installed generating capacity of over 36,625 k.v.a. There are 1,285 miles of transmission lines.

More than 78% of net earnings is derived from sale of electric light and power, with ice, gas, water and miscellaneous earnings providing the balance.

CAPITAL STOCK

Authorized, 300,000 shares Common, 250,000 shares First Pfd. and 50,000 shares Second Pfd., all of no par value; outstanding, March 30, 1928, 250,000 shares Common and 65,000 shares First Pfd. $6 cumulative Dividend Series. None of the Second Pfd. is outstanding. The authorized capital stock was changed from 300,000 shares Common, 150,000 shares $7 cumulative First Pfd. and 20,000 shares $8 cumulative Participating Pfd. to the amounts stated above in March, 1928. All of the Common stock is owned by American Commonwealths Power Corp. There is also outstanding $625,300 7% cumulative Pfd. stocks of Kansas Utilities Co. and Missouri Utilities Co.

First Pfd. and Participating Pfd. Stock Called—All of the outstanding $7 Dividend Series First Pfd. and $8 Dividend Series Participating Pfd. stock was called for redemption on March 30, 1928, at $110 and dividends at Central Union Trust Co. of New York. Holders of these stocks were given the privilege of exchanging them for the same number of new First Pfd. shares and cash to which they might be entitled at the redemption price after adjustment for dividends. This cash could be applied to the purchase of additional new Pfd. stock at $100 a share provided stock was available. Offer expired March 15, 1928.

First Pfd. Stock Provisions—The First Pfd. stock $6 Dividend Series, is entitled to cumulative dividends at the rate of $6 per share per annum, before any dividends are declared on the Second Pfd. or Common stock. In the event of liquidation holders of First Pfd. stock have preference as to assets to the extent of $100 per share, plus, if such liquidation be voluntary, a premium of $10 a share in the case of stock of $6 Dividend Series, together with accumulated dividends. The $6 Dividend Series First Pfd. stock is redeemable in whole or in part at any time on 30 days' notice at $110 per share and accumulated dividends. The Board of Directors shall fix, prior to issuance of shares of any other series, the dividend rates thereon, which shall not be in excess of $8 per share per annum, the premium payable upon redemption or in the event of voluntary liquidation or dissolution, which shall not be in excess of $20 per share and the right, if any, of the holders to convert the same into shares of any other series or class of stock, and the terms and conditions of such conversion. No shares in addition to the 65,000 shares of $6 Dividend Series, may be issued unless the consolidated net earnings (as defined in the Certificate of Incorporation) of the corporation and its controlled corporations applicable to the payment of dividends thereon shall have been, for a 12 months' period beginning and ending within 15 months immediately preceding the date of issuance thereof, not less than 1½ times the annual dividend requirements of all the First Pfd. stock to be outstanding after the issuance of the additional shares. The corporation may not without the consent of at least two-thirds in amount of the First Pfd. stock outstanding, create, authorize or issue any shares of stock, or securities or obligations convertible into stock which will have priority or preference over the First Pfd. stock, nor limit, change or adversely affect the preferences or rights given to, or the provisions respecting the First Pfd. stock, but such limitation shall not apply to the increase from time to time of the number of shares of authorized First Pfd. stock or stocks junior thereto in the manner provided for by the existing or future statute. First Pfd. stock has no voting power, except as otherwise expressly provided in the Certificate of Incorporation, except in the event of default in payment of four quarterly dividends, in which event holder of First Pfd. stock shall have the right to vote at the next election of directors and all elections of directors thereafter until such default and all subsequent defaults shall have been cured. No holder of stock shall have any preemptive right to subscribe for any other stock or obligations convertible into stock of the corporation.

Purpose of Issue—Proceeds from the issue of the First Pfd. stock $6 Dividend Series, were used, in part, for the retirement of the First Pfd. and Participating Pfd. stock formerly outstanding.

FUNDED DEBT

$11,500,000 FIRST MORTGAGE COLLATERAL GOLD BONDS, THIRTY-YEAR 5% SERIES; DUE MARCH 1, 1957

Dated March 1, 1927.

Interest Payable March and September 1, at The Boatmen's National Bank, St. Louis, Mo., or at agency of the bank in New York or Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Boatmen's National Bank, St. Louis, Mo.

Provisions of Issue—Issued, $11,500,000 5% Series of 1957. The Trust Indenture provides for the issuance of additional bonds in one or more series, with interest rates, maturity dates, redemption and sinking and improvement fund provisions and other terms and conditions to be determined as new series are created, all bonds issued under this Trust Indenture to be of equal lien, irrespective of series. Additional bonds may be issued only for the acquisition of new subsidiary corporations or of additional properties by the Company or its subsidiaries or additions, extensions and improvements to the property of the Company or its subsidiaries under the restrictions of the Trust Indenture, which provides, among other things, that Company shall limit the issuance of its additional bonds to an amount not exceeding 80% of the cost or fair value, whichever is less, of property additions and will require that consolidated net earnings available for interest shall be not less than twice the interest charges on bonds issued and to be issued.

Purpose of Issue—Proceeds from the sale of these bonds were used to retire the existing funded indebtedness of Company and for other corporate purposes.

Callability—Subject to call as a whole or in part at any time, on 60 days' notice, at 105 and interest to and including Feb. 28, 1954, and thereafter prior to maturity at 101 and interest.

Sinking and Improvement Fund.—A sinking and improvement fund equal annually to not less than 1% of greatest principal amount of bonds of this series at any time outstanding will either retire bonds or be invested in permanent additions, extensions and improvements.

Maintenance, Renewal and Depreciation Reserve—Company covenants in the Trust Indenture to cause each subsidiary company to create a maintenance, renewal and depreciation reserve (and covenants to create and maintain a similar reserve with respect to any properties directly owned by it) and to credit yearly to such reserves at least 12½% of the gross operating revenues of each property, whether owned by a subsidiary or by Company itself. All expenditures for maintenance and renewals will be charged to such accounts and any portion of such accounts not exhausted by such charges will be credited to depreciation reserve.

Security—These bonds are secured by deposit and pledge with the Trustee of First Mortgage bonds of subsidiary corporations which have been approved by the regulatory bodies in the various states wherever required and which constitute the entire funded debt of such corporations in an aggregate principal amount equal to at least 100% of the total amount of First Mortgage Collateral Gold bonds outstanding, and under the terms of the Trust Indenture this ratio must always be maintained and the total annual interest receivable by Company from subsidiary company bonds so pledged shall never be less than the total annual interest requirements of all First Mortgage Collateral Gold bonds outstanding. Bonds are further secured by deposit and pledge with Trustee of the entire outstanding voting stocks, except directors' qualifying shares, of such subsidiary companies. In effect, therefore, the First Mortgage Collateral Gold bonds are a first mortgage on the properties of all of the subsidiary companies.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse the holders of these bonds, if requested within 60 days after payment, for Pennsylvania and Connecticut 4 mills taxes and for Massachusetts Income tax on the interest not exceeding 6% of such interest per annum.

Legal Opinion—Masten & Nichols, New York, (for the Bankers), and Butler, Lamb, Foster & Pope, Chicago, and Lehmann & Lehmann, St. Louis, (for the Company).

Original Offering—First publicly offered ($11,000,000) in February, 1927 at 95½ and interest, to yield about 5.30% by Spencer Trask & Co., Bauer, Pond & Vivian, Old Colony Corp., New York, Whitaker & Co., St. Louis, and Wm. L. Ross & Co., Inc., Chicago; $500,000 additional issued Feb. 17, 1928.

OTHER FUNDED DEBT

There are also outstanding $240,000 bonds of New Mexico Utilities Company, all pledged as security for an issue of municipal bonds which cannot be called for redemption or paid off until maturity.

UNION GAS UTILITIES, INC.

(Controlled by American Commonwealths Power Corporation)

History—Incorporated Oct. 26, 1927, in Delaware, and owns over 99% of the outstanding Common stock, and over 96% of the outstanding Pfd. stock of Union Gas Corporation (see statement appended). Also controls through ownership, either directly or indirectly, of all of their capital stocks, **Van Vleck & Graham Oil Company, Strong & Graham Oil & Gas Company,** and **Republic Gas Corporation.**

Union Gas Corporation and its subsidiary companies are engaged in the production, transportation and wholesale and retail distribution of natural gas for public utility and industrial purposes. The Corporation owns and operates gas distributing plants in fourteen cities and towns in southeastern Kansas and, in addition, furnishes natural gas at the city borders to eight other cities. The territory served embraces a rich industrial area with an estimated population in excess of 100,000. The properties of Van Vleck & Graham Oil Company, Strong & Graham Oil & Gas Company and Republic Gas Corporation are located in southeastern Kansas, practically all of their gas being sold under contract to National Refining Company.

CAPITAL STOCK

Authorized, 300,000 shares Common stock, 75,000 shares First Pfd. stock and 50,000 shares Second Pfd. stock, all of no par value; outstanding, 200,000 shares Common and 12,500 shares Series $7 Dividend First Pfd. None of the Second Pfd. shares have been issued. Of the authorized Common stock, 30,000 shares are held in treasury, reserved for warrant rights in connection with the Ten-Year 6½% Secured Gold Bonds, Series "A." All the outstanding stock, both Common and Pfd., is owned by American Commonwealths Power Corporation.

Dividends—No payments have been made to Dec. 31, 1927.

FUNDED DEBT

$3,000,000 TEN-YEAR 6½% SECURED GOLD BONDS, SERIES "A"; DUE NOVEMBER 1, 1937

Dated November 1, 1927.

Interest Payable May and November 1, at Guaranty Trust Co., New York.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Guaranty Trust Co., New York.

Provisions of Issue—Authorized amount not limited; issued, Series "A," $3,000,000. Additional bonds may be issued in series bearing such rates of interest, maturing on such dates, redeemable on such terms and containing such other rights, limitations and provisions permitted by the Indenture as the Board of Directors of the Company may determine prior to the issue thereof. Except for refunding bonds of another series, of an equal principal amount, no additional bonds may be issued except (1) in amount not exceeding 75% of the cost or fair value, whichever is less, of gas properties and additions and betterments thereto, or of the securities representing such property, and then only when the consolidated net income of the Company and its subsidiaries, computed as provided in the Indenture, for twelve consecutive calendar months within the fifteen calendar months immediately preceding shall have been not less than twice the annual interest charges upon the bonds then outstanding and on the additional bonds then proposed to be issued, or (2) against the deposit with the Trustee of an equal principal amount of United States Government obligations or cash. Provisions of the Indenture, or any supplement thereto, may be modified with the assent of the holders of 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned or controlled by the Company, provided nothing shall permit the extension of the maturity of any bonds, or the reduction of rates of interest thereon or any other modification in the terms of payment of such interest without the consent of the holders hereof.

Purpose of Issue—Proceeds were used in payment of a portion of the cost of the capital stocks of Union Gas Corp. and of the other subsidiaries acquired by Union Gas Utilities, Inc., and for other corporate purposes.

Stock Purchase Warrants—Series "A" bonds carry detachable stock purchase warrants which entitle the holder of each $1,000 bond ($500 denomination in proportion) to purchase ten shares of the Company's Common stock up to and including Nov. 1, 1930, at $10.00 per share; thereafter to and including Nov. 1, 1932, at $12.50 per share; thereafter to and including Nov. 1, 1934, at $15.00 per share; and thereafter to and including Nov. 1, 1937, at $20 per share, irrespective of the previous redemption of the bonds. Provision is made for the protection of the interest of the holders of stock purchase warrants in case of the payment of dividends in Common stock, in case of the issue of Common stock (not issued upon the exercise of stock purchase warrants) for cash or property at less than the price specified in the stock purchase warrants for the then current period, and in case of reorganization, consolidation, merger or reclassification of the capital stock of the Company. It is provided that all cash received by the Company through the exercise of the warrants shall be applied to the retirement of these bonds, so long as any shall remain outstanding.

Callability—Subject to call at any time on 30 days' notice at 105 and accrued interest on or before Nov. 1, 1932; thereafter 1% less each year to maturity.

Sinking Fund—A sinking fund is provided for Series "A" bonds requiring payments to the Trustee in cash or in Series "A" bonds at par, on Aug. 1 of each year at the rate of $100,000 annually from 1929 to 1931, inclusive; $150,000 annually from 1932 to 1934, inclusive; and $275,000 annually from 1935 to 1937 inclusive. All payments received by the Trustee are to be applied to the purchase of bonds at prices not exceeding the current redemption prices, or, if bonds are not so obtainable, such funds shall be used for the redemption of bonds by lot.

Security—Bonds are the direct obligation of the Company and are secured by deposit with the Trustee of not less than 99% of the outstanding Common stock and more than 96% ($2,383,000 par value) of the outstanding Pfd. stock of Union Gas Corp.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, Connecticut and California taxes not exceeding 4 mills, Maryland tax not exceeding 4½ mills, District of Columbia taxes not exceeding 5 mills, Michigan exemption tax not exceeding 5 mills and Massachusetts Income Tax on the interest not exceeding 6% of such interest, refunded to resident holders upon proper application.

Legal Opinion—White & Case (for the Bankers), and Humes, Buck & Smith (for the Company).

Original Offering—First publicly offered ($3,000,00) in November, 1927, at 98 and interest, to yield over 6¾%, by G. E. Barrett & Co., Inc., New York, etc., and Frederick Peirce & Co., Philadelphia, etc.

Listed—New York Curb Market.

UNION GAS CORPORATION

(Controlled by Union Gas Utilities, Inc.)

History—Incorporated in Delaware to acquire and operate the properties formerly owned by Southwestern Gas Company, Owen-Osage Oil & Gas Company, Union Gas and Fuel Corporation, Kasigan Gas Company, Coffeyville Gas and Fuel Company, Fredonia Gas Company, and Olathe Gas Distributing Company, together with their subsidiary and associated companies. In May, 1926, acquired from the International Utilities Corp. the latter's holdings in the Southwestern Utilities Corp. and the Southwestern Public Service Co. On Dec. 31, 1927, the Union Gas Corporation owned 98.4% of stock in the Owen Gasoline Co., operating plants at Caney, Kas., and at Barnsdall, Okla., also 50% of stock in the Independent Oil & Gas Co. engaged in production and transportation of natural gas.

Business and Property—The Union Gas Corporation and its subsidiaries are engaged in the production, transportation, and wholesale and retail distribution of natural gas for public utility and industrial purposes. The Corporation owns and operates gas distributing plants in the cities of Independence, Coffeyville, Fredonia, Caney and 11 other cities and towns in southeastern Kansas, and, in addition, furnishes natural gas at the city borders to Chanute, Kansas, and seven other cities. The total population of the territory served is estimated to be in excess of 100,000.

The Corporation or its subsidiaries own gas rights on 210,000 acres, gas purchase contracts on 72,000 additional acres, and oil rights on 42,259 acres in southeastern Kansas and north-eastern Oklahoma. Included in the acreage carrying gas rights is the lease granted by the Osage Indian Tribe, covering 165,000 acres, with the exclusive privilege of prospecting for and producing natural gas for a period ending in 1946.

The Corporation or its subsidiaries own extensive pipe lines and distributing systems aggregating in length approximately 1,146 miles, together with 11 compressor stations, and all necessary accessories and equipment. There are connected with these lines approximately 800 gas wells with an aggregate open flow capacity of approximately 260,000,000 cu. ft. per day. Of these wells 284 are on leases owned by the Corporation or its subsidiaries and in the case of the remainder the output is purchased under contracts which in the greater majority of cases are made to cover the entire future output of such properties.

Located on the properties of the Corporation are two absorption gasoline recovery plants from which are being sold approximately 2,500 gallons of gasoline per day, and the Corporation is also marketing from its leasehold properties 300 barrels of oil per day.

Gas Sales, years ended Dec. 31, 1925, 16,145,647,000 cu. ft.; 1926, 13,630,431,000 cu. ft.; 1927, not reported.

CAPITAL STOCK

Authorized, 160,000 Common shares of no par value, and $3,500,000 7% cumulative Pfd. (par, $100); outstanding, 100,450 Common shares and $2,417,300 Pfd. The Union Gas Utilities, Inc., owns 99% of the Common and 96% of the Pfd. stock outstanding. Of the 160,000 no par value shares of Common stock authorized, 59,550 shares are reserved for the stock purchase warrants in connection with the $6,000,000 authorized First Mortgage Sinking Fund Gold bonds.

Preferred Stock Provisions—Has preference for assets and dividends, and in liquidation is entitled to par and dividends. Subject to call as a whole on any dividend date at 105. Has equal voting power per share with Common.

Transfer Agents—Commercial National Bank, Independence, Kan., and Continental National Bank & Trust Co., Chicago.

Dividends—Initial quarterly dividend of 1¾% on Pfd. stock paid July 1, 1926; Oct. 1, 1926 to Oct. 1, 1927, 1¾% each quarter; none since. None reported on Common.

FUNDED DEBT

(1)

$3,639,500 FIRST MORTGAGE 6½% SINKING FUND GOLD BONDS; DUE APRIL 1, 1936

Dated April 1, 1926.

Interest Payable April and October 1, at Continental National Bank & Trust Co., Chicago, and in New York.

Denominations—Coupon (interchangeable denominations), $500 and $1,000; principal may be registered.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized, $6,000,000; issued, $4,000,000; retired, $360,500. Proceeds were used to pay, in part, for the cost of the properties acquired and for other corporate purposes. Remaining bonds may be issued only for not to exceed 65% of the cost or fair value, whichever is lower, of permanent additions and improvements to the properties of the Corporation, but only if net earnings, as defined in the Trust Indenture, shall have been not less than three times interest charges on all bonds of the Corporation,

including those to be issued, during 12 of the 15 preceding months.

Callability—Subject to call as a whole or in part on 30 days' notice on any interest date at 105 and interest on or before April 1, 1931, the redemption premium decreasing 1% each year thereafter.

Sinking Fund—Mortgage provides for a minimum sinking fund, payable in cash or bonds at par (first payment Feb. 1, 1927), sufficient to retire each year $300,000 principal amount of these bonds, and, in addition, an amount based on net earnings, as defined in the trust indenture. Cash payments received will be applied to the purchase or call and retirement of bonds. Through the operation of the sinking fund it is calculated that this issue will be retired prior to maturity. If additional bonds shall be issued, the mortgage provides for the creation of sinking funds sufficient to effect their retirement at or prior to maturity.

Stock Purchase Warrants—Each $1,000 bond carries a warrant entitling the bondholders to purchase a unit of 10 shares of the Common stock of the Corporation, without par value at $12.50 per share on or before April 1, 1927, the price increasing $2.50 per share in each year thereafter to maturity. Warrants may be exercised until maturity date, upon presentation of bonds with warrants attached, unless the entire issue is previously redeemed; in such case warrants may be exercised until the first April 1 or Oct. 1 next following release of the mortgage. Only in the case of bonds called for redemption will detached warrants be valid. $500 bonds will carry warrants with proportionate stock purchase privileges

Holders of warrants are properly protected in regard to such stock purchase privileges by the covenant of the Corporation not to increase its authorized capital stock while any bonds of this issue remain outstanding. The trust indenture provides that all cash received by the Corporation through the exercise of stock purchase warrants shall be applied to the retirement of these First Mortgage bonds.

Security—These bonds are secured by a direct first mortgage on all the lands of the Corporation together with all plants, buildings and fixed equipment located thereon. The mortgage constitutes a direct first lien (subject only to the usual farm mortgages) on the pipe lines and gas leases of the Corporation, excepting only the Osage Indian lease in which case the full benefit of the lease has been assured to the bondholders free from any other liens. As of August 31, 1927, the properties of the Corporation had a depreciated value, as appraised by Ford, Bacon & Davis, Engineers, and Ralph E. Davis, Geologist, of $9,216,225.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. All State, personal property and income taxes and District of Columbia personal property tax not exceeding 5 mills per annum refunded.

Legal Opinion—Chapman, Cutler & Parker (for the bankers) and Storey, Thorndike, Palmer & Dodge (for the Corporation).

Original Offering—First publicly offered ($4,000,000) in April, 1926, at 99 and interest, to yield 6.65%, by Taylor, Ewart & Co., Inc., and P. W. Chapman & Co., Inc., New York, etc.

(2)

$500,000 FIVE-YEAR 6% SINKING FUND GOLD NOTES; DUE JULY 1, 1932

Dated July 1, 1927.

Interest Payable January and July 1, in New York and Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustee—Continental National Bank & Trust Co., Chicago.

Provisions of Issue—Authorized and issued, $500,000.

Purpose of Issue—Proceeds from sale of this issue were to be used to reimburse the Corporation's treasury for capital expenditures already made, to provide additional working capital, and for other corporate purposes.

Callability—Subject to call as a whole on any interest date or in part for the sinking fund at any time on 30 days' notice at 101 and accrued interest.

Sinking Fund—Indenture provides for a fixed payment of $100,000 annually, payable in equal monthly installments, the first payment to be made Feb. 1, 1928. After deducting current interest on these notes, the balance will be applied as a sinking fund for the purchase and/or call and retirement of these notes. Through this sinking fund, it is calculated that over 65% of these notes will be retired by maturity.

Security—A direct obligation of the Union Gas Corporation.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund, on timely and appropriate application, all state personal property and income taxes and the District of Columbia personal property tax not exceeding five mills per annum.

Legal Opinion—Chapman, Cutler & Parker, Chicago.

Original Offering—First publicly offered ($500,000) in June, 1927, at 98 and interest, to yield 6.47% by Taylor, Ewart & Co., Inc., New York, etc.

AMERICAN GAS AND POWER COMPANY

(Controlled by American Commonwealths Power Corporation)

History—Incorporated in May, 1928 in Delaware, Company will own all of the Common stock, except Directors' qualifying shares, of Minneapolis Gas Light Company, Jacksonville Gas Company, St. Augustine Gas and Electric Light Company, Savannah Gas Company, and Bangor Gas-Light Company. These subsidiary companies supply the respective cities with manufactured gas and serve in all an aggregate population estimated to exceed 740,000.

CAPITAL STOCK

Authorized, 150,000 shares Common, 100,000 shares cumulative First Pfd., $6 Series, and 100,000 cumulative Preference, $6 Series, all shares of no par value; outstanding, 70,000 shares Common, 40,000 shares First Pfd. and 45,000 shares Preference. All the Common and Preference shares are owned by American Commonwealths Power Corporation.

First Preferred Stock Provisions—The $6 Series is preferred as to dividends over the Preference and Common stocks. Redeemable as a whole or in part, at the option of the Company, at any time upon not less than 30 days' notice at $107.50 per share and accumulated dividends. Preferred as to assets up to $100 per share and accrued dividends, over the Preference and Common stocks. No dividends shall be paid on the Preference or Common stocks unless, after such payment, there remains a surplus equal to at least two times the annual dividend requirements on all of the First Preferred stock then outstanding. Upon any voluntary dissolution, liquidation or winding-up of the Company or any voluntary distribution of assets by way of return of capital, or upon the voluntary sale of all of the Company's assets, the First Preferred stock, $6 Series, shall be entitled to receive $107.50 per share plus accrued dividends, and upon any involuntary dissolution, liquidation or winding-up, or distribution or sale of assets, $100 per share plus accrued dividends, before any distribution shall be made to the holders of the Preference and Common stocks. Except as required by the laws of Delaware, the holders of this stock shall have no voting rights; provided, however, that if the Company shall have failed to pay full dividends on this stock for successive dividend periods totaling one year, the holders of this stock shall be entitled to one vote for each share held. Whenever all arrears of dividends on this stock shall be fully paid the holders shall have no right thereafter to vote, unless and until there shall be a new and similar default in the payment of dividends. It is provided in the Certificate of Incorporation of the Company that additional First Preferred stock totaling 10,000 shares in excess of the 40,000 shares now outstanding may be issued without restriction other than the approval of the Board of Directors. Additional stock in excess of the foregoing 50,000 shares may not be issued, unless and until assets equal to $100 on each share of such additional First Preferred stock shall have been received from the sale of capital stocks, junior to the First Preferred stock, in addition to the 45,000 shares of Preference stock, $6 Series, and 70,000 shares of Common stock presently to be issued. Unissued shares of the First Preferred stock may be issued in the $6 Series or in such other one or more series as the Board of Directors may determine. The Board of Directors may for such other series fix the dividend rate thereof at not exceeding $7 per share per annum and the amount per share to be paid upon redemption or any voluntary distribution of assets at not exceeding $110 per share, but in all other respects such other series shall be identical with the $6 Series.

Transfer Agents—The Equitable Trust Company of New York, American Gas and Power Company, Grand Rapids, Mich., and Illinois Merchants Trust Company, Chicago, Ill.

Registrars—Chemical National Bank, New York, The Michigan Trust Company, Grand Rapids, Mich., and Central Trust Company of Illinois, Chicago, Ill.

Legal Opinion—Winthrop, Stimson, Putnam & Roberts, New York (for the Bankers); and Humes, Buck & Smith, New York (for the Company).

Original Offering—First publicly offered (40,000 shares $6 Series, First Pfd. stock), in May, 1928, at $96 a share and accrued dividends, to yield 6.25%, by Bonbright & Co., Inc., W. C. Langley & Co., and G. E. Barrett & Co., Inc., New York, etc.

FUNDED DEBT

$6,500,000 SECURED GOLD DEBENTURES, 5% SERIES DUE 1953; DUE MAY 1, 1953

Dated May 1, 1928.

Interest Payable May and November 1, at office or agency of Company in New York.

Denominations—Coupon, $500 and $1,000; principal may be registered. Fully registered debentures of $1,000 denomination. Coupon debentures of $1,000 denomination and fully registered debentures interchangeable.

Trustee—Bankers Trust Co., New York.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $6,500,000 5% Series due 1953.

Debentures may be issued in series bearing such rates of interest, maturing on such dates, redeemable on such terms, and containing such other rights, limitations and provisions permitted by the Agreement as directors or executive committee may determine prior to the issue thereof. Additional Debentures may be issued (1) for refunding debentures of any series, par for par or (2) for not to exceed 66 2-3% of cost or fair value, whichever is less, of securities of subsidiary companies to be acquired and pledged and then only when consolidated net income of Company and its subsidiaries, computed as provided in Agreement, after deducting all operating expenses and taxes, other than income taxes, and all interest and dividends on securities of subsidiary companies held by public for 12 consecutive months within 15 preceding calendar months shall have been at least 2½ times annual interest charges on all indebtedness of Company, including debentures then to be issued, but excluding charges on indebtedness subordinate to the debentures and excluding indebtedness to be concurrently paid off through proceeds from the sale of capital stock, or of sale of such issue of debentures. The provisions of the Agreement, or of any supplement thereto, may be modified with assent of holders of 85% in aggregate principal amount of outstanding debentures, not including any debentures owned or controlled by Company; provided nothing shall permit extension of maturity of any debentures, or reductions of rates of interest thereon, or any other modification in terms of payment of such principal or interest, without consent of holders thereof.

Purpose of Issue—The proceeds from the sale of $6,500,000 5% Series due 1953 and of 40,000 shares of First Preferred stock, $6 Series, reimbursed the Company in part for the cost of it holdings.

Sinking Fund—None.

Callability—5% Series bonds due 1953, are subject to call as a whole or in part, on 30 days' notice, at 105 and interest to and including May 1, 1943, and thereafter at ½ of 1% less each year until maturity.

Security—A direct obligation of Company and will be secured by pledge of stocks of its subsidiary companies which it will own upon completion of this financing. Under the terms of the Agreement, stock of Minneapolis Gas Light Co. or stock of any successor

company which may be substituted therefor, may not be released unless and until there be deposited with Trustee the sum of $6,500,000 in cash. Stocks of other subsidiaries may not be released unless and until there be deposited with Trustee cash and/or securities at least equal in value to said pledged stocks to be withdrawn.

Tax Provisions—Company pays Normal Federal Income tax up to 2%, and agrees to refund, on proper application, Pennsylvania 4 mills tax; California tax not in excess of 4 mills per annum; Connecticut tax up to 4 mills per annum; Maryland securities tax not exceeding 4½ mills per annum; or Massachusetts Income tax not exceeding 6% per annum on income derived from debentures; all as to be provided in an agreement supplemental to Debenture Agreement.

Legal Opinion—Withrop, Stimson, Putnam & Roberts, New York, (for the bankers), and Humes, Buck & Smith, New York, (for the Company).

Original Offering—First publicly offered ($6,500,000 5% Series due 1953) in May, 1928, at 95½ and interest to yield over 5.30%, by Bonbright & Co., Inc., and W. C. Langley & Co., New York, etc.

Dividends—Initial quarterly dividend of 25 cents a share paid April 15, 1925, which rate regularly paid quarterly to date; payments, J, A, J & O 15.

EARNINGS

Earnings of Electric Bond and Share Securities Corporation are confined to dividends received on the Common stock and the 300 shares of Pfd. stock of Electric Bond and Share Company held by it and to any miscellaneous income from interest on bank balances. Since its incorporation the Company has received dividends at the rate of $8 per share on the Common stock of Electric Bond and Share Company and as there are outstanding approximately 3.6 shares of Electric Bond and Share Securities Corporation stock for each share of Common stock of Electric Bond and Share Company, the dividends thus received are approximately equal to $2.22 a share on the Capital Stock of Electric Bond and Share Securities Corporation.

The balance of income of Electric Bond and Share Co. after payment of dividends on its 6% Pfd. stock, applicable to Electric Bond and Share Securities Corp. was $9,522,393 in 1927 equal to $5.29 a share on the 1,802,870 shares outstanding. For 1926, the balance so applicable was $12,569,234, equivalent to $6.97 a share.

STATEMENT OF ASSETS

Assets of Company consist of 300 shares of the 6% Preferred stock and $500,000 shares (the entire issue) of the Common stock of Electric Bond and Share Company, and $1,068,582 cash in bank, notes receivable, accrued interest receivable and prepaid taxes. These assets constitute the only sources of revenue of Company. Company has no liabilities, except the capital liability represented by its outstanding Common stock (1,802,870 shares), and accounts payable of $1,275 representing unclaimed dividend checks.

ELECTRIC BOND AND SHARE COMPANY

(Controlled by Electric Bond and Share Securities Corporation)

History—Incorporated February 2, 1905, in New York. Supervises the operations of the largest number of electric power and light and other public utility companies in the United States under one leadership. Included among the companies whose operations and finances are supervised are American Power & Light Company, American & Foreign Power Company Inc., Electric Power & Light Corporation, and National Power & Light Company (which has acquired the former Lehigh Power Securities Corp. through an exchange of stock on a share for share basis) and all the subsidiaries of these companies, as well as Electric Investors Inc. It also handles the finances of American Gas & Electric Company and its subsidiaries.

In addition to supervising the operations and handling the finances of the companies indicated, Electric

Bond and Share Company owns for investment only certain securities of a number of companies, including securities of several companies whose operations are not supervised and in whose management Electric Bond and Share Company is in no way interested. It owns a majority of the Common stock of American & Foreign Power Company Inc., which controls properties operating in foreign countries, but in no other case does it own the majority of stock of any company.

American & Foreign Power Company Inc.—The holdings of Electric Bond and Share Company in the American & Foreign Power Company Inc., as of April 17, 1928, and as they would be if certain further steps were taken, are as shown below:

*Represents subscriptions for units, each consisting of one share of $7 Second Pfd. stock, Series "A," plus four Option Warrants. There has been paid at least 40% on the subscription price ($100) of these units. †40% paid.

It is the present expectation of Directors that Electric Bond and Share Company will maintain as a permanent investment approximately 75% of the junior securities of the American & Foreign Power Company Inc.

As of Oct. 1, 1927, Electric Bond and Share Company turned over to South American Power Company (which became a subsidiary of American & Foreign Power Company Inc.) all its securities and interests in companies (other than American & Foreign Power Company Inc.) directly or indirectly owning hydro-electric or other public service properties in Brazil, Colombia, France, Japan and other foreign countries, together with cash to meet uncompleted purchase payments and other contractual obligations in connection therewith, and received from American & Foreign Power Company Inc., 364,175 shares of its $7 Second Pfd. stock, Series "A," and 1,456,700 Option Warrants to purchase Common stock. As of the same date Company accepted in satisfaction of all accrued and unpaid dividends on its then holdings of $7 Second Pfd. stock, Series "A," of American & Foreign Power Company Inc., an additional 25,856 shares of $7 2nd Pfd. stock, Series "A," and 103,424 Option Warrants.

In order to further its program of expansion in the electric power and light business in foreign countries, the American & Foreign Power Company Inc., in the latter part of 1927, arranged to increase its capitalization and to obtain $126,151,400 of subscriptions for units of its securities, each unit consisting of one share of $7 2nd Pfd. stock, Series "A," and four Option Warrants. The price of these units was $100 each plus accrued dividend on the $7 2nd Pfd. stock, Series "A," from Oct. 1, 1927.

On Jan. 9, 1928, the $35,667,647 principal amount of Havana Corporation 6% Gold Debenture bonds, Series "A," theretofore held by Company were sold to American & Foreign Power Company Inc. for cash at the principal amount thereof plus accrued interest.

CAPITAL STOCK

Authorized, $150,000,000 Common and $150,000,000 6% cumulative Pfd.; outstanding, $50,000,000 Common and $50,000,000 Pfd.; par, $100. All the Common stock and $30,000 Pfd. stock is owned by Electric Bond and Share Securities Corp.

The General Electric Co. formerly owned the entire $25,000,000 outstanding Common stock, but this stock was turned over to Electric Bond and Share Securities Corporation, which latter corporation issued all of its authorized capital of 1,802,870 shares of no par value Common stock to the holders of record on Jan. 15, 1925, of Common stock of General Electric Company, the shares of Common stock of Electric Bond and Share Securities Corporation issued to such holders of Common stock of General Electric Company on the basis of one share of Common stock of Electric Bond and Share Securities Corporation for each one share of Common stock of General Electric Company held.

Stock Increases—The authorized capital stock was increased from $2,000,000 of each class to $5,000,000 of each class at a special meeting of the stockholders held Jan. 22, 1912; from $5,000,000 of each class to $8,000,000 of each class at a special meeting of stockholders held Feb. 17, 1915; from $8,000,0000 of each class of stock to $10,000,000 of each class of stock at a special meeting of stockholders held Aug. 23, 1917; to $12,500,000 of each class on Nov. 16, 1921; to $20,000,000 of each class on Dec. 29, 1922, to $25,000,000 of each class on Aug. 3, 1923, and to $50,000,000 of each class Jan. 21, 1927. At a meeting of stockholders held March 5, 1928, the authorized capital stock was increased to $150,000,000 Common and $150,000,000 Pfd.

Preferred Stock Provisions—The Pfd. stock has preference as to assets as well as dividends, and is further protected by a provision in the certificate of incorporation that no dividends shall be paid upon Common stock unless there shall remain, after the payment of such dividends, a surplus equal to at least 18% of the par value of the then outstanding Pfd. stock. Pfd. stock cannot be increased to such an amount as to exceed the amount of the then outstanding Common stock, and is subject to redemption upon any dividend date, upon 90 days' notice, at 110 and accrued dividends. Company has no mortgage or funded debt. Under the By-Laws no indebtedness shall ever be incurred in excess of the total value of outstanding Pfd. stock without consent of majority of all outstanding stock.

Preferred Stock Offerings—Recent offerings of Pfd. stock have been as follows: $1,250,000 in Nov. 1921, at $89 per share and accrued dividends, $5,000,000 in Dec., 1922, at $97 and accrued dividends, $2,400,000 in Nov. 1923 at $97.50 and accrued dividends, and $2,600,000 in Dec., 1924, at $102 and accrued dividends, all by Bonbright & Co., Inc., New York, etc. $15,000,000 was offered in Jan., 1927, at 107½ and dividends to yield 5.58%, by Bonbright & Co., Inc., New York, etc.; $10,000,000 additional Pfd. was offered in November, 1927, at 109 and dividend from Nov. 1, 1927, to yield 5.50%, by Bonbright & Co., Inc., New York.

Voting Powers—The holders of Pfd. Stock and Common stock have the right to one vote for each share thereof at any and all meetings of the stockholders.

Transfer Agent—Bankers Trust Co., New York.

Registrar—Guaranty Trust Co., of New York.

Annual Meeting—Third Wednesday in February.

AMERICAN & FOREIGN POWER COMPANY INC.

(Controlled by Electric Bond and Share Company)

History—Organized Dec. 19, 1923, in Maine. The duration of Company's charter is perpetual. The Company was formed by the Electric Bond and Share Company to acquire and operate, directly or through subsidiaries, public utility properties in the United States and foreign countries. The development and operation of the corporation and its subsidiaries are under the supervision of the Electric Bond and Share Co.

The Corporation's principal business and objects are (through subsidiaries) the development and operation of public utility properties in Cuba, Panama, Guatemala, Brazil, and elsewhere, supplying electric light and power, telephone or other services to communities in such foreign countries and in the United States and elsewhere.

Havana Situation—Independently, and at its own cost and risk, Electric Bond and Share Company undertook to acquire control of Havana Electric Railway, Light & Power Company, which, with its predecessor company, had for many years supplied the electric, gas and street railway service in the City of Havana and in certain adjacent territory. These efforts were directed to the acquisition of the stock of Havana Electric & Utilities Company and proved successful, Electric Bond and Share Company having acquired all of the Common shares and approximately 8% of the cumulative Preference shares of said Havana Electric & Utilities Company, this latter company owning, in turn, all of the stock of Havana Electric Railway, Light & Power Company except approximately 9,852 shares of 6% Preferred stock and 9,990 shares out of a total of 220,000 shares of Common stock outstanding (which 9,990 shares are owned by Compania Cubana de Electricidad, Inc., one of the operating subsidiaries of American & Foreign Power Company Inc.)

After Electric Bond and Share Company acquired control of the Havana situation, Havana Electric Railway, Light & Power Company sold its street property and business to Havana Electric Railway Company, devoting a portion of the consideration received to the redemption of its General Mortgage bonds. By that same transaction the issue of bonds which was a lien directly on the railway properties was assumed by the new Railway Company, freeing the gas and electric properties therefrom and leaving the new Havana Electric Railway, Light & Power Company with only $4,038,000 in principal amount of bonds outstanding.

Electric Bond and Share Company subsequently disposed of all its holdings of Havana Electric & Utilities Company stock to Havana Corporation, a holding company organized under the laws of the State of Maine, receiving in exchange therefor $35,667,647 6% Gold Debenture bonds, Series "A" together with 299,997 shares of Common stock (all of such Common stock except three directors' qualifying shares) of said Havana Corporation. Negotiations between American Foreign Power Company Inc. and Electric Bond and Share Company resulted in an agreement whereby the former company agreed to exchange 300,000 shares Common stock for said 299,997 shares Common stock of Havana Corporation.

On January 9, 1928, the $35,667,647 Havana Corporation 6% Gold Debenture bonds, Series "A," were sold to American & Foreign Power Company Inc. for cash at the principal amount thereof plus accrued interest.

The American & Foreign Power Company Inc., as of Feb. 29, 1928, acquired the electric power and light properties of The Havana Central Railroad Company in Havana, Cuba, and vicinity, and issued in connection therewith 79,000 shares $7 Preferred stock. Directors consider that this acquisition rounds out the properties of Cuban subsidiaries and will make practicable physical interconnection of principal Cuban subsidiaries with resulting operating economies and advantages.

South American Power Company—As of Oct. 1, 1927, American & Foreign Power Company Inc., acquired from Electric Bond and Share Company all the outstanding securities of South American Power Company, namely, $26,000,000 6% Debentures, dated October 1, 1927, and payable on or before Oct. 1, 1947, 70,000 shares of $7 Preferred stock, 50,000 shares of $7 Second Preferred stock (which, under certain conditions, may become Preferred stock), and 1,000,000 shares of Common stock, all without par value, issuing in exchange therefor, 364,175 shares of $7 Second Pfd. stock, Series "A" and 1,456,700 Option Warrants.

The South American Power Company was organized under the laws of Florida and has taken title to securities or interests in companies directly or indirectly owning hydro-electric or other public service properties in Brazil, Colombia, France, Japan and other foreign countries in which the subsidiaries of American & Foreign Company Inc. have not been doing business. These securities and interests, acquired by Electric Bond and Share Company at its own cost and risk and for its own account, were delivered to South American Power Company in exchange for all the securities of the latter company.

Included in the properties which have become a part of the American & Foreign Power Company Inc. group by virtue of the acquisition of all the securities of South American Power Company are electric power and railway properties in Petropolis and electric power and light properties in Nitchroy, Brazil; electric power and light and railway properties in Bahia, Brazil, and adjacent communities; electric power and light properties in Victoria and Itapemirim, Brazil, and adjacent communities; railway properties in Victoria, Brazil; electric power and light properties in a number of communities in the State of Sao Paulo; telephone properties in Victoria and Bahia, Brazil, and electric power and light properties in Barranquilla, Colombia, and vicinity.

Among the important securities which have been vested in South American Power Company are substantial (although minority) holdings of the Common stock of Japan Electric Bond and Share Company, Ltd., a Japanese Corporation which will manage, supervise, control and operate public utilities in Japan

and like substantial (although minority) holdings of the cumulative 6½% Participating Preferred stock of Societe Financiere pour le Developpement de l'Electricite, a French investment and holding company. Other assets of South American Power Company include certain participation rights acquired by Electric Bond and Share Company, as well as engineering reports, surveys, records and varied data pertaining to public utility operations in foreign countries.

South American Power Company has also acquired all of the stock of Compania Anonima Venezolana de Luz, supplying power and light service in Caracas, Venezuela, and is in process of extending its holdings and interests in public utility properties in other countries in South America.

Acquisition of Mexican Utilities Company—In April, 1928, the American & Foreign Power Company Inc., entered into Plan and Agreement of Reorganization under which it expects to acquire control of the Mexican Utilities Company through the acquisition of Common stock, Pfd. stock and Collateral Gold bonds of that company in exchange for its $6 Pfd. stock. For complete details, see statement of the Mexican Utilities Company (General Index).

Description of Properties of Subsidiaries Acquired—As of Dec. 31, 1927 Company owns securities controlling public utility properties operating in Cuba, Panama, Guatemala, Ecuador, Colombia, Venezuela and Brazil. Of the Common stock, 400,000 shares have been issued and lodged with Bankers Trust Co., New York, for delivery against fully-paid Allotment Certificates. A sufficient number of shares are held for issue and delivery against Option Warrants entitling the holders thereof to purchase the Common stock at $25 per share.

Of the Pfd. stock the Corporation has issued 388,641 shares and has lodged certificates therefor with Bankers Trust Co., New York against the initial 25% payment on 400,000 shares. Additional shares up to 11,359 will be issued and certificates therefor lodged with the depositary as additional payments are made by Allotment Certificate holders.

Subscription Privilege—On Dec. 23, 1927, holders of $7 Second Preferred Stock, Series A, Common Stock and Option Warrants of record that date, were offered the right to subscribe to $126,151,400 in $100 units of securities of Company, each unit consisting of one share of the Company's $7 Second Preferred Stock, Series A, and four Option Warrants. One unit was offered to holder of : (1) Each three shares of Second Pfd. stock, Series "A"; (2) each three shares of Com. stock; (3) each three shares of Com. stock covered by any Pfd. stock Allotment Certificate now outstanding if no default exists thereunder on Dec. 23, 1927: and (4) each three Option Warrants (or due bills therefor); or (5) each combination of three of any one or more classes of these securities. These new securities were fully subscribed, and it was provided that 40% of the purchase price should be paid on or before Jan. 25, 1928. Subsequent installments of not more than 10% may be called for at intervals of not less than three months, with the right, at subscriber's option, to anticipate any or all calls at any time. As of Dec. 31, 1927, $14,078,120 had been paid on such subscriptions, and as of April 1, 1928, in excess of $63,000,000 had been paid.

Capital Stock Changes—Stockholders at special meeting May 3, 1927 increased the authorized capital stock from 2,820,000 shares of no par value, divided into 1,800,000 shares Common, 900,000 shares Pfd. and 120,000 shares Second Pfd., Series "A," to 11,000,000 shares divided into 8,300,000 shares Common, 900,000 shares $7 Pfd., 200,000 shares $6 Pfd. and 1,600,000 shares $7 Second Pfd., Series "A." At special meeting Dec. 5, 1927, stockholders increased the authorized stock from 11,000,000 shares to 13,400,000 as divided above.

Provisions Under Which Preferred and Common Stock are Deliverable—The Preferred Stock Allotment Certificates provide that upon payment in full of the allotment price, Allotment Certificate holders shall be entitled to receive definitive certificates for the number of full-paid shares of Pfd. stock called for by the several Allotment Certificates, together with definitive certificates for a like number of full-paid shares of Common stock of the Corporation without nominal or par value. There have been lodged with Bankers Trust Company, New York City, as depositary, certificates representing the number of full-paid shares of Pfd. stock which have been paid for at the allotment price by the aggregate amounts paid in against the allotment price on Preferred Stock Allotment Certificates and as additional installments are paid upon said Allotment Certificates, or any of them, additional full-paid shares of Pfd. stock of the Corporation will be issued by the Corporation and certificates therefor will be lodged with the depositary. There has likewise been lodged with said Bankers Trust Company, Certificate for 400,000 shares of Common stock.

Preferred Stock Provisions—The Pfd. stock and the $6 Pfd. have equal preference for dividends (the former

being entitled to cumulative dividends at the rate of $7 per share per annum, and the latter to cumulative dividends at the rate of $6 per share per annum), and for assets in liquidation or distribution, both up to $100 per share and accrued and unpaid dividends, over Second Pfd. Series "A" and Common stocks. Both are subject to call in whole or in part at any time on 30 days' notice at $110 per share and accrued and unpaid dividends.

Subject to the rights of the Pfd. and $6 Pfd. stocks, Second Pfd. Series "A" has preference for cumulative dividends at the rate of $7 per share per annum, and for assets in liquidation or distribution up to $100 per share and accrued and unpaid dividends, over Common stock. It is subject to call at any time on 30 days' notice at $105 per share and accrued and unpaid dividends.

Option Warrants—The Second Preferred stock of the Company carries with each share four warrants each entitling the holder to subscribe for one share of Common stock at $25 per share. The Option Warrants are unlimited as to time. Second Preferred stock when accompanied by four warrants will be taken at $100 per share in payment for such Common stock in lieu of cash.

Transfer Agent—Bankers Trust Co., New York.

Registrar—Central Union Trust Co. of New York.

Annual Meeting—Third Tuesday in October at Augusta, Me.

Original Offering—400,000 shares of Pfd. stock were offered for public subscription in Dec. 1923 at $96 per share, each share of Pfd. stock carrying with it one share of Common, payments to be made as follows: 25% on allotment, subsequent calls to be made at intervals of not less than four months, and no single call to be for more than 10% of the subscription price. Purchasers have the option, however, to make payment in full at any time and become entitled to the full dividend. Holders of Allotment Certificates will be entitled to receive currently proportionate dividends paid upon stock called for by the certificates and upon payment in full, but not earlier than Jan. 2, 1925, to receive definite certificates for the Pfd. stock subscribed and for an equal number of shares of Common stock.

HAVANA ELECTRIC & UTILITIES COMPANY

(Controlled by American & Foreign Power Company Inc. Through The Havana Corporation)

(Supervised by Electric Bond and Share Company)

History—Incorporated in 1925, in Maine. A holding company, formed to readjust the share capitalization of the Havana Electric Railway, Light & Power Company (see statement appended).

In Sept. 1925, the directors of Havana Electric Railway, Light & Power Company, in conjunction with Speyer & Co., formulated a plan for a readjustment of share capitalization through the medium of a new corporation with the name "Havana Electric & Utilities Company," in order that the readjustment may more nearly represent the actual value of Havana Electric Railway, Light & Power Company.

Under the plan, stockholders of the Havana Electric Railway, Light & Power Company were offered

the privilege of exchanging their stock for stock of the Havana Electric & Utilities Company and cash on the following basis:

Preferred Stock—For each 10 shares of Havana Electric Railway, Light & Power Company Pfd. stock, the holder to receive: 10 shares of Havana Electric & Utilities Company 6% cumulative First Pfd. stock; 3 shares of Havana Electric & Utilities Company Common stock (Voting Trust Certificates); and $40 in cash.

Common Stock—For each 10 shares of Havana Electric Railway, Light & Power Company Common stock, the holder to receive: 20 shares of Havana Electric & Utilities Company cumulative Preference stock; 20 shares of Havana Electric & Utilities Company Common stock (Voting Trust Certificates); and $200 in cash, and, on Dec. 15, 1925, a substantial majority of the Preferred and Common stock of Havana Electric Railway, Light & Power Company were deposited under the plan referred to, the same was declared operative on said date.

Voting Trust Dissolved—In June, 1926, the voting trust agreement under which Common stock of Company was held, was terminated with sale of stock to the Electric Bond and Share Co. Price paid was $33 a share, out of which there was available for distribution to holders of voting trust certificates, $31.50 a share. All Common stock and substantially all Cumulative Preference stock were acquired from Electric Bond and Share Company and are now owned by **The Havana Corporation,** a corporation controlled by the American & Foreign Power Company Inc., through ownership of all its outstanding capital stock, except directors' shares.

CAPITAL STOCK

Authorized, 603,000 Common shares of no par value, $21,000,000 6% cumulative First Pfd., par, $100, and 300,000 shares cumulative Preference stock of no par value (cumulative since Nov. 15, 1926); outstanding 578,984.691 shares Common, $20,198,917 First Pfd., and 294,664.94 shares Preference. The American & Foreign Power Company Inc. or subsidiaries own all the Common stock, $2,294 First Pfd. stock and 231,783 shares Preference.

First Preferred Stock Provisions—The First Pfd. stock is entitled, in priority to the Preference stock and the Common stock, to cumulative dividends from Nov. 15, 1925, at the rate of 6% per annum, and to $115 per share and accrued dividends in case of liquidation or dissolution of the Company. All or any part of the First Pfd. stock may be redeemed at any time at $115 per share and accrued dividends. The First Pfd. stock is not entitled to voting rights except: (1) for those purposes, if any, for which said rights cannot be denied or waived under the laws of the State of Maine, and except (2) upon any proposal to increase the authorized amount of the First Pfd. stock, and except (3) that, without the consent of the holders of 90% of the outstanding First Pfd. stock, the Company shall not (a) reduce the amounts which the holders of outstanding First Pfd. stock are entitled to receive in preference to the holders of Preference stock and Common stock (whether in dividends or in distribution of assets), (b) decrease the redemption price of the First Pfd. stock, or (c) create any class of stock having priority, as to assets or dividends, over the First Pfd. stock.

Preference Stock Provisions—The Preference stock is entitled, in priority to the Common stock, to dividends at the rate of $5 per share per annum, payable semi-annually or quarterly, and to $100 per share and accrued dividends in case of liquidation or dissolution of the Company. The dividends on this stock are cumulative from and after Nov. 15, 1926. All or any part of the Preference stock may be redeemed at any time at $100 per share and accrued dividends. The Preference stock is not entitled to voting rights, except for those purposes, if any, for which said rights cannot be denied or waived under the laws of the State of Maine.

Common Stock Provisions—The Common stock has exclusive voting rights for all purposes with the exceptions noted above.

Transfer Agents—All classes of stock transferred by Chase National Bank, New York, and by Havana Electric Railway, Light & Power Co., Havana, Cuba.

Registrars—All classes of stock registered by Bank of the Manhattan Co., New York, and by Banco del Commercio, Havana, Cuba.

Annual Meeting—Friday following the third Thursday in May.

Dividends—Initial dividend of $3 per share on First Pfd. stock for the six months' period from Nov. 15, 1925, to May 14, 1926, paid May 17, 1926. Another semi-annual dividend of $3 for period from May 15 to Nov. 14, 1926, was paid on Nov. 15, 1926. $1.50 was paid on Feb. 15, 1927, for quarter ended Feb. 14, 1927; which quarterly rate paid to date. $1.50 on May 16, 1927, for quarter ended May 15, 1927. Initial dividend of $5 on cumulative Preference stock paid Nov. 15, 1926, for the year ended Nov. 14, 1926; Feb. 15, 1927, $1.25 which quarterly rate maintained to date. Payments are now made quarterly on both issues, F, M, A. & N 15.

FUNDED DEBT

None.

HAVANA ELECTRIC RAILWAY, LIGHT & POWER COMPANY

(Controlled indirectly through a subsidiary by American & Foreign Power Company Inc.)

(Supervised by Electric Bond and Share Co.)

History and Properties—Incorporated July 28, 1926, in New Jersey, with perpetual charter, which authorizes it to generate, distribute and sell gas and electricity for light, heat, power, etc., to acquire, hold and operate railways and omnibus lines, telephone lines, own wharves, warehouses, etc., in the West Indies, and to do such other things as are set forth in the certificate of incorporation. The Company now owns and operates the properties supplying the electric power and light service to Havana, Cuba.

Company is a consolidation of former company of same name which was incorporated March 26, 1912 (see 1926 Public Utility Volume, page 1727) and Cuban Utilities Company. The latter company, in addition to owning the electric railway systems in Santiago and Camaguey, Cuba, owned more than 86% of the Preferred stock and more than 98% of the Common stock of the old Havana Electric Railway, Light & Power Company. Consequently the merger or consolidation brought into ownership of the new company not only the electric power and light and gas properties, but also the railway properties (later sold) in Havana, Santiago and Camaguey. The electric railway systems in Santiago and Camaguey had been acquired by Cuban Utilities Company from subsidiary interests of American & Foreign Power Company Inc. operating in Cuba.

The agreement of merger or consolidation provided that each share of Second Pfd. stock and Common stock of Cuban Utilities Company outstanding and not owned by one of the corporations party to the agreement would remain outstanding, while all stock of either of the corporations party to the agreement which was owned by the other party would be cancelled.

The minority stock was provided for as follows: The holder of each share of Pfd. stock of Havana Electric Railway, Light & Power Company, other than Cuban Utilities Company, was entitled to receive in exchange therefor one share of the 6% Pfd. stock of the

consolidated company and the holder of each share of Common stock of Havana Electric Railway, Light & Power Co., other than Cuban Utilities Company, was entitled to receive in exchange therefor two shares of Pfd. stock of the consolidated company.

To those minority holders not desiring so to exchange their stock under the Plan, an offer was made in behalf of Havana Electric & Utilities Company to purchase this minority stock on the basis of $115 cash for each share of Preferred stock and $230 cash for each share of Common stock of old Havana Electric Railway, Light & Power Co. All of the Common stock (except 10,000 shares acquired by Cia. Cubana de Electricidad, Inc.) and all Second Pfd. stock of the new Havana Electric Railway, Light & Power Company were acquired by Havana Electric & Utilities Co.

Sale of Railway Properties—All of Company's railway properties consisting of the systems in Havana, Santiago and Camaguey and all of the stock of Insular Railway Co., which owned and operated a line from Havana to and within the town of Marianao, were sold during 1926 to Havana Electric Railway Company (see General Index).

Company has a contract to supply electricity to the Havana Central R. R. Co. for distribution by the Marianao Lighting Co. for light and power in Marianao, the largest residential suburb of Havana.

CAPITAL STOCK

Authorized, 270,000 shares Common of no par value, $8,000,000 Pfd., 6% Series, of $100 par value and 250,000 shares Second Pfd. of no par value; outstanding, 220,000 shares Common, $2,985,189 Pfd., 6% Series and 200,000 shares Second Pfd. All owned by Havana Electric & Utilities Company, a subsidiary of American & Foreign Power Co. Inc.

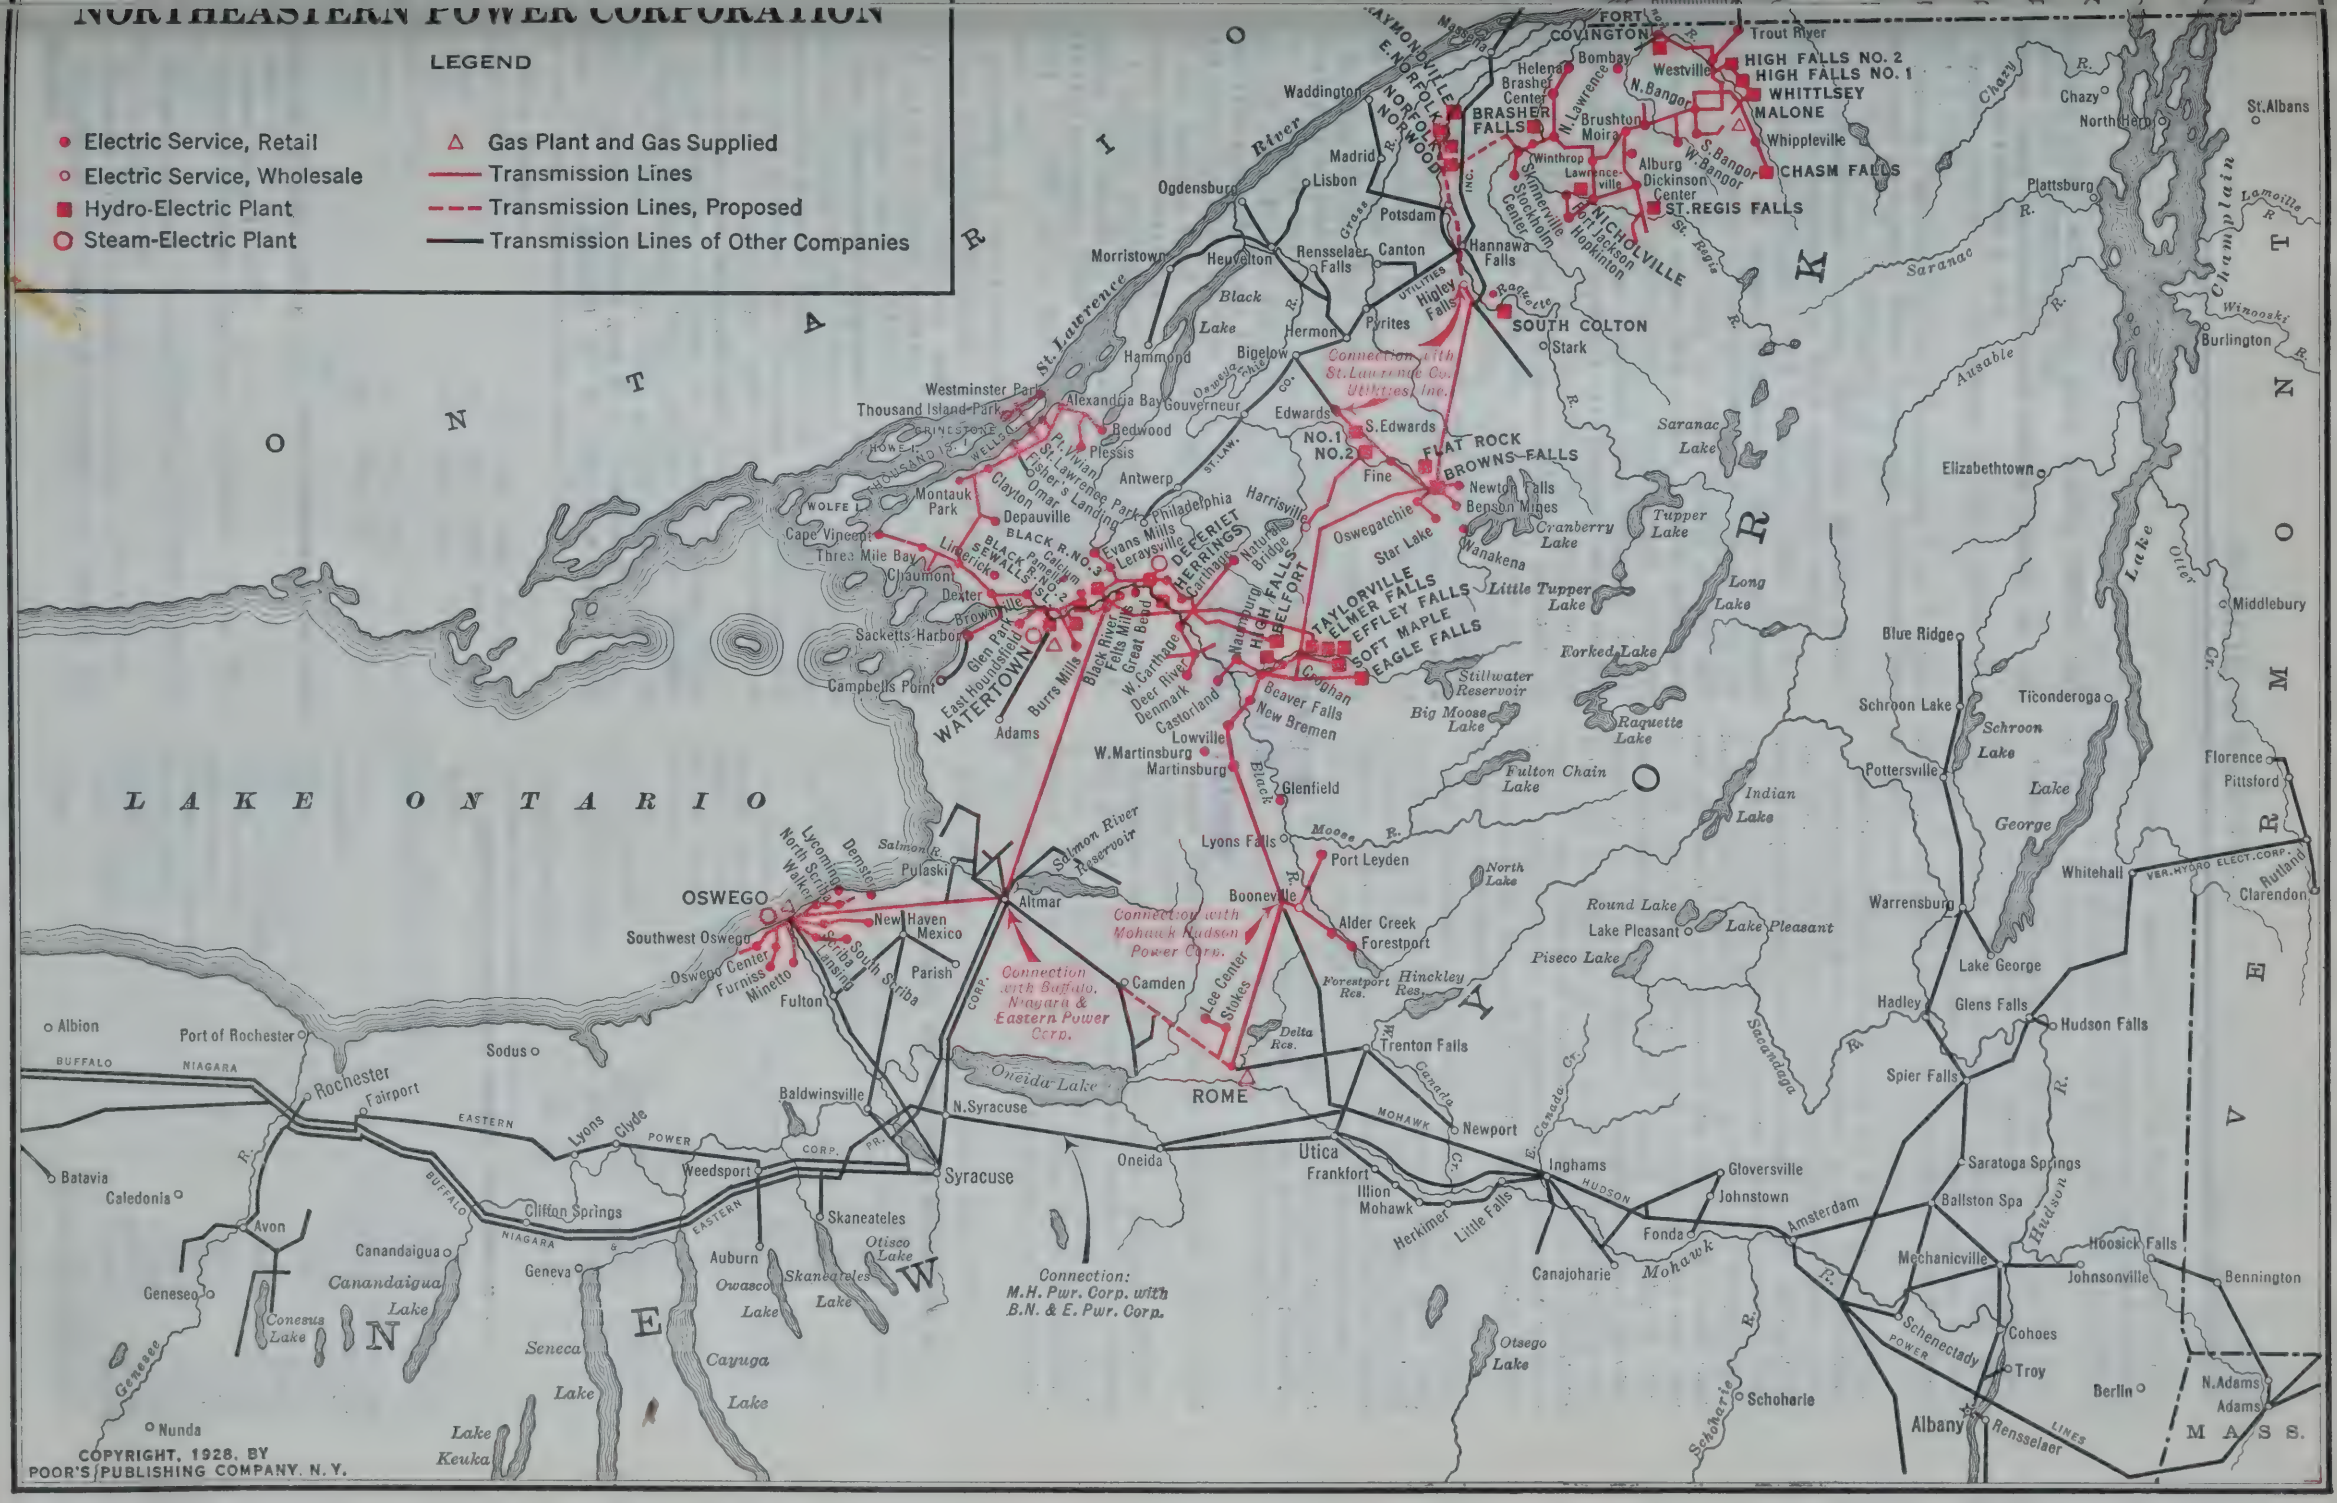
THE POWER CORPORATION OF NEW YORK

(Controlled by Northeastern Power Corporation)

History and Property—Incorporated Oct. 20, 1922, in New York, and has acquired the developed and undeveloped water powers formerly owned by St. Regis Paper Company, Hanna Paper Corporation and others in St. Lawrence, Lewis and Jefferson Counties in New York State. All of these powers either have been converted or are in process of conversion into hydro-electric developments, for a total of 50,000 h.p.

The Power Corporation of New York System also controls the following companies:

The Power & Electric Securities Corporation.
Ft. Covington Light, Heat & Power Co.
Northern New York Utilities, Inc.
Malone Light & Power Company.
Milling & Lighting Co. of Brasher Falls.



The Company owns undeveloped powers on the Raquette and Grass Rivers, in Northern New York, estimated at over 200,000 h.p. These undeveloped powers are susceptible of economical development on the load factor required by the systems which serve the large industrial sections.

CAPITAL STOCK

Authorized, 750,000 Common shares of no par value; outstanding, Dec. 31, 1927, 677,911 shares. The Northeastern Power Corp. owns over 99% of the Com. stock.

Dividends—On Common initial quarterly dividend of 25 cents a share was paid April 1, 1925, which rate paid regularly through 1926 and 1927. An extra dividend of 25 cents a share was paid Dec. 31, 1926.

ELECTRIC RAILWAY SECURITIES COMPANY

History—Incorporated Jan. 24, 1924, under the laws of Maine and acquired certain of the assets and assumed all of the liabilities then remaining of the Commonwealth Power Railway and Light Company. The assets so received consisted very largely of stocks and bonds of various railway companies, but there were other assets received to cover obligations assumed, some of which were not then due. All of such obligations have been paid and the Commonwealth Power Railway and Light Company was dissolved in January, 1925, by the decree of the Supreme Court of Cumberland County, Maine.

Believing it to be to the interest of the stockholders to reorganize by transferring certain of the available assets other than railway stocks and bonds to a new company, the officers and directors caused the Company to transfer such assets to the value of $1,440,000 to a new Corporation **"Utility Shares Corporation"** organized with comprehensive powers under the laws of Delaware and directed the distribution of the stock of the latter corporation pro rata to the stockholders of the Electric Railway Securities Company.

Electric Railway Securities Company owns either directly or through the Union Railway, Gas and Electric Company (of which it owns all of the Common Capital stock excepting small amounts shown in statement below) securities and other assets as follows:

$165,000 Secured Real Estate contracts receivable.

569,850 U. S. Liberty Loan Fourth 4¼% bonds, deposited as collateral to indemnity with respect to Springfield Railway and Light Company and Union Railway, Gas and Electric Company Collateral Trust bonds outstanding to the amount of $528,500 (see below).

381,702.56 U. S. Government securities and cash. Stocks, bonds and other obligations of railway companies (as shown in column 3 in table below), also real estate acquired in connection with the railways in Holland Township, Ottawa County, Mich., in Saginaw and Bay City, Mich., and in De Kalb, Ill.

Electric Railway Securities Company and the Union Railway Gas and Electric Company have capitalization and obligations outstanding in the hands of the public as follows:

80,000 shares no par value Electric Railway Securities Company capital stock.

12 shs. Union Railway, Gas and Electric Company Common stock.

267,000 Springfield Railway and Light Company Collateral Trust 5% bonds, due June 1, 1933.

Sundry accounts payable and interest accrued, not due; contingent liabilities, including Federal Taxes, etc.

The several railway companies, securities of which are owned, are as follows:

Grand Rapids RR. Co.
Michigan Electric Ry. Co.
Michigan R. R. Co.
Saginaw Transit Co.

The controlled companies furnish street railway and bus service in Grand Rapids, Saginaw, Lansing, Battle Creek, Jackson, and Kalamazoo, Mich. Interurban electric railway systems are operated in Michigna.

Distribution of Electric Railway Securities Co. Stock by Commonwealth Power Ry. & Light Co.—See 1925 Public Utility Manual, page 2014 for details.

CAPITAL STOCK

Authorized, 90,000 shares Common of no par value; outstanding, 80,000 shares.

UNION RAILWAY GAS & ELECTRIC COMPANY

(Subsidiary of Electric Railway Securities Co.)

History—Incorporated June 28, 1909, in New Jersey as a holding company, and controls through stock ownership the following electric railway companies:

Grand Rapids RR. Co.
Michigan Electric Ry. Co.
Michigan R. R. Co.
Saginaw Transit Co.

which companies furnish street railway and bus service in Grand Rapids, Saginaw, Lansing, Battle Creek, Jackson and Kalamazoo, Michigan and interurban electric railway service in Michigan.

DeKalb-Sycamore and Interurban Traction Co. a subsidary operating an interurban electric railway between DeKalb and Sycamore was abandoned in 1923 and company dissolved.

On October 20, 1926 the Grand Rapids, Holland & Chicago Railway, which operated between Grand Rapids and Saugatuck, Mich. (see Manual for 1926, page 21 to 28, or apply to our Information Department) was sold at auction to Hyman Michaels Co., junk dealers, for $227,500. The proceeds from the sale, which eliminated Company's capitalization, were applied to bondholders' claims. Bondholders received 7.06277% as a final distribution.

The property of the Rockford & Interurban Railway Co. (see Manual for 1926, page 2128), all of whose Common and Preferred stock was owned by Union Railway Gas & Electric Co., was taken over by the bondholders and sold at foreclosure on November 15, 1926 for $550,000 to T. M. Ellis, Jr., Beloit, Wisconsin, who now owns the line. In July, 1926, it was stated that the Bondholders' Committee had adopted a plan for the sale to T. M. Ellis, Jr., as evidenced by a contract of sale dated July 17, 1926, of bonds deposited with the Committee under the Deposit Agreement dated November 1, 1925. The consideration for such sale was said to be in cash and was on the basis of 23½% of the face value of the bonds, which consideration, subject to Committee's necessary expenses, if any, above the amount provided for in the sale, was distributed to holders of certificates of deposit. The Bondholders' Committee representing the Rockford & Freeport Electric Railway First Mortgage 5s, due October 1, 1930, also adopted a plan for the sale to T. M. Ellis, Jr., as per contract of sale dated July 17, 1926, of deposited bonds for a cash consideration of 10½% of the face value of the bonds, less expenses. This plan was put into effect on Dec. 10, 1926 and holders of the deposited bonds received $102 per $1,000 bond, after deducting $3 per bond for expenses.

The Rockford, Beloit & Janesville RR., formerly included as part of the Rockford & Interuban Railway system, was sold at foreclosure sale on Dec. 9, 1926 for $52,000. This was the only bid for the property and was made in accordance with an arrangement under which T. M. Ellis, Jr. became the owner of the road. There were $907,000 of First Mortgage bonds, due October 1, 1930, outstanding against this property and interest had been in default since April 1, 1925.

In Apr., 1913, the Commonwealth Power Ry. & Light Co. acquired nearly all the $5,250,000 Pfd. stock of the Union Railway Gas & Electric Co. in exchange for a like amount of its own Pfd. stock with 10% of its own Common and also the $6,000,000 Common stock of the Union Co. in exchange for an equal amount of its own Common or $1,500,000 Pfd. and $4,500,000 Common. In Jan., 1924, the Electric Railway Securities Co. (formed to acquire the railway properties of the Commonwealth Power Ry. & Light Co. under the plan of separation determined upon in May, 1922) acquired from that company its holdings of Pfd. and Common stock of the Union Railway Gas & Electric Co.

The property of the Janesville Traction Co. was sold to W. C. Sparks on June 30, 1927. For last published statement see 1927 Public Utility Manual, page 2323.

GRAND RAPIDS RAILROAD COMPANY

(Subsidiary of Electric Railway Securities Co.)

History and Property—Incorporated April 15, 1927 in Michigan. In accordance with Plan of Reorganization of the Grand Rapids Railway Company, dated April 11, 1927, Company as of May 1, 1927 acquired all of the assets and assumed all of the indebtedness of the former company including its outstanding bonds. Owns and operates the entire electric street railway system in the city of Grand Rapids. At the election held Sept. 12, 1922, a 30-year franchise was approved by the people. The franchise is of the service-at-cost type based on an initial valuation of the property for rate making purposes of $5,500,000 plus the cost of property additions from time to time. Provision is made for a graduated return depending upon the rate of fare charged. The rates of fare in effect during 1927 were the same as those in effect during 1926, namely, 10 cents individual cash fare, and 6 tickets for 50 cents. Under these rates, Company is entitled, according to the terms of its franchise, to earn a return of 7¾% on the value of its property after deduction of operating expenses, taxes, and an allowance for retirement reserve (depreciation).

Motor Bus Service—During 1927 Company operated 8 passenger motor buses on six different routes in various sections of the city. One of these routes operates from an outlying district to the downtown or business section. The other routes are operated to extend the service of the present street car lines and transfer their passengers to and from the street cars at an intersecting point on the car line.

Company owns and operates 68 miles of track consisting of 29 miles of double track and 10 miles of single track. Equipment consists of 139 motor passenger cars, 21 service cars and 11 motor buses. Population served is estimated at 175,000.

At the annual convention of the American Electric Railway Association in October, 1927, Company received The Charles A. Coffin Award for 1927 for outstanding achievements in development of the art and science of street railway transportation.

Reorganization Plan, Dated April 11, 1927—In order to reduce the amount of indebtedness and provide a means of financing the requirements of the Grand Rapids Ry. Co., the situation demanded a reorganization which would protect the interests of Preferred stockholders. The Grand Rapids Ry. Co. had outstanding as of March 1, 1927, indebtedness consisting of $2,971,000 First Mortgage 7% Sinking Fund Gold bonds, maturing May 1, 1939; $700,000 7% Gold Debenture bonds maturing May 1, 1944; $198,045 Car Trust notes, maturing monthly up to May 26, 1929, and $419,958.88 notes and advances payable.

Plan Approved—At a special meeting held May 25, 1927, stockholders of the Grand Rapids Railway Company approved plan for reorganization involving sale of property, etc. to Grand Rapids Railroad Company which Company acquired all of the indebtedness of the former Company including its bonds.

Exchange Offer—For each one share of Preferred stock of the old company there were delivered two shares of Common stock of new company.

Subscription Offer—3,000 shares Preferred stock of new company bearing 7% cumulative dividends from May 1, 1927, 15,000 shares of Common stock of no par value of new company, and 15,000 options, each of which entitles the holder to purchase one additional share of new company Common stock at $10 per share on or before May 1, 1929, were offered for subscription in amounts of $100 or multiples to Preferred stockholders who deposited under the Plan on the following terms: 1 share 7% Preferred stock, 5 shares Common stock and 5 Options for the sum of $100. Subscription price was payable in full or in partial payments, 10% on subscription, 15% when Plan was declared operative and 25% in one month, 25% in two months and 25% in three months thereafter. Subscription offer expired May 10, 1927.

MICHIGAN ELECTRIC RAILWAY COMPANY

(Subsidiary of Electric Railway Securities Co.)

History and Property—Incorporated Sept. 25, 1923, in Michigan, and as of Dec. 1, 1923, took over the operation of the properties of the former Michigan United Railways Co. in accordance with the Plan of Reorganization of that company (see 1923 Manual, page 2051, or apply to our Information Department). Electric street railway systems are operated in Lansing, Battle Creek, Jackson and Kalamazoo, Mich., and two inter-urban divisions which operate between Kalamazoo, Battle Creek and Jackson, known as the Southern Division, and between Jackson, Lansing and St. Johns, and Lansing and Owosso, known as the Northern Division. The total mileage measured as single track is 252 miles, of which 91 miles comprises city systems and 161 miles the inter-urban systems. The majority of the inter-urban mileage is high speed third-rail operation. Inter-urban passenger stations are located in the main business sections of each city served. Through passenger service between the various cities served and Detroit is maintained over the lines of the Detroit United Railways from the city of Jackson, and direct connection with Grand Rapids is made through connection with the Michigan Railroad Co. A fast freight service is operated over lines of company and through arrangements with connecting lines, through service has been established from points in western Michigan and Chicago with eastern Michigan points, including Detroit, also Toledo, Cleveland, Akron, Canton, Youngstown and other Ohio cities and with cities in Indiana and Kentucky.

The Michigan Electric Railway Co. owns and operates 183 motor passenger cars and 2 trailers, 32 freight cars, 35 service cars, and 25 passenger motor busses. The population of the territory served is estimated to be in excess of 310,000.

Southern Michigan Transportation Co.—This subsidiary of Michigan Electric Ry. Co. was authorized by the Michigan Public Utility Commission in 1925 to establish motor bus lines between Jackson, Battle Creek and Kalamazoo and between Jackson, Lansing and East Lansing. It owns and operates 18 busses.

Control—Practically all the Common stock and a substantial amount of the Pfd. stocks and bonds are owned by Union Railway Gas & Electric Co., a subsidiary of the Electric Railway Securities Co.

CAPITAL STOCK

MICHIGAN RAILROAD COMPANY

(Subsidiary of Electric Railway Securities Co.)

History and Property—Incorporated April 17, 1919, in Michigan, and acquired the railway properties formerly owned and operated by the Michigan Railway Co. with the exception of certain leased properties. The Michigan R. R. Co. owns and operates approximately 162 miles (single track equivalent) of high-grade electric interurban railway, comprising two divisions, one extending from Grand Rapids to Kalamazoo and to Battle Creek with a branch to Allegan, and the other from Bay City through Saginaw to Flint, all in the State of Michigan. The total population of the communities served by the Company is estimated to exceed 475,000. In Grand Rapids the Company owns a private right of way into the heart of the city and a terminal station is located within one block of the main business section. In Battle Creek, the Co. also owns valuable real estate, affording it entrance over private right of way into the center of the city and providing adequate facilities for both freight and passenger traffic. In the remaining principal cities served the Co. obtains its entrances under trackage agreements, in most cases, with affiliated lines. The Company's equipment consists of 34 motor passenger cars, 6 service cars and 77 freight cars.

The Company's track is located entirely on private right of way, with the exception of about 20 miles operated under franchises, which are either unlimited in time or expire in 1932 or thereafter.

Rapid Transportation Co.—This subsidiary of Michigan Railroad Co. was authorized in 1925 to operate motor bus lines between Bay City, Saginaw, Mount Morris and Flint, and from Grand Rapids to Kalamazoo. It owns and operates 14 motor busses.

Plan of Adjustment of Indebtedness Abandoned—Over 76% of the First Mortgage Five Year 6% Gold Bonds, Series "A" due May 1, 1924, having been deposited by June 27, 1924, the Plan of Adjustment of Indebtedness dated April 5, 1924 (for description of which see 1924 Public Utility Manual, page 2509, or apply to our Information Department) was declared operative. The anticipated improvement in Company's earnings, however, had not been realized and although approximately 87% of the bonds had been deposited to Oct. 23, 1924, there were a considerable number of holders of undeposited bonds who brought or threatened to bring suit at law for recovery of amounts due for principal and interest. In view of these circumstances, it was decided by the Directors to abandon the proposed plan and to release the bonds deposited thereunder in order that holders thereof might be free to take such action as they might deem necessary for their protection. Notwithstanding the abandonment of the plan, depositing bondholders retained the benefit of the payment made to them in respect of their May 1, 1924 coupon. The rights of depositing bondholders in other respects are the same as prior to April 5, 1924.

Receiver Appointed—In Oct., 1924, Federal Judge Simons at Detroit, appointed J. F. Collins of Jackson, Mich., receiver, authorizing him to continue operations of the lines for the present. The Receiver was appointed on application of Union Railway, Gas & Electric Co. which owns most of the stock, holds $4,000,000 of Company's General Mortgage Bonds and is general creditor of the company to the amount of $1,465,903.

Bondholders' Protective Committee—Following the announcement of the abandonment of the Plan of Adjustment of Indebtedness the following Committee was organized to protect the interests of the holders of the First Mortgage bonds: Allen G. Hoyt, Chairman, Stanley A. Russell, and Wm. W. Bride with Francis J. Mullan, Sec. 55 Wall St., New York. Holders of certificates of deposit issued under the agreement of April 5, 1924 or of First Mortgage Bonds not yet deposited with the Committee were urged under date of March 6, 1925 to co-operate with the majority whose bonds had been deposited under the Bondholders' Protective Agreement by depositing their bonds or certificates of deposit with the National City Bank of New York, 55 Wall St., New York.

CAPITAL STOCK

Authorized, $5,000,000; outstanding, $4,000,000; par, $100. All except directors' qualifying shares, owned by Union Railway Gas & Electric Co., subsidiary of Electric Railway Securities Co. Annual meeting, third Thursday in April.

FUNDED DEBT

(1)

$4,050,000 FIRST MORTGAGE 5-YEAR GOLD 6s; DUE MAY 1, 1924

Dated May 1, 1919.

Interest Payable May and November 1, in New York. Interest and principal in default.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustees—The Equitable Trust Co. of New York and The Michigan Trust Co., Grand Rapids, Mich.

Provisions of Issue—Authorized, $10,000,000; issued, $4,500,000, of which $450,000 redeemed by sinking fund. The bonds may be issued in series bearing different rates of interest, but not to exceed 6% per annum. In addition to the $4,500,000 issued bonds, an additional $500,000 may be issued under the mortgage, provided the net earnings of the Co. for twelve consecutive calendar months ending not more than sixty days prior to the issuance of such bonds, after deducting all operating expenses, taxes, rentals, insurance and reasonable and adequate expenses or charges for current maintenance and repairs shall be not less than twice the annual interest charges on all First Mortgage bonds outstanding, including those proposed to be issued. The remaining $5,000,000 bonds may be issued for not to exceed 75% of actual and reasonable expenditures made by the Co. after May 1, 1919, or permanent extensions, enlargements and additions of and to its railway property and equipment, provided net earnings satisfy the same requirements as above set forth, with reference to the issuance of the first $500,000 of bonds.

Callability—Subject to call as a whole or in part at 101 and accrued interest at any time on 45 days' notice.

Sinking Fund—The first mortgage provides for a sinking fund to retire semi-annually $50,000 of bonds of this issue, either by purchase in the open market or by redemption under the terms of the mortgage, under which $400,000 bonds have been retired.

Reserve Fund—Under the indenture the Company must either expend annually or deposit in cash with the New York Trustee in a general reserve fund an aggregate amount equivalent to not less than 20% of its gross earnings. This amount may only be expended for maintenance, repairs, replacements and renewals, for the purchase or retirement of bonds of this issue, or for extensions, enlargements and additions to the property, but such expenditures for extensions, enlargements and additions shall not be used as a basis for the issuance of bonds, except as the general reserve fund is reimbursed to the extent of moneys used or withdrawn therefrom for such expenditures. The general reserve fund is distinct from and has no connection with the sinking fund. In addition, the mortgage provides for an accident reserve fund of substantial proportions.

Security—These bonds are secured by a direct first mortgage on the entire property of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Shearman & Sterling, New York.

Original Offering—First publicly offered ($4,500,000) in May, 1919, at 95 and interest to yield 7.21% by The National City Co., New York.

History—Incorporated Dec. 7, 1925, in New Jersey, as a consolidation of a Company of the same name incorporated in 1921 in New Jersey (see 1925 Public Utility Manual, page 1348, or apply to our Information Department) and United Investors Securities Co., incorporated Nov. 2, 1925 in New Jersey, which had acquired over 90% of the Common stock of Carolina Power & Light Co. (old company) by exchanging its own Common stock for the Common stock of the Carolina Power & Light Co. on a share for share basis.

National Power & Light Company owns all the outstanding Common stocks, except directors' shares, of the Birmingham Electric Company, the Carolina Power & Light Company, the Houston Lighting & Power Company, the Knoxville Power & Light Co., the Jackson (Tenn.) Railway and Light Company and the Memphis Power & Light Company, the latter company controlling, through stock ownership, The Memphis Street Railway Company.

Acquisition of Lehigh Power Securities Corporation—Under a Plan and Agreement dated Jan. 25, 1928, the National Power & Light Co. acquired control of Lehigh Power Securities Corporation, through exchange of stock. Under the Plan the National Power & Light Company issued its $6 Pfd. stock and Common stock in exchange for the $6 Pfd. stock and Common stock of Lehigh Power Securities Corporation on a share for share basis. It was announced on May 17, 1928 that more than 97% of the outstanding stock of the Lehigh Power Securities Corp. had been deposited. The time limit for the deposit of securities was June 15, 1928. The depositaries were American Exchange Irving Trust Co., New York; The Pennsylvania Company for Insurances on Lives and Granting Annuities, Philadelphia, and Old Colony Trust Co., Boston.

Property and Service—The operating subsidiaries, either directly or through controlled companies, at December 31, 1927, served a total of 294 communities, in the states of North Carolina, South Carolina, Tennessee, Alabama and Texas. They supplied electric power and light service to 289 communities, electric railway service to 22 communities and manufactured gas service to 12 communities. In addition the subsidiaries supplied water service to 1 community and steam to 1 community, and did an ice business in 6 communities. The total population served was estimated to be 1,613,000.

The principal operating companies controlled at the end of the year and their service were as follows:

Birmingham Electric Company, supplying practically the entire electric power and light and electric railway service and the entire gas service in Birmingham, Bessemer and Fairfield, Alabama, and the electric power and light service in 8 adjacent communities, in 4 of which it also supplies gas service, and in 7 of which it also supplies electric railway service.

Houston Lighting & Power Company, supplying electric power and light service in Houston, Texas, and in 55 adjacent communities. This Company's principal generating station, the Deepwater station, has a total installed steam electric generating capacity of 65,000 kilowatts and is designed and partially built for an ultimate capacity of 180,000 k.w. The Deepwater Station is one of the largest in the South.

Jackson Railway and Light Company, supplying the entire electric power and light service, the gas service, and the railway service in Jackson, Tennessee, and the entire electric power and light service in eight adjacent communities, and doing an ice business in one community.

Knoxville Power & Light Company, supplying the entire electric power and light service in Knoxville, Fountain City and Bearden, Tennessee, and in 8 adjacent communities, and owning and operating all the electric railway lines in Knoxville and 2 adjacent communities.

Memphis Power & Light Company, supplying the entire electric power and light and gas service in the city of Memphis, Tennessee, and electric power and light service in 12 adjacent communities in Shelby County.

The Memphis Street Railway Company, supplying the entire electric railway service in the city of Mem-

phis, Tennessee, and with its subsidiary, Memphis and Lake View Railway Company, serving certain suburbs.

Carolina Power & Light Company, a merger and consolidation of the former Carolina Power & Light Company, Yadkin River Power Company, Asheville Power and Light Company, Pigeon River Power Company and Carolina Power Company, effective April 6, 1926, supplying directly or indirectly, electric power and light service to a total of 191 communities in the states of North Carolina and South Carolina, including the cities of Raleigh, Asheville, Goldsboro, Henderson, Oxford, Rockingham and Sanford in North Carolina, and Florence, Sumter, Darlington, Hartsville, Marion and Cheraw, in South Carolina; also supplying gas and electric railway service in Raleigh and Asheville and their suburbs.

In order to meet the increasing demand for electric power and light as a result of the expansion of industrial activities in the territory served, the Carolina Power & Light Company as of Dec. 31, 1927 had under construction two new hydro-electric plants, one on the Yadkin River, near Norwood, about 25 miles above the Blewett Falls hydro-electric plant, the other on the Pigeon River, to be known as the Waterville plant, near the Tennessee state line, about 35 miles northwest of Asheville. The Norwood plant will have an initial installation of 62,000 kilowatts and is designed for an ultimate generating capacity of 84,000 kilowatts, while the Waterville plant will have an initial installation of 67,000 kilowatts and is designed for an ultimate generating capacity of about 100,000 kilowatts. It is expected that the Norwood plant will be placed in operation early in 1928 and the Waterville plant during 1929. These will be among the largest plants in the South.

BIRMINGHAM ELECTRIC COMPANY

(Controlled by National Power & Light Co.)
(Supervised by Electric Bond and Share Co.)

History—Incorporated March 25, 1924, in Ala., as successor in reorganization to the Birmingham Ry., Light & Power Co. (see Manual for 1923, page 2622), whose operating properties were acquired by the Company under foreclosure sale on March 31, 1924, together with other properties formerly owned by certain of the old Company's subsidiaries and certain properties acquired during the receivership, viz., Bessemer Gas Co., Norwood Street Ry. Co. and Birmingham-Tidewater Ry. Co. As a result of the reorganization the Birmingham Electric Co. now does practically the entire electric power and light, and street railway business and the entire gas business in the cities of Birmingham, Fairfield and Bessemer, Ala., and either the electric business in eight adjacent communities, in four of which it also supplies gas service and in seven of which it supplies electric railway service, serving a population estimated to exceed 305,000. The properties include an electric power and light system serving 58,900 consumers; gas systems at Birmingham, Fairfield, Bessemer and four other communities serving 36,142 consumers, with gas output of 2,348,852 cu. ft. during 1927, a steam heating system serving 327 consumers, and a street railway system which carried a total of 68,395,949 passengers during 1927.

The territory served by the Company constitutes practically all of the widely known "Birmingham District" and includes Birmingham, Fairfield and Bessemer, Alabama, as well as eight adjacent communities. Immediately to the south of Birmingham are extensive iron ore deposits and coal fields, while to the north there are large limestone deposits as well as additional iron ore and coal. Nowhere else in the world, so far as is known, do the essential elements for the manufacture of iron and steel exist both in such close proximity and abundance, with the result that the "Birmingham District" has become one of the most important iron and steel manufacturing centers in the country.

Property and Purchase Contracts—Electricity is purchased from Alabama Power Co. and is for the most part generated at that company's large hydro-electric plants. As Alabama Power Co. is itself one of the largest power generating companies in the South and as its system is connected with all the major power companies in the states of Georgia, Tennessee, North Carolina and South Carolina, the Birmingham Electric Co. is assured of a continuous and adequate supply of electric power at all times. Electricity is distributed by the Company over 110 miles of high voltage lines and 816 miles of distribution system. The Birmingham Electric Co. also owns a steam electric generating station with an installed generating capacity of 11,700 k.w. which is now maintained principally for standby purposes.

The gas distributed by the Company in Birmingham is purchased from the by-product coke plant of Sloss-Sheffield Steel & Iron Co. Additional supplies of gas for the Company's present or future needs are available from other large by-product coke plants in the territory served. The Company's gas system includes, in addition to gas generating capacity aggregating 4,870,000 cubic feet per day, which is maintained for standby purposes only, all necessary equipment for purifying the raw gas purchased under contract mentioned above, six holders with an aggregate storage capacity of 9,381,000 cubic feet, and 410 miles of mains.

The street railway system consists of double and single track lines, equivalent to approximately 182

miles of single track. The rolling stock includes 343 passenger cars and other cars and 4 buses.

Franchises—The Company holds from the various governmental subdivisions in which its utility systems are operated valid franchises permitting such operation, all of which are of satisfactory character and are generally free from burdensome conditions. The principal electric and gas franchises and the franchises covering more than 75% of the railway mileage (including substantially all of the major units in the system) are, in the opinion of counsel, without limit as to time and are perpetual. Bus competition with the street railway system was eliminated by municipal ordinance in 1923. The Company's rates, including street railway fares, are subject to the regulation of the Alabama Public Service Commission.

Supervision—The operation of the company's property is supervised, under the direction and control of its own board of directors, by the Electric Bond and Share Co.

Service and Property—The total number of consumers served by the Company and its physical properties as of Dec. 31, 1927, and the output for the twelve months ended Dec. 31, 1927, compared with the five previous years, follow:

CAROLINA POWER & LIGHT COMPANY

(Controlled by National Power & Light Company)

(Supervised by Electric Bond and Share Co.)

History and Properties—Incorporated in 1926, in North Carolina as a consolidation of old Carolina Power & Light Company, Yadkin River Power Co., Asheville Power and Light Company (see 1925 Public Utility Manual, pages 753 to 758, or apply to our Information Department), Pigeon River Power Co., and Carolina Power Co. The purpose of this merger and consolidation was to stabilize production and make ample electric power and light service continuously available and to raise needed capital for large new power developments and important additions to the present properties. In Jan., 1928, Company acquired the properties of the South Carolina Power & Light Co.

The Company supplies directly or indirectly electric power and light service in more than 190 communities in North Carolina and South Carolina, including Raleigh, Asheville, Goldsboro, Henderson, Oxford, Sanford and Rockingham, N. C., and Cheraw, Florence, Marion and Darlington, S. C. It also supplies the street railway and gas service in Raleigh and Asheville. The total population served is estimated at over 435,000. More than 72,000 consumers are served.

Physical properties owned include electric plants with a present installed generating capacity of 84,710 k.w. The two principal stations are a modern new steam station with a present installed generating capacity of 30,000 kw., located on the Cape Fear River, near Moncure, N. C., placed in service in Dec., 1923, and a hydro-electric plant with a present installed generating capacity of 24,000 kw., located at Blewett Falls, on the Yadkin River, near Rockingham, N. C. Other stations have a present installed generating capacity of 34,610 k.w. (including 1,660 k.w. leased capacity) and an additional 34,000 k.w. is purchased under contract from other companies. Of this 118,710 k.w. aggregate available power supply, 57% is hydro-electric. The electric transmission system owned includes 1,820 miles of high voltage transmission lines and 1,565 miles of distributing system. The gas works, located in Raleigh and Asheville, have an aggregate daily generating capacity of 2,140,000 cu. ft. and an aggregate holder capacity of 740,000 cu. ft. The street railway systems in Raleigh and Asheville comprise approximately 34 miles of track.

In order to meet the increasing demand for electrical energy as a result of the expansion of industrial activities in the territory served, there are now under construction two new hydro-electric plants; one on the Yadkin River near Norwood, to have an initial installation of 62,000 k.w.; the other on the Pigeon River on a site near the Tennessee State line, about 25 miles northwest of Asheville. This plant is to have an initial installation of 67,000 k.w. The construction of these plants together with other plans for extensions and improvements, will make necessary the building of a number of new sub-stations and a large aggregate mileage of high voltage transmission system.

Sale of Durham Gas Properties—Company sold its gas properties at Durham, N. C. to Southern Cities Utilities Co., effective Jan. 17, 1928. The properties are being operated by the Southern Cities Utilities Co. under the name of Durham Gas Co.

Franchises—Operations are carried on under favorable franchises, none of which, with few exceptions, expires prior to 1956, while some are unlimited as to time and most of them extend to 1971 or beyond. Transmission lines are on private right of way, held either in fee or through easement.

Supervision—The operation of the properties of the Carolina Power & Light Company is supervised (under the direction and control of the Company's Board of Directors), by the Electric Bond and Share Company.

HOUSTON LIGHTING AND POWER COMPANY

(Controlled by National Power & Light Co.)

(Supervised by Electric Bond and Share Co.)

History—Incorporated Jan. 8, 1906, in Tex., as Houston Lighting & Power Co. 1905. In April, 1922, Company dropped the figures "1905" from its corporate title. Supplies Houston, Texas and 55 adjacent communities with electric power and light. Estimated population served, 314,000.

The first unit of the Deepwater electric generating station, one of the largest in the South, was placed in operation in August, 1924, and the second unit in Sept., 1924. A third unit of 25,000 kilowatts capacity was placed in operation in July, 1927 and the station now has a total installed generating capacity of 65,000 kilowatts. The plant was designed and partially built for an ultimate installation of 180,000 kilowatts. Three independent transmission lines connect the Deepwater station with the Company's Gable Street electric station in Houston and its distributing system and these transmission lines will be shortly supplemented by a 66,000 volt line to a point within two miles of the Gable Street station. The Company's other principal generating station, the Gable Street station, is located near the center of the City of Houston. It has a present installed generating capacity of 32,500 kilowatts.

Service and Property—The total number of consumers served by the Company and the physical equipment of the properties as of Dec. 31, 1927, and the output for the twelve months ended Dec. 31, 1927, compared with the four previous years, follow:

	1927	1926	1925	1924	1923
Electric consumers	73,141	64,010	56,118	48,526	41,112
Kilowatt generating capacity	99,731	73,231	73,076	72,500	32,500
Kilowatt-hours generating station output (including power purchased) for twelve months	362,094,000	263,299,500	199,847,600	161,307,100	129,318,100
Miles of high voltage transmission lines (11,000 volts and over) in operation, irrespective of the number of circuits carried	574	330	176	68	57
Miles of transmission lines (11,000 volts and over) under construction	19	65	41	.....	.....
Miles of electric distributing system (less than 11,000 volts), in service	926	852	775	650	539

Agreement with City—In 1914 an operating agreement was entered into between the Company and the City providing for a return of $160,000 on the property then owned and operated within the City and for a return of 8% on additions, with a division of any excess earnings equally between the Company and the City. This agreement was subsequently modified so as to include all of the property beyond the corporate limits of the City within the terms of the operating agreement and to reduce the lighting rate to

domestic consumers. The results from the operation of this property have been satisfactory.

Franchises—The Company operates in Houston, Tex., under a franchise granted in 1882 which is without limitation as to time, and is free from any burdensome restrictions. In Magnolia Park, a suburb of Houston, the Company operates under a franchise which is also without limitation as to time. In the majority of other communities served by the company, the franchises are either without limitation as to time or extend to the year 1972 or beyond.

CAPITAL STOCK

Authorized and outstanding, Dec. 31, 1927, 250,000 shares Common of no par value and $3,000,000 7% Pfd. of $100 par value. On Jan. 21, 1927, the authorized Common was changed from 200,000 shares of no par value each to 250,000 shares of no par value. The National Power & Light Co. owns all of the Common stock, except directors' shares.

Annual Meeting—Third Monday in March.

Dividends—Initial dividend of $1.75 per share paid April 29, 1922. Regular quarterly dividends of $1.75 a share quarterly ($7 per share per annum) have been paid on Pfd. stock since to date; payments, F, M, A & N 1.

$2,000,000 FIRST LIEN & REFUNDING MORTGAGE 5½% GOLD BONDS, SERIES "C"; DUE MARCH 1, 1954

Dated March 1, 1924.

Interest Payable March and September 1, at Guaranty Trust Co. of New York.

Denominations—Coupon, $100, $500 and $1,000; interchangeable for fully registered bonds in denominations of $1,000 and authorized multiples.

Trustee—Guaranty Trust Co. of New York.

Provisions of Issue—The Mortgage provides for the issue of bonds in series with interest rates, maturity dates, redemption provisions and other terms and conditions to be determined by the Board of Directors at the time of creation of each series. Of the $12,000,000 of bonds (Series "A," "B" and "C"), $5,250,000 were issued against the property as of Dec. 31, 1922. The mortgage provides for the issuance of additional bonds for not more than 80% of the cost or fair value, whichever is less, of permanent additions constructed or acquired subsequent to Dec. 31, 1922, or for an equal amount of cash deposited with the Trustee, provided net earnings as defined in the mortgage for twelve consecutive months within the preceding fifteen months shall have been equal to at least twice the annual interest requirements on (or, at option of company, 12% of the principal amount of) all outstanding bonds, including those proposed to be issued and all underlying bonds and all obligations secured by prior liens not pledged under the mortgage. Additional bonds may also be issued for the purpose of refunding an equal principal amount of underlying bonds, any bonds secured by this mortgage and any prior lien obligations. Cash deposited with the Trustee as provided above may be withdrawn on the basis of 80% of the cost or fair value of permanent additions, and also against the retirement of an equal principal amount of bonds secured by this mortgage, or underlying bonds or obligations secured by prior liens.

Callability—Subject to call in whole or in part upon four weeks' notice at any time on or before Feb. 28, 1929, at 105; thereafter at 1% less for each five-year period to and including Feb. 28, 1949; thereafter to and including Feb. 28, 1951, at 100½; and thereafter at par, plus accrued interest in each case.

Maintenance and Renewal Fund—The mortgage provides that the Company shall on or before April 1 of each year, beginning April 1, 1924 pay to the trustee, as a Maintenance and Renewal Fund, a sum equal to 4½% of all underlying and prior lien bonds and all bonds issued under this mortgage outstanding at the close of the preceding calendar year as long as less than $7,650,000 of such bonds are outstanding, and thereafter a sum equal to 4% of such bonds outstanding less, in either case, a credit on account of actual expenditures for maintenance, repairs, renewals and replacements to the mortgaged property. This fund may be withdrawn to reimburse the Company for expenditures made for further maintenance, repairs, renewals and replacements or permanent additions against which no bonds may thereafter be issued under the mortgage. Any unused balance may be used for the retirement of bonds issued under the mortgage and any such balance amounting to $50,000 or over remaining after thirty-six months shall be so used.

Security—These bonds are secured equally with Series "A" and "B" bonds by a direct mortgage, subject to $2,403,000 underlying First Mortgage Bonds (closed mortgage), on all the present physical property and franchises of company and, through deposit with the Trustee of $2,100,000 First Mortgage bonds, share in their security. The mortgage contains provisions permitting the modification thereof and of the rights and obligations of the Company and the holders of bonds issued under said mortgage, with the consent of the Company, by the affirmative vote of at least 80% (or 90% in certain cases) in amount of the bonds then outstanding, not including any bonds owned by the Company, at a meeting of the bondholders especially called for that purpose.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mill tax refunded upon application.

Original Offering—First publicly offered ($2,000,000) in March, 1924, at 96½ and interest to yield about 5¾%, by Halsey, Stuart & Co., New York, etc.

Listed—Boston Stock Exchange.

KNOXVILLE POWER & LIGHT COMPANY

(Controlled by National Power & Light Co.)

(Supervised by Electric Bond and Share Co.)

History—Incorporated Aug. 7, 1905, in Tenn., as a consolidation of the Knoxville Traction Co. and the Knoxville Electric Light & Power Co. Formerly known as Knoxville Ry. & Light Co., but name changed to present title during 1922. Does the entire electric power and light business in Knoxville, Fountain City and Bearden, Tenn., and in eight adjacent communities; also owns and operates all the street railway lines in Knoxville and two adjacent communities. Population served is estimated at 113,000.

The Company owns a modern transformer, switching and distribution system. A high-voltage, steel-tower transmission line connects the Company's main plant with the transmission system of the Tennessee Electric Power Company, from which the Knoxville Power & Light Company purchases power under a favorable contract. The Company also owns a reserve generating station of 6,800 k.w. capacity.

The street railway system is comprised of 53 miles of single-track equivalent, with adequate car barns and other facilities. The majority of the cars are now operated by the one-man system.

Franchises—Franchises for both street railway and electric power and light are perpetual, except for 1½ miles of railway on two unimportant streets which expire in Nov., 1946.

Service and Property—The service and property of

the Company as of Dec. 31, 1927, together with the Kilowatt-hours output and the number of passengers carried for the twelve months ended Dec. 31, 1927, compared with the four previous years follow:

MEMPHIS POWER & LIGHT COMPANY

(Controlled by National Power & Light Co.)

(Supervised by Electric Bond and Share Co.)

History—Incorporated Dec. 16, 1922, in New Jersey, and took over the property formerly owned and operated by the Memphis Gas & Electric Co. (see 1922 Public Utility Manual, page 2445). The company does the entire power and light and the entire gas business in the city of Memphis, Tenn., and does also the electric power and light business in the remainder of Shelby County, serving 13 communities with a total population estimated at over 210,000.

The Company owns two electric generating stations with a combined installed generating capacity of 54,000 k.w., including a 20,000 k.w. unit placed in service, in 1925 to meet the urgent demand for more power.

The Company has an extensive distributing system of 465 miles and 186 miles of transmission lines.

The gas property consists of a water gas manufacturing plant with a daily capacity of 12,000,000 cubic feet, a holder and booster plant, and 293 miles of gas mains. There are six gas holders with an aggregate capacity of 4,900,000 cubic feet.

The Company owns all the capital stock, except directors' shares, of The Memphis Street Railway Company doing the street railway business in the City of Memphis and surrounding territory, and supplies all the current required for street railway purposes.

The total number of consumers served by the Company and the physical equipment of its properties as of Dec. 31, 1927, and the output for the twelve months ended Dec. 31, 1927, compared with the four previous years, follow:

	1927	1926	1925	1924	1923

Miles of gas mains	293	270	253	244	229

*Including a new 20,000 kilowatt unit placed in service in 1925.

Franchises—The Company's electric franchise does not expire until 1952, and its gas franchise is without limit as to time. Both are free from burdensome restrictions.

CAPITAL STOCK

Authorized, 1,000,000 shares Common and 150,000 shares Pfd., both classes of no par value; outstanding Dec. 31, 1927, 400,000 shares Common, 30,000 shares $7 Series cumulative Pfd. and 6,387 shares $6 Series cumulative Pfd. Capital stock changed from 400,000 shares Common of no par value and 75,000 shares Pfd. of no par value in April, 1927. The National Power & Light Co. owns all the outstanding Common stock, except directors' shares.

Preferred Stock Provisions—The total authorized amount of Pfd. stock is 150,000 shares, of which 31,000 shares shall be designated Pfd $7 Series and 30,000 shares shall be designated Pfd. $6 Series. The remaining 89,000 shares of Pfd. stock may be issued from time to time and constituted and designated by the Board of Directors as Pfd. stock, $7 Series, or as Pfd. stock of one or more different series, each such different series to have such (1) designation, (2) dividend rate, (3) redemption provisions, (4) rights in case of dissolution or distribution of assets and (5) such other provisions with respect to terms or amount of any sinking fund provided for the purchase or redemption thereof, as determined by the Board of Directors, provided that every series of Pfd. stock shall be equal in all other respects. The $6 Pfd. stock is entitled to cumulative dividends of $6 per share per annum; the $7 Pfd. stock is entitled to cumulative dividends of $7 per share per annum. $6 Pfd. stock is entitled, pari passu with the $7 Pfd. stock to $100 per share and accumulated dividends in case of liquidation and both series are subject to redemption upon vote of a majority of the outstanding Common at $110 per share and accumulated dividends. Both the Pfd. stocks, the $7 Series and the $6 Series, have preference pari passu over the Common as to assets and dividends.

Transfer Agents (Preferred Stock)—Registrar and Transfer Company, Jersey City, N. J., and Union & Planters Bank & Trust Co., Memphis, Tenn.

Registrars—The Corporation Trust Co., Jersey City, N. J., and Bank of Commerce and Trust Co., Memphis, Tenn.

Dividends—Pfd. dividends are paid quarterly, J, A, J & O 1. Initial dividend was paid on the $7 Pfd. April 2, 1923. Regularly thereafter at rate of $7 per share per annum. Initial quarterly dividend of $1.50 per share was paid on the $6 Pfd. stock July 1, 1927; payments regularly thereafter quarterly, J, A, J & O 1.

(3)

$7,500,000 MEMPHIS POWER & LIGHT COMPANY FIRST & REFUNDING MORTGAGE GOLD 5s, SERIES "A," DUE JANUARY 1, 1948

Dated January 1, 1923.

Interest Payable January and July 1, at Central Union Trust Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered; and fully registered bonds of $1,000 and $5,000. Coupon bonds of $1,000 each and fully registered bonds interchangeable.

Trustee—Central Union Trust Co., New York.

Provisions of Issue—The mortgage securing the First & Refunding Mortgage Gold bonds does not directly limit the aggregate amount of bonds which may be issued thereunder, but provides among other things that additional bonds either of Series "A" or "B" or of other series which shall have such rates of interest, maturity dates and other provisions as the Board of Directors may determine, may be issued as follows: (a) for the purpose of refunding, par for par, underlying or Prior Lien bonds or First & Refunding Mortgage bonds of any other series and (b) for not more than 75% of the cost or fair value, whichever is less, of construction or acquisition, of permanent improvements or additions to the mortgaged property, and (c) for an equal amount of cash deposited with the Trustee, which may be withdrawn for the purposes specified in (a) and (b) above.

No additional bonds may be issued, except for refunding purposes, unless net earnings, as defined in the mortgage, for twelve consecutive calendar months out of the fifteen immediately preceding application for issue shall have been at least equal to either (1) twice the actual annual interest requirements on, or (2) twice 6% of the principal amount of, the outstanding underlying bonds and all First & Refunding Mortgage Gold bonds issued and outstanding, including those proposed to be issued.

Callability—Subject to call as a whole or in part on 4 weeks' notice on any time on or before Jan. 1, 1928 at 105 and interest; thereafter at 104 and interest through Jan. 1, 1933; thereafter at 103 and interest through Jan. 1, 1938; thereafter at 102 and interest through Jan. 1, 1943; thereafter at 101 and interest through Jan. 1, 1946; and thereafter at 100 and interest until maturity.

Maintenance and Renewal Fund—In the mortgage securing these bonds the Company covenants to pay to the Trustee on or before April 1 in each year, beginning with the year 1924, as a Maintenance and Renewal Fund, an amount of money equal to 5% of the aggregate principal amount of all underlying and Prior Lien bonds and all First and Refunding Mortgage Gold bonds which were outstanding at the close of the next preceding calendar year, less the amount of actual expenditures for maintenance, repairs, renewals and replacements during such year. This fund may be withdrawn for further maintenance, repairs, renewals and replacements, or improvements and additions against which no First and Refunding Mortgage Gold bonds may be issued. Any unused balance may be used for the retirement of underlying bonds or First and Refunding Mortgage Gold bonds and any such balance of $25,000 or over remaining after 24 months shall be so used.

Security—These bonds are the direct obligations of Memphis Power & Light Co. and are secured equally with the Series "C" bonds by a direct first mortgage upon a substantial portion of the present property including the 54,000 k.w. Fourth Street generating station (which includes a new 20,000 k.w. unit placed in service in 1925), and a direct mortgage upon the remainder of the physical property subject only to two issues of underlying (closed) mortgage bonds, aggregating $1,760,000 principal amount outstanding, which mature in 1929 and 1931 respectively.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mill tax refundable.

Legal Opinion—Stetson, Jennings & Russell, New York.

LEHIGH POWER SECURITIES CORPORATION

(Controlled by National Power & Light Company)
(Supervised by Electric Bond and Share Company)

History—Incorporated in Jan., 1926 in Delaware as a consolidation of the United Securities Company and the former Lehigh Power Securities Corp. The United Securities Co. was formed by the United Gas and Electric Corporation to acquire from it all of the properties in and around Lancaster and Harrisburg. Under the terms of consolidation The United Gas and Electric Corp. received $11,000,000 in cash and 130,000 shares of no par value $6 cumulative Pfd. stock of present corporation.

The Common stock of the former Lehigh Power Securities Corp. was held under a Voting Trust Agreement, which was dissolved Jan. 23, 1926, and the holders of the voting trust certificates received ten shares of no par value Common stock of present Corporation for each share of stock of old corporation.

Acquistion by National Power & Light Company—Under a Plan and Agreement dated Jan. 25, 1928, the Lehigh Power Securities Corporation is being acquired by the National Power & Light Company through exchange of stock. Under the Plan the National Power & Light Company is issuing its $6 Pfd. stock and Common stock in exchange for the $6 Pfd. stock and Common stock of Lehigh Power Securities Corporation on a share for share basis. It was reported on May 17, 1928, that more than 97% of the Lehigh Power Securities Corporation's stock had been deposited. The time limit for the deposit of securities was set for June 15, 1928. The depositaries are American Exchange Irving Trust Co., New York; The Pennsylvania Company for Insurances on Lives and Granting Annuities; Philadelphia and Old Colony Trust Company, Boston.

The Lehigh Power Securities Corporation now owns all the common stock of the Pennsylvania Power & Light Company, a substantial majority of both classes of stock of the Lehigh Valley Transit Company, all the Common stock of Harrisburg Light & Power Company and Lancaster County Railway & Light Company, and all Preferred and Common stock of Valley Railways. The Lehigh Power Securities Corp. also controls the Muncy Electric Light, Heat and Power Company, Carlisle Gas & Water Company, and The Mauch Chunk Gas Company.

Pennsylvania Power & Light Company owns all the Common stock and more than 83% of the Pfd. and Second Pfd. stocks of the East Penn Electric Company and all the capital stock of several other smaller companies.

Lehigh Valley Transit Co. controls, among other companies, through ownership of all outstanding capital stock, except directors' shares, the Easton Consolidated Electric Co., whose properties it also operates under lease. The latter Company controls, through stock ownership of all capital stock, except directors' shares, The Edison Illuminating Co. of Easton, The Pennsylvania Motor Co. and Easton Transit Co. The latter company controls, through stock ownership, the Easton Amusement Co. and Phillipsburg Transit Co.

Territory and Service—The operating companies serve an extensive and prosperous industrial territory in eastern Pennsylvania, including the cities of Allentown, Bethlehem, Easton, Wilkes-Barre, Hazleton, Williamsport, Milton, Sunbury, Harrisburg and Lancaster. In the territory served, which has a population estimated at 1,650,000, are many diversified industries, including iron and steel works, anthracite coal mines, steel car and automobile works, silk mills, cement mills and the like.

The total number of principal communities served is 529. Electric power and light service is supplied in 498 communities, including those served at wholesale, and manufactured gas service is supplied in 28 cities and towns, including 1 served at wholesale. Transportation service is also supplied in 141 principal communities by controlled companies operating street and interurban railway lines with 497 miles of track.

Pennsylvania Power & Light Company serves a population estimated to exceed 946,000. It includes the important Allentown-Bethlehem industrial section near the eastern boundary of Pennsylvania, thence extends westward through the heart of the anthracite coal district in and around Wilkes-Barre, Hazleton, Shenandoah, Mount Carmel, and Shamokin, into the industrial and agricultural section along the Susquehanna River in and around Berwick, Bloomsburg, Danville, Milton, Williamsport and Lock Haven. Total consumers served include 174,089 supplied with electric power and light and 32,093 with gas service.

East Penn Electric Company supplies electric power and light service to 54 principal communities, including Pottsville, Tamaqua, Lansford, Minersville, Ashland, St. Clair, Coaldale, Frackville, Summit Hill and Schuylkill Haven, serving more than 26,400 consumers. It also supplies interurban railway service to 22 communities. Total population served is estimated at 198,000.

Lehigh Valley Transit Company and its subsidiaries own and operate an extensive system of city and interurban railway lines, including a high-speed interurban railway from Easton through Bethlehem and Allentown to Philadelphia. Total population served is estimated at 319,700.

Harrisburg Light & Power Company supplies electric power and light service in the cities of Harrisburg and Steelton and in 13 other communities in adjacent territory, serving a population estimated at 125,000. There are more than 31,600 electric consumers.

Lancaster County Railway & Light Company controls, directly or indirectly, through stock ownership the companies which supply electric power and light in Lancaster and vicinity, and gas service in Lancaster and Columbia. It also controls the companies supplying electric railway service in Lancaster, Lebanon, Coatesville, Columbia, Lititz and 42 other principal communities, together with an extensive rural territory in Lancaster County and adjoining counties. The total population thus served exceeds 218,000.

Valley Railways operates electric railway lines connecting Harrisburg with Enola, Lemoyne, Marysville, New Cumberland, Shiremans Town, Camp Hill, Mechanicsburg, Boiling Springs and Carlisle and, through a subsidiary, serves with electric power and light more than 7,600 consumers in this district. Total population served is estimated at 127,000.

Supervision—The operations of Lehigh Power Securities Corp. and its subsidiaries are supervised (under the direction and control of the Board of Directors of the respective companies) by the Electric Bond and Share Company.

Franchises—In the opinion of counsel, the franchises of the operating companies generally are free from burdensome restrictions, and a very substantial number of them are without time limit. Public relations of subsidiaries are satisfactory.

Statistical Data—The total number of consumers served by all the operating companies and the physical equipment of the properties at Dec. 31, 1927, together with the kilowatt-hour output, gas sendout and num-

ber of passengers carried for the year ended on that date, as compared with statistics for the properties owned in 1926 and 1925, follow:

LEHIGH VALLEY TRANSIT COMPANY

(Controlled by Lehigh Power Securities Corp.)

(Supervised by Electric Bond and Share Co.)

History—Incorporated Nov. 3, 1905, in Pennsylvania. Owns entire capital stock of the Allentown Bridge Co., which owns a toll bridge of reinforced concrete 2,600 ft. long, connecting two wards in Allentown.

The subsidiaries of the Lehigh Valley Transit Co. are Central Park Amusement Co., Lehigh Valley Realty Co., Allentown Bridge Co., Lehigh Valley Stone & Construction Co., Easton Consolidated Electric Co., Easton Transit Co., Phillipsburg Transit Co., Easton Amusement Co. and The Edison Illuminating Co. of Easton, and Lehigh Valley Transportation Co.

The Lehigh Valley Transportation Co. was created in 1925 to supply transportation by motor vehicles and has in operation 16 motor buses covering four routes.

In April, 1912, the Company purchased one-half of the stock of Norristown Transit Co., thereby obtaining a permanent entrance into Norristown and a connection with the Philadelphia & Western Ry. By virtue of a traffic arrangement the use of the latter's tracks between Norristown and Philadelphia and an entrance into the subway-elevated terminal station of the Philadelphia Rapid Transit Co. at 69th and Market Sts., Philadelphia, is secured. Through service into Philadelphia was inaugurated Dec. 12, 1912. Leases Bethlehem & Nazareth Passenger Ry. for 99 years at 5% on stocks and bonds. Owns all the outstanding stock of the Easton Consolidated Electric Co. except qualifying shares held by directors. Total railway passengers carried, year ended Dec. 31, 1926, 63,524,000; 1925, 61,389,765.

Franchises are in every instance without time limit and involve no burdensome restrictions. Population served, over 318,000.

Mileage and Equipment—The Lehigh Valley Transit Co. operates over 202.86 miles of track, including controlled lines, extending from Allentown to Philadelphia (Chestnut Hill), Norristown, Macungie, Slatington, Egypt, Northampton, Nazareth, Bethlehem and Hellertown. Passenger, freight, service and other cars, 281. Company owns an electric generating plant in Allentown, having a present installed capacity of 40,812 k.w.

Bus Lines Operated—New motor bus routes have been established on the lines of Easton Transit Company to Glendon and West Easton and in the Lehigh Valley Transit territory from Allentown to Nazareth via Bath, making a total of 20 motor buses now operated over six routes.

CAPITAL STOCK

Authorized, $3,000,000 Common and $5,000,000 5% cumulative Pfd.; outstanding, $2,997,350 Common and $4,979,687 Pfd.; par, $50. Company controls through ownership of outstanding stock, except directors' shares, the **Shenandoah Light, Heat & Power Co.**, the **Hazel Township Water Co.**, the **Harwood Coal Co.** and the **Harwood Store Co.**

Company has acquired all the Common stock and more than 83% of the combined total of Pfd. and Second Pfd. stocks of the East Penn Electric Co. largely in exchange for its cumulative $7 Preferred stock (see appended statement of East Penn Electric Co.)

Territory Served—The Company operates in an extensive and industrially important territory in Eastern Pennsylvania, serving with electric power and light and with some manufactured gas a total estimated population of 946,000. About 92% of the gross revenues are derived from the sale of electricity, 7% from the sale of gas, and 1% from steam and hot water services. The territory served includes the district in and about Allentown, Bethlehem, Northampton and Slatington, one of the most industrially important, prosperous and densely populated districts of the State;

the anthracite district in and around Wilkes-Barre, Hazleton, Shenandoah, Mahanoy City, Shamokin and Mount Carmel, and the industrial and agricultural section along the Susquehanna River, including the cities of Berwick, Bloomsburg, Danville, Milton, Williamsport, and Lock Haven.

Among the many large industries supplied by the Company with electric power are the Bethlehem Steel Co., the Lehigh Coal & Navigation Co., the Lehigh Valley Coal Co., the Locust Mountain Coal Co., the Lehigh Brick Works, the Duplan Silk Co., the Lehigh Valley Silk Co., the Magee Carpet Co., the American Car & Foundry Co., the Lawrence Portland Cement Co., the Sheldon Axle & Spring Works, the Mack Trucks, Inc., and 23 other coal mining and 7 other cement manufacturing companies.

Property—The Company owns electric generating plants having a present installed capacity of 246,580 k.w. The Company's transmission system is also operated in connection with the generating plant of the Lehigh Valley Transit Co. at Allentown having a generating capacity of 40,812 k.w.

Among the principal electric generating plants owned by Company are the Harwood, located at Harwood Mines, near Hazleton, Pa., having a present installed generating capacity of 41,500 kw., and the Hauto, located at Hauto, near Lansford, Pa., having a present installed generating capacity of 70,000 k.w. The electric generating capacity of the Harwood plant includes a new 12,500 k.w. generating unit placed in commercial operation Nov. 28, 1921, and the electric generating capacity of the Hauto plant includes a new 20,000 k.w. generating unit placed in commercial operation Dec. 17, 1921, and an additional 20,000 k.w. generating unit which was placed in operation in 1923.

These plants are located in the heart of the anthracite district and are advantageously situated both in respect to obtaining fuel and to supplying service. Both plants use small sizes of anthracite not well suited for domestic use. The company has long-term contracts for fuel for the operation of the plants with coal companies having mines in their immediate neighborhood. The contract insuring a supply of coal for the operation of the Hauto plant extends for 50 years from 1917, and the contract for coal for the Harwood plant extends until 1933.

At Stanton the Company has completed jointly with American Gas and Electric Co., the construction of a modern steam electric generating station, which is expected ultimately to replace smaller and less efficient stations at present in operation. The rated initial installed electric generating capacity for each company is 36,000 k.w., and each company having its independent turbine room, switchboard, switchyard and outgoing transmission lines.

To provide for continuity of service, more efficient system operation and for new business, 70,000 k.w. of additional capacity have recently been placed in operation, 40,000 k.w. in the Company's new hydro-electric plant located on Wallenpaupack Creek near Hawley, consisting of two 20,000 k.w. units installed in June, 1926, and 30,000 k.w. in a new steam station adjacent to the Pine Grove station of the East Penn Electric Company, and which was also placed in operation in June, 1926. The electrical energy from the Wallenpaupack plant is being fed 65 miles to the south into the Company's present system over a new 65-mile, 220,000 volt, steel-tower transmission line, recently placed in operation.

All the electric properties now in service are interconnected by high-voltage transmission lines. Altogether, the Company owns 778 miles of high-voltage transmission lines (11,000 volts or over) and 3,596 miles of distributing lines.

The eight gas properties owned directly by Pennsylvania Power & Light Company, and one through a subsidiary, The Shenandoah Light, Heat and Power Company, include generating capacity of 9,815,000 cubic feet per day, holder capacity of 3,958,000 cubic feet, and 277 miles of gas mains.

Franchises—The franchises under which the Company operates are generally satisfactory and a large proportion of them are unlimited as to time. Public relation is satisfactory.

Control and Supervision—Company is controlled by the Lehigh Power Securities Corp. through ownership of the entire outstanding amount of Common stock. The property is under the supervision of the Electric Bond and Share Company.

Interest Payable Series "A" February and August 1; Series "B" April and October 1, and Series "C" and "D" March and September 1, all at Guaranty Trust Co. of New York.

Denominations—Coupon, $500, and $1,000; principal may be registered; $500 bonds exchangeable for $1,000 bonds aggregating like principal amounts; fully registered bonds in denominations of $1,000 and $5,000; coupon bonds of $1,000 denomination and fully registered bonds interchangeable.

Trustee—Guaranty Trust Co. of New York.

Provisions of Issue—Authorized amount unlimited; issued to Dec. 31, 1927, $8,000,000 Series "A" 7s, $7,000,000 Series "B" 5s, $4,000,000 Series "C" 6s and $18,000,000 Series "D" 5s.

Provisions of Issue—The Mortgage securing the First & Refunding Mortgage bonds does not directly limit the aggregate amount of bonds which may be issued thereunder, but provides, among other things, substantially as follows: Additional bonds may be issued to an amount not exceeding 75% of the cost or fair value, whichever is less, of the construction or acquisition subsequent to Sept. 25, 1920, of electric light and power and gas property. No bonds may be issued thereunder, for other than refunding purposes, unless net earnings, as defined in the mortgage, for 12 consecutive calendar months out of the 15 immediately preceding application for issue, shall have been at least equal to twice the annual interest requirements of outstanding underlying bonds not deposited under this Mortgage plus twice (except in respect of certain additional bonds defined in the mortgage one and three-quarter times) the annual interest requirements of all First & Refunding Mortgage bonds then outstanding, including those then proposed to be issued.

A supplemental mortgage (operative when Series A, B and C bonds have been retired or have consented thereto) may be made to provide for changing certain restrictions and provisions in the original Mortgage to permit the issuance of bonds maturing later than 1961, remove the restrictions with respect to earlier maturities than those of series outstanding, make the deposit of prior lien bonds with the Trustee equivalent, for certain purposes of the Mortgage, to reduction or payment of prior liens, and provide that in the issuance of bonds or withdrawal of cash or property against permanent additions subject to prior lien there shall be no deduction for prior liens previously deducted.

Callability—Series "A", "B", "C" and "D" bonds are subject to call as a whole or in part on any interest date on thirty days' notice at the following prices: Series "A" at par and interest plus a premium of 7½% to February 1, 1922, less ¼ of 1% for each full year of expired life; Series "B" at 105 and interest on or before Oct. 1, 1927, at 104 in the next five years, at 103 in the next five, at 102 in the next five and at 101 in the next five, and at 100½ thereafter to maturity; Series "C" at 106 on or before Sept. 1, 1928, the premium decreasing 1% for each five-year period and fraction thereof elapsed thereafter to and including March 1, 1952 and thereafter at 100; Series "D" at 105 on or before Sept. 1, 1928, the premium decreasing 1% for each five-year period elapsed thereafter to and including Sept. 1, 1948, and at 100½ thereafter prior to maturity.

Renewal and Improvement Fund—The Company covenants to pay to the Trustee, on April 1 in each year, as a Renewal and Improvement Fund, a sum equal to 5% of the principal amount of all underlying bonds and First & Refunding Mortgage bonds outstanding (as provided in the mortgage) at the end of the preceding calendar year, less the amount of actual expenditures for maintenance, repairs, renewals and replacements during such year, which fund may be withdrawn for further maintenance, repairs, renewals, replacements and improvements and additions, against none of which shall any First & Refunding Mortgage bonds be issued. Any unused balance may be used for the retirement of bonds of this issue or underlying bonds, and any such balance of $25,000 or more remaining after 24 months shall be so used.

EAST PENN ELECTRIC COMPANY

(Controlled by Pennsylvania Power & Light Co.)

(Supervised by Electric Bond and Share Company)

History—Incorporated July 6, 1922, in Pennsylvania and acquired and now owns in fee the property of the Eastern Pennsylvania Rys. Co. and its subsidiaries, and the Lykens Valley Light & Power Co. (see 1923 Public Utility Manual, page 476). In addition it controls Pine Grove Electric Light, Heat & Power Co. by ownership of entire outstanding stock. The company supplies electric power and light to 54 principal communities, including Pottsville, Tamaqua, Lansford, Minersville, Ashland, St. Clair, Coaldale, Frackville, Summit Hill and Schuylkill Haven. It also supplies interurban railway service to 22 communities. On March 26, 1923, the subsidiary companies previously listed and the Eastern Pennsylvania Rys. Co. (for last published statement see 1922 Public Utility Manual, page 709) were merged into the Eastern Pennsylvania Power & Ry. Co., which subsequently in turn was merged with the East Penn Electric Co.

Electric Department—Present installed generating capacity consists of two 12,500 k.w. turbo-generators. The first unit was placed in operation Sept. 29, 1923, and the second on Nov. 10, 1923. There has also been installed 3,000 k.w. capacity for station auxiliaries. A 66,000 volt transmission line connects this station with the company's lines at Pottsville. A 2,650 k.w. generating station at Williamstown, Pa., supplies the surrounding territory. A transmission line has been constructed connecting this territory with the Pine Grove station.

The station located at Palo Alto, which has a capacity of 10,200 k.w. is available as a reserve and to carry peak loads if required. All current is generated by steam, and power is produced at minimum expense. The territory served is in the heart of the anthracite coal region in Pennsylvania, centering in Schuylkill County.

Schuylkill County lies wholly within the super-power zone in the sub-division called Anthracite, in the super-power scheme designed for the Department of the Interior of the U. S. Government covering the territory between Boston and Washington. The company's own transmission and distribution lines cover the territory, and all contracts with municipalities for public lighting are based on fair and satisfactory rates.

Railway Department—The lines owned and controlled aggregate 63 miles, including a trunk line from Pottsville to Mauch Chunk via Yorkville, Minersville, Palo Alto, Mount Carbon, New Philadelphia, Middleport, Cumbola, Belmont, St. Clair, Port Carbon, Schuylkill Haven, Adamsdale, Orwigsburg, Glen Carbon, Coal Castle, Tumbling Run, Tuscarora, Brockton, Tamaqua, Lansford, Nesquehoning and Summit Hill.

Number of Electric Consumers and Sales—During 1927 the Company added more than 1,414 consumers to its electric department and now serves 26,404 consumers.

Franchises—All franchises are perpetual or for a long term and the street railway lines are in a large measure built on private right of way. Population served is 198,000.

Control—In the spring of 1925 Pennsylvania Power & Light Co. acquired control of the East Penn Electric Co. through an exchange of stock on the following basis: For each share of East Penn Electric Co. First Pfd. or Second Pfd. both of no par value, there was issued in exchange one share of cumulative $7 Pfd. stock of no par value of Pennsylvania Power & Light Co., and for each share of East Penn Electric Co. Common stock of no par value there was issued in exchange two-thirds of a share of $7 Pfd. stock of Pennsylvania Power & Light Co. The Pennsylvania Power & Light Co. now owns all the Common stock and more than 83% of the Pfd. and Second Pfd. stocks of the Company.

CAPITAL STOCK

Authorized, 150,000 shares Common no par value, 50,000 shares no par value First Pfd. (dividends at the rate of $7 per annum beginning Jan. 1, 1923), and 10,000 shares no par value Second Pfd., (dividends at the rate of $8 per annum beginning April 1, 1923); issued, 103,805 shares Common, 20,955 shares First Pfd. and 9,138 shares Second Pfd. Pennsylvania Power & Light Co. owns all the Common stock and more than 83% of the Pfd. and Second Pfd. stocks of the Company.

Transfer Agents—Maitland, Coppell & Co., New York.

Registrar—American Exchange Irving Trust Co., New York.

Preferred Stock Provisions—The First Pfd. stock is preferred over the Second Pfd. and Common stocks as to assets and as to cumulative dividends at the rate of $7 per share per annum. Upon voluntary dissolution of the company, the First Pfd. stock is entitled to $115 per share and accrued dividends, and upon involuntary dissolution to $100 per share and accrued dividends. It may be redeemed in whole or in part on any dividend date upon 30 days' notice at $115 per share and accrued dividends. No class of Pfd. stock superior to this issue can be created without the consent of the holders of two-thirds of the outstanding First Pfd. stock. In case dividends are in arrears to the extent of $10.50 per share on the First Pfd. stock and $12 per share on the Second Pfd. stock and as long thereafter as the dividends in arrears aggregate $3.50 per share on the First Pfd. stock and $4 per share on the Second Pfd. stock, these stocks will share voting power with the Common stock.

Dividends—Initial dividend on First Pfd. was paid April 1, 1923 and quarterly (J, A, J & O 1) since; on Second Pfd., initial payment was made July 1, 1923 and quarterly (J, A, J & O 1) since.

Provisions of Issue—Authorized amount unlimited. Of the first series $3,829,500 have been issued, of which $1,329,500 are held in the treasury, leaving $2,500,000 bonds in the hands of the public. Additional bonds may be issued to (a) retire underlying issues, or (b) provide not in excess of 75% of the cash cost or fair value of additional property, provided net earnings as defined in the mortgage for twelve consecutive months out of the preceding fifteen months shall have been not less than 1¾ times the annual interest charges on all bonds outstanding and to be issued, and on all other secured bonded debt as defined in the mortgage.

Improvement Fund—The mortgage provides an improvement fund, requiring an annual expenditure for maintenance, extensions and additions, not subject to the issuance of additional bonds, in an amount not less than 8% of the gross earnings of the electric properties, 7½% of the gross of the gas properties and 15% of the gross earnings of the electric railway properties. If such amount is not expended, the unexpended portion shall be deposited with the Trustee and used for the retirement of bonds.

Security—Secured by a first mortgage on the new Pine Grove power plant and upon all real estate and plants hereafter acquired. Further secured by mortgage on all other property of the company, subject to underlying bonds listed above, and by deposit as collateral of $829,500 Eastern Pennsylvania Rys. Co. First Mortgage 5% bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Free from Pennsylvania Four mills tax.

Legal for Savings Banks in Maine.

Original Offering—First publicly offered ($2,500,000) in Feb., 1923, at 97 and interest, to yield over 6.20%, by J. G. White & Co., Inc., Spencer Trask & Co. and Marshall Field, Glore, Ward & Co., New York.

Legal Opinion—Murray, Prentice & Aldrich, New York (for the Bankers) and Roberts, Montgomery & McKeehan, Philadelphia (for the Company).

CAPITAL STOCK

Authorized, 500,000 shares Class "A" participating cumulative Preferential stock of no par value, 1,000,000 shares Class "B" stock of no par value, and 100,000 shares $7 cumulative Pfd. stock, of no par value; outstanding, Jan. 31, 1928, 187,008 shares Class "A" stock, 577,904 shares Class "B" stock, and 37,807 shares $7 cumulative Pfd. stock.

$7 Preferred Stock Provisions—Pfd. stock is entitled to cumulative dividends at rate of $7 per share per annum, before any dividend shall be paid on Class "A" or Class "B" stocks. It is subject to redemption as a whole or in part for the benefit of the sinking fund or otherwise, on any dividend date at $115 per share and accrued dividends on 60 days' notice. In event of liquidation, if voluntary, Pfd. stock shall be entitled to receive $115 and accrued dividends per share; if involuntary, it is entitled to receive $100 and accrued dividends before any distribution shall be made to Class "A" and/or Class "B" stocks. Upon and during a default in payment of dividends to the amount of $7 per share on Pfd. stock each share of said stock carries the same voting rights as are possessed by the holder of a share of Class "B" stock. No Pfd. stock over the original issue of 25,000 shares shall be issued unless net assets of the Corporation are at least equal to $250 per share for each share of Pfd. stock outstanding and to be issued; and unless net earnings of the Corporation are at least equal to 2½ times the dividend requirements on the Pfd. stock outstanding and to be issued. Without the consent of 2/3 of the outstanding Pfd. stock no other class of stock having any preferences or priorities over the Pfd. stock shall be authorized, nor shall the present Pfd. stock be increased, nor shall Corporation create any indebtedness (other than purchase money mortgages) maturing more than one year from the date thereof without like consent. Proceeds from sale of the original issue of 25,000 shares were used for the acquisition of stocks of subsidiary companies and for other corporate purposes.

Preferred Stock Sinking Fund—The charter of the Corporation requires it to pay, on or before Jan. 31, of each year, commencing Jan. 31, 1926, to a sinking fund to be used for the purchase and redemption of the $7 cumulative Pfd. stock, the following amounts: (a) $2.50 for each share of such stock issued prior to Jan. 1 of the preceding year, and a fraction of $2.50 for each share of such stock issued during the preceding year in proportion to the number of months during which such stock has been issued; (b) 20% of the net earnings of the Corporation for the preceding calendar year that are applicable to and payable as dividends upon the Class "B" stock. Through the operation of this sinking fund the Company has already acquired 1,966 shares of this issue for retirement.

Provisions of Class "A" Stock—Class "A" stock is entitled to receive ordinary dividends cumulative from October 15, 1924 of $3.50 per share per annum before any dividends can be paid to Class "B" stock. In any year in which dividends at the rate of $3.50 per share per annum have been paid or provided for the Class "A" stock, then a dividend at the rate of $1 per share per annum may be paid on Class "B" stock. Whenever in any year the foregoing dividends have been paid or provided for then all subsequent dividends declared or paid in such year shall be so declared and paid upon the Class "A" and Class "B" stock, share and share alike, until Class "A" stock has received a participating dividend of $1.50 per share, making a total dividend of $5 per share for such year, and then all subsequent dividends in such year shall accrue to the Class "B" stock.

Class "A" stock has preference up to $60 per share and accrued ordinary dividends in the event of liquidation before any distribution shall be made to Class "B" stock and may be redeemed in whole or in part on 60 days' notice on any dividend date at $60 per share and accrued ordinary dividends.

Class "A" stock is not entitled to vote until and so long as the ordinary dividend is in arrears to the amount of $3.50 per share. Such voting power is subject to restrictions and qualifications as set forth in the amended certificate of incorporation and the articles supplementary thereto, copies of which will be furnished on request.

Transfer Agents—For Class "A" and Class "B" stocks: Empire Trust Co., New York, State Street Trust Co., Boston, and National Trust Co., Ltd., Toronto. For Pfd. stock: Empire Trust Co., New York, and Continental National Bank & Trust Co., Chicago.

BUFFALO AND ERIE RAILWAY COMPANY

(Controlled by International Utilities Corp.)

History and Property—Incorporated in July, 1924, in New York, and acquired as per Plan of Reorganization of the Buffalo & Lake Erie Traction Co., the interurban division of that Company extending from Six Mile Creek in Pennsylvania to a point on the Hamburg Turnpike at the westerly city line of the city of Buffalo, N. Y. (see 1924 Public Utility Manual, page 62).

Control—In Dec., 1924, International Utilities Corp. acquired control of the Company.

The Company operates a high speed electric railway system of a total of 125.7 miles between Buffalo, N. Y., and Erie, Pa., and serves 25 intermediate towns and villages including Dunkirk and Fredonia, N. Y., where city lines are operated. The company acquired title to 111.5 miles of track consisting of 77 miles of main line extending from Bayview, N. Y., to Six Mile Creek, just outside of Erie, Pa., 41.5 miles being over private right of way owned in fee simple, and 34.5 miles of second track, siding and spurs. Six miles from Six Mile Creek to the business center of Erie and 8.2 miles from Bayview to the business center of Buffalo are operated over the respective city lines. The company, also acquired title to 5 substations, one car barn, all of modern steel and concrete construction, 398 miles of distribution, feeder and telephone lines, 28 passenger cars, 5 freight motor cars, 14 trailer freight cars and 7 service cars. The Company has interchange connections for freight and passengers to Cambridge Springs, and Meadville, Pa., Jamestown, Chatauqua, Syracuse and Oswego, N. Y. Power is obtained from the Niagara, Lockport and Ontario Power Company under contract running until 1944.

Traffic Agreement—Company has closed a traffic agreement with the Cleveland, Painesville & Ashtabula RR., and has inaugurated through freight shipments from Buffalo, N. Y., and other points on its line to Cleveland and intermediate destinations. Trucks were placed in operation from Erie to Ashtabula on Nov. 1, 1925, thereby filling a 45-mile gap between the two systems for the through shipment of freight.

LEXINGTON UTILITIES CO.

(Controlled by Kentucky Securities Corp.)

History—Incorporated in Kentucky in June 1909, took over the ice, gas, electric light and power departments of Lexington Ry. Supplies without competition, electric light and power to Lexington, Ky. and controls through subsidiary companies, the ice and cold storage business in Lexington, Georgetown, Nicholasville and the urban and interurban railways and buses operating in this territory. It also owns the electric distribution systems in Stamping Ground and Forks of Elkhorn. Under wholesale contracts with other utility companies, it supplies power to numerous communities within a 40-mile radius of Lexington, including Frankfort, Winchester, Versailles, Tyrone, Lawrenceburg, Midway, Georgetown, Paris, Mt. Sterling and Cynthiana. Company owns a modern steam generating station of 10,500 k.w., present capacity, together with 721 miles of transmission and distribution lines, substations and other operating equipment. Company also owns 88 miles of gas mains which are leased to Central Kentucky Natural Gas Co., which latter company supplies gas in Lexington and nearby cities and towns. In addition, four modern ice manufacturing plants are owned or leased, having a present annual output of over 49,500 tons. A 66,000 volt high tension transmission line connects Company's power house with the Dix River hydro-electric development of the Kentucky Hydro-Electric Co., and the steam power plant of the Kentucky Utilities Co., at Pineville, these two latter companies being subsidiaries of the Middle West Utilities Co., thus linking the property with a "super-power system" being developed in this territory and permitting the interchange of power. Population of territory served about 225,000.

The company assumes payment of the principal and interest of $503,500 of the First Gold 5% bonds of the Lexington Ry.

Preferred Stock Provisions—Pfd. stock has preference as to assets as well as dividends over any other stock of Company, being entitled to payment at 107½ and accrued dividends in case of liquidation, dissolution or winding up of Company, whether voluntary or involuntary. It is subject to redemption as a whole or in part on any dividend date upon 60 days' notice at 107½ and accrued dividends. Under the charter Pfd. stock has full voting privileges with Common stock, namely, each share of either class of stock will be entitled to one vote. Additional Pfd. stock, with the exception of $500,000 reserved for sale locally, may only be issued when for 12 consecutive calendar months ending within 15 calendar months prior to such issue, net income (as defined in the charter) shall have been at least 2½ times the annual dividend requirements of the Pfd. stock then outstanding, including that to be issued. Company also covenants that it will not create any issue of stock having priority or equality with this Pfd. stock.

Transfer Agent—Guaranty Trust Co. of New York.

Registrar—The Corporation Trust Co., New York.

Legal Opinion—Winthrop & Stinson, New York (for the Bankers); Graham, McMahon, Buell & Knox, New York (for the Company).

Original Offering—Pfd. stock first publicly offered ($1,500,000) in December, 1925, at 93 and accrued dividends, to yield about 7%, by Bonbright & Co., Inc., New York, etc.

Annual Meeting—In April.

Dividends—Pfd. dividends are paid quarterly, M, J, S & D 15; initial dividend of $1.62½ paid March 15, 1926.

FUNDED DEBT

$3,750,000 FIRST AND REFUNDING MORTGAGE GOLD BONDS, 5% SERIES; DUE FEBRUARY 1, 1952

Dated February 1, 1927.

Interest Payable February and August 1 at Bankers Trust Co., New York.

Denominations—Coupon, $500 and $1,000, interchangeable; also fully registered, $1,000 and authorized multiples. Coupon bonds in denominations of $1,000 and fully registered bonds interchangeable.

Trustee—Bankers Trust Co., New York.

Provisions of Issue—Issued, $3,750,000 5% Series due 1952. Mortgage provides that bonds may be issued in series, the respective series bearing such rates of interest, maturing on such dates, redeemable on such terms, and containing such other rights, limitations and provisions permitted by the Mortgage, as the Board of Directors of the Company may determine prior to the issue thereof. Mortgage also provides that additional bonds of the 5% Series due 1952 or other series may be issued thereunder (a) for refunding an equal amount of bonds of any series or underlying or prior lien bonds; (b) for cash; and (c) to an amount not exceeding 75% of the cost or fair value, whichever is less, of property additions and improvements; all as defined in the Mortgage. Additional bonds may not be issued, except for refunding purposes, unless consolidated net earnings, as defined in the Mortgage, for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of the application for issue shall have been at least equal to twice the annual interest requirements on (or 12% of the principal amount of) all bonds issued and outstanding under the Mortgage, including those proposed to be issued, and all bonds secured by any lien prior to the lien of this Mortgage. Not more than 15% of such net earnings shall consist, in the aggregate, of (a) net non-operating income and (b) net income derived from properties not directly subject to the lien of the Mortgage. The Mortgage contains certain provisions permitting the modification or alteration thereof or of any supplemental indenture, in any particular, with the assent of the holders of 85% of outstanding bonds, not including any bonds owned by the Company; provided that nothing shall permit the extension of the maturity of any bonds or reduction in rate of interest thereon, or any other modification in the terms of payment of such interest, without consent of the holder thereof, nor creation by the Company of any lien ranking prior to or on a parity with lien of any bonds outstanding under the Mortgage with respect to the property covered thereby.

Purpose of Issue—Proceeds from sale of the $3,750,000 5% Series due 1952 were used to retire $3,037,950 First Lien and Refunding 6% Gold bonds of Company, to reimburse the Company for additions to the property, and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice at 105 through February 1, 1931; with successive reductions of 1% in the redemption price for each succeeding five-year

period thereafter through February 1, 1951; and thereafter until maturity at 100; plus accrued interest in each case.

Improvement Fund—Mortgage provides for an Improvement Fund, commencing March 1, 1929, to be used for the retirement of bonds issued under the Mortgage, or for the acquisition or retirement of underlying or prior lien bonds, or for property additions against which bonds shall not be issued. The annual requirement is 2% of all bonds outstanding under the Mortgage and any underlying or prior lien mortgage, less the annual retirements through any sinking fund of any underlying or prior lien mortgage.

Security—These bonds are secured by direct first mortgage on a substantial portion of the property of the Company, including a modern steam electric generating station of 10,500 k.w capacity and by direct mortgage on the balance of the physical property subject to the divisional lien of the $1,013,000 Lexington Railway Company 5s of 1949, a closed issue, of which $3,000 are pledged under this mortgage. Additionally secured by deposit and pledge of all the outstanding capital stock, except directors' qualifying shares, of the Lexington Ice Company (total issue, $100,000).

Tax Provisions—Company pays normal Federal Income Tax up to 2% and agrees to refund on proper application the Pennsylvania 4 mills tax; the Connecticut tax up to 4 mills annually; the Maryland Securities tax not exceeding 4½ mills per annum; and the Massachusetts Income Tax not exceeding 6% per annum on income derived from the bonds.

Legal Opinion—Sullivan & Cromwell, New York (for the bankers), and Graham, McMahon, Buell & Knox, New York (for the Company).

Original Offering—First publicly offered ($3,750,000) in February, 1927, at 96½ and interest, to yield about 5.25% by Bonbright & Co., Inc., Harris, Forbes & Co., and W. C. Langley & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal.

NORTHWESTERN UTILITIES, LIMITED

(Controlled by Canadian Utilities, Ltd.)

History and Property—Incorporated in Canada and supplies natural gas to the City of Edmonton, Alberta, under an exclusive twenty-year renewable franchise for domestic and heating purposes, at favorable rates. Franchises are also held for supplying gas to the residents of five towns on the main transmission line. Twelve producing gas wells, with an average open flow capacity of 4,800,000 cu. ft. per day have been drilled on leases owned by the Company in the Viking Gas Field situated about 80 miles southeast of Edmonton. These wells prove up an area of 27 square miles, estimated by Ford, Bacon & Davis, Inc. to contain not less than sixty billion cubic feet of gas.

The main transmission line is 77 miles long, over the Company's own right-of-way. Two stations, one at each end of the line, regulate the pressure. No pumping stations are required, as the gas comes in under its own pressure.

The distribution plant consists of 80 miles of pipe lines, seven main pressure regulating stations in the city and five similar stations in the towns. The plant in the city of Edmonton has been constructed to serve approximately 10,000 consumers. As of Dec. 31, 1927, there were 8,095 connected customers.

Second 6% bonds, due July 1, 1922; $25,000 Cayuga Lake Electric Ry. First 6% bonds, due June 1, 1922, and the interest on the $488,000 Ithaca Traction Corp. First & Ref. 5% bonds, due April 1, 1964, the below-mentioned protective committee was formed to protect the interests of bondholders. Holders were requested to deposit their bonds with the Ithaca (N.

Y.) Trust Co. on or before Nov. 15, 1922. Committee: Mynderse Van Cleef, Chairman and Frederick J. Platt, with Charles D. Bostwick as Sec., and Hank Irvine as Counsel, Ithaca, N. Y.

Reorganization Plan Approved—Under date of Dec. 14, 1923, the above-named committee announced that it had adopted and approved a plan for the payment and cancellation of bonds secured by Ithaca Street Ry. Co. First Mortgage, Ithaca Street Ry. Co. Second Mortgage, Cayuga Lake Electric Ry. Co. First Mortgage, and also of the First & Refunding Mortgage of the Ithaca Traction Corp. and its future recapitalization.

Under the plan a new First Mortgage of $500,000 is to be authorized, $222,500 thereof to be immediately issued, as follows: $85,500 for cash at par; $37,000 in exchange for a like amount of Ithaca Street Ry. Co. First Mortgage 6% bonds par for par, $75,000 in exchange for like amount (entire issue) of Ithaca Street Ry. Co. Second Mortgage 6% bonds par for par, and $25,000 in exchange for a like amount (entire issue) of Cayuga Lake Electric Ry. Co. 6% bonds par for par. The remaining $138,000 Ithaca Street Ry. Co. First Mortgage 6% bonds are to be paid in cash, said cash to be realized from the sale of certain property to Cornell University for $52,500, and $85,500 from the sale of new First Mortgage Ithaca Traction Corp. bonds at par. The $488,000 First & Refunding bonds of the Corporation are to be cancelled, the holders thereof agreeing to accept some form of stock in exchange therefor.

The new First Mortgage bonds are to be dated Jan. 1, 1924, and become due in 30 years, with interest payable semi-annually, J & J 1, at 6% per annum. To be in denominations of $100, $500 and $1,000. Redeemable on any interest date on 60 days' notice at 105 and accrued interest, either as a whole or in part for the sinking fund. Ithaca Trust Co., Ithaca, N. Y., Trustee. Sinking fund, to begin July 1, 1929, 2% of greatest amount of bonds at any time issued, to re-cated on the south shore of Long Island, N. Y., servtire bonds by tender, or otherwise by lot at 105 and accrued interest and bonds to be cancelled. Corporation will agree to refund the Pennsylvania State four mills tax on demand. Company will pay Normal Federal Income Tax up to 2%.

Under the plan the capital stock shall be in such amount and shall be divided into Pfd. and Common stock, as may be determined by the Ithaca Traction Corp.

Receiver Appointed—Supreme Court Justice Leon F. Rhodes of Binghamton, N. Y., in June, 1924, appointed Dexter S. Kimball, Receiver of Corp. The receivership was forced by the Bondholders' Protective Committee, who seek the foreclosure of a mortgage of $75,000.

J. Mackay Water Co. and Desert Power & Water Co.

The Corporation owns and controls through stock ownership the following:

Public Utilities California Corporation, comprised of:
- Santa Cruz County Utilities Co.
- The Capitola Company

Princeton Gas Company
Baker County Power Company
Public Utilities Vermont Corporation (formerly Clyde River Power Co.)
Public Utilities Consolidated Corporation (of Delaware), comprised of:
- Pocatello Gas & Power Co.
- Southern Arizona Power Co.
- Public Utilities Kansas Corporation

Otero County Gas Company
Nevada, California & Oregon Telephone & Telegraph Co.
Roseville Water Company

There is no outstanding funded indebtedness of any of these subsidiaries with the exception of the Baker County Power Company.

Public Utilities Consolidated Corporation will upon completion of its financing (and subject to completion of acquisitions thereby provided for) own and operate directly and through wholly-owned subsidiaries utility properties in the States of Arizona, California, Oregon, Nevada, Colorado, Idaho, Montana, Kansas, Illinois, and Vermont, and in the Provinces of Quebec and Ontario, Canada. The properties will supply without competition electric light and power, gas, telephone or water service to 22,577 retail and wholesale customers, the territories served having an estimated population of approximately 179,000. Among the principal cities served are Nogales and Kingman, Arizona; Pocatello, Wallace, Burke, Alameda and Mullan, Idaho; Roseville, California; La Junta and Rocky Ford, Colorado; Goodland, Kansas; Barton, Lyndon, and Richford, Vermont; Princeton, Illinois.

The telephone properties serve five counties namely —Lassen, Plumas, Modock, Tahama, and Chasta Counties in the northeast portion of California, with 19 exchanges and 364 miles of lines, included in which are 335 miles of toll lines, connecting with the Pacific Telephone and Telegraph Co. at Reno, Nevada; Quincy, Red Bluff and Redding, California; and Lakeview, Oregon. The electric properties have a combined installed generating capacity of 11,151 k.v.a. of which 2,446 k.v.a. are hydro; there are 334 miles of electric transmission and distributing lines. The gas properties have 78 miles of gas distributing lines and a daily production capacity of 1,275,000 cubic feet and the water properties have 101 miles of distributing mains.

Number of electric meters, 11,403; gas meters, 4,310; water customers, flat and metered, 5,886. Annual sales of electricity, 10,510,450 k.w.h.; gas, 80,594,600 cu. ft.; water, 214,552,284 gallons.

Approximately 67% of the gross earnings is derived from electric properties, 14% from artificial gas properties, 12% from water properties and 7% from telephone properties.

NOTE—The foregoing data is made from consolidation of all companies affected, with the exception of the Baker County Power Co., a separate statement being appended for that Company.

CAPITAL STOCK

Authorized, 200,000 shares Class "A" Common of no par value, 500,000 shares Class "B" Common of no par value, and $5,000,000 7% cumulative Pfd., par $100; outstanding, 18,600 shares Class "A" Common, 400,000 shares Class "B" Common and $1,500,000 Pfd. Stock control is held by W. B. Foshay Company.

Preferred Stock Provisions—Preferred shares have a preference over all other shares both as to assets and earnings. In the event of any voluntary liquidation, dissolution or winding up of this Corporation's affairs, the Pfd. stock shall be entitled to $105 per share and in the case of involuntary liquidation to a preference of $100 per share. In case of liquidation, whether voluntary or involuntary, all cumulative dividends are preferred and all these preferences accrue before any distribution shall be made to the holders of shares of any other class of stock. If at any time; any portion of the dividends on the Pfd. stock shall be in arrears for a period of twelve months, Pfd. stockholders shall then be entitled to vote share and share alike with the holders of the Common stock, and in the case of election of directors under such conditions, the Pfd. stockholders, either alone or together with the Class "A" Common stockholders, in case they shall at that time be entitled to vote, shall collectively and independent from the vote of the Class "B" Common stock, be entitled to elect a majority of the Board of Directors of the Corporation. These voting rights of the Pfd. stockholders shall cease when all arrears in dividends on all of the Pfd. shares shall have been paid.

Callability—Pfd. stock is subject to call in whole or in part at the option of the Corporation upon any dividend date upon 30 days' written notice to the record holders thereof at $105 per share plus all accrued dividends.

FUNDED DEBT

(1)

$4,000,000 FIRST MORTGAGE TWENTY-YEAR 5½% GOLD BONDS SERIES OF 1948; DUE MARCH 1, 1948

Dated March 1, 1928.

Interest Payable March and September 1, at Central Trust Co., Chicago, Ill., and Seaboard National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Denominations interchangeable.

Trustee—Central Trust Co., Chicago, Ill.

Provisions of Issue—First Mortgage bonds, additional to these $4,000,000, may be issued in series not to exceed 70% of the cost or fair value (whichever is lesser) of new unencumbered fundable acquisitions (as defined in its mortgage) or against the deposit of cash, provided earnings applicable to bond interest (as defined in the mortgage) for twelve consecutive calendar months ending not more than three months prior to the date of application for issuance of bonds, shall have been not less than twice the annual interest on all First Mortgage bonds then outstanding including those proposed to be issued. Bonds may also be issued par for par to refund bonds of this or any other series issued under the Mortgage securing this issue.

Purpose of Issue—The proceeds from the sale of these bond, together with the proceeds from $1,500,000 Ten-Year 6% Secured Convertible Gold bonds, were used to retire the entire funded debt of the properties involved, for the acquisition of additional properties and for other corporate purposes.

Callability—Subject to call upon 30 days' published notice on any interest date up to March 1, 1938, at 105 and accrued interest, the premium decreasing ½ of 1% each Sept. 1, thereafter.

Sinking Fund—No provision.

Security—Secured by a direct first mortgage on all of the fixed properties of the Corporation, in the several states of the United States and Provinces of Canada, (which mortgage covers like after-acquired properties) and are a first lien on 100% of all indebtedness (except current indebtedness not in excess of current assets) and capital stocks (except minority shares not to exceed in any instance 5% of the total outstanding stocks) of subsidiaries, as defined in the mortgage. There are no underlying liens. Unless 100% of the stock of any subsidiary is pledged, the mortgage provides for an adequate deposit in cash against the non-pledged shares, which as above indicated cannot exceed 5% of the above.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Refund of Minnesota personal property taxes not to exceed 3 mills, Vermont, Pennsylvania, Connecticut, Kansas and California personal property taxes not to exceed 4 mills, Maryland personal property taxes not to exceed 4½ mills, Kentucky, Michigan and District of Columbia personal property taxes not to exceed 5 mills, and Massachusetts income tax not to exceed 6% to resident holders upon timely and proper application.

Legal Opinion—Pam & Hurd, Chicago, Ill.

Original Offering—First publicly offered ($4,000,000) in May, 1928, at 97 and accrued interest, yielding about 5.75%, by George M. Forman & Co., and Yeager, Young & Pierson, Inc.

(2)

$1,500,000 TEN-YEAR 6% SECURED CONVERTIBLE GOLD BONDS, SERIES OF 1938; DUE MARCH 1, 1938

Dated March 1, 1928.

Interest Payable March and September 1, at Central Trust Co. of Illinois, Chicago, and Seaboard National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Interchangeable denominations.

Trustee—Central Trust Co. of Illinois, Chicago, Ill.

Provisions of Issue—Additional bonds of this issue either of the Series of 1938 or of other series hereafter created, may be issued against the deposit of cash or in respect of fundable acquisitions which shall have been subjected to the lien of the first mortgage, and which shall be subject to no other lien except the first mortgage and current taxes, upon the conditions set forth in the mortgage, provided that earnings applicable to bond interest (as defined in the mortgage) for twelve consecutive calendar months ending not more than three months prior to the date of filing application for such additional bonds (after deducting from such earnings the annual interest charges on the first mortgage bonds then outstanding and then proposed to be issued) shall have been at least three times the annual interest charge on the bonds of this issue then outstanding, including those proposed to be issued, and provided further that such earnings applicable to bond interest for the period aforesaid shall be at least equal to one and one-half times the annual interest charge on the entire funded indebtedness of the Corporation, including any such indebtedness then proposed to be issued. Bonds may also be issued par for par to refund bonds of this or any other series issued under the Mortgage securing this issue.

Purpose of Issue—The proceeds from the sale of these bonds, together with the proceeds from $4,000,000 First Mortgage 5½% Gold bonds, were used to retire the entire funded debt of the properties involved, for the acquisition of additional properties, and for other corporate purposes.

Callability—Subject to call upon 30 days' published notice on any interest date up to Sept. 1, 1928, at 105 and accrued interest; this premium decreases ½ of 1% each March 1, thereafter.

Sinking Fund—Commencing with 1929, the Corporation will deposit with the Corporate Trustee on the first day of January and July of each year cash equal to 1% of the principal amount of this Series, provided, however, that in lieu of any part of such cash payments the Corporation may deliver a like principal amount of bonds of this Series for cancellation and provided also that the Corporation shall be entitled to credit and against such sinking fund payments for bonds redeemed or retired in excess of the sinking fund requirement for any year of bonds then outstanding, such funds to be used to retire bonds of this Series.

Conversion and Stock Warrant Privileges—The bonds are convertible at any time at the option of the holders into 7% Preferred stock, interest and dividends to be adjusted, each share of which Preferred stock shall be accompanied by Purchase Warrants entitling the holder thereof to acquire two shares of Class "A" no par Common stock at $25 per share to Dec. 31, 1929; thereafter at $27.50 to Dec. 31, 1931; thereafter at $30 to Dec. 31, 1934; and thereafter at $35 to Dec. 31, 1940.

Security—Secured by a direct mortgage on all of the fixed properties of the Corporation in the several states of the United States and Provinces of Canada, (which mortgage covers like after-acquired properties) and a direct lien on 100% of all indebtedness (except current indebtedness not in excess of current assets) and capital stocks (except minority shares not to exceed in any instance 5% of the total outstanding stocks) of subsidiaries, as defined in the mortgage, subject only in each instance to the indebtedness created under the First Mortgage, consisting of $4,000,000 of the First Mortgage Twenty-Year 5½% Gold bonds, Series of 1948 and indebtedness which may be hereafter created under said First Mortgage. As recently appraised by independent engineers, the properties have a sound depreciated value in excess of $7,100,000.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. Refund of Minnesota personal property taxes not to exceed 3 mills, Vermont, Pennsylvania, Connecticut, Kansas and California personal property taxes not to exceed 4 mills, Maryland personal property taxes not to exceed 4½ mills, Kentucky, Michigan and District of Columbia personal property taxes not to exceed 5 mills, and Massachusetts income tax not to exceed 6% to resident holders upon timely and proper application.

INDIANA CENTRAL TELEPHONE COMPANY

(Controlled by Central Telephone Co.)

History and Property—Incorporated in Delaware. Owns the entire capital stock (except directors' qualifying shares) of the **Fayette Telephone Company,** and 83% of the Common stock of the **Home Telephone Company of Elkhart County.** Furnishes telephone service, without competition, through its subsidiaries, to Elkhart, Goshen, Wakarusa, Middlebury and Connersville, Indiana. The combined population of the communities served and the adjacent rural areas is estimated to be in excess of 100,000. The system comprises 5 exchanges, operating 14,590 stations exclusive of connections. The principal properties of the subsidiaries have been in continuous successful operation for over 30 years and cordial public relations have been established. By means of interconnections with the Bell Telephone system and with independent companies, through contract, subscribers are provided with a nation-wide service.

CAPITAL STOCK

Authorized, 10,000 shares Common stock of no par value; outstanding, 5,000 shares. Stock control is held by Central Telephone Co. In addition to above, $107,400 Pfd. stock and 15.9727% of the Common stock of a subsidiary company are outstanding in the hands of the public. The subsidiary companies are entirely free of funded debt.

FUNDED DEBT

$1,400,000 FIRST LIEN COLLATERAL TEN-YEAR 5½% GOLD BONDS, SERIES 1928; DUE MAY 1, 1938

Dated May 1, 1928.

Interest Payable May and November 1, at Central Trust Company of Illinois, Chicago, or The Chase National Bank of the City of New York.

Denominations—Coupon bonds in interchangeable denominations of $500 and $1,000; principal may be registered.

Trustee—Central Trust Company of Illinois, Chicago.

Provisions of Issue—The Trust Agreement provides that additional bonds of any series may be issued by the Company for not exceeding 80% of the cash cost or fair value, whichever is the lesser, of acquiring new subsidiaries or of additions, improvements, betterments, extensions and additional properties acquired by subsidiaries; provided that earnings applicable to interest on bonds issued under the Trust Agreement on the basis of a consolidated statement, for a period of twelve consecutive months out of the preceding fifteen months shall have been at least twice the annual interest charges on all bonds then outstanding and proposed to be issued under the Trust Agreement; all as more fully defined and stated in the Trust Agreement. Additional bonds may also be issued against the deposit of cash and for refunding refundable securities as provided in the Trust Agreement. Additional bonds may have such rates of interest, dates, maturities, redemption provisions and other distinguishing features and provisions as may be determined by the Board of Directors of the Company.

Callability—Subject to call at option of the Company as a whole, or in part by lot, on any interest date, on 30 days' published notice, at 102½ up to and including May 1, 1929, and thereafter at ½% less for each succeeding year or portion thereof up to and including May 1, 1933, and thereafter at 100, plus accrued interest in each case.

Maintenance and Renewal Fund—The Trust Agreement provides that during each calendar year, the Company shall expend or cause to be expended by its subsidiaries an amount not less than 20% of the consolidated gross operating income for the preceding calendar year for (a) maintenance, renewals, and replacements; (b) the acquisition of new subsidiaries and additions and improvements not made the basis for the issuance of additional bonds; or (c) the redemption or purchase of bonds outstanding under the Trust Agreement and/or other refundable securities; all as more fully stated and defined in the Trust Agreement.

Security—Secured by a first lien upon all of the outstanding capital stock (except directors' qualifying shares), of the Fayette Telephone Company serving Connersville, and upon not less than 83% of the Common stock of the Home Telephone Company of Elkhart Co., serving Elkhart, Goshen, Wakarusa and Middlebury. The securities representing such outstanding stock have been deposited and pledged with the Trustee under the Trust Agreement. The Trust Agreement provides that no additional capital stock (except stock dividends when there is to be deposited and pledged with the Trustee the portion of said stock dividends allocable to the shares then held by the Trustee), bonds or indebtedness other than current indebtedness and indebtedness incurred in refunding existing indebtedness may be issued by any of the Company's present subsidiaries, unless such stock, bonds and indebtedness shall forthwith be pledged with the Trustee as additional security for the bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund to holders of these Series 1928 bonds, upon proper and timely application, Connecticut, Pennsylvania and California Personal Property Taxes not exceeding 4 mills per annum each, Maryland Securities Tax not exceeding 4½ mills per annum, District of Columbia and Kentucky Personal Property Taxes not exceeding 5 mills per annum each and Massachusetts Income Tax not exceeding 6% per annum on the interest.

Legal Opinion—Chapman & Cutler, Chicago (for the Company) and Ghent, Dobyns & Freeman (for the Bankers).

Original Offering—First publicly offered ($1,400,000) in May, 1928 at 99 and interest, yielding about 5.63% by Hambleton & Co., Inc. Patterson. Copeland & Kendall, Inc. and Hayden, Van Atter & Schimberg, Inc.

NOTE—Stockholders in May, 1927, created two new series of Pfd. stock, consisting of 100,000 no par value shares of $5 Dividend Series and 100,000 no par value shares of $5.50 Dividend Series. This increased authorized capital stock from 3,500,000 to 3,700,000 shares, divided as above stated.

Subscription Rights to Additional Class "A" Stock—Holders of Class "A" and Pfd. stocks (all series) of record Dec. 12, 1927 had the right until Jan. 5, 1928 to subscribe to a new issue of Class "A" stock at $40 per share in proportion of one share for each five shares held on that date. Payments may be made in three installments of $10, $15 and $15 on or before Jan. 5, May 1 and Aug. 1, 1928, respectively. Interest at the rate of 5% per annum, amounting to $0.48 per share, will be allowed on the first two installments from their respective due dates to Aug. 1, 1928. The stock so paid for will participate in divds. payable after, Aug. 1, 1928. No stock will be delivered before full payment of purchase price or before Feb. 1, 1928. Subscribers who have paid the installment due Jan. 5, 1928 had the opportunity to pay the two remaining installments on May 1, 1928 at the rate of $29.84 per share, and receive their stock, which would be issued as of and which will participate in dividends payable after May 1, 1928.

Subscribers holding Original Series Pfd., $7 Divd. Series Pfd. and/or $6.50 Divd. Series Pfd. stock had the privilege of turning in as many shares of all or any of these classes of Pfd. stock held by them as they wished, for application on the subscription price of the Class "A" shares for which they are entitled to subscribe under their warrants. Shares of these classes of Pfd. stock were accepted in payment at the following rates, plus accrued divds. if any: Original Series Pfd. stock, $55 per share; $7 Divd. Series Pfd. stock, $105 per share; $6.50 Divd. Series Pfd. stock, $101 per share. Holders of 6% Convertible Debenture bonds and Ctfs. Series "A" and "B" and registered owners of 6½% Option Warrants, $65 paid, upon pay-

ment of the unpaid balance of $30 per warrant were also offered the privilege, subject to the rights as above stated, until Jan. 5, 1928, to apply for shares of the new issue of Class "A" stock at $40 per share, payment to be made by turning in Debenture bonds or Ctfs. to the extent required. Bonds and Ctfs. of these series were accepted in payment of Class "A" stock alloted under such applications at the rate of $102 per $100 principal amount, plus accrued interest to Feb. 1, 1928.

The purpose of this Class "A" issue, amounting to approximately 200,000 shares, was to retire securities ranking ahead of the Class "A" stock and to provide fund for new construction, required to take care of additional business and for other corporate purposes.

Subscription Rights to 20-Year 4½% Convertible Gold Debentures—All stockholders and holders of fully registered securities convertible into stock of record March 22, 1928, received the right to subscribe to $50,000,000 20-year Convertible 4½% Gold Debentures, dated March 1, 1928 and due March 1, 1948 (described below) at 97 and interest. Subscriptions were payable either in full on April 10, 1928 at $97.50 per $100 Debenture (which includes accrued interest from March 1 to April 10, 1928) or in installments as follows: $10 with application on April 12, 1928, $30 each on May 15, and Aug. 15, 1928, and $26.88 on Jan. 15, 1929, being $27 plus accrued interest from Sept. 1, 1928, less interest on installment payments.

This issue was underwritten by a group of bankers which in April, 1928, offered the unsubscribed portion of $63,000,000 (see under Funded Debt below, paragraph No. 8).

Transfer Agents—Common, Original Series, $6 Divd. Series, $6.50 Divd. Series and $7 Divd. Series Pfd.; F. E. Taylor and W. L. Freund, 61 Broadway, New York. Class "A": Seaboard National Bank, New York, and State Street Trust Co., Boston.

Legal Opinion (Class "A" Stock)—Rushmore, Bisbee & Stern (for the bankers) and Charles M. Travis, and Roberts & Montgomery (for the Company).

Annual Meeting—First Wednesday in June at New York.

Listed (Class "A" Stock)—Boston Stock Exchange and New York Curb Market.

Common Stock Provisions—Created in July, 1925. This stock represents the interest in one-half the Company's earnings after payment of preferential dividends on other stocks, including dividends on preferred stocks, $2 per annum on Class "A" stock and limited dividends not exceeding $2 on Class "B" stock, provided that aggregate dividends paid on Class "B" and Common stocks shall not exceed the aggregate amount paid on Class "A" stock as preference and additional dividends. On liquidation, Common stock is entitled to assets remaining after preference distribution on prior stocks subject to the participating rights of the Class "A" stock. The Common stock is voting, with the consent of a majority of Class "B" stock.

Subscription Privileges—See above.

Dividends on Common Stock—None paid to May 30, 1928.

Class "B" Stock Provisions—Created in January, 1925. Has sole voting rights except for contingent voting outlined in descriptions of other classes of stock. Entitled to non-cumulative dividends up to $2 per share per annum after payment of a like amount on Class "A" stock. In liquidation, Class "B" stock is entitled to be paid an amount equal to $35 per share, but not exceeding the aggregate, the aggregate amounts so paid to the holders of Class "A" stock.

Subscription Privileges—See above.

Price Range—1927: High, 22; low, 9½.

Class "A" Stock Provisions—Has preference over Class "B" and Common stock as to assets and non-cumulative dividends of $2 per share per annum. After dividends for the same period at the rate of $2 per share per annum have been paid on the Class "B" stock (but not exceeding in the aggregate the total required for the priority dividends on the Class "A" stock) additional dividends may be paid on Class "A" stock to the extent of one-half the remaining earnings. In liquidation, the Class "A" stock is entitled to $35 per share and after $35 per share has been set aside for the Class "B" stock, or an aggregate amount not exceeding the aggregate amount set aside for the holders of the Class "A" stock, the remaining balance is divided equally between the holders of the Class "A" stock and the holders of the Class "B" stock. Class "A" stock has voting rights if dividends are in arrears for two years, in which event the holders are entitled to elect two directors until two years' dividends shall have been declared or set aside.

Subscription Privileges—See above.

Public Offering of Class "A" Stock—200,000 shares of Class "A" stock of no par value were publicly offered in Jan., 1925, at $26.00 per share by John Nickerson & Co., St. Louis and New York, and Eastman, Dillon & Co., New York, etc. In Feb. 1927, 100,000 shares were publicly offered at $40.50 per share by John Nickerson & Co., New York, etc.

Dividends on Class "A" Stock—Initial quarterly dividend of 50 cents a share on Class "A" stock was paid May 1, 1925; Aug. 1, 1925, 62½ cts. a share, which quarterly rate since maintained to date. Stockholders had the option of taking dividends in Class "A" stock at the rate of 1-40th of a share for each share held. In addition an extra cash dividend of 25 cents a share was paid Feb. 1, 1928.

Preferred Stocks Provisions—The preferred stocks are fully paid and non-assessable and have preference over Class "A," Class "B" and Common stocks, both as to cumulative dividends and assets. There are four series outstanding, all of no par value, each bearing a different dividend rate but otherwise ranking equally. They are subject to call on any dividend date, in whole or in part, the Original Series at $60 per share and the other series at $105 per share each, all with accrued unpaid dividends. In the event of liquidation, the preferred stocks, ranking equally but with preference over Class "A," Class "B" and Common stocks, are entitled to $50 per share in the case of Original Series and $100 per share each in the case of other series. The preferred stocks have voting rights if default shall be made in cumulative dividends on any class of Preferred stocks, and two years' cumulative dividends on such class shall be in arrears, in which event during the continuance of such default, the holders of Preferred stocks of all classes have voting rights on an equality with the holders of Class "B" stock.

Subscription Privileges—See above.

6½% INTEREST BEARING OPTION WARRANTS

The 6½% Interest Bearing Option Warrants are $95 par value each. They were sold on the basis of $35 principal amount paid in. Four calls of $10 each were made April 1 and Oct. 1, 1926, Dec. 31, 1927 and March 30, 1928, making the Warrants $75 paid. The balance of $20 may be called for payment on 30 days' notice at intervals of not less than 90 days, but no installment is to be for more than $10 per call. Payment in full may be made at any time at the option of holder. On full payment but not before Sept. 1, 1926 unless anticipated by Directors, each Warrant may be exchanged for one-half a share of Common stock plus either $100 of 6% Convertible Debenture bonds or one share of $6.50 Dividend Series Pfd. stock with adjustments for accrued interest or accrued dividends as the case may be. These Option Warrants carry detachable Stock Purchase Rights entitling the holder thereof, to purchase one share of Common stock after March 1, 1926 and before Sept. 1, 1927 for $20, and thereafter to and including Sept. 1, 1930 for $30. Interest is payable quarterly March, June, Sept. and Dec. 1. Registrar, National Bank of Commerce in New York. Amount outstanding April 30, 1928, $782,300. The full paid Interest Bearing Option Warrants have been converted. The Warrants are fully registered and transferable. The net proceeds from the Interest Bearing Option Warrants, $35 paid, were used in part payment or in reimbursement for the acquisition of the Pennsylvania Electric Corp. and for other corporate requirements. Holders of Pfd. stock (all classes), Class "A" stock, 6½% Secured Convertible bonds of 1954 and Convertible Debenture Certificates, Series "A," "B" and "C," were given the privilege of purchasing for each two shares of stock held of record Aug. 10, 1925 and for each two shares of stock into which convertible bonds and debentures would be exchangeable, one 6½% Interest Bearing Option Warrant at the price of $35 per Option Warrant, $35 paid. Subscription privilege expired Sept. 17, 1925.

Under date of Dec. 28, 1925, the Board of Directors decided to allow the holders of 6½% Interest Bearing Option Warrants, $35 paid, the privilege of immediately receiving the shares of Common stock covered by their Option Warrants, at the prescribed rate of one-half share of Common stock for each Warrant, upon payment of $15 per Warrant on the balance of the purchase price. The $15 payment was applied on the first ensuing call under the Option Warrants, so that holders who availed themselves of the privilege did not have to make any further payments until the time for the payment of the second call. Interest on this $15 payment was paid at the rate of 6½% per annum from the date of payment. Common Stock Certificates can be issued only in the names of the registered owners of the Option Warrant Certificates.

Subscription Privileges—See above.

Listed—The Option Warrants are listed on Boston Stock Exchange.

(8)

$63,000,000 CONVERTIBLE 4½% GOLD DEBENTURES; DUE MARCH 1, 1948

Dated March 1, 1928.

Interest Payable March and September 1.

Denominations—Coupon $500 and $1,000; principal may be registered. Fully registered debentures in denominations of $100 and authorized multiples.

Trustee—New York Trust Co., New York.

Purpose of Issue—Proceeds of these $63,000,000 Convertible 4½% Debentures will be used to acquire or retire 5½% and 6% Convertible Debentures of Company and indebtedness and Pfd. stocks of subsidiary

companies, for acquisition of property and for other corporate purposes.

Convertibility and Stock Purchase Rights—Permanent Debentures will be convertible at holder's option at any time on or before Jan. 2, 1931, into Class "A" stock at rate of 20 shares for each $1,000 Debenture.

In addition, permanent Debentures will carry warrants, detachable after Oct. 31, 1928, entitling holders to purchase after that date and on or before Jan. 2, 1931, stock of Company at the rate of 16 shares of Class "A" stock and 9 shares of Common stock for each $1,000 Debenture for the price of $1,000, payable at the holder's option either in cash or by surrender of a like principal amount of Debentures. Debentures will continue through Jan. 2, 1931, to be convertible into Class "A" stock after exercise of warrants for cash.

Pending preparation of permanent Debentures with warrants attached, temporary Debentures will be convertible at any time at option of holder into stock at rate of either (a) 20 shares of Class "A" stock or (b) 16 shares of Class "A" stock and 9 shares of Common stock for each $1,000 Debenture.

In case Debentures are called for redemption on or before Jan. 2, 1931, conversion privilege may be exercised only up to the tenth day before redemption date. Class "A" and Common stock to be issued upon conversion and upon exercise of warrants will be such stocks as they are from time to time constituted. No fractional shares will be issued, but appropriate provisions will be made in Indenture for issuance of scrip in lieu thereof. Indenture will also contain provisions for adjustment of interest and/or dividends on conversion or exercise of warrants. Warrants must be surrendered with any permanent Debentures converted into Class "A" stock on or before Oct. 31, 1928.

Callability—Subject to call as a whole or in part at any time, on 30 days' notice at 103 on or before Feb. 28, 1938; thereafter at 102 on or before Feb. 28, 1943; thereafter at 101 on or before Feb. 28, 1947; thereafter at 100 to maturity; in each case with accrued interest.

Sinking Fund—None provided.

Security—A direct obligation of Company, but not secured by mortgage. Convertible Debenture obligations of Company which are now or will later become convertible into Pfd. stock at Company's option, and Pfd., Class "A" and "B" and Common stocks are all junior to this issue of Debentures.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse the holders of these Debentures, upon application within 60 days after payment, for the Pennsylvania or Connecticut personal property taxes not exceeding 4 mills or for any Maryland securities tax not exceeding 4½ mills per $1.00 per annum; or for the Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum.

Legal Opinion—Sullivan & Cromwell, New York (for the Bankers) and Charles M. Travis, and Roberts & Montgomery, New York (for the Company).

Original Offering—All stockholders and holders of fully registered securities convertible into stock of record March 22, 1928 received the right to subscribe to these debentures at 97 and interest (see above). The unexchanged portion of the $63,000,000 were offered and sold (price on application) in April, 1928, by John Nickerson & Co., Harris, Forbes & Co., Lee, Higginson & Co., Guaranty Co. of New York, Kidder, Peabody & Co., Field, Glore & Co., Brown Brothers & Co., Edward B. Smith & Co., E. H. Rollins & Sons, Equitable Trust Co. of New York, New York, Harris, Forbes & Co., Inc., Boston, Harris, Forbes & Co., Ltd., Montreal, and Harris Trust & Savings Bank, Chicago.

$35,000,000 GOLD DEBENTURE BONDS CONSOLIDATED REFUNDING 5% SERIES DUE 1968; DUE OCTOBER 1, 1968

Dated October 1, 1928.

Interest Payable April and October 1.

Denominations—Coupon (principal may be registered), $500 and $1,000, and registered $100 and authorized multiples.

Trustee—National Bank of Commerce in New York, N. Y.

Purpose of Issue—These $35,000,000 of Debenture bonds of the Consolidated Refunding 5% Series or their proceeds are being used to refund, replace, acquire or retire bonds and Preferred stocks of the Associated Gas and Electric Company and subsidiaries ranking on a parity with or senior to these Debenture bonds. Additional Debenture bonds of this series may be issued under the Indenture.

Callability—Subject to call in whole or in part at any time prior to maturity on 30 days' notice at 102 to and including April 1, 1966, thereafter at a premium decreasing ½% semi-annually to and including Oct. 1, 1967; thereafter at 100, in all cases with accrued interest.

Security—A direct obligation of Company, but not secured by mortgage. The Convertible Debenture obligations which are now or will later become convertible into Preferred stock at the Company's option, and the Preferred, Class A, Class B and Common stocks are all junior to these Debentures estimated on the basis of current quotations, in excess of $145,000,000.

Public Offering—Harris, Forbes & Co., Lee, Higginson & Co., Guaranty Co. of New York, Kidder, Peabody & Co., Field, Glore & Co., Brown Brothers & Co., Edward B. Smith & Co., E. H. Rollins & Sons, Equitable Trust Co. of New York, John Nickerson & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal, offered the unexchanged balance of $35,000,000 at par and interest. Over three-quarters of the issue had previously been placed through exchanges for securities of Company and subsidiary companies.

(10)

$50,000,000 GOLD DEBENTURE BONDS, CONSOLIDATED REFUNDING 4½% SERIES DUE 1958; DUE MAY 1, 1958

Dated May 1, 1928.

Interest Payable May and November 1.

Denominations—Coupon (principal may be registered), $500 and $1,000, and registered, $100 and multiples thereof.

Purpose of Issue—To the extent that the proceeds of bonds of this issue are required to retire outstanding securities, the savings in interest charges between the new bonds to be outstanding and the securities to be retired will amount to substantially in excess of $400,000 per annum, and to the extent issued, not required to refund, replace, acquire or retire bonds and Preferred stocks of the Associated Gas and Electric System, will be used to increase working capital, for acquisition of property and for other corporate purposes.

Callability—Subject to call in whole or in part at any time on 30 days' notice at 100 and interest.

Security—A direct obligation of Company, but not secured by mortgage. The Indenture provides, among other things, that the Company will not pledge any of its property without ratably securing the debentures issued under this Indenture, except in the case of purchase money mortgages and liens and except in the case of pledges in the usual course of business as security for temporary loans maturing not more that one year from their date or indemnity not exceeding one year. The Convertible Debenture obligations, which are now or will later become convertible into Pfd. stock at the Company's option, are junior to this issue.

Offering—These Debenture bonds were on May 1, 1928, offered to holders of securities of subsidiary and affiliated companies of the Associated Gas and Electric Co. in exchange principally for the bonds held by them.

BONDS REDEEMED

Thorne Gardner Plant of West Burlington, Fred I. Nelson Plant of Deansboro, Malcolm G. Hotckin Plant of Andes, Charles Coan Plant of Kortright, Windham Valley Electric Corp., Bernholme Power Corp., Earlville Electric Co., Smyrna Electric Co., Livingston Manor Electric Co., Tusten Light & Power Co. and Georgetown Electric Lighting Co., Inc., to the acquisition of all of which the Public Service Commission consented.

In Feb. 1927, acquired control of Staten Island Edison Corp.

The properties supply electric light and power and/or gas to over 46,668 consumers in the central and southern parts of New York State, including Ithaca, Oneonta, Norwich, Homer, Cortland, Ovid, Sidney, Unadilla, Cooperstown, Monticello, Liberty, Richfield Springs, Madison, Waterville, Moravia, Stamford, Delhi, New Berlin, Fleischmanns, and the surrounding territory under exclusive franchises. Population served approximates 200,000.

Properties consist of steam and hydro-electric power stations with a generating capacity of 16,250 k.w.; gas plants with a daily capacity of 2,900,000 cu. ft.; 663 miles of high tension transmission lines and 109 miles of gas mains.

CAPITAL STOCK

Authorized, 60,000 shares Common and 90,000 shares $7 non-cumulative Pfd. both of no par value; outstanding, 4,600 shares Common and 41,884 shares Pfd. All owned by Associated Gas and Electric Company. Annual meeting, first Thursday in June.

Capital Stock Reclassified—In Dec., 1927, the capital stock was changed from 100,000 shares Common and 25,000 shares $7 cumulative Pfd. to 10,000 shares Common and 90,000 shares $7 non-cumulative Pfd. The authorized 10,000 shares Common was subsequently increased to 60,000 shares.

Preferred Stock Provisions—Has preference for assets and dividends, being entitled to non-cumulative dividends of $7 per share per annum, but only if, as and when declared by Directors, payable quarterly J. A, J & O 1. In liquidation Pfd. is entitled to $100 per share. It is subject to call on any dividend date on 30 days' notice at $100 per share.

Dividends—Dividends on Common stock have been paid by Company or its constituent companies since organization in 1852 except in six years. Dividends on Pfd. stock at rate of $7 per share per annum paid since issuance (June, 1922) to date of reacquisition.

FUNDED DEBT

$427,500 NEW YORK STATE GAS & ELECTRIC CORP. FIRST MORTGAGE GOLD BONDS, SERIES 6s; DUE JAN. 1, 1952
$4,060,500 NEW YORK STATE GAS & ELECTRIC CORP. FIRST MORTGAGE GOLD BONDS, SERIES 5½s; DUE OCT. 1, 1962

Dated, Series 6s, January 1, 1922, and Series 5½s, October 1, 1922.

Interest Payable January and July 1 on Series 6s and April and October 1 on Series 5½s at The Equitable Trust Co., of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustee—The Equitable Trust Co. of New York.

Provisions of Issue—Authorized amount of mortgage unlimited. Outstanding, Dec. 31, 1927, $4,488,000 ($427,500 Series 6s and $4,060,500 Series 5½s); in treasury, $49,000 Series 5½s.

Additional bonds may be issued in series with interest rates, maturity dates, redemption provisions and other terms and conditions to be determined from time to time as series are issued. It is provided that additional bonds may be issued to refund underlying bonds and bonds of any other one or more series theretofore created and to the extent of 80% of the net amount of additional property, as defined in the mortgage, provided, when bonds are issued against additional property, that net earnings shall have been for a period of twelve consecutive months within fifteen months immediately preceding, equal to at least either twice the amount of interest charges or 10% of aggregate principal amount of funded debt secured, whichever is less, and at least equal to 1¾ times such interest charges on all bonds outstanding and then to be issued under this mortgage and all divisional prior lien bonds.

Exchange Offer—Holders of these bonds were given the opportunity in May, 1928, to exchange their bonds for Consolidated Refunding 4½% Gold Debenture bonds, due 1958 and/or $6.50 Pfd. stock of Associated Gas and Electric Co. on the basis of $1,115 Associated Company bonds for $1,000 5½% Series bonds and $1,140 Associated Company bonds for $1,000 6%; 10 shares of stock for each $1,000 6% or 5½% bond. Offer was subject to withdrawal at any time without notice. The Chase National Bank of New York, N. Y., Agent.

Callability—Series 6s are subject to call on any interest date on 30 days' notice from Jan. 1, 1932 to July 1, 1942 inclusive, at 110 and interest and thereafter at a premium decreasing ½% every six months until maturity.

Series 5½s are subject to call at any time on 60 days notice from Oct. 1, 1932 to Oct. 1, 1933 at 107½ and interest and thereafter at a premium decreasing ¼% every twelve months until maturity.

Maintenance and Renewal Fund—The mortgage provides for a maintenance and renewal fund which is designed to maintain the property in efficient operating condition and contains stringent restrictions to insure compliance with this provision. At present, the fund requires that expenditures for maintenance and renewals shall equal at least 10% of gross operating revenues. This percentage is subject to change upon agreement of the trustee representing bondholders and the company or by arbitration.

Security—Secured by a first (open) mortgage on all property of the Company now owned and by a direct lien on all property hereafter acquired.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded.

Legal Opinion—Roberts & Montgomery.

Legal for Savings Banks in Maine; Series 5½s also legal for savings banks in New Hampshire and Vermont.

The Pennsylvania group serves electricity and/or gas to over 120,000 consumers in 350 communities in a territory extending from Lake Erie and the New York State boundary across western Pennsylvania

and into Maryland. The Pennsylvania area served comprises approximately one-sixth of the entire state, having a total population of more than 875,000. The properties are connected by 1,438 miles of high tension transmission lines, principally 110,000 volts, extending from Erie, Pennsylvania, on the north through to Deep Creek, Maryland, on the south. The generating stations have an aggregate installed capacity of over 150,000 k.w. of which 38,400 k.w. is hydro-electric. The properties also render some incidental gas and heating service.

The Manila group has furnished the entire electric power and light and street railway service since 1905 in the City of Manila and its environs in the Philippine Islands. The total population of the area now served is over 400,000. Power is supplied from a modern steam electric station with a rated capacity of 29,500 k.w.

The Kentucky-Tennessee group serves over 37,000 consumers in 60 communities with a population of more than 150,000. The operating properties include electric power stations with a generating capacity of 10,700 k.w., over 431 miles of high tension transmission lines and gas plants with a daily capacity of 605,000 cubic feet.

The Long Island group supplies water to 28,000 consumers in Queens and Nassau Counties on Long Island in and adjacent to the City of New York, and electricity to 6,000 consumers in Patchogue and a number of smaller communities on southern Long Island. The steam electric generating station has a capacity of 4,550 k.w.

The Western New York State group supplies electricity to over 15,000 consumers in a territory beginning at the limits of the City of Buffalo and extending south to within a few miles of the Pennsylvania State line, just north of the territory served by the Pennsylvania group.

The Eastern New York State group supplies electricity to 25,000 consumers and gas to 3,700 consumers in a territory extending, with only two interruptions, from the Canadian border south through Plattsburgh, Granville, Mechanicville, Chatham, Brewster and various other communities in the eastern section of the State and in the adjoining States of Vermont and Connecticut to within 30 miles of New York City.

CAPITAL STOCK

Authorized and outstanding, 400,000 shares Common stock of no par value. All owned by Associated Gas and Electric Company.

Annual Meeting—Third Wednesday in May, in New York.

FUNDED DEBT

$20,000,000 4½% GOLD BONDS, DUE 1953; DUE JANUARY 1, 1953

Dated January 3, 1928.

Interest Payable January and July 1, in New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—National Bank of Commerce in New York, N. Y.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $20,000,000 4½% Gold bonds, due 1953.

Additional bonds, either of this series, or of other series, having such rates of interest, maturity dates and other provisions as Company may determine, may be issued, except to an amount less than $200,000 reserved for a special purpose, only (a) for refunding or replacing an equal amount of refundable securities including bonds and Pfd. stocks of subsidiary companies (as defined in the Indenture) or bonds of any series outstanding under the Indenture; or (b) for not more than 75% of the cost or fair value, whichever is less, of new properties and additions.

Additional bonds may not be issued under the Indenture, except for the purpose of refunding or replacing outstanding bonds, or bonds or stocks of subsidiary companies, unless consolidated net earnings before depreciation, for 12 months within the 15 months immediately preceding application for issue have been at least equal to twice the annual interest and fixed dividend charges on all bonds and Pfd. stocks of subsidiary companies held by the public and all bonds outstanding under the Indenture unless such consolidated net earnings exceed $15,000,000, in which case the ratio of such consolidated net earnings to such annual charges need only be twice the first $7,500,000 of such annual charges and one and three-quarters times the remainder.

The Indenture contains conservative restrictions upon the sale of bonds and Pfd. stocks of subsidiary companies and among other things provides that they shall not be sold to the public if the total amount of such securities held by the public is thereby increased to an amount exceeding 50% of the bonds then outstanding under the Indenture, including as outstanding any bonds issued under the Indenture and converted into a junior security, and also that bonds and Pfd. stocks of subsidiary companies may not be sold to the public, except to refund or replace outstanding bonds and Pfd. stocks of subsidiary companies, unless the earnings ratio applicable to the issue of bonds under the Indenture is complied with.

The Indenture contains certain provisions permitting the modification or alteration thereof or of any supplemental indenture with the assent of Company and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by Company; provided that any such modification or alteration shall not permit, (a) the extension of the maturity of any bond, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest, without the consent of the holder thereof, or (b) the creation by Company of any indebtedness not permitted by the Indenture or of any mortgage or pledge of any of the assets of the Company unless the bonds issued or to be issued under the Indenture are secured by such mortgage or pledge on an equality with any other indebtedness to be secured thereby.

Callability—Subject to call in whole or in part at any time on 30 days' notice; at 100 and interest to and including Dec. 31, 1932; thereafter at 102 and interest through Dec. 31, 1937; thereafter at 101½ and interest through Dec. 31, 1942; thereafter at 101 and interest through Dec. 31, 1947; and thereafter at 100 and interest.

Purpose of Issue—Company will acquire or retire an aggregate of $23,000,000 of its 5½% bonds due 1946 and/or bonds and/or Pfd. and/or Pref. stock of subsidiaries (all of which carry a higher face rate than the present offering of 4½% Gold bonds) so that upon completion of this financing a net decrease of $3,000,000 in the consolidated capitalization of Company group and a substantial decrease in the combined average interest and dividend rates thereon will have been effected.

Sinking Fund—None.

Maintenance and Replacements—Indenture provides for maintenance and replacements through the expenditure or reservation by the subsidiary companies from each year's earnings of an amount equal initially to 12½% of the consolidated gross operating revenue from electric operations, 10% of that from gas operations, 5% of that from water operations and 25% of that from traction operations. These percentages which are subject to arbitration and adjustment at five year intervals, will, in the opinion of competent engineers, adequately provide for the maintenance of these properties at their present high standard of operating efficiency.

Security—A direct obligation of Company, but not secured by mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse the holders of these bonds upon application within 60 days' after payment for the Pennsylvania four mills tax and for the Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum.

Legal Opinion—Sullivan & Cromwell, New York (for the Bankers), and Charles M. Travis, New York (for the Company).

Original Offering—First publicly offered ($20,000,000 4½% bonds, due 1953) in Dec., 1927, at 94¼ and interest, to yield 4.90%, by Harris, Forbes & Co., Lee, Higginson & Co., Guaranty Co. of New York, Kidder, Peabody & Co., Marshall Field, Glore, Ward & Co., Brown Brothers & Co., Edward B. Smith & Co., E. H. Rollins & Sons, Equitable Trust Co. of New York, John Nickerson & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal.

Listed—Boston Stock Exchange.

Exchange Offer—Holders of these bonds were offered the privilege on May 1, 1928 to exchange their bonds for Associated Gas and Electric Co. Consolidated Refunding 4½% Gold Debenture bonds, due 1958, and/or $6 Series Pfd. stock on the basis of $1,010 face amount of Associated Company bonds for each $1,000 bond or 9.5 shares of $6 Series Pfd. stock for each $1,000 bond. Interest on exchanges for bonds will be adjusted as of May 1, 1928. Interest and dividends on exchanges for Pfd. stocks will be adjusted as of June 1, 1928. The offer is subject to withdrawal at any time without notice. The Chase National Bank of New York, N. Y., Agent.

BONDS REDEEMED

All outstanding Convertible Gold bonds, 5½% Series due April 1, 1946, were called for redemption on July 1, 1928 at 105 and interest at National Bank of Commerce in New York, Trustee. Bonds may be converted on the first day of any month up to and including July 1, 1928, upon 10 days prior written notice to Associated Gas and Electric Co., into $6 Dividend Series Pfd. stock of Associated Gas and Electric. Holders of the called bonds also had the privilege to exchange their bonds for Gold debenture bonds. Consolidated Refunding 4½% Series, due 1958, of Associated Gas and Electric Co., at the rate of $1,095 for each $1,000 Associated Electric bond.

PENNSYLVANIA ELECTRIC COMPANY

(Associated Electric Company System)

History and Property—Incorporated June 11, 1919, in Pennsylvania under the name Penn Public Service Corporation, as a consolidation of Citizens Light, Heat & Power Co. of Pennsylvania, Penn Public Service Co. and Penn Electric Service Co. (see 1919 Public Utility Manual, pages 529 to 531). Name changed to present title in December, 1927. During 1922, purchased the property of the Conemaugh Power Co., formerly controlled (see 1922 Public Utility Manual, page 186). In 1923 acquired the Common stocks of the Warren Light & Power Co., Jefferson Electric Co., Du Bois Electric Co. and Erie Lighting Co., and in 1924 all of these except Erie Lighting Co. were merged into Penn Public Service Corp. (now the Pennsylvania Electric Company). (For latest statements, see 1923 Manual, pages 2202 and 2203). In 1923 the stocks of the Du Bois Electric & Traction Co. and Du Bois Traction Co. were also acquired, their properties connected with the system and the companies dissolved as of Nov. 25, 1925, and Dec. 24, 1926, respectively (see 1923 Manual, pages 2596 and 2597). Information in back Manuals furnished on request to our Information Department. On July 12, 1927, the Centre & Clearfield Ry., formerly controlled (see 1927 Manual, page 2408), was dissolved. On Sept. 1, 1927, the Company merged Venango Public Service Corp. (see 1927 Manual, page 2411), Meyersdale Electric Light, Heat & Power Co., White Oak Light, Heat & Power Co., Wayside Electric Co., United Light, Heat & Power Co., Garrett Electric Light, Heat & Power Co., Citizens Light, Heat & Power Co. of Salisbury (property operating in Pa.), and Summit Townships Electric Light, Heat & Power Co.

Owns entire authorized and issued capital stock ($400,000) of Johnstown Fuel Supply Co.

The Pennsylvania Electric Co., together with its subsidiary and affiliated companies, own and operate an electric light and power system, serving over 350 communities located in Cambria, Somerset, Indiana, Clearfield, Centre, Westmoreland, Jefferson, Elk, Forrest, Warren, Erie, Venango, Clarion and Crawford Counties in Western Pennsylvania. The territory served has an aggregate population estimated to exceed 875,000, the principal towns being Johnstown, Erie, Warren, Du Bois, Punxsutawney, Somerset, Clearfield, Indiana, Philipsburg and Blairsville. The Company also does some incidental artificial gas and steam heating business, and through its subsidiary, the Johnstown Fuel Supply Co., renders natural gas service in Johnstown and its suburbs.

The electric system of the company includes 10 steam electric generating plants having an installed generating capacity of over 150,000 k.w. The Company's principal plants are at Seward, Johnstown, Philipsburg, Rockwood, Warren and Erie, these locations being such that they tend to insure continuity of service to the major centers of load.

A favorable feature with respect to the Pennsylvania Electric Company is that its subsidiary, the Penelec Coal Corporation (see appended statement), owns four producing coal mines near Clearfield, Philipsburg, Seward and Rockwood respectively, and has an aggregate coal reserve estimated to exceed 20,000,000 tons of coal on lands owned or held under lease. The location of these mines with respect to the Company's principal power plants is such that the entire supply of steam coal, for all except the Warren plant, is secured without the use of railroad equipment.

The transmission system of the Company and subsidiaries now includes approximately 1,438 circuit miles of high tension lines, principally 110,000 volts. Power is now being received from the hydro-electric plants of The Clarion River Power Co. and the Youghiogheny Hydro Electric Corp., affiliated companies. The electrical distribution system consists of approximately 4,500 miles of aerial wire in addition to underground distributing systems in the Cities of Johnstown and Erie. The electric system serves in the aggregate 106,960 customers.

The artificial gas plant at Clearfield and the Johnstown Fuel Supply Co., the entire capital stock of which (no funded debt) is owned by Pennsylvania Electric Co., distributes natural gas to 14,934 customers.

Franchises—Franchises of the Pennsylvania Electric Co. are unlimited in time. The franchise of the Johnstown Fuel Supply Co. in Johnstown extends to 1936 and its franchises in the suburban territory are perpetual.

CAPITAL STOCK

Authorized, 1,200,000 shares Common of no par value; outstanding, 850,000 shares Common. The Associated Electric Company indirectly owns the entire Common stock. The 7% cumulative Preferred stock previously outstanding was redeemed Sept. 1, 1926, and the 6% cumulative Pfd. previously outstanding was called for redemption on March 1, 1928 at 103 and accrued dividend.

Transfer Agents—F. E. Taylor, C. A. Dougherty and W. L. Freund, 61 Broadway, New York City.

Registrars—C. A. Dougherty, 61 Broadway, New York, or H. B. Brown, c/o J. G. White Management Corp., 33 Liberty St., New York.

Annual Meeting—Fourth Tuesday in January at Johnstown, Pa.

Dividends—Pfd. dividends regularly paid to dates of redemption.

NEW ENGLAND GAS AND ELECTRIC ASSOCIATION

(Controlled by Massachusetts Electric Investment Association)

History—A Massachusetts Voluntary Association formed under a Declaration of Trust dated Dec. 31, 1926. Owns more than 99% of the stock of Cambridge Electric Light Company, Cambridge Gas Light Company and 100% of the stocks of Cape and Vineyard Electric Company, New Hampshire Gas and Electric Company (formerly Portsmouth Power Company) and Middlesex County Electric Company.

The Association is affiliated with the Associated Gas and Electric System through ownership and control of the Common shares by individuals who are important stockholders and officials of the Associated Gas and Electric Company.

CAPITAL STOCK

Authorized, 250,000 shares Common and 250,000 shares Pfd., both of no par value; outstanding, 100,000 shares Common, 73,170 $5.50 Dividend Series Pfd. shares and 10,000 $6 Dividend Series Pfd. shares. All the outstanding Common shares are owned by Massachusetts Electric Investment Association. The $6 Dividend Series Pfd. stock was called for redemption June 1, 1928 at $105 a share.

Preferred Stock Provisions—The Pfd. shares may be issued as $5.50 Dividend Series Pfd. shares and/or $6 Dividend Series Pfd. shares, and are preferred over the Common shares both as to dividends and assets and are fully paid and non-assessable.

The Pfd. shares of these series are entitled to cumulative dividends at the rate of $5.50 and $6 per share per annum, payable quarterly, J, A, J & O 1, before any dividends are paid upon or set apart for the Common shares. Except as to dividend rate, shares of both series are in all respects alike.

The association agrees to reimburse the holders of the Pfd. shares for any Massachusetts Income Tax which such holders shall pay, pursuant to a lawful assessment therefor, on account of the dividends received upon such Pfd. shares, to an amount not exceeding 6% of the dividends so received, provided application for such reimbursement be made at such time and in such form as the Board of Directors or Trustees of the Association may from time to time require.

In the event of any termination, liquidation or winding up of the Association, the holders of the Pfd. shares ($5.50 Dividend Series and $6 Dividend Series) are entitled to be paid the sum of $100 per share and an amount equal to the unpaid cumulative dividends thereon accrued to the date of payment before any amount is paid to or assets distributed to the holders of the Common shares, except that if all assets are

transferred to a new company or association, Pfd. shareholders may be given, in lieu of cash, a like number of Pfd. shares of such new company or association having similar preferential rights.

No class of shares superior to the present classes of Pfd. shares may be authorized or created, nor may the rights of the holders of the Pfd. shares be changed so as to affect the holders adversely, without the affirmative vote of a majority of such of the holders of the outstanding Pfd. shares, adversely affected, as shall vote at a meeting held for such purpose. The Pfd. shares have no voting rights except as above mentioned.

Callability—The Pfd. shares ($5.50 Dividend Series and/or $6 Dividend Series) may be redeemed in whole or in part on the first day of any calendar months upon 30 days' previous notice at the price of $105 per share, plus the amount of the unpaid cumulative dividends thereon accrued to the date of redemption.

MASSACHUSETTS NORTHEASTERN STREET RY.

(Controlled by New Hampshire Electric Rys.)

History and Property—Incorporated August 16, 1900, in Massachusetts, as Haverhill & Southern New Hampshire St. Ry.; name changed to Massachusetts Northeastern St. Ry. in July, 1912. Subsequently merged the following companies: Lowell & Pelham St. Ry., Lawrence & Methuen St. Ry., Haverhill & Amesbury St. Ry., Haverhill & Plaistow St. Ry., Amesbury & Hampton St. Ry., Citizens Electric St. Ry., Seabrook & Hampton Beach St. Ry., Haverhill, Plaistow & Newton St. Ry., and Hudson, Pelham & Salem St. Ry. (see Manual for 1912, page 2036). The consolidated company operates about 77 miles of electric railway of which 18.5 miles are in New Hampshire, and 58.5 miles in Massachusetts. Connects Haverhill with Lawrence, Methuen, Merrimac, Amesbury, Newburyport, Salisbury and Salisbury Beach, in Mass., and Salem, Plaistow, Newton, Seabrook and Hampton Beaches, in New Hampshire. Road connects at various points with other street railway companies, including the Eastern Massachusetts Street Ry. Also owns a park on Canobie Lake, in Salem, N. H. Passenger cars (open, 61; closed, 69) 130; plows and work cars, 31. Power purchased from Portsmouth Power Co. Power is distributed through five substations, located at Salem and Plaistow, N. H., and Methuen, Amesbury and Newburyport, Mass., with a total transforming and converting capacity of 3,600 k.w.

CAPITAL STOCK

Authorized and issued, $1,500,000 Common and $665,000 6% cumulative Pfd. par, $100. All owned by New Hampshire Electric Railways. Annual meeting, in June. No dividends paid.

AMERICAN GAS AND ELECTRIC COMPANY

(Financed by Electric Bond and Share Co.)

History—As a result of a consolidation of the old American Gas & Electric Company (incorporated Dec. 20, 1906, in New York) and the Appalachian Securities Corporation, effective February 18, 1925, the present company known as American Gas and Electric Company was formed. Appalachian Securities Corporation had acquired, directly or indirectly, (a) the assets of The Virginian Power Company, which operated, directly or through subsidiaries, electric power and light systems in Ohio and West Virginia serving, mostly at wholesale, a population estimated to exceed 250,000 and (b) a substantial majority of the capital stock of Appalachian Power Company which operated electric power and light properties in Virginia and West Virginia serving a population estimated to exceed 400,000.

In Jan., 1907, the original American Gas & Electric Co. took over all the property and assets of the Electric Co. of America, consisting of gas and electric light properties located throughout the United States, and from time to time additional properties. have been acquired. American Gas and Electric Company acquired its first interest in American Electric Power Company in June, 1924, but earnings of that Company and its subsidiaries were not included in the combined statement of income of Amercian Gas and Electric Company prior to May 31, 1926.

Finances—The finances of the American Gas and Electric Co. and of its subsidiaries have always been handled through the Electric Bond and Share Company.

Subsidiaries—American Gas and Electric Company controls through ownership of all the Common stock, except directors' shares, a diversified group of electric power and light companies serving, directly or indirectly, 870 communities having an aggregate population estimated at 2,690,000. The communities served have a wide diversity of industrial interests, being located in the 9 states of Pennsylvania, New Jersey, Virginia, West Virginia, Kentucky, Tennessee, Ohio, Indiana and Michigan.

The principal companies controlled are as follows:

Appalachian Electric Power Company	Roanoke, Va.
The Ohio Power Company	Newark, Ohio
The Scranton Electric Company	Scranton, Pa.
Indiana & Michigan Electric Company	South Bend, Ind.
Atlantic City Electric Company	Atlantic City, N. J.
Indiana General Service Company	Muncie, Ind.
Wheeling Electric Company	Wheeling, W. Va.

The principal communities served by subsidiaries include Scranton, Pa.; Wheeling, Huntington, Charleston and Bluefield, W. Va.; Roanoke and Lynchburg, Va.; Kingsport, Tenn.; Canton, Lima, Portsmouth, Steubenville and Newark, Ohio; South Bend, Muncie, Marion and Elkhart, Ind.; Benton Harbor and St. Joseph, Mich.; Atlantic City, N. J.; and other important communities. About 88% of the gross earnings of subsidiaries for the twelve months ended December 31, 1927, was derived, and as a result of the recent sale of certain railway and other properties, over 97% is now derived, from electric power and light business.

The Ohio Power Company's Philo station is located on the Muskingum River, approximately 12 miles south of Zanesville, Ohio, at a point very favorably located in relation to load, coal and water. It is a superpower high-pressure steam electric generating station having an initial installation of 80,000 kilowatts, consisting of two 40,000-kilowatt units, and will have a capacity of 245,000 kilowatts upon completion of a 165,000-kilowatt unit now under construction. This new unit will consist of one 53,000-kilowatt high pressure turbine and two 56,000-kilowatt low pressure turbines, each capable of independent operation. The new 165,000-kilowatt unit complete with boilers, housing, coal-handling apparatus and high tension transformers is expected to be in service about Nov. 1, 1928, and will be one of the largest electric generators in the world.

Indiana & Michigan Electric Company owns the Twin Branch superpower, high-pressure, steam electric generating station, which is favorably located near South Bend, Indiana, and is similar to the Philo station. The Twin Branch station, which has a present installed capacity of 80,000 kilowatts, was placed in operation in 1925 and is designed for an ultimate capacity of 240,000 kilowatts.

At Stanton, about ten miles west of Scranton, Pa., there was placed in operation in 1927 a modern steam electric generating station, with a rated initial installed capacity of 72,000 kilowatts, which is expected ultimately to replace smaller and less efficient stations now being operated. This station was constructed jointly by American Gas and Electric Company and Pennsylvania Power & Light Company, and each company owns a 36,000 kilowatt unit with its independent boiler room, turbine room, switchboard, switchyard and outgoing transmission lines.

The present Philo, Twin Branch and Stanton stations are among the most economical stations in the world, and the construction of each has been in accordance with the latest development of the science.

The Windsor station of The Ohio Power Company (constructed jointly by this subsidiary of the American Gas and Electric Company and by the West Penn Power Company), which is situated on the Ohio River near Wheeling, W. Va., and immediately adjacent to coal mines owned and operated jointly by American Gas and Electric Company interests and the West Penn Power Company, is one of the most efficient and modernly equipped steam electric generating stations in the country. The portion of the station owned by The Ohio Power Company now has a rated capacity of 90,000 kilowatts.

Important electric generating stations owned by Appalachian Electric Power Company include the Cabin Creek station with a present installed capacity of 104,700 kilowatts (including a 20,000-kilowatt unit leased), and the Glenlyn station with a present installed capacity of 80,000 kilowatts. This company also owns hydro-electric generating capacity aggregating 33,000 kilowatts and undeveloped water power sites capable of advantageous development when conditions justify.

Other important steam electric generating stations owned by subsidiaries include the Suburban station of The Scranton Electric Company, which has a present installed capacity of 65,500 kilowatts.

Construction has begun on a superpower steam-electric generating station to be known as the Deepwater plant at Deepwater, near Carneys Point, New Jersey, opposite Wilmington, Del., in which Atlantic City Electric Company will have a substantial ownership. This station will be similar in design to the large superpower plants of the associated companies lately constructed but with added improvements. It is expected it will be completed and placed in operation late in 1929. The initial installed capacity, totaling 118,500 kilowatts, will consist of two main cross compound turbine sets, each rated at 53,000 kilowatts, and a third high pressure single cylinder turbine of 12,500 kilowatts. Boiler equipment will consist of 1,200 pound high pressure units, with steel stacks. Fuel for operation will be coal, brought in on barges and boats directly to the station wharf and by rail. The Delaware River provides ample condensing water.

This station will feed the new 66,000-volt system of Atlantic City Electric Company now under construction in southern New Jersey, one main trunk line of which consists of a 60-mile, steel tower transmission line from the station across the state to Pleasantville, N. J., near Atlantic City. The station will also be interconnected with the system of the Wilmington

& Philadelphia Traction Company at Wilmington, and, through Philadelphia, will thus be part of the power pool in the states of Pennsylvania and New Jersey now being created.

Electric properties of subsidiaries of the American Gas and Electric Company in Michigan, Indiana, Ohio, Kentucky, West Virginia, Virginia and Tennessee are inter-connected by high voltage transmission lines and constitute one of the largest interconnected systems in the world. Physical interconnections are also made with this system by companies not controlled by the American Gas and Electric Company, but operating in contiguous territory, with the result that this interconnected system, through construction recently completed, extends also into the states of Illinois, Wisconsin and North Carolina, and in addition it is interconnected with areas in other states not served by subsidiaries of the American Gas and Electric Company. Seven large modern electric generating stations owned by subsidiaries, the Windsor, the Philo, the Twin Branch, the Cabin Creek, the Glenlyn, the Logan and the Kenova stations, generate a large part of the power transmitted over this system.

Steam electric generating capacity placed in operation in 1927 by subsidiaries aggregated 128,500 kilowatts, including a 36,000-kilowatt unit in the new Stanton station now owned by The Scranton Electric Company and a 31,500-kilowatt unit in the Cabin Creek station, a 25,000-kilowatt unit in the Glenlyn station and a 25,000-kilowatt unit in the Kenova station of the Appalachian Electric Power Company.

Transmission lines completed and placed in operation during 1927 include a 132-000-volt line extending from Danville, Virginia, to the Virginia-North Carolina state line and effecting an interconnection with the extensive eastern transmission system of the Carolina Power & Light Company; a 132,000-volt line extending from Saltville, Virginia, to Kingsport, Tennessee, at which latter point interconnection with the western transmission system of the Carolina Power & Light Company has been made by means of the transmission system of the Tennessee Public Service Company extending between Kingsport and Waterville, Tennessee; and a 33,000-volt line extending from Ashland to Morehead, Kentucky. Operating companies had under construction at Dec. 31, 1927, a total of 263 miles of transmission lines.

Sale of Street Railroad Properties—American Gas & Electric Company during 1927 disposed of practically all of its street railroad properties and now owns only one street railroad property and that is under contract for sale. In the disposition of these street railroad properties there were included certain electric light properties which were involved in the financial setup with the traction properties, or so located that they could not be economically tied in and made part of the American Gas & Electric Company's high tension system.

Statistical Data, as at December 31—The growth of the property and service of subsidiaries during the last ten years is indicated in the following tabulation:

	1927	1922	1917
Electric consumers	524,770	250,145	95,944
Kilowatts generating capacity installed	906,027	349,928	119,662

APPALACHIAN ELECTRIC POWER COMPANY

(Controlled by American Gas and Electric Company)

(Financed by Electric Bond and Share Co.)

History—Incorporated March 4, 1926, in Virginia and has acquired, through merger or conveyance, and now owns and operates, the electric properties in western Virginia and western West Virginia, formerly owned by:

Appalachian Power Company.
Appalachian Power & Light Company (properties formerly owned by The Virginian Power Company)
Central Virginia Power Company
Consolidated Power & Light Company
Dunbar Light & Power Company
Interstate Power Company
Kanawha Valley Power Company
Kentucky & West Virginia Power Company, Incorporated
Lynchburg Traction & Light Company
New River Development Company
Roanoke Railway & Electric Company
Roanoke Traction & Light Company
St. Albans Electric Power & Light Company
West Virginia Water & Electric Company

Business and Territory—The Appalachian Electric Power Company supplies, directly or indirectly, electric power and light service to 252 communities serving a total population in excess of 588,000.

The principal cities served directly include Huntington, Charleston, Logan and Bluefield, W. Va. and Roanoke, Lynchburg and Pulaski, Va., and those served indirectly include Ashland, Hazard and Pikeville, Ky.

The Company also supplies the gas service in Lynchburg, Va., and controls, directly or indirectly, the companies owning and operating street railway properties serving Roanoke and Lynchburg, Va., and their suburbs, and the companies owning and operating the properties supplying street railway service in Huntington, W. Va., and Ashland, Ky., and interurban railway service connecting these two communities and extending to Ironton, Coal Grove and Hanging Rock, Ohio.

Plants and Properties—The total installed generating capacity owned or controlled by Company aggregates 330,466 k.w. Of this total capacity, 297,400 k.w. is steam and 33,066 k.w. is hydro-electric generating capacity. The Company also owns an aggregate of 2,077 (excluding 53 miles leased) miles of high voltage transmission lines and 1,180 miles of distribution system. Kentucky & West Virginia Power Co., Inc., owns a total of 334 miles of high voltage transmission lines and 255 miles of electric distributing system. All transmission lines are interconnected. In addition there are now under construction 56 miles of transmission lines.

The Company also owns in Lynchburg, Va., gas works capacity of 1,000,000 cu. ft. per day, gas holder capacity of 750,000 cu. ft., and 53 miles of gas mains.

All generating stations are located in a territory where an almost unlimited quantity of low cost fuel is available, which, with an abundance of water and the interconnection of all generating stations, assures economic operation and a continuous and uninterrupted supply of electrical energy.

All the electric power and light properties owned by the Company and its said subsidiary are entirely interconnected by 1,872 miles of high voltage transmission lines and this system in the three states of Virginia, West Virginia and Kentucky is interconnected with the high voltage lines of other subsidiaries of American Gas and Electric Co. in Ohio, Indiana and Michigan.

All electric property of the Consolidated Power & Light Co. has been sold to Appalachian Electric Power Co. Its telephone and railway property was sold during 1927 and the Company is now in course of dissolution.

Franchises—The franchises are generally satisfactory from a legal and operating point of view. The transmission lines are for the most part on rights-of-way either owned or controlled through 99-year leases, or over which perpetual easements have been acquired.

Control—The Company is controlled through ownership of all its Common stock by the American Gas and Electric Company and constitutes the largest operating subsidiary of that company. The finances of the American Gas and Electric Company and of its subsidiaries have always been handled through the Electric Bond and Share Company.

Trustees—Bankers Trust Co. and B. W. Jones, New York.

Provisions of Issue—Authorized amount of mortgage, unlimited. Issued and outstanding, $47,167,000 5% Series of 1956.

The mortgage provides for the issuance of bonds in series bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features and provisions as may be determined by the Board of Directors of the Company, subject, however, to the restrictive provisions of the mortgage.

The mortgage also provides that additional bonds of the 5% Series of 1956, or other series, may be issued thereunder; (a) for refunding an equal principal amount of bonds of any series, or underlying or prior lien bonds, both as defined in the mortgage; (b) for cash; (c) to not exceeding 75% of the cost, or fair value, whichever is less, of property additions, as defined in the mortgage, to the properties of the Company and/or its subsidiaries; and (d) against the properties as existing on May 10, 1926, to a total not exceeding $7,500,000 principal amount of bonds. Under the terms of the mortgage a "subsidiary corportation" shall include Kentucky & West Virginia Power Co., Inc., and any other company all of whose bonds, except as provided in the mortgage, and all of whose stock, except directors' shares, shall be owned by the company and pledged under the mortgage. No bonds may be issued against property of a subsidiary corporation unless not less than an equal principal amount of mortgage bonds of such subsidiary corporation are simultaneously pledged with the Corporate Trustee.

Additional bonds may not be issued, except for refunding purposes, unless consolidated net earnings, as defined in the mortgage, of the Company and its subsidiaries for twelve consecutive months within the fifteen calendar months immediately preceding the date of the application for issue, shall have been at least equal to twice the annual interest requirements on (or 12% of the principal amount of) all bonds issued and outstanding under the mortgage, including those proposed to be issued, and on all underlying and prior lien bonds, as defined in the mortgage, of the Company and its subsidiaries. Not more than 20% of such net earnings shall consist in the aggregate of (a) net non-operating income; and (b) net income derived from properties not directly subject to the lien of the Mortgage or to the lien of a subsidiary corporation mortgage all bonds outstanding under which are owned by the Company and pledged under the mortgage.

Bonds of the 5% Series of 1956 will contain the following clause: "With the consent of the Company and to the extent permitted by and as provided in the mortgage, the terms and provisions of the mortgage or of any instruments supplemental thereto may be modified or altered by the affirmative vote of at least 85% in amount of the bonds then outstanding, provided however that no modification or alteration shall be made in any of the provisions of this bond or in the unconditional promise of the Company to pay principal and interest hereof in the amounts and at the fixed or determinable times and in the manner as set forth herein."

Purpose of Issue—The original issue of $35,000,000 5% Series of 1956, together with $7 Pfd., Second Pfd. and Common stocks were issued in connection with the acquisition of the constituent properties, and the financing resulted in the retirement of $21,414,800 bonds of the predecessor companies, as well as the liquidation of indebtedness incurred for additions and improvements and heretofore unfunded. The financing

also provided the Company with funds for further additions to property and other corporate purposes.

Callability—Subject to call at any time, in whole or in part, on at least 30 days' published notice up to and including May 1, 1931, at 105; thereafter up to and including May 1, 1935, at 104½; thereafter up to and including May 1, 1940, at 104; thereafter at ¼% less each succeeding year up to and including May 1, 1954, and thereafter prior to maturity at 100¼, plus accrued interest in each case.

Security—Secured by a direct mortgage on the entire physical properties of the Company, subject, as to portions thereof, to the lien of certain underlying divisional bonds outstanding with the public in the amount of $23,413,000 and issued under indentures closed by provisions of the Mortgage as to issuance of additional bonds to the public. They are further secured by pledge of all bonds and stock of Kentucky & West Virginia Power Co., Inc. to be outstanding. The properties on which these bonds are secured by first mortgage or first lien (through pledge of collateral) include steam electric generating stations with an aggregate installed capacity of 104,000 kilowatts and 643 miles of transmission lines and have an aggregate value substantially equal to the total outstanding amount of the present issue.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded.

Original Offering—First publicly offered ($35,000,000 5% Series of 1956 in April, 1926, at 97 and interest, to yield about 5.20%, by Bonbright & Co., Inc., Harris, Forbes & Co., Tucker, Anthony & Co., Coffin & Burr, Inc., A. B. Leach & Co., Inc., W. C. Langley & Co., Old Colony Corp., and Jackson & Curtis, New York, etc.

Legal Opinion—Winthrop and Stimson, New York (for the Bankers), and Simpson, Thacher & Bartlett, New York (for the Company).

INDIANA AND MICHIGAN ELECTRIC COMPANY

(Controlled by American Gas and Electric Co.)

(Financed by Electric Bond and Share Co.)

History—A consolidation during 1925, of Indiana & Michigan Electric Company, incorporated May 11, 1907, in Indiana, and the Twin Branch Power Company. The Indiana & Michigan Electric Co. (Indiana) was successor to a company of the same name incorporated under the laws of New Jersey. Controls through stock ownership the South Bend Power Co. and Bristol Power Co. Company operates a steam plant at South Bend having a total capacity of 14,000 k.w. It also generates electricity by water power at four points in the St. Joseph River; namely, Elkhart, Twin Branch, Buchanan and Berrien Springs, the total electrical generator capacity of these four plants being 22,879 k.w. A new steam-electric plant, constructed at Twin Branch near Elkhart, Ind., has an initial installed capacity of 80,000 k.w. This plant is designed for an ultimate capacity of 240,000 k.w. The total installed generating capacity of all plants aggregates 116,879 k.w. (22,879 k.w. hydro-electric and 94,000 k.w. steam).

All the plants are interconnected by transmission lines aggregating 425 miles including 108 miles of 132,000-volt steel tower construction recently placed in operation. The various distributing systems comprise an aggregate of 1,057 miles.

Company does an extensive electric power and light business in the important industrial section in the St. Joseph River Valley in northern Indiana and southwestern Michigan, including the entire central station power and light business in South Bend and Elkhart, Indiana, and thirty-eight other communities. It supplies at wholesale the major portion of the power requirements of the local distribution systems in several other communities including Mishawaka, La Porte, Plymouth and New Carlisle, Ind., and Niles, St. Joseph and Benton Harbor, Mich. In Mishawaka, New Carlisle and Niles, it also supplies directly a number of large industrial power consumers. The present population of territory served is estimated at 204,000.

As of Dec. 31, 1927, electric power and light service was supplied to 45,577 consumers, and the output of electric energy for 1927 aggregated more than 390,808,000 kilowatt hours.

Franchises—The operations of the Company in South Bend, Mishawaka and Elkhart, the principal cities in the territory, are carried on, in the opinion of counsel, under indeterminate permits obtained under the Indiana Public Service Commission Law. The franchises under which it operates in the remainder of its territory in Indiana and Michigan are of various maturities, and are in general satisfactory from an operating standpoint. A substantial part of the Company's high tension transmission system is built on private rights of way.

Statistical Data—The total number of consumers served by Company and the physical equipment of the property at Dec. 31, 1927, with a comparison for the calendar years 1926 and 1925, follow:

	1927	1926	1925
Electric consumers	45,577	41,394	38,799
Kilowatts generating station capacity	116,879	126,879	125,700
Miles of high voltage transmission lines (11,000 volts and over) in operation, irrespective of the number of circuits carried	425	382	357
Miles of distribution system (less than 11,000 volts) in service, irrespective of number of circuits carried	1,057	914	789

THE OHIO POWER COMPANY

(Controlled by American Gas and Electric Co.)

(Financed by Electric Bond and Share Co.)

History and Property—Incorporated April 30, 1907, in Ohio, as the Canton Electric Co.; name was changed to The Central Power Co. in March, 1916; again changed on Nov. 20, 1919, to The Ohio Power Co. Life of charter, unlimited. Is a consolidation of The Merchants' Heat, Light & Power Co., The Canton Light, Heat & Power Co., The Central Heating & Lighting Co., The Ohio Light & Power Co., and The Sunnyside Electric Co. The Buckeye Power Co. was merged in 1920 (see 1920 Public Utility Manual, page 679, or apply to our Information Department). Effective Nov. 1, 1922, purchased the power and light department of the Lima Electric Ry. & Light Co. (see 1922 Public Utility Manual, page 2007). In 1925, The Hardin-Wyandot Lighting Co. (see 1924 Manual, page 790) was merged. On May 1, 1926, purchased the properties of The North Western Ohio Light Co., The Ironton Electric Co., the electric and heating department of Ohio Service Co., and the electric property of The Portsmouth Public Service Co. The railroad department of the Ohio Service Co. which remained after the Ohio Power Co. took over the electric and heating business, was abandoned on Feb. 1, 1927, and the Ohio Service Co., therefore, ceased to exist.

The Ohio Power Company owns and operates large electric power and light generating plants and transmission and distributing systems in important manufacturing and mining sections of Ohio. Company owns transmission and distributing lines aggregating 3,965 miles and serve a prosperous territory in Ohio having an estimated population of 800,000. The company supplies electric power and light to 271 communities among which are Canton, Lima, Portsmouth, Steubenville, Newark, East Liverpool, Lancaster, Ironton and Cambridge, and a number of communities in the Wheeling district west of the Ohio River.

The company is one of the most important subsidiaries of American Gas and Electric Company.

The company owns a total installed electric generating capacity of 230,870 kilowatts (not including a 165,000-kilowatt unit now under construction at its Philo station), 1,590 miles of high voltage transmission lines (not including 38 miles under construction), and 2,375 miles of distribution system. The company's principal electric generating stations are located at Philo, Ohio, and at Power (formerly Windsor), West. Va.

The Philo station is on the Muskingum River, approximately twelve miles south of Zanesville, Ohio, at a point favorably located in relation to load, coal and water. It is a superpower high-pressure steam electric generating station having a present installed electric generating capacity of 80,000 kilowatts consisting of two 40,000-kilowatt units, and will have a capacity of 245,000 kilowatts upon completion of a 165,000-kilowatt unit now under construction. This new unit will consist of a 53,000-kilowatt high-pressure turbine and two 56,000-kilowatt low-pressure turbines,

each capable of independent operation. The new 165,000-kilowatt unit, complete with boilers, housing, coal-handling apparatus and high tension transformers, will be one of the largest and most economical electric generators in the world, and it is expected that it will be completed and placed in operation in the fall of 1928.

The Windsor station is located on the Ohio River, twelve miles north of Wheeling, West Va., and is favorably located in relation to load, coal and water. It is one of the largest steam turbine generating stations in the country and has a present installed generating capacity of 180,000 kilowatts, of which 90,000 kilowatts is owned by The Ohio Power Company and 90,000 kilowatts by the West Penn Power Company. This station obtains coal from a mine which is immediately adjacent to the plant and is owned by The Ohio Power Company and The West Penn Power Company, through a subsidiary coal company.

All the electric power and light properties owned by the company are interconnected by high voltage transmission lines. In addition to the 132,000-volt steel-tower transmission lines interconnecting properties in the eastern part of the state (including the Company's principal generating stations on the Ohio and Muskingum Rivers), and similar lines interconnecting properties in the western part of the state, the Company owns 132,000-volt transmission lines extending south to the Ohio River and west to the Indiana state line . The Company's transmission system is interconnected through a line to the Ohio River with the system of the Appalachian Electric Power Company and, through the extension to the Indiana state line, with the system of the Indiana & Michigan Electric Company. Both of these companies are also subsidiaries of American Gas and Electric Company, and this interconnected system, extending into seven states, constitutes one of the largest super-power systems in the world.

(5)

$13,794,500 THE OHIO POWER CO. FIRST & REFUNDING GOLD 5s, SERIES "B"; DUE JULY 1, 1952

Dated July 1, 1922.

Interest Payable January and July 1, at Central Union Trust Co. of New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Coupon bonds of $1,000 exchangeable for fully registered bonds.

Trustee—Central Union Trust Co. of New York.

Provisions of Issue—Authorized amount of mortgage, unlimited. Outstanding February 1, 1928, $43,149,500 ($13,794,500 Series "B" 5s, and $29,355,000 Series "D" 4½s). The Series "A" 7s and Series "C" 6s have been retired.

Additional bonds either of this series, or of other series having such rates of interest, maturity dates and other provisions as the board of directors of the company may determine, may be authenticated (a) for refunding an equal principal amount of outstanding underlying bonds or prior liens (as defined in the mortgage) or bonds of any series authenticated under the mortgage, (b) for cash to be deposited with the trustee and (c) for not more than 75% of the cost or fair value, whichever is less, of permanent additions (as defined in the mortgage).

Additional bonds may not be authenticated, however, except for refunding purposes, unless net earnings (as defined in the mortgage) for twelve consecutive months out of the fifteen months immediately preceding the application for authentication shall have been equal to either (1) twice the actual annual interest requirements on, or (2) 12% of the principal amount of, all outstanding underlying bonds and all bonds outstanding under the mortgage, including those proposed to be authenticated.

Callability—Subject to call as a whole or in part on any interest date on four weeks' notice at 105 and interest on or before July 1, 1927; at 104 and interest in the next five years; at 103 and interest in the next five at 102 and interest in the next five; at 101 and interest in the next five, and at 100½ and interest thereafter prior to maturity.

Sinking Fund—None.

Renewal and Improvement Fund—The Mortgage provides that the Company shall on April 1 of each year, beginning April 1, 1922, pay into a Renewal and Improvement Fund a sum equal to 4½% of the bonds outstanding at the close of the preceding year, less

the amounts expended on the property of the Company during such year in repairing, maintaining, renewing and replacing the mortgaged property. Sums so deposited may be used to reimburse the Company for expenditures in other years for such purposes in excess of such percentage, to purchase or redeem bonds, or to reimburse the Company for property additions against which no bonds may be issued.

Security—The First & Refunding Mortgage bonds are equally and ratably secured by direct mortgage lien on the Company's plants and physical properties. The First & Refunding Mortgage is a first lien on the greater part of the Company's physical properties, including the two principal generating stations and practically all the new high voltage transmission lines recently constructed and acquired by The Ohio Power Company, and a second mortgage lien on the remainder, subject to divisional lien bonds aggregating $2,636,000 outstanding under closed mortgages. All these divisional lien bonds must be paid at maturity and not extended.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania Four-Mill Tax refunded upon application.

Legal for Savings Banks in Maine.

THE OHIO STATE POWER COMPANY

(Controlled jointly by American Gas and Electric Co. and The Lake Shore Electric Railway Co.)

History and Property—Incorporated July 22, 1912, in Ohio; successor to the Sandusky River Power Co. (see Manual for 1915, page 660). The securities of the latter Company were all taken in exchange for The Ohia State Power Co. securities. The Company owns a hydro-electric power station on the Sandusky River of 3,000 k. w. capacity, and a steam-electric power station of 15,000 k.w. capacity at the same location. The entire output of these plants has been sold under a contract running until 1967, to The Ohio Power Co. and The Lake Shore Electric Ry. Co. Under the terms of this contract the Company is assured of an income sufficient to cover all operating expenses, maintenance, taxes, insurance, depreciation and obsolescence, and interest and sinking fund on its bonds. Life of charter unlimited.

CAPITAL STOCK

Authorized and outstanding, $600,000 Common and $400,000 6% cumulative Pfd.; par, $100. Pfd. stock has preference as to assets and dividends. Entire Common and Pfd. stock owned jointly by The Ohio Power Co. (a subsidiary of American Gas and Electric Co.) and the Lake Shore Electric Ry. Co. Annual meeting, second Tuesday in August.

DELAWARE ELECTRIC POWER COMPANY

(Controlled by The United Gas Improvement Co.)

History—Incorporated June 27, 1910, in Delaware, as the Wilmington & Philadelphia Traction Company; name changed to present title Nov. 16, 1927. Leases for 990 years, from July 1, 1910, The Wilmington City Electric Co. and The Wilmington City Ry., controlled by Wilmington and Chester Traction Co., and companies formerly leased to The Wilmington City Ry. Co., viz.: Wilmington & Edgemoor Electric Ry. (controlled by Wilmington City Ry.); The Front & Union Ry. Co., The Gordon Heights Ry. Co., and the New Castle County Electric Co. Lessee pays interest on funded debt of leased companies, in addition to an annual rental, ranging from a minimum of $78,010 to a maximum of $120,610 in fifteen years.

The Company owns the entire capital stocks of the Southern Pennsylvania Traction Co., Chester & Eddystone Street Ry. Co., the Peoples Ry. Co., and the Wilmington, New Castle & Delaware City Ry. Co., and the Wilmington Light & Power Co., and $1,000 outstanding capital stock of The Wilmington Amusement Parks Co. By an Agreement, dated July 1, 1910, this company guarantees all obligations of Southern Pennsylvania Traction Co. in consideration of receiving that company's entire net income, with exception of 10% on its capital stock, of $10,000 (all owned by this Company), amounting to $1,000.

On June 1, 1915, the company acquired control of the Peoples Ry. Co. of Wilmington, Del. (stock $1,500,000). In Oct., 1915, purchased the Wilmington Southern Traction Co. ($250,000 Common and $100,000 Pfd. stock), and the Wilmington, New Castle & Delaware City Ry. (stock, $250,000) and consolidated them under the name of the latter (see statement appended). Controls and operates through the above leases and through the Southern Pennsylvania Traction Co. all electric light and power business and street railway lines in the City of Wilmington and vicinity; also street railway lines in Chester and Media, Pa., and suburban lines connecting the above places, with each other and with the City of Philadelphia, a total of 130 miles of track. Also leases the New Castle County Electric Co. for 990 years.

Lines Operated—Owned (Peoples Ry., 23.60 miles; Wilmington, New Castle & Delaware City Ry., 14.94 miles), 38.54 miles; leased—Wilmington City Ry., 33.09 miles; Wilmington & Edgemoor Electric Ry., 1.67 miles; Front and Union Street Ry., 7.77 miles; Gordon Heights Ry., 0.73 mile—total, 43.26 miles. Total owned, leased and operated, first track, 66.30 miles. Second track, 14.66 miles. Sidings, etc., 5.23 miles. Cars—closed, 96; service, 15—total, 111.

New Control—The United Gas Improvement Co. in Feb., 1928, acquired from The American Electric Power Corporation, the Delaware Electric Power Co. and its affiliated companies adjacent thereto and operated by the Delaware Company, on a basis of ex-

change and other consideration for properties in Iowa, namely, Sioux City Gas and Electric Company and subsidiaries, and Iowa Public Service Company.

CAPITAL STOCK

Authorized, 200,000 shares Common of no par value and $500,000 6% cumulative Pfd.; outstanding, 162,400 shares Common and $500,000 Pfd.; par of Pfd., $100. Pfd. stock has preference for assets and 6% cumulative dividends. All of the Common stock is owned by The United Gas Improvement Co.

Registrar (Pfd. Stock)—Wilmington Trust Co., Wilmington, Del.

Annual Meeting—First Tuesday in March.

Dividends—Pfd. dividends paid in full to date, all accumulations being paid in 1921; payments quarterly.

FUNDED DEBT

$5,985,000 WILMINGTON & PHILADELPHIA TRACTION CO. FIRST MORTGAGE & COLLATERAL TRUST GOLD 5s; DUE FEB. 1, 1963

Dated February 1, 1913.

Interest Payable February and August 1, at Equitable Trust Co., New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Equitable Trust Co., New York.

Provisions of Issue—Authorized issue, $25,000,000. The unissued bonds are reserved for refunding securities of underlying companies, for 90% of the cost of acquisition of securities of other public utility companies, and for improvements, extensions, etc., up to 85% of the cost thereof but in the last two instances only when annual net earnings shall have equalled 1½ times the annual interest on all bonds outstanding and those proposed to be issued.

Callability—Subject to call at 105 and interest on any interest date.

Security—The bonds are secured by a first mortgage on real estate, a first lien on rolling stock and leases owned by the company, and by pledge of the following collateral: $1,500,000 Wilmington & Chester Traction Co. 5s of 1952; $150,000 Peoples Ry. 5s of 1965; $128,000 Wilmington, New Castle & Delaware City Ry. Co. 5s of 1966; the entire Common stock of the Wilmington Light & Power Co.; $1,500,000 Common stock of the Peoples Ry. Co.; $600,000 Common stock of Wilmington, Newcastle & Delaware City Ry. Co.; $9,300 Common stock of the Southern Pennsylvania Traction Co.; $1,000,000 Common and $250,000 Pfd. stock of Wilmington Light and Power Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania State tax refunded.

FUNDED DEBT

$1,100,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE MARCH 1, 1948

Dated March 1, 1928.

Interest Payable March and September 1, in Boston and Chicago.

Denominations—Coupon, $100, $1,000 and $5,000; principal may be registered. Fully registered bonds, $1,000 and $5,000. Coupon and registered bonds interchangeable.

Trustees—Continental National Bank and Trust Co., Chicago, and William P. Kopf.

Provisions of Issue—Authorized amount unlimited; issued $1,100,000 Series "A."

The Mortgage provides that, subject to the limitations thereof, in addition to $200,000 in principal amount of bonds of Series "A" issuable without restrictions, additional bonds of said series (or of other series bearing such rates of interest, maturing at such times and having such other provisions as the Board of Directors at the time of issuance may determine) may be issued for the refunding par for par, of bonds of other series and against the deposit, par for par, of cash or United States obligations and for reimbursing the Company to the extent of 75% of expenditures made for additions, improvements, betterments or extensions and to the extent of 75% of the cost or value (whichever is less) of purchased property acquired by the Company, provided that all such extensions and purchased property, shall be subject to the Mortgage as a first mortgage thereon. Bonds shall not be issued on account of expenditures made by the Company for such extensions or purchased property or for refunding bonds of another series bearing a higher interest rate, unless the net earnings, as defined in the Mortgage, of the Company during the 12 consecutive calendar months ending within 60 days next preceding the date of issuance shall have been at least 1¾ times the annual interest charges on all bonds then issued and outstanding under the Mortgage and those then proposed to be issued, less an amount of such bonds equal to the amount of cash deposited under the Mortgage against the issuance of bonds.

Purpose of Issue—Proceeds from sale of these bonds and of $500,000 Preferred stock were to be used to redeem bonds of the Company outstanding, to retire the funded debt of one of the companies being acquired, to reimburse the treasury of the Company for expenditures made to acquire certain additional telephone properties, and for other corporate purposes.

Callability—Subject to call as a whole or in part at any time upon 30 days' notice at the following prices and accrued interest; On or before February 28, 1933 at 105; thereafter but on or before Feb. 28, 1938 at 103; thereafter but on or before Feb. 28, 1943 at 102; thereafter but on or before Feb. 28, 1947 at 101; after Feb. 28, 1947 at 100.

Maintenance and Renewal Fund—The Mortgage provides that during each calendar year beginning with the year 1929 the Company shall expend an amount not less than 20% of the gross earnings derived from operation of its mortgaged properties for (a) maintenance and/or renewal or replacement of its properties; (b) the making of extensions or the acquisition of properties on account of which the Company would otherwise be entitled to issue additional bonds; or (c) the redemption or the purchase and cancellation of any bonds issued under and secured by the Mortgage.

Security—Secured by a first mortgage on all the fixed properties, rights and franchises of Company now owned and on all such property hereafter acquired against which any bonds may be issued under the mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, California and Connecticut 4 mills tax, and Massachusetts 6% income tax on interest, refundable if requested within 60 days after payment.

Original Offering—First publicly offered ($1,100,000) in March, 1928 at 99½ and interest, to yield over 5% by Paine, Webber & Co. and Second Ward Securities Co., Milwaukee, etc.

BOND REDEMPTION

CONSOLIDATED TELEPHONE COMPANY OF WISCONSIN

(Controlled by Associated Telephone Utilities Company)

History—Incorporated April 13, 1926 in Wisconsin as the State Telephone Company of Wisconsin; name changed to present title on May 2, 1927. On May 12, 1927 acquired the properties of Clark County Telephone Co., Glidden Telephone Co., Athens Telephone Co., Mishicot Telephone Co., Eagle River Telephone Co., State Line Telephone Co., Carter and Wabeno

Telephone Co., Manitowoc & Western Telephone Co., Gillett Telephone Co. and Wisconsin Lakes Telephone Co.

Company owns and operates a telephone system under indeterminate franchises and renders service without competition in fifteen counties in the northern and central part of Wisconsin, including the communities of Two Rivers, Plymouth, Chilton, Kiel, Eagle River, Minocqua, Land O'Lakes and Park Falls. The population of the territory served is estimated to be in excess of 75,000. The Company has the advantage of an interchange of toll and long distance business through traffic agreements with the Bell Telephone Company and other independent telephone systems, making available to subscribers connections with practically all points in the United States.

Properties of the Company consist of 37 telephone exchanges and a total of 7,044 miles of wire, of which 478 miles are toll pole lines. Number of telephones in use, 12,600. At Two Rivers a new automatic system is in operation.

CAPITAL STOCK

Authorized, $1,000,000 Common; outstanding $500,000; par value, $100. Controlling interest is owned by Associated Telephone Utilities Co.

Annual Meeting—Third Tuesday in January.

FUNDED DEBT

$1,000,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES "A"; DUE MAY 1, 1942

Dated May 1, 1927.

Interest Payable May and November 1, at Central Trust Co. of Illinois, Chicago.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Central Trust Company of Illinois, Chicago.

Transfer Agent & Registrar—Central Trust Co. of Illinois, Chicago.

Provisions of Issue—Issued $1,000,000 Series "A" 5½s. The Indenture securing these bonds provides that additional bonds may be issued thereunder for not in excess of 80% of the cost or fair value, whichever is lower, of permanent improvements, extensions or additions to the properties made subsequent to May 1, 1927, and not from the proceeds of this financing, provided net earnings of Company, as defined in the Indenture, for 12 consecutive calendar months within 15 calendar months immediately prior to the issuance of such new bonds, have been at least two times the annual interest charges on all bonds outstanding under the indenture and those then proposed to be issued. In the computation of net earnings, at least 12½% of gross earnings must be charged to maintenance.

Purpose of Issue—Issued to retire all funded indebtedness outstanding against the properties, to reimburse Company for additions and improvements recently made, and to provide funds for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice, to and including May 1, 1929, at 105 and interest; thereafter, to and including May 1, 1932, at 104 and interest; thereafter, to and including May 1, 1935, at 103 and interest; thereafter, to and including May 1, 1938, at 102 and interest; thereafter, to and including May 1, 1941, at 101 and interest; thereafter at 100 and interest.

Sinking Fund—A sinking fund is provided which will be sufficient to retire about 20% principal amount by maturity.

Maintenance and Improvement Fund—Company covenants to establish a maintenance and improvement fund equal to at least 25% of the gross earnings of Company derived from the mortgaged properties for the period from May 1, 1927 to Dec. 31, 1927, and annually thereafter. This fund may be expended for improvements, additions and extensions as well as for repairs, maintenance and replacements, but no bonds may be issued against such expenditures.

Security—Secured by a direct first mortgage on all the physical properties, rights and franchises of the Company. The sound reproduction value of the properties, less depreciation, as appraised by independent engineers, plus additions and improvements made subsequent to the appraisal and to be made from a portion of the proceeds of this financing, is in excess of $1,700,000.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Personal property taxes of any state, under any law, not in excess of 5 mills and the Massachusetts income tax on the interest not exceeding 6% of such interest per annum, refundable to resident holders upon timely and proper application.

Legal Opinion—White & Case (for the Bankers) and Chapman, Cutler & Parker (for the Company).

Original Offering—First publicly offered ($1,000,000 Series "A") in May, 1927 at 97½ and interest, to yield 5.75% by G. L. Ohrstrom & Co., Inc., New York.

Dated March 1, 1928.

Interest Payable—March and September 1, in Boston and Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered. Fully registered, $1,000 and $5,000. Coupon and registered bonds interchangeable.

Provisions of Issue—Authorized amount unlimited; Issued $2,250,000 5% Series "A" bonds. Additional bonds of Series "A" (or of other series bearing such rates of interest, maturing at such times and having such provisions as the Board of Directors at the time of issuance may determine) may be issued for the refunding par for par, of bonds of other series and against the deposit, par for par, of cash or United States Government obligations and for reimbursing Company to the extent of 75% of expenditures made for additions, improvements, betterments or extensions (referred to in the Mortgage as "extensions") and to the extent of 75% of the cost or value (whichever is less) of purchased property acquired by the Company, provided that all such extensions and purchased property shall be subject to the mortgage as a first mortgage thereon. Bonds shall not be issued on account of expenditures made by Company for such extensions or purchased property or for refunding at a higher rate of interest bonds of another series, unless net earnings, as defined in the Mortgage, of the Company during the 12 consecutive calendar months ending within 60 days next preceding the date of authentication by the Trustee shall have been at least 1¾ times the annual interest charges on all bonds then issued and outstanding under the Mortgage and those then proposed to be issued, less an amount of such bonds equal to the amount of cash deposited under the Mortgage against the issuance of bonds.

Purpose of Issue—Proceeds of these $2,250,000 bonds together with proceeds of 10,000 Preferred shares of no par value, were to be used to pay in part the cost of acquiring the properties to be subject to the Mortgage and to retire all bonded indebtedness thereon and for other corporate purposes.

Callability—Subject to call as a whole or in part at any time upon 30 days' notice at the following prices and acrued interest: On or before Feb. 28, 1933, at 105; thereafter but on or before Feb. 28, 1938, at 103; thereafter but on or before Feb. 28, 1943, at 102; thereafter but on or before Feb. 28, 1947, at 101; after Feb. 28, 1947, at 100.

Maintenance and Renewal Fund—The Mortgage provides that during each calendar year beginning with the year 1929 the Company shall expend an amount not less than 20% of the gross earnings derived from operation of its mortgaged properties for (a) maintenance and/or renewal or replacement of its properties; (b) the making of extensions or the acquisition of properties on acount of which Company would otherwise be entitled to issue additional bonds; or (c) the redemption or purchase and cancellation of any bonds issued under and secured by the Mortgage.

Security—Secured by a first mortgage on all the fixed properties, rights and franchises of the Company, owned at the date of the execution of the Mortgage and on all such property thereafter acquired against which any bonds may be issued under the mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. The Pennsylvania, California and Connecticut 4 mills tax, and the Massachusetts 6% Income tax on interest, refundable if requested within 60 days after payment.

Original Offering—First publicly offered ($2,250,000) in April, 1928, at par and interest, by Paine, Webber & Co., New York, etc., and Mitchum, Tully & Co., San Francisco, etc.

FUNDED DEBT

$420,000 FIRST MORTGAGE AND COLLATERAL LIEN 5½% GOLD BONDS, SERIES "A"; DUE APRIL 1, 1933

Dated April 1, 1928.

Interest Payable April and October 1 at Northern Trust Co., Chicago.

Denominations—Coupon, $100, $500 and $1,000, interchangeable denominations.

Trustee—The Northern Trust Co., Chicago.

Provisions of Issue—Authorized amount, unlimited; issued, Series "A" $420,000. The mortgage provides that additional bonds may be issued in series with such interest rates, maturity dates, redemption provisions and other terms and conditions as may be determined by the Board of Directors at the time of the creation of such series, in accordance with the terms of the mortgage. The mortgage provides that additional bonds may be issued up to 75% of the cost or fair value (whichever is lower) of permanent additions and betterments to the properties comprising the system provided that the consolidated net earnings, for twelve consecutive calendar months within the fifteen months preceding the application for the issuance thereof shall have been equal to at least one and three-quarters times the annual bond interest charge (which will include interest on those bonds for which certification is requested) and that bonds may be issued par for par for the refunding of the bonds outstanding under the mortgage or for refunding underlying bonds, if any, all as defined in the mortgage.

Purpose of Issue—Proceeds were used in part payment of the purchase price of properties, retiring indebtedness of predecessor corporations, making improvements to the properties and for other corporate purposes.

Callability—Subject to call as a whole or in part on not less than 30 days' notice at 102 on or before April 1, 1929, at 101 thereafter and on or before April 1, 1931, thereafter at 100, plus accrued interest in each case.

Sinking Fund—None provided.

Maintenance and Renewal Fund—The mortgage contains a covenant to the effect that an amount of not less than 15% of the gross earnings from the properties comprising the system shall annually be expended for maintenance or set aside as a renewal reserve for repairs to or replacements of properties. Any part of this fund not used for such purposes may be expended for improvements and additions to properties, such expenditures, however, not to be used as a basis for issuing additional bonds. The Company shall utilize any balance of this fund for the purchase or redemption of bonds outstanding under the mortgage, which will thereupon be cancelled.

Security—Secured by a direct first mortgage on all fixed properties of the Company, including land, buildings, equipment and conduits, and further secured by pledge of all the outstanding bonds and all the capital stock (except directors' qualifying shares) of the Western Illinois Telephone Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Any state, personal property tax (not exceeding $5 per $1,000 bond per annum) which the holder may be required to pay by reason of the ownership of the bonds, refunded upon application within 60 days' after payment of tax.

Legal Opinion—Chapman & Cutler, Chicago.

BRITISH COLUMBIA POWER CORPORATION LIMITED

History—Incorporated in 1928 under the laws of the Dominion of Canada, to acquire the outstanding Preferred Ordinary stock and Deferred Ordinary stock and shares of British Columbia Electric Railway Company, Limited (see appended statement). On May 22, 1928 it was announced that Corporation had already contracted for the purchase of more than 85% of the combined outstanding amounts of the above-mentioned stocks and shares, and offers were outstanding for the purchase of the remainder. Acquisition of the stocks and shares already contracted for gave the Corporation control of the most extensive system of public services in Western Canada.

British Columbia Electric Railway Company, Limited, has operated for more than 30 years. Directly, or through subsidiary companies, this undertaking is one of the largest hydro-electric power producers in Canada. All the electricity used or sold in the system is developed by the Company or its subsidiary companies. The aggregate ultimate horse-power available for development amounts to 638,800 h. p., of which 202,300 h. p. is now developed; the entire system serves over 98,000 customers with electric light or power, 38,700 customers with gas, and operates 353 miles of electric railway lines. It also owns and operates electric railway systems in Vancouver, Victoria, New Westminster, North Vancouver, South Vancouver, Point Grey and Burnaby, in the Province of British Columbia, as well as an extensive chain of interurban lines, and, in addition, supplies all the electric and gas services in these and a number of other important municipalities in British Columbia.

CAPITAL STOCK

Authorized, 1,500,000 Class "A" shares and 1,500,000 Class "B" shares, both of no par value; to be outstanding upon completion of financing, 1,000,000 Class "A" shares and 1,000,000 Class "B" shares.

Class "A" Share Provisions—Preferred as to dividends up to $2 per share in any fiscal year over any other shares of Corporation, such dividends being non-cumulative. Participating equally share for share as to dividends with Class "B" shares, after preferred dividends of $2 have been paid or declared and set aside, until, in any fiscal years $5 in dividends have been paid or declared and set aside on the Class "A" shares, after which any further dividends in such year may be declared only on class "B" shares. Redeemable at any time, in whole or in part, upon 60 days' notice at $100 per share plus dividends declared but not paid, or by purchase in the open market or by private contract at not exceeding the redemption price. The charter provides that voluntary liquidation of the Corporation is prohibited unless all the class "A" shares have previously been called for redemption and payment of redemption price provided for. In event of involuntary winding-up, liquidation or dissolution, assets available for distribution to shareholders are to be distributed equally share for share to holders of all outstanding class "A" and class "B" shares until payment of $100 per share shall have been made on all outstanding class "A" shares, after which distribution is to be made only on class "B" shares. Class "A" shares carry no further right of participation in the earnings or assets of the Corporation. Class "A" shares carry no voting rights save and except in respect of any increase in the authorized amount of class "A" shares, the creation of any shares ranking in priority to or pari passu with the class "A" shares or any modification of the rights, privileges, or priorities of class "A" shares. For any of these corporate

acts, the approval of holders of class "A" shares is required, evidenced by the affirmative vote of holders of three-fourths of such shares represented at a meeting called for the purpose at which holders of a majority of the class "A" shares then outstanding are present or represented. Class "A" and class "B" shares of the present issue will be registerable and transferable in Montreal, Toronto, Winnipeg, Vancouver, and, on payment of a reasonable fee, will be transferable from one register to another. Dividends will be payable by cheque in Canadian funds at par at any branch in Canada of The Royal Bank of Canada (except Yukon Territory).

Transfer Agent—Montreal Trust Co., Montreal.

Registrar—The Royal Trust Co., Montreal.

Original Offering—First publicly offered (1,000,000 shares Class "A") in May, 1928, at $60 per share with bonus of one class "B" share with each four class "A" shares. Fractional class "B" shares were to be adjusted at the rate of $20 per share. Offered by Nesbitt, Thomson & Co., Ltd., Montreal and Wood, Gundy & Co., Ltd., Toronto.

BRITISH COLUMBIA ELECTRIC RAILWAY COMPANY, LIMITED

(Controlled by British Columbia Power Corporation Limited)

History—Incorporated April 4, 1897, under Imperial Companies Act, 1862-1900; successor to Consolidated Ry. & Light Co. An English company, carrying on business under privileges granted by the Legislature of British Columbia. Owns the entire ordinary share capital of British Columbia Electric Power and Gas Company, Ltd. (see appended statement), which was organized in March, 1926, for the purpose of controlling all the power and gas plants of the British Columbia Electric Ry. Co., Ltd. Through this subsidiary, the latter company controls the Vancouver Power Co., Ltd., Bridge River Power Co., Ltd., Vancouver Gas Co., Ltd., Victoria Gas Co., Ltd., British Columbia Gas Co., Ltd., and British Columbia Rapid Transit Co., Ltd. The Vancouver Power Co., Ltd. in turn owns over 98% of the capital stock of the Western Power Co. of Canada, Ltd., (see appended statement) and the entire capital stock of Vancouver Island Power Co., Ltd.

The British Columbia Electric Ry. Co., Ltd., either directly or through subsidiaries, supplies electricity and gas and transportation service to a population of over 375,000 in 26 communities, embracing a territory of over 1,500 square miles. The principal cities supplied are Vancouver, Victoria, New Westminster, North Vancouver, South Vancouver, Richmond, Burnaby, Delta, Steveston, Surrey, Langley, Matsqui, Sumas and Chilliwack.

Properties include 5 large hydro-electric plants and 2 large steam plants, with a combined capacity of 212,200 h.p. Two additional hydro-electric plants are under construction. No. of substations, 27. Miles of high tension transmission lines, 420. Miles of distribution wires, 1,645. Two gas plants have a total daily capacity of 5,900,000 cu. ft., and gas is supplied through 367.79 miles of mains.

The railway department has 40 city street car lines operating 193.80 miles and 5 interurban lines operating 158.72 miles, a total of 352.52 miles. Gauge, 4 ft. 8½ in. Rail, T and girder 65 to 91 miles. In addition there are operated 140 miles of motor coach and freight service. Equipment consists of 12 electric locomotives, 406 city and interurban passenger cars, 476 express, freight and service cars; 24 motor coaches and 21 motor freight trucks. Of the mileage owned 49 miles of track (including the main line belt in the City of Vancouver) can be purchased by the City authorities on Feb. 11, 1929 (or any fifth year thereafter) at a fair valuation; other lines are operated under franchises extending over periods of not less than 31 years; the lighting franchises are either perpetual or for a very long period of years.

New Construction—The installation of the final unit of 13,400 h.p. at Alouette Lake was expected to be completed in the spring of 1928. On completion of this work, the capacity of Company's hydro-electric plants, including steam plant reserve of 16,800 h.p. in Vancouver and 5,400 in Victoria will be: Mainland, 181,700 h.p.; island, 30,500 h.p.—total, 212,200 h.p. Steps were taken in 1927 in the development of the first stage of the Bridge River Power scheme.—For additional details see statement of British Columbia Electric Power & Gas Co., Ltd., below. A new site for a gas plant at Vancouver, B. C., was acquired in 1927 and arrangements are being made for new units to be erected, the plans contemplating the ultimate establishment of a plant with a capacity of 25,000,000 cu. ft. of gas per day.

New Control—Announcement was made on May 22, 1928 that British Columbia Power Corporation Limited had been organized to acquire the outstanding Pfd. Ordinary stock and Deferred Ordinary stock and shares of British Columbia Electric Railway Company, Ltd., and had already contracted for the purchase of more than 85% of the combined outstanding amounts of said stocks and shares, offers being outstanding for the purchase of the remainder. Acquisition of the stocks and shares at that time contracted for gave the new corporation control of the British Columbia Electric Railway system. It was reported earlier in May, 1928, that shareholders of British Columbia Electric Railway Company, Limited, had accepted an offer of £275 for each £100 Pfd. Ordinary share and £315 for each £100 Deferred Ordinary share and that control of Company would pass from English to Canadian interests including Sir Herbert Holt, J. H. Gundy and Power Corporation of Canada, Ltd.

CAPITAL STOCK

Authorized, £5,320,000, increased from £3,200,000 to £4,000,000 on Nov. 30, 1911, to £4,600,000 in Dec., 1912, to £5,000,000 on Dec. 19, 1913 and to £5,320,000 on Dec. 16, 1926. BRITISH COLUMBIA ELECTRIC POWER AND GAS COMPANY, LIMITED

(Controlled by British Columbia Electric Railway Company, Ltd.)

History—Organized in March, 1926, by British Columbia Ry. Co., Ltd., for the purpose of controlling all the power and gas plants of that company. Accordingly it received from that company the entire $9,500,000 capital stock of Vancouver Power Co., Ltd., the entire $279,800 capital stock of Bridge River Power Co., Ltd., the entire $1,250,000 capital stock and $1,250,000 Debentures of Vancouver Gas Co., Ltd., the entire $300,000 capital stock and $160,000 Debentures of Victoria Gas Co., Ltd., the entire $1,000,000 capital stock of British Columbia Gas Co., Ltd., and the entire $100,000 capital stock of British Columbia Rapid Transit Co., Ltd. In return for these shares and debentures of subsidiaries, the British Columbia Electric Ry. Co., Ltd., received $15,248,012 (entire outstanding) Common stock of the British Columbia Electric Power & Gas Co., Ltd.

Vancouver Power Co., Ltd. owns two hydro-electric power plants, water for which is taken from Lake Buntzen and Lake Coquitlam, two large lakes situated above the power house, which is located about fifteen miles from the City of Vancouver and eleven miles from New Westminster. The hydro-electric plant was originally installed in 1903, with capacity of 20,000 electrical horse power, subsequently increased to approximately 42,000 h.p. and in 1912 increased to about 82,500 h.p. The Vancouver Power Co., Ltd., owns the entire Common and Pfd. stock of the Western Power Co. of Canada, Ltd. (see appended statement), and the entire $3,500,000 capital stock of **Vancouver Island Power Co., Ltd.** The latter company owns and operates the Brentwood Bay steam plant of 5,400 h. p. capacity and the Jordan River hydro-electric plant of 21,500 h.p. During the fiscal year ended June 30, 1924, the British Columbia Electric Ry. Co., Ltd., transferred to the Vancouver Power Co., Ltd., the shares in the Western Power Co. of Canada, Ltd., and received in exchange various railway, light and power enterprises heretofore owned by the Vancouver Power Co., Ltd., although operated by the British Columbia Electric Ry. Co., Ltd., as part of its general undertaking on the Mainland. The entire $9,500,000 capital stock of the Vancouver Power Co., Ltd., was transferred to the British Columbia Electric Power and Gas Co., Ltd., in March, 1926, by British Columbia Electric Ry. Co., Ltd.

Bridge River Power Co., Ltd. owns the water rights on Bridge River adjacent to the Pacific Great Eastern Railway and near the town of Lillooet, about 135 miles north of Vancouver. Active development has been started on this project with the object of having two units of 30,000 h. p. each in operation by 1930 to cost about $13,000,000. After that the plant will be increased to use up to 90,000, 150,000 and 210,000 h.p. available as desired at a total expenditure of $30,000,000, spread over a period of 15 years. The total estimated horse power at Bridge River is 700,000. The entire $279,800 capital stock of this company was acquired by British Columbia Electric Ry. Co., Ltd., in 1925, and transferred to the British Columbia Electric Power & Gas Co., Ltd., in March, 1926. During 1927 work was carried on in the building of roads, preparation of camp sites and erection of camp buildings, etc. A contract was let for the boring of a tunnel 2½ miles long between Lake Seton and Bridge River.

Vancouver Gas Co., Ltd. was incorporated Feb. 8, 1886 in British Columbia, and supplies Vancouver, serving a population of over 100,000. Its franchise expires Feb. 8, 1937. Its gas plants have a daily capacity of 4,000,000 cu. ft. Miles of mains, about 160. Number of customers, over 24,000. The Vancouver gas plant supplies gas in Vancouver, Point Grey, South Vancouver, Burnaby and New Westminster. All its outstanding $1,250,000 capital stock and $1,250,000 First Mortgage 5% debentures, due 1929 are owned by the British Columbia Electric Power & Gas Co., Ltd., having been transferred to that company in March, 1926, by the British Columbia Electric Ry. Co., Ltd.

Victoria Gas Co., Ltd. was incorporated in British Columbia and supplies a population of over 47,000 in Victoria, B. C. Its gas plant has a daily capacity of 750,000 cu. ft. Miles of mains, about 50. Number of customers, over 4,000. All its outstanding $300,000 capital stock and $160,000 debentures are owned by British Columbia Electric Power & Gas Co., Ltd., having been transferred to that company in March, 1926, by British Columbia Electric Ry. Co., Ltd.

British Columbia Gas Co., Ltd. was organized in British Columbia and supplies gas in Point Grey and South Vancouver from the plant of the Vancouver Gas Co., Ltd. Miles of mains, about 50. Number of customers, over 2,000. Its entire $1,000,000 capital

stock is owned by British Columbia Electric Power & Gas Co., Ltd., having been transferred to that company in March, 1926, by British Columbia Electric Ry. Co., Ltd.

British Columbia Rapid Transit Co., Ltd. owns and operates the bus line running between Vancouver and New Westminster, 12 miles, and between New Westminster and Chilliwack, 60 miles. Number of coaches, 23. Its entire $100,000 capital stock is owned by British Columbia Electric Power & Gas Co., Ltd., having been transferred to that company by the British Columbia Electric Ry. Co., Ltd.

WESTERN POWER COMPANY OF CANADA, LIMITED

(Controlled by Vancouver Power Co., Ltd.)

History and Properties—Incorporated Sept. 27, 1916, in Canada, and on Feb. 1, 1917, the property of Western Canada Power Co., Ltd., was transferred to it in accordance with the Plan and Agreement of Reorganization of that Company, dated June 20, 1916 (see Manual for 1917, page 2142).

The rights and franchises taken over by Western Power Co. of Canada, Ltd., comprise perpetual rights given by the Dominion Government to store water in Stave Lake and generate power at two sites on Stave River; fifty-year franchises for the supply of power in the cities of Vancouver and New Westminster, and franchises varying in term from 30 to 50 years for the supply of light and power in various municipalities in the Fraser River Valley extending from Vancouver eastward about 45 miles.

The real property taken over consists of a considerable amount of land on the borders of Stave Lake and along the Stave River, including the two power sites, about five miles of railway right-of-way, and a considerable quantity of land acquired for the right-of-way for transmission lines.

The physical property consists of No. 1 power plant at Stave Falls, comprising five 13,125 KVA generators driven by four turbines of 15,000 h.p., and one turbine of 17,500 h.p. The water supply for this power is regulated by the dams which make Stave Lake into a storage basin having an area of about 24 square miles. The No. 2 power site, which is held for future development, is lower down the Stave River, and will make use of the same storage as the No. 1 plant. It can be developed for a continuous output of 30,000 kilowatts.

The Company owns 30 miles of steel tower double circuit transmission line from its power plant to Vancouver. It also owns a single circuit transmission line, 22 miles long, from its power plant to the International Boundary.

It supplies power to industrial power consumers throughout the whole district over which it has franchises, and owns a distribution system consisting of approximately 170 miles of overhead pole line, and 27 miles of underground mains, which are leased to British Columbia Electric Ry. Co., Ltd.

CAPITAL STOCK

Authorized, $5,000,000 Common and $5,000,000 7% cumulative (from Jan. 1, 1918) Pfd.; outstanding, $5,000,000 Common and $850,000 Pfd.; par, $100. The Vancouver Power Co., Ltd., owns 99.7% of the entire Pfd. and Common stock outstanding.

(2)

$11,010,000 UNITED LIGHT & RAILWAYS CO. FIRST LIEN AND CONSOLIDATED GOLD SERIES "A" 6s; DUE APRIL 1, 1952

Dated April 1, 1922.

Interest Payable April and October 1, at The New York Trust Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered; interchangeable denominations. Fully registered bonds of $1,000 and multiples. Coupon and fully registered bonds interchangeable in $1,000 or multiples.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Issued, $11,010,000.

Until the satisfaction of the First and Refunding Mortgage due June 1, 1932, additional bonds may be issued only upon deposit with the Corporate Trustee of an equal face amount of First and Refunding Mortgage 5% Gold Bonds. Upon the satisfaction of the First and Refunding Mortgage due June 1, 1932, additional bonds may be issued only under the following conditions:

(a) For 80% of the cost or fair value, whichever is less, of hereafter acquired property, or of additions, betterments, etc., to the property of the company or a subsidiary company, but only when net earnings, as defined in the mortgage, have been at least 1¾ times the annual interest charges on all First Lien and Consolidated Mortgage bonds outstanding, including those to be issued, and Convertible Debentures due 1926, plus the annual interest charges on all underlying bonds and all annual prior charges, as defined in the mortgage, of subsidiary companies, excluding charges on securities, pledged under this mortgage or any underlying mortgage.

(b) For acquiring underlying securities then outstanding, at specified ratios, but not exceeding par for par. At all times bonds may be issued against the deposit with the Corporate Trustee of an equal face amount of obligations of the United States Government or cash.

Purpose of Issue—The proceeds from the sale of these bonds, together with the sale of additional capital stock, were used to refund the Collateral Trust First Lien 5% bonds of Tri-City Railway & Light Co. (a subsidiary), due April 1, 1923, the 7% Bond Secured

Gold Notes of the Company, due April 1, 1923, which latter Notes were called and paid Oct. 1, 1922, and to partially reimburse Company for expenditures for additions and betterments to its properties.

Callability—Subject to call in whole or in part on 30 days' published notice at any time on or after April 1, 1947, up to April 1, 1948, at 103; thereafter at 1% less each year up to April 1, 1950, and thereafter at 100; plus accrued interest in each case.

Maintenance and Depreciation Fund—See under description of First & Refunding Gold 5s (paragraph 1).

Security—Assumed by The United Light & Power Co. Secured by a direct mortgage lien upon important properties and by pledge of all securities of subsidiary companies, as defined in the mortgage, now owned by the United Light & Railways Co. or hereafter acquired, subject only to existing liens. Further secured by deposit of $11,010,000 First and Refunding Mortgage 5% Gold bonds of the Company. These pledged bonds of the Company are secured by a first mortgage upon important properties and by pledge of all securities of subsidiary companies owned by the United Light & Railways Co. as required by the terms of that mortgage.

No additional First and Refunding Mortgage 5% Gold Bonds or securities of subsidiary companies, as defined in the mortgage, may be issued unless immediately acquired and pledged under this or an underlying mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania State Tax of 4 mills refunded upon application within 60 days, and the Connecticut State tax up to 4 mills annually.

Legal Opinion—Winthrop & Stimson, New York (for the Bankers), and Humes, Buck & Smith, New York (for the Company).

(3)

$6,996,100 THE UNITED LIGHT & POWER CO. FIRST LIEN & CONSOLIDATED GOLD 5½s; DUE APRIL 1, 1959

Dated April 1, 1924.

Interest Payable April and October 1, at The New York Trust Co., New York.

Denominations—Coupon bonds in interchangeable denominations of $100, $500 and $1,000; registerable as to principal only. Fully registered bonds of $1,000 and multiples; coupon and fully registered bonds interchangeable in $1,000 or multiples.

Trustee—The New York Trust Co., New York.

Provisions of Issue—The proceeds of the sale of these bonds were used to reimburse the company for construction expenditures and to provide for the enlargement of its electric power business, and for other corporate purposes including the retirement of certain underlying bonds.

The mortgage provides that the First Lien and Consolidated Mortgage bonds may be issued in series, bearing such rates of interest, maturing on such dates, redeemable on such terms and containing such other rights and limitations permitted by the mortgage as the company may determine prior to the issue thereof. Additional bonds may be issued only upon deposit with the trustee of an equal face amount of First & Refunding Mortgage Gold 5s. Except for First & Refunding Mtge. bonds now issued or to be issued for the purpose of refunding underlying securities, no First & Refunding Mtge. bonds may be issued as a basis for issuing First Lien & Consolidated Mtge. bonds, unless net earnings, as defined in the mortgage, for any twelve months' period within the preceding fourteen months have been at least 1¾ times the annual interest charges on all First Lien & Consolidated Mtge. bonds outstanding, including those to be issued, and Convertible Debentures due 1926, plus the annual interest charges on all underlying bonds and all annual prior charges as defined in the mortgage, of subsidiary companies, excluding charges of securities pledged under this mortgage or any underlying mortgage. Upon the satisfaction of the First & Refunding Mtge. due June 1, 1932, additional bonds may be issued only under the following conditions: (a) for 80% of the cost or fair value, whichever is less, of hereafter acquired property or of additions, betterments, etc. to the property of the company or a subsidiary company, but only under the above restrictions as to earnings; (b) for acquiring underlying securities then outstanding, at specified ratios, but not exceeding par for par. At all times bonds may be issued against the deposit with the Trustee of an equal face amount of obligations of the United States Government or cash.

Maintenance and Depreciation—In accordance with the terms of both the First & Refunding Mtge. and the First Lien & Consolidated Mtge., the company must expend or set aside at least 12½% of gross earnings for maintenance and repairs or for renewals or replacements to the properties. Any part not used for such purposes may be expended for additions, extensions and improvements to the properties, but such expenditures may not be used as the basis for issuing additional bonds.

Callability—Subject to call in whole or in part on thirty days' notice during the first five years at 107½; during the second five years at 105; thereafter at 1% less during each five year period until March 31, 1954; during the succeeding two and one-half years at 100½, and thereafter at 100, plus accrued interest in each case.

Security—These bonds are a direct mortgage lien upon important properties and by pledge of all securities of subsidiary companies now owned by The United Light & Power Co. or hereafter acquired, subject only to existing liens. They are further secured by deposit of $7,073,400 First and Refunding Mortgage 5% bonds. No additional First & Refunding Mtge. 5s or securities of subsidiary companies, as defined in the mortgage, may be issued unless immediately acquired and pledged under this or an underlying mortgage. Upon the satisfaction of the First & Refunding Mtge. due 1932, the First Lien & Consolidated Mtge. will be a first lien, either directly or through collateral, on the plants and equipment of the company and all its present subsidiary companies then owned.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. The Pennsylvania four mills tax and the Connecticut State tax up to four mills refunded.

Legal Opinion—Winthrop & Stimson, New York (for the Bankers), and Humes, Buck & Smith, New York (for the Company).

Original Offering—First publicly offered ($3,500,000) in May, 1924, at 90 and interest, yielding 6.20%, by Bonbright & Co., Inc., New York, etc.

$2,864,000 UNITED LIGHT & RAILWAYS COMPANY DEBENTURE GOLD 6s, SERIES "A"; DUE JANUARY 1, 1973

Dated January 1, 1923.

Interest Payable January and July 1, at The New York Trust Co., New York.

Denominations—Coupon (principal may be registered) in interchangeable denominations of $100, $500 and $1,000, and fully registered $1,000 and multiples; coupon bonds of $1,000 and fully registered bonds interchangeable.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Issued, $2,900,000, of which $36,000 held in treasury. Issued under an Agreement dated Jan. 1, 1923, providing that Gold Debenture Bonds may be issued in series, the respective series other than Series "A" bearing such rates of interest, maturing on such dates, redeemable on such terms, and containing such other rights and limitations permitted by the Agreement, as the company may determine prior to the issue thereof. The Agreement also provides, among other things, that no additional Gold Debenture Bonds may be issued under said Agreement, except for refunding Debenture Bonds of another series at par for par, unless the net income, as defined in the Agreement, for twelve calendar months within the preceding fifteen calendar months shall have been not less than one and three-quarters times the annual charges on all the indebtedness of the company, including the Debenture Bonds then to be issued, and all annual prior charges, but excluding intercompany charges and charges on indebtedness, subordinated to the Debenture Bonds and on indebtedness to be concurrently paid off or the payment of which is provided for by funds deposited in Trust. Proceeds from the sale of Series "A" Debentures provided funds for the retirement of the 8% Bond Secured Gold notes, due Nov. 1, 1930, but called for payment Feb. 10, 1923.

Callability—Subject to call in whole or in part on sixty days' notice at 110 during the first fifteen years (ending Jan. 1, 1938); thereafter at 1% less during each succeeding five-year period to and including the 45th year; thereafter at 1% less during each succeeding year to and including the 48th year and thereafter at 100; accrued interest added each case.

Security—A direct obligation of the company, but not secured by mortgage. Assumed by The United Light & Power Co.

THE UNITED LIGHT AND RAILWAYS COMPANY

(Controlled by The United Light & Power Co.)

History—Incorporated Sept. 8, 1920, in Delaware. Organized as a financing and holding corporation, to acquire and hold stocks, bonds and other securities of public utility operating companies, and to finance same; to buy, build, lease, or otherwise acquire plants for the production of gas, electricity, heat, ice, the storage and distribution of water, etc., and to deal in the securities of other corporations.

The United Light and Railways Company owns all of the stock (no bonds issued) of **The Riverside Power Manufacturing Co.,** which company operates an electric power generating station on the west bank of

the Mississippi River above Davenport, Iowa. The initial installed capacity of this station is 25,000 k.v.a., with an ultimate capacity of 200,000 h.p. The first unit was put in service in the fall of 1925. This plant was designed and erected by the Engineering Department of The United Light & Power Company, and is of the latest design. The initial cost is about $3,000,000 and when fully developed and equipped, will represent an investment of between ten and twelve millions of dollars.

Controls, through ownership of approximately 99% of the Common stock, the Brooklyn Borough Gas Co., serving the 31st Ward of Brooklyn, New York, and the suburbs of Coney Island, Manhattan Beach, Brighton Beach, and other growing residential suburbs. The customers of this company increased from 45,728 in 1926, to 52,019 in 1927, and sales of gas increased over 7,000,000 cu. ft.

Also controls, through ownership of a majority of the Com. stock of the United Ohio Utilities Co. of Del., furnishing electric light and power in the cities of Circleville, Delaware, Chilicothe, Hillsboro, Gallipolis, Athens, Nelsonville, Pomeroy, Middleport, Jackson, and a number of other communities. United Ohio Utilities Co. owns all the Common and a large majority of the Pfd. stocks of Ohio Utilities Co., Ohio & Western Utilities Co., Southern Ohio Electric Co., and their affiliated operating companies. The merger of these companies was effected as of Jan. 1, 1928.

The United Light and Railways Company also owns a substantial block of the Common stock of American Light & Traction Company, and a large block of the stock of Detroit Edison Co.

In Sept., 1924, The United Light and Railways Company acquired by purchase 75% of the issued Common capital stock of Continental Gas & Electric Corporation, and has since acquired an additional amount and now owns in excess of 98% of the total Common stock of that corporation.

CAPITAL STOCK

Total capital stock at December 31, 1927, $47,957,000, consisting of $35,923,000 Common issued, $4,833,200 7% Prior Pfd., First Series, and $6,819,293 6.36% Prior Pfd., Series of 1925. Par of all issues, $100. All the issued Common stock, except directors' qualifying shares, is owned by the United Light & Power Co. (Md.).

In addition to the $4,833,200 7% Prior Pfd. First Series outstanding above, $1,416,800 is held in treasury. In addition to the $6,819,293 6.36% Prior Pfd. Series of 1925 shown as outstanding, $506,700 is held in treasury.

The 7% Prior Pfd. stock, First Series, has been sold to employees of the operating companies under the direct control of The United Light & Power Co. and to customers of those Companies, as an investment. The sale of this stock was begun about Oct. 1, 1920, and continued with increasing success to Aug. 1, 1925, when the stock was withdrawn from sale and an issue of Prior Pfd., Series of 1925, bearing 6.36% dividends, was substituted. An organization of employees of subsidiary operating companies was effected and through this organization sales have been continuously made. First offered to employees and customers of the Company's services at par, $100 per share. On Dec. 1, 1922, the price was raised to $102 per share, and again on Jan. 1, 1925, to $102.50. The last raise to become effective was on May 16, 1925, when the price was advanced to $103 per share. The 6.36% Series of 1925 was first offered at 96. The price was increased to 97 in January, 1926, and again increased to par, $100, in January, 1927. Dividends on both classes are paid monthly or quarterly, at the option of the holder. Of the combined issues there were, at Jan. 1, 1928, approximately, 16,000 individual stockholders, about 85% of whom were customers of the subsidiary operating companies.

Preferred Stock Provisions—The charter provides that Preferred stocks may be issued in different classes, at different times, bearing different rates of dividend than the Prior Pfd. (First Issue). The Prior Pfd. stock is preferred as to assets and dividends over any other stock of the Company and the dividends are cumulative. Both classes of Prior Pfd. are redeemable, as a whole, or in part, at the option of the Company on 60 days' published notice at $105 per share and accrued dividends. In case of consolidation, amalgamation of the Company with The United Light and Power Company, or other corporation, the Company has the right to exchange the Prior Pfd. stock for the same number of shares of such consolidated company's Prior Preferred stock, which shall have preference and limitations corresponding to those of the present issue.

An issue of $5,000,000 6½% Prior Pfd., Series of 1924, was publicly offered in Dec., 1924, by Bonbright & Co., Inc., New York, at $95 per share and accrued dividends, to yield about 6.85%. This stock bore a conversion privilege, being acceptable at par in payment for Class "A" Common stock of The United Light and Power Co. at $50 per share up to March 1, 1927; at $55 per share thereafter up to March 1, 1928 and at $60 per share thereafter up to March 1, 1929. The greater portion of the original offering had been exchanged in conformity with the terms of the offering prior to Aug. 1, 1925, when the Company called the remaining outstanding shares for redemption at $105 per share on Nov. 1, 1925.

Transfer Agent—The United Power Securities Co., Davenport, Iowa.

Registrar—The American Trust Co., Davenport, Iowa.

Dividends paid monthly or quarterly, as the holder may elect, on both the 7% and 6.36% Prior Pfd. issues.

FUNDED DEBT

$25,000,000 THE UNITED LIGHT AND RAILWAYS CO. GOLD DEBENTURES, 5½% SERIES OF 1927; DUE AUGUST 1, 1952

Dated August 1, 1927.

Interest Payable February and August 1, at The Cleveland Trust Co., Cleveland, Ohio, or the National Bank of Commerce, New York.

Denominations—Coupon Debentures in interchangeable denominations of $500 and $1,000; principal may be registered. Coupon Debentures for $1,000 exchangeable for fully registered Debentures in denominations of $1,000 and multiples.

Trustee—The Cleveland Trust Co., Cleveland, Ohio.

Provisions of Issue—These Debentures are the direct obligations of The United Light and Railways Company and are issued under an agreement with The Cleveland Trust Company, Cleveland, Ohio, as Trustee, which provides, among other things that:

(1) All securities now owned representing at least a 60% voting stock ownership in subsidiary companies and the proceeds of the sale or exchange thereof shall be and remain classified as Class "A" securities and may never be mortgaged or pledged unless these Debentures are secured equally and ratably by such mortgage or pledge. Other securities now owned or the proceeds of the sale or exchange thereof shall be and remain classified as Class "B" securities and may never be mortgaged or pledged unless these Debentures are secured equally and ratably by such mortgage or pledge except to secure bank loans payable on demand or within one year not exceeding 50% of the value of securities so mortgaged or pledged. Securities and other assets hereafter acquired, except the proceeds of the sale or exchange of Class "A" securities and Class "B" securities, shall be and remain classified as Class "C" securities and may never be mortgaged or pledged (except to secure bank loans payable on demand or within one year) unless these Debentures are secured equally and ratably by such mortgage or pledge.

(2) The Company may not sell or exchange its securities or other assets except with the written consent of the Trustee and except for a consideration, made up of cash or public utility securities, approved by an independent appraiser satisfactory to the Trustee. Cash proceeds of any such sale shall be used only to retire Debentures or to purchase other public utility securities or Government bonds.

(3) The Company may issue additional Debentures of this or other series, but no such additional Debentures shall be issued or other funded debt created (except Debentures or other funded debt refunding pre-existing funded debt of equal principal amount and except additional Debentures not exceeding $12,000,000 principal amount) unless consolidated net earnings of the Company and its subsidiaries, before depreciation, for 12 consecutive months out of the 15 months preceding such proposed issue, shall be at least 1¾ times annual int. charges and prior requirements, computed on the gross income from all sources from which is deducted all operating expenses and taxes, interest or dividends received by the Company and/or a controlled company from obligations or stock of the Company or a controlled company, and income received from the parent company or companies during such period.

Purpose of Issue—The proceeds of this issue were used to reimburse the Company for expenditures made in connection with the acquisition of certain of its holdings and for other corporate purposes.

Callability—Subject to call in whole or in part, at option of the Company, on 90 days' published notice at 105 up to and including Aug. 1, 1932; thereafter to Aug. 1, 1937 at 104; thereafter to Aug. 1, 1942 at 103; thereafter to Aug. 1, 1947 at 102; thereafter to Aug. 1, 1950 at 101; thereafter at 100 to maturity; plus accrued interest in each case.

Security—A direct obligation of the Company, but not secured by mortgage. No prior liens.

Legal Opinion—Tolles, Hogsett & Ginn, Cleveland, Ohio (for the Bankers), and Humes, Buck & Smith, New York (for the Company).

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. California, Connecticut and Pennsylvania 4 mills and Kentucky 5 mills personal property tax refunded. Massachusetts 6% tax on income derived from interest received, refunded.

Original Offering—First publicly offered ($25,000,000) in Sept., 1927 at 99½ and interest to yield about 5.53%, by Otis & Co., Bonbright & Company, Inc., Harris, Forbes & Co., Marshall Field, Glore, Ward & Co., The Cleveland Trust Company, and J. G. White & Company, Inc.

THE TRI-CITY RAILWAY & LIGHT COMPANY

(Controlled by The United Light & Power Co.)

History—Incorporated March 31, 1906, in Connecticut, for the purpose of purchasing and holding the securities of public utility companies located in Davenport, Ia., and Rock Island, Moline and East Moline, Ill. Has acquired all the capital stocks and bonds of the following companies:

Peoples Power Co. (Gas and electric lighting, Moline, East Moline, Silvis, Hampton, Rapid City, Port Byron and Rock Island and suburban towns in Illinois).

Peoples Light Co. (Gas and electric lighting, Davenport and suburbs).

Tri-City Ry. Co. of Iowa and Tri-City Ry. Co. of Illinois (Electric transportation, Davenport, Bettendorf and Rockingham, Iowa, and Rock Island, Moline, East Moline and Silvis, Ill.).

Clinton, Davenport & Muscatine Ry. Co. (Operates 70 miles interurban lines and 10 miles in City of Muscatine, Ia.).

Moline-Rock Island Manufacturing Co.

Muscatine Lighting Co. (gas and electricity in Muscatine, Blue Grass, Walcott, Stockton, and Durant, Iowa.)

Owns all of the stock and $400,000 of the bonds of the Iowa City Light & Power Co. (Gas and electricity in Iowa City, Ia.).

These companies own and operate, without competition, all the street railway lines (183.63 miles), all the gas plants (in 1927, sold 1,161,472,400 cu. ft.), and all the electric lighting companies (in 1927 sold 214,313,807 k.w.h. of which 122,303,455 were sales of Moline-Rock Island Mfg. Co. for resale) in the contiguous cities of Davenport and Muscatine, Iowa, Rock Island, Moline and East Moline, Ill., and the gas and electric service in Iowa City, Iowa. These cities, with the outlying suburbs of Milan, Ill., and Bettendorf and Rockingham, Iowa, which are also served, have a population of approximately 215,000. The franchises of the constituent companies extend, with one relatively unimportant exception, to 1930 or beyond.

In June, 1912, control was acquired by The United Light & Rys. Co. (now The United Light & Power Co.), The Tri-City Ry. & Lt. Co. Common stockholders receiving in exchange for their shares $31.16 2/3 cash, $16.66 2/3 6% First Pfd. and $12.50 Second Pfd. stock of United Light & Rys. Co. (now The United Light & Power Co.).

Railway Department—The extension ordinances granted the Tri-City Ry. Co. of Iowa and the People's Light Co. provided for the building of an interurban road to Muscatine. The Davenport & Muscatine R. R. Co. was incorporated during the year 1910 for this purpose, and road was placed in regular operation in Aug., 1912. The length of this road is about 30 miles, and cost approximately $1,000,000. The Davenport & Muscatine R. R. Co. purchased the property of the Iowa & Illinois Ry. Co. and the Iowa & Illinois Ry. Terminal Co. Jan. 1, 1916, and the name was changed to the Clinton, Davenport & Muscatine Ry.

Fare Increases—On July 20, 1920, fares on the Rock Island, Moline, East Moline and Silvis lines were raised from 7 to 8 cents. Shortly after that these rates were increased to 10 cents cash. In September, 1920, the company began charging a 9-cent fare in Davenport. In April, 1922, a 10-cent fare was in effect, and a 10-cent cash fare or 3 tickets for 25 cents has since been charged.

Electric Department—The franchises of the electric companies on the Illinois and Iowa sides of the river now extend until 1943 and 1945, respectively, excepting in Muscatine, where they extend until 1929. In 1911 an 8,000 k.v.a. turbine was installed, which necessitated an enlargement of the building and the installation of the necessary boilers. An additional turbo-generator, with a capacity of 13,000 k.v.a. was installed in 1913. In 1916 a sub-station of 15,000 k.v.a. capacity was erected to step up the current from 4,800 to 13,200 volts for transmission to the various communities. The capacity of the substation can be doubled by installing additional transformers only. A 20,000 k.v.a. turbine was added in 1918, together with a new boiler plant containing three 1,000 h.p. boilers. An additional 20,000 kilowatt turbine was ordered installed during the summer of 1924. The electric service covers a territory within a radius of 50 miles of the generating station and 46,507 customers were served direct in 1927, with a number of suburban towns served wholesale. Leases and operates the plant of the Riverside Power Mfg. Co. (a subsidiary of The United Light & Power Co. (Delaware).

Gas Department—The gas franchise on the Illinois side extends until Nov., 1929, and that on the Iowa side to 1935. With the beginning of 1910 the construction of a new water gas plant at Moline, consisting of two 8 ft. 6 in. U. G. I. sets, each set with a rated capacity at 2,000,000 cu. ft. of gas in 24 hours, was begun, and completed in Jan., 1911. An additional 8 ft. 6 in. U. G. I. set was installed in 1920, together with a 500,000 cu. ft. holder in Rock Island. Gas is transmitted to Rock Island and East Moline by high pressure mains. During the year 1910, the company acquired the stock of The United Light & Power Co. of East Moline and Silvis, and new high pressure mains were authorized to be laid in this territory, at a construction expenditure of about $50,000. With the installation of the new 8 ft. 6 in. U. G. I. water gas set at Davenport in 1912, operating conditions on both sides of the river are in a high state of efficiency. The Davenport plant contains two 8 ft. 6 in. water gas sets and four benches of 9 ft. 5 in. In 1913, a 1,000,000 cu. ft. capacity gas holder was added to the Davenport

station equipment. The company's four gas plants served through 534.28 miles of mains (3 inch equivalent) and 38,894 customers in 1927.

Davenport & Muscatine Ry.—This company was incorporated in 1910, in Ia., and has constructed and equipped a line of electric railway extending from Davenport to Muscatine, Ia. The Davenport & Muscatine Ry. agreed to construct and to sell and transfer said line of railway, when completed, to the Tri-City Ry. & Light Co., or to a subsidiary company authorized to acquire and operate said railway. Funds for the construction of said railway were supplied through the issue of First & Refunding bonds described below.

CONTINENTAL GAS & ELECTRIC CORPORATION

(Controlled by The United Light and Railways Co.)

History—Incorporated November 16, 1912, under the laws of Delaware, and acquired control, through purchase of securities, of a group of public utility properties in Iowa, Missouri and Nebraska. Early in 1924 purchased control of Kansas City Power Securities Company, which controls Kansas City Power & Light Company. In the same year through purchase of Preferred and Common stock, secured control of Columbus Railway, Power & Light Company.

The subsidiary companies serve with electric light and power the cities of Kansas City, Mo.; Columbus, Ohio; Lincoln, Neb.; Brandon, Manitoba, and to over 200 smaller cities and communities in Missouri, Iowa, Nebraska and Ohio. They furnish gas service to Lincoln, Neb.; Brandon, Manitoba; Beatrice, Plattsmouth and York, Neb.; Red Oak, and Shenandoah, Iowa. The gas customers number 21,053, with sales in 1927 of 616,985,400 cu. ft. Central station heat is supplied

in restricted districts in Kansas City and Lincoln, and street railway service in Columbus, Lincoln and suburbs.

The corporation derives more than 93% of its net revenue from the sale of electric light and power, gas, heat and sale of appliances, and its subsidiaries serve more than 273,000 customers in a total population of approximately one million. The total installed electric generating capacity is in excess of 390,000 k.w., with a station of 60,000 k.w. capacity on the Scioto River near Columbus and a station of 15,000 k.w. capacity at Borger, Tex., both completed and put in service during 1926. The total k.w.h. sales for 1924 were 451,572,624, for 1925, 501,317,040, for 1926, 562,598,502, and for 1927, 715,909,173, an increase of over 21% over the year 1926.

Franchises—The electric light and power franchises, both in Missouri and Kansas, are, with minor exceptions, perpetual. The electric light and power franchises in Columbus are likewise without time limit. A portion of the railway franchises in the city of Columbus are without time limit.

Control—The United Light and Power Company, through one of its subsidiary companies (The United Light and Railways Co., of Delaware) in 1924 acquired control of Continental Gas & Electric Corporation through purchase of 75% of the outstanding Common stock, and has since acquired and now owns in excess of 98% of the Common stock.

Subsidiary Companies Controlled

The following subsidiary companies are under the control of Continental Gas and Electric Corporation:

Canada Gas and Electric Corp., Brandon, Man.
The Columbus Railway, Power & Light Co., Columbus, Ohio.
The Iowa-Nebraska Light and Power Co., Lincoln, Neb.—
  Maryville Electric Light & Power Co., Maryville, Mo.
Kansas City Power Securities Corp.—
  Kansas City Power & Light Co., Kansas City, Mo.
  Panhandle Power & Light Co., Borger, Tex.
Lincoln Traction Co., Lincoln, Neb.

Iowa-Nebraska Light and Power Company was organized in 1927 under the laws of the State of Delaware, and has acquired all of the properties formerly owned by the following companies: Havelock Electric Co.; Iowa Service Co., Lincoln Public Service Co.; Nebraska Gas & Electric Co. Also owns all of the outstanding stock of Maryville (Mo.) Electric Light & Power Co. (no bonds outstanding).

As of April 1, 1926, the electric properties of the Lincoln Gas and Electric Co., the Lincoln Heat, Light and Power Co. and the Lincoln Traction Co. were consolidated into the Lincoln Public Service Co., and the Lincoln Gas and Electric Light Co. and Lincoln Heat, Light and Power Co. were dissolved. The Lincoln Traction Co. is continued as a corporate entity for operation of the street railway properties serving the city of Lincoln and suburbs.

CAPITAL STOCK

Authorized, 350,000 shares Common of no par value, $20,000,000 7% cumulative Prior Preference, $20,000,000 6%-8% cumulative Participating Pfd. and $5,000,000 cumulative 6% Pfd.; outstanding, as of Dec. 31, 1927, 178,716 shares Common (of a stated value of $7,151,888), $11,799,600 7% Prior Preference, and $6,669,000 6-8% Participating Pfd.; par of Pfd., $100. As of Dec. 31, 1927, there was also outstanding Common stock scrip of a stated value of $3,167.70. Practically all the Common stock is owned by United Light & Railways Co. of Delaware. All the 6% Pfd. stock previously outstanding is being exchanged for an equal aggregate par amount of Prior Preference and Participating Pfd. stock.

Participating Pfd. Stock Called—All of the outstanding 6-8% Participating Pfd. stock was called for redemption on April 1, 1928 at $110 per share and accrued dividends at the office of the Corporation, Grand Rapids National Bank Building, Grand Rapids, Mich.

Provisions of Preferred Stocks—The Prior Preference stock is preferred as to both dividends and assets over all other classes of stock and is redeemable as a whole or in part upon 90 days' published notice at 110 and accrued dividends on any dividend date. Payable at 110 and accrued dividends in case of liquidation, dissolution or winding up of the corporation. The authorized Preference stock may not be increased or any stock authorized having a parity with or preference over the Prior Preference stock, except upon the affirmative vote or written consent of the holders of not less than two-thirds of the Prior Preference stock at such time outstanding. No Prior Preference stock shall be issued unless at the time or times of such issuance the net earnings of the corporation during any 12 consecutive calendar months, within the 14 months immediately preceding the date of such issue, shall aggregate at least twice the annual dividend requirements on the Prior Preference stock outstanding and to be issued at such time. The net earnings of the Corporation within the meaning of this paragraph shall include undistributed earnings of any company for a given twelve consecutive calendar months period applicable to dividends on the Common stock of such company owned or being acquired by the Corporation.

6% Preferred Stockholders Privileges—Holders of the 6% Pfd. stock were given the privilege of increasing their dividend rate and at the same time remove themselves to a prior position by exchanging each share of Preferred stock owned by them for ½ share of Prior Preference stock and ½ share of Participating Pfd. The result of this exchange was a certain increase of ½% per annum in preferred dividends or a possible increase of 1½% per annum in such years as the Participating Pfd. participates in the 2% additional dividend. In order to avoid the issuance of fractional shares in connection with this exchange (no fractional shares being issuable), a stockholder, otherwise entitled to the aforementioned privilege, was given a full share of Prior Preference stock instead of the two ½ shares of different kinds of stock.

Transfer Agents—Prior Preference: Union Trust Co., Cleveland, Central Union Trust Co., New York, Continental National Bank & Trust Co., Chicago. Common stock transferred at Company's office, Grand Rapids National Bank Bldg., Grand Rapids, Mich.

Registrars (Prior Preference)—Cleveland Trust Co., Cleveland, Guaranty Trust Co., New York, Central Trust Co. of Illinois, Chicago. Common: The Michigan Trust Co., Grand Rapids, Mich.

Annual Meeting—First Tuesday after third Monday in January.

Legal Opinion (7% Prior Pref. Stock)—Tolles, Hogsett, Ginn & Morley, Cleveland (for the Corporation), Humes, Buck & Smith, New York (for the Bankers).

Original Offering—$4,000,000 7% Prior Pref. stock offered in Oct., 1924, at $92 and accrued dividend to yield 7.61%, by Otis & Co., Howe, Snow & Bertles, Inc., and Peirce, Fair & Co., $1,400,000 additional offered in Feb., 1925, by the above firms and Pearsons-Taft Co., R. E. Wilsey & Co., and Weld, Grew & Co.

Market—All classes of stock traded in on New York Curb Market.

Dividends—Dividends on the 6% Pfd. stock have been regularly paid from organization to date; payments J, A, J & O 1. Initial dividend of 1¾% on the Prior Preference stock was paid April 1, 1924, which quarterly rate maintained to date; payments J, A, J & O 1. Initial dividend of 1½%, together with an extra dividend of ¼ of 1% in cash and ¼ of 1% in Common stock, was paid on Participating Pfd. stock April 1, 1924 and at same rate quarterly to Jan. 1, 1925; April 1, 1925 to date of redemption, $1.50 regular and 50 cents extra per share, per quarter; payments J, A, J & O 1. On Common, initial dividend of 75 cents a share in cash and 75 cents a share in Common stock was paid April 1, 1924, which quarterly rate paid

to Jan. 1, 1925; April 1, 1925 to Jan. 1, 1926, $1.00 per share quarterly; April 1, 1926 to date, $1.10 a share quarterly; payments J, A, J & O 1.

On Jan. 24, 1928, the Directors declared the following dividends for the year 1928: 7% on Prior Preference stock payable 1¾% quarterly; 6% on the Pfd., payable 1½% each quarter. Payments on Pfd. stock April, July and Oct. 1, 1928 and Jan. 1, 1929, to stockholders of record March 11, June 13, Sept. 12 and Dec. 12, 1927. Practically all the Common stock is owned by United Light & Railways Co. of Delaware.

KANSAS CITY POWER & LIGHT COMPANY

(Controlled by Continental Gas & Electric Corp.)

History and Property—Incorporated July 29, 1922, for a period of fifty years, under the laws of the State of Missouri, and permitted to do business as a foreign corporation | der the laws of the State of Kansas, Aug. 3, 1922. This Company, under an agreement of consolidation dated July 28, 1922, between Kansas City Power and Light Company, a corporation organized under the laws of the State of Missouri, and Carroll County Electric Company, a corporation organized under the laws of the State of Missouri, took over, on Aug. 1, 1922, all the properties, rights and franchises previously exercised by said two companies. (see 1922 Public Utility Manual, page 459.) The electric lighting and power franchises both in Kansas and Missouri, are, in the opinion of counsel, with minor exceptions, perpetual. Steam heating franchise in Kansas City, Mo., runs for a period of thirty years from 1905.

The Company owns the entire capital stock of **The Standard Electric Light Co., Kansas City Electrical Wire Subway Co., Edison Electric Light & Power Co., Kansas City Heating Co., The Electric Truck Co. of Kansas City, Mo., Kansas City P. & L. Appliance Co., Kansas City Light & Power Co., Kansas City Electric Ry. Co., Kansas City Electric Light Co., and Southwest Cities Investment Co.**

In February, 1927, Company acquired the Rural Light & Power Co., of Muncie, Kan.

It generates and distributes electrical energy in Kansas City, Mo., North Kansas City, Mo., Kansas City, Kansas, Jackson County, Clay County, Platte County, Lafayette County, Carroll County, Chariton County, Randolph County, Howard County, Pettis County, Cass County and Saline County, all in the State of Missouri, and Wyandotte County, Franklin County, Douglas County, Miami County and Johnston County in the State of Kansas. It delivers electrical energy over transmission lines to other public utilities which distribute the same in Clay County, Clinton County, Platte County, Ray County, Caldwell County, Gentry County, DeKalb County, Davies County, and Livingston County, and Lafayette County, all in the State of Missouri and Wyandotte County, Leavenworth County and Johnston County in the State of Kansas. Generates and distributes steam heat in Kansas City, Mo. Stores and distributes water in Carrollton, Mo., and Brunswick, Mo.

The physical properties consist of four electric generating stations with an aggregate installed normal capacity of 201,225 k.w.; 55 substations with a transformer capacity of over 160,355 k.v.a., 16 of these substations, with a transformer capacity of 89,490 k.v.a. are automatically operated; 568 circuit-miles of high tension transmission lines, 429 miles of underground cable, and 2,680 circuit-miles of low tension distributing lines, 123,551 meters; steam heating plants which generated during the calendar year 1927, 780,000,000 pounds of steam and coal rights in about 9,083 acres of valuable coal lands in Missouri. Of the installed electrical capacity 117,333 k.w. is at the new Northeast Power Plant in Kansas City, Mo., where 458,484,000 k.w.h. or 91% of the electric energy sold by the Company in 1927 was generated. This plant is so designed that additional units may be added thereto, until the ultimate capacity of 240,000 k.w. is reached.

CAPITAL STOCK

Authorized, 600,000 (increased from 350,000 shares March 26, 1928) shares Common, 250,000 shares cumulative First Preferred and 100,000 shares cumulative and Participating Preferred, all of no par value; outstanding, April 1, 1928, 502,000 shares Common, and 30,000 shares $6 cumulative First Pfd., Series "B." 320,000 Common shares are owned by Kansas City Power Securities Corp. 182,000 shares Common are held by Continental Gas & Electric Corp. and 98,000 shares are held in the treasury.

First Preferred Stock Series "A" Called—All of the outstanding First Preferred stock, Series "A" was called for redemption at $115 per share and accrued dividends on April 1, 1928, at Guaranty Trust Co. of New York.

At special meeting of stockholders Jan. 10, 1927, the Board of Directors were authorized to issue 50,000 shares Common stock, without nominal or par value, to be distributed to holders of the 250,000 outstanding Common shares of Company in the nature of a stock dividend. The Board of Directors on Jan. 11, 1927, authorized the issuance of 10,000 First Pfd. stock, Series "B" (described above), which was sold to customers and proceeds used for 1927 requirements.

First Preferred Stock Provisions—First Pfd. stock Series "B" is entitled to cumulative dividends at the rate of $6 per share per annum. The total authorized issue of First Preferred stock is 250,000 shares without par value, which may be issued in series with such dividend rates and redemption prices as the Board of Directors of the Company may determine, such dividends not to exceed $7 per share per annum and such redemption prices not to exceed $115 plus accrued and unpaid dividends per share. Dividends are cumulative and preferential. All or any of the unissued First Pfd. stock up to the authorized total of 250,000 shares may be issued from time to time, but only, (1) when net earnings as defined in the charter for twelve successive calendar months in the fifteen months preceding the issuance of such additional First Pfd. stock shall have been at least equal to twice the annual dividend requirements on all First Pfd. stock then outstanding and that proposed to be issued; and (2) when the net value of the property as defined in the charter shall be equal to at least $125 per share on all First Pfd. stock then outstanding and that proposed to be issued. In the event of voluntary or involuntary liquidation or dissolution of the Company, holders of the First Pfd. stock are entitled to $100 per share plus accrued and unpaid dividends, before any distribution to any other class of stock, and no more. The holders of the First Pfd. stock have equal voting rights and powers, share for share, with every other class of stock, and in the event of default of dividends for any 12 consecutive months, the holders of the First Pfd. stock as a class, shall, so long as such default continues, have voting rights equal to voting rights of all other stock so that the aggregate of votes which may be cast by the holders of the First Pfd. stock shall equal the aggregate of the votes which may be cast by the holders of all other classes of stock. No consolidation or merger with another corporation, or lease, sale or exchange of all or substantially all (being at least or more than 80%) of the property and assets of the Company as an entirety, including the good will and business of the Company, or voluntary dissolution of the Company shall be authorized, made or accepted if opposed by the vote of holders of at least one-third of the shares of the First Pfd. stock then outstanding.

Callability—First Pfd. stock, Series "B" is subject to call at $115 per share and accrued dividends.

Cumulative and Participating Preferred Stock Provisions—The holders of the cumulative and Participating Pfd. stock are entitled to dividends at the rate of $7 per share per annum, payable quarerly, F, M, A & N 1, redeemable at $105 per share, plus accrued and unpaid dividends thereon, after provision has been made for the payment of dividends upon the cumulative First Pfd. stock. In addition to said dividend of $7 per share per annum, the holders of the cumulative and participating Pfd. stock are entitled to receive in any calendar year the same amount of dividends per share in excess of $7 per share as shall be declared and paid in any said calendar year on the Common stock, provided that the cumulative and participating Pfd. stock shall, in no event, be entitled to more than $8 per share per annum. The holders of the Common stock, are entitled to receive dividends as and when declared by the Board of Directors, but no dividends are to be paid on the Common stock until there has been paid or set apart all accrued and unpaid dividends on the then outstanding cumulative First Pfd. stock and cumulative and participating Pfd. stock of the Company, and until provision has been made for any participating dividend to which said cumulative and participating Pfd. stock is entitled.

THE COLUMBUS RAILWAY, POWER AND LIGHT COMPANY

(Controlled by Continental Gas & Electric Corp.)

History—Incorporated in November, 1913, in Ohio; succeeded The Columbus Traction Co. (incorporated Dec. 26, 1906, in Ohio); purchased The Columbus Railway Co. and The Columbus Edison Co. Feb. 2, 1914; The Columbus Light, Heat and Power Co., Jan. 2, 1915, and the assets of the Columbus Railway & Light Co. March 5, 1915; and in 1921 and 1922 other small lines of suburban railway.

Does practically the entire electric power and light business in Columbus and suburbs of Westerville, Worthington, Gahanna, Linden, East Columbus, Bexley, Upper Arlington, Marble Cliff, Hillards, Plain City, Dublin, Grove City and Orient, and supplies current to Circleville and Chillicothe. Does the entire street railway business in the city of Columbus and with lines serving the suburban towns of Worthington, Linden, East Columbus, Bexley, Upper Arlington and Marble Cliff. The population served direct is in excess of 280,000. Current is furnished wholesale to The Ohio Utilities Co., the subsidiary operating companies of which serve the cities of Circleville, Chillicothe, Delaware, Gallipolis, and Hillsboro, and intervening villages in their territory. Columbus is the center of a highly developed industrial area ranking fourth in the United States in value of manufactured products.

The company completed and put in service during 1926 a modern electric generating station on the Scioto River near Columbus, with an initial installed capacity of 60,000 k.w. A new plant known as the big Walnut Plant was put in operation in 1923, with initial installed capacity of 65,000 k.w. The total normal installed capacity of the electric generating units now in service is 144,000 k.w. The ultimate capacity of the Scioto plant will be 150,000 k.w.

Franchises—The electric light and power franchises are without limit of time. Important street railway lines extending through the center of the City are also operated under franchises without limit of time, while the franchises on other lines expire in 1926.

Control—The control of this property was acquired in 1924 by Continental Gas and Electric Corporation through purchase of a large majority of the Common capital stock, and a substantial block of the Preferred stock.

CAPITAL STOCK

Authorized, 300,000 shares no-par Common, $25,000,000 6% cumulative First Pfd. and $5,030,000 6½% cumulative Series "B" Pfd.; outstanding, Dec. 31, 1927, 149,980 shares Common (stated value, $7,499,000), $7,977,300 First Pfd. and $4,970,500 Series "B" Pfd.; par of both classes of Pfd. $100.

At special meeting of stockholders, held Jan. 27, 1925, a change in the capital structure was approved, subject to certain amendments, and completely ratified at a subsequent meeting held on Feb. 10, 1925, changing the capital structure as above. Under the plan 105 shares of the new First Pfd. stock were offered in exchange for each 100 shares of the old Series "A" Pfd. stock. One share of the new Series "B" stock was offered for each share of old Series "B" Pfd. stock; and two shares of new Common stock were offered in exchange for each share of old Common stock of $100 par value. At the same time the sale of an additional 30,000 shares of new Common stock was authorized, and sold at $57.50 per share to the Common stockholders of the company.

First Preferred Stock Provisions—First Pfd. stock has preference for assets and dividends. In case of voluntary liquidation, winding up or dissolution of Company it is entitled to receive $110 per share and

accrued dividends and in the event that such liquidation, etc., is involuntary, it is entitled to $100 per share and accrued dividends. First Pfd. stock is subject to redemption on any dividend date upon 30 days' notice at $110 per share and accrued dividends. Additional First Pfd. stock up to the present authorized total, may be issued only when surplus profits applicable to dividends for twelve consecutive calendar months within the 15 calendar months preceding the issuance shall have been at least equal to twice the annual dividend requirements of the First Pfd. stock then outstanding and being then issued.

Series "B" Preferred Stock Provisions—Has preference over Common for assets and dividends and is subject to redemption at 30 days' notice at $110 per share and accrued dividends. On voluntary liquidation or winding up or dissolution of Company, the stock is entitled to receive $110 per share and accrued dividends and upon involuntary liquidation it is entitled to $110 per share and accrued dividends before any amounts shall be paid on Common.

Transfer Agents (All Classes)—Lyle Babbitt at the office of the Company, Columbus, Ohio. For First Pfd. stock only, The Union Trust Co., Cleveland, Ohio.

Registrars (All Classes)—The Citizens Trust & Savings Bank, Columbus, Ohio. For First Pfd. stock only, The Cleveland Trust Co., Cleveland, Ohio.

Annual Meeting—Second Tuesday after January 15.

Public Offerings—$2,500,000 First Pfd. stock was publicly offered in Oct., 1925, at par and dividend by Union Trust Co., Otis & Co., Howe, Snow & Bertles, Inc., Hayden, Miller & Co. and R. V. Mitchell & Co., Cleveland, etc. and Dominick & Dominick, New York.

In April, 1926, $1,350,000 Series "B" Pfd. stock was publicly offered at 96.50 a share and dividends to yield about 6.75% by Otis & Co. and Bonbright & Co., Inc., New York, etc., and R. V. Mitchell & Co., Cleveland. This stock consisted of stock already outstanding and did not involve any new financing by the Company.

In June, 1926, $1,500,000 First Pfd. was publicly offered at par and interest by Union Trust Co., Otis & Co., Cleveland; Guaranty Co. of New York, New York; R. V. Mitchell & Co., Hayden, Miller & Co., Huntington National Bank, Ohio National Bank, and First Citizens Corp., Columbus, Ohio.

Dividends—An initial dividend of 1½% was paid on the Series "A" Preferred stock April 1, 1914; same rate quarterly to and including April, 1918 (see below). On Series "B" Pfd. stock initial dividend of 1¼% was paid in May, 1914, and same rate quarterly since to and including Feb. 1, 1918 (see below). On Common stock initial dividend of 1¼% was paid in May, 1914, and same rate quarterly to and including Nov., 1917.

Dividend Resumption—Stockholders on Feb. 21, 1922, approved a plan, which was made effective, for paying in like stock the 24% back dividends on the Series "A" Pfd. stock and the 20% back dividends on Series "B" Pfd. Each holder of 10 shares of Pfd. "A" received 2.4 shares of stock and Pfd. "B" received 2 shares. The company received the authority from the Ohio Public Utilities Commission to issue $1,228,996 Pfd. stock for the purpose of paying the stock dividends. It was also voted to resume cash dividends on Series "B" Pfd. May 1, 1922, and on Series "A" Pfd. July 1, 1922, 5% to be paid annually on the former and 6% annually on the latter. Dividends at rate of 6% were paid for years 1923 and 1924 on the three classes of stock. Dividends are no longer paid on the old Series "A" and "B" Pfd. stocks, but the right of conversion into new First Pfd. and new Series "B" Pfd. is open to all old stockholders on the terms outlined in a previous paragraph. Regular quarterly dividends are being paid on both classes of Pfd. stock—$1.50 quarterly, J, A, J & O 1, on First Pfd. Series "A" and $1.62 or $1.63 quarterly, F. M. A & N 1, on the Series "B" stock. Initial dividend of $3 a share was paid on new Common Jan. 2, 1926, covering year 1925; none in 1926; 1927, $6 per share.

$13,000,000 COLUMBUS RAILWAY, POWER & LIGHT CO. FIRST AND REFUNDING MORTGAGE GOLD BONDS, SERIES "A" 4½%; DUE JULY 1, 1957

Dated July 1, 1927.

Interest Payable January and July 1, at Guaranty Trust Co. of New York and at The Cleveland Trust Co., Cleveland, Ohio.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered. Fully registered bonds in interchangeable denominations of $1,000, $5,000 and multiples of $5,000; coupon and fully registered bonds interchangeable.

Trustee—The Cleveland Trust Co., Cleveland, Ohio.

Provisions of Issue—Authorized amount, unlimited; issued, Series "A," $13,000,000. Mortgage provides for the issuance of bonds thereunder either of Series A or of other series bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features with respect to each particular series as may be determined by supplemental indenture authorized by the Board of Directors of the Company at the time of the original issue of each series, subject always to the restrictive provisions of the mortgage. Additional bonds of any series may be issued (a) par for par to refund the prior lien railway bonds and bonds of other series issued under the mortgage, and (b) for a principal amount which, together with liens (if any) subject to which property is hereafter acquired, shall not exceed 75% of electric power and light and other non-railway net property additions and 50% of railway net property additions, made subsequent to July 1, 1927, all as defined in the mortgage, provided, with respect to all bonds proposed to be issued under (b), that net earnings of the mortgaged property (after an allowance for maintenance and depreciation computed, until otherwise fixed in accordance with the provisions of the mortgage, at the rate of 12½% of gross revenues from electric power and light operations, 25% of gross revenues from transportation operations and 10% of other gross revenues, if any) shall, for twelve consecutive months out of the preceding fifteen, have been not less than 1¾ times the annual interest requirements of all prior lien obligations and of all bonds outstanding and proposed to be issued under the mortgage, except that during each ten-year period an amount of bonds not exceeding $2,000,000 may be issued without compliance with this requirement as to earnings, but only on the condition that the Company shall not thereafter pay any cash dividends on its Common stock until its earnings again comply with such requirement. With the consent of holders of 80% of the outstanding bonds (not including any bonds held by the Company), the Company may make changes in the mortgage, provided such changes do not in any way modify the terms of any of the bonds issued under the mortgage or provide for the creation of any lien ranking ahead of the mortgage.

Purpose of Issue—Proceeds were used to retire $10,448,000 outstanding bonds, to reimburse the Company for capital additions heretofore made, and for other corporate purposes.

Callability—Subject to call on any interest date on 40 days' notice at 105% and accrued interest on or before July 1, 1937, and thereafter at 1% less for each five year period or fraction thereof expired subsequent to July 1, 1937.

Sinking Fund—None provided.

Security—A general mortgage on the entire property of the Company, subject to $572,000 Crosstown Street Ry. Co. First Mortgage 5s, due 1933; $3,000,000 Columbus Street Railway Co. First Consolidated 5s, due 1932 and $2,673,000 Columbus Railway First Consolidated 4s, due 1939 (see paragraphs 1, 2, and 3). Bonds of this issue are reserved for retirement of the underlying bonds at par.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, Connecticut and California 4 mills personal property tax, Maryland 4½ mills and Kentucky 5 mills personal property tax and Massachusetts 6% tax on income derived from interest, refunded.

Legal Opinion—Tolles, Hogsett & Ginn, Cleveland (for the Bankers) and Karl E. Burr, Columbus, Ohio (for the Company).

Legal Investment for Savings Banks in Maine.

Original Offering—First publicly offered ($13,000,000) in Aug., 1927, at 93¾ and interest to yield about 4.90% by Guaranty Co. of New York, Otis & Co., Bonbright & Co., Inc., Harris, Forbes & Co., New York; Union Trust Co., Cleveland; Union Trust Co. of Pittsburgh, Pittsburgh; Harris Trust & Savings Bank, Chicago, Harris, Forbes & Co., Inc., Boston, and Harris, Forbes & Co., Ltd., Montreal.

Listed—New York Stock Exchange.

Price Range—1927: High, 95⅞; low, 93⅞.

THE LINCOLN TRACTION COMPANY

(Controlled by Continental Gas & Electric Corp.)

History and Property—Incorporated Feb. 15, 1909, in Neb.; consolidation of the Citizen's Ry. Co. and the former Lincoln Traction Co., which latter company was a reorganization of the Lincoln St. Ry. Co., sold under foreclosure in December, 1897. Operates all the street railway lines in Lincoln, Neb., including lines to suburban areas comprising over 50 miles of single track. Population served, approximately 85,000.

Under the plan of consolidation of the Lincoln Light, Heat and Power Co's. properties (which company was a subsidiary of Lincoln Traction Co.) the

electric light and power, and steam heating business of the Lincoln Light, Heat and Power Co. has been taken over by the Lincoln Public Service Co., now the Iowa-Nebraska Light & Power Co. The Iowa-Nebraska Light & Power Co. has assumed all of the outstanding bonds of the Lincoln Traction Co., and under an offer of exchange all but $53,000 of these bonds had been so exchanged. The consolidation leaves the Lincoln Traction Co. with no bonds outstanding save the $53,000 not exchanged as of Dec. 31, 1927, and which are assumed by the Iowa-Nebraska Light & Power Co.

CAPITAL STOCK

Authorized, $2,000,000 Common; outstanding, $1,300,000 Common, par, $100. Continental Gas & Electric Corp. owns $998,900 and $301,100 is held in treasury. Annual meeting, third Tuesday in November.

Under plan of consolidation of Company's electric generating and distribution properties, dated December 1, 1925, all the $1,652,000 Preferred and $352,000 of the $1,652,000 Common stock of Company previously outstanding, were cancelled.

Dated March 5, 1898.

Interest Payable March and Sept. 1 at American Exchange Irving Trust Co., New York, Trustee. Coupon, $1,000. Authorized, $500,000, of which $213,000 are deposited with Trustee of the General & Refunding 5% bonds. Mortgage now closed. These First Mortgage bonds are non-callable. A first lien on the property. Company does not pay Normal Federal Income Tax.

(2)

$2,700,000 GENERAL AND REFUNDING MORTGAGE GOLD BONDS, NEW SERIES "A" 5%; DUE FEBRUARY 1, 1967

Dated February 1, 1927.

Interest Payable February and August 1, at Title Guarantee & Trust Co., New York.

Denominations—Coupon, $1,000; principal may be registered. Exchangeable for fully registered bonds in denominations of $1,000 and authorized multiples thereof.

Trustee—Title Guarantee & Trust Co., New York.

Provisions of Issue—The General and Refunding Mortgage bonds New Series "A" 5%, due 1967, were issued under the Company's General and Refunding Mortgage, dated April 1, 1923, to the Title Guarantee & Trust Company, New York, as Trustee, as supplemented and amended by supplemental indenture. The General and Refunding Mortgage Gold bonds New Series "A" 5%, due 1967 were authorized to the aggregate principal amount of $4,000,000 under a supplemental indenture in accordance with the provisions of the General and Refunding Mortgage. In addition to this authorized issue of $4,000,000 the mortgage provides for issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities, denominations, conversion and redemption provisions and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Company at the time of the original issue of each series, subject always to the restrictive provisions of the mortgage. Additional bonds of any series after the original $2,000,000 principal amount of the series authorized as of April 1, 1923, which series was refunded by a like amount of this New Series "A," are issuable only for the following purposes:

(1) To refund bonds of prior Series or Divisional Lien bonds on new property acquired in the future, subject to the limitations set forth in the Indenture; (2) For 75% of the cash cost or fair value, whichever is less, of new properties or of permanent additions and extensions to the mortgaged properties, made subsequently to April 1, 1923, provided the net earnings determined as provided in the Indenture for twelve consecutive months within the preceding fifteen months shall have been not less than whichever is the greater of the following: (a) 2 times the annual interest requirements on all General and Refunding Mortgage bonds outstanding and then to be issued and on all First Mortgage 5% bonds and all refundable Divisional Lien bonds not deposited with the Trustee under this Indenture, or (b) 12% of the aggregate principal amount of all such bonds as aforesaid.

Section 68 of the mortgage contains provisions permitting the modification or alteration thereof or of any supplementary Indenture in any particular with the consent of the holders of 75% in aggregate principal amount of the outstanding bonds not including any bonds owned by the Company: provided that nothing shall permit the extension of the maturity of any bond or reduction in rate of interest thereon or any other modification in the terms of payments of such interest without the consent of the holder thereof nor the creation by the Company of any mortgage lien ranking prior to or on a parity with the lien of the Indenture securing these General and Refunding Mortgage Gold bonds. By the terms of the supplemental indenture, hereinabove referred to, Section 68 of said mortgage will become and remain inoperative so long as any of the General and refunding Mortgage Gold bonds, New Series "A" 5% shall be outstanding.

Callability—New Series "A" 5% bonds are subject to call as a whole or in part on any interest date upon 60 days' notice at 106 and interest up to and including Feb. 1, 1937; at 104 and interest thereafter up to and including Feb. 1, 1947; at 102 and interest thereafter up to and including Feb. 1, 1965, and at 100 and interest thereafter prior to maturity.

Sinking Fund—None.

Security—A direct mortgage on the entire property of company, subject only to $287,000 closed First Mortgage 5% bonds. These First Mortgage bonds are non-callable, but provision is made to deposit them, as they are acquired by company, under this mortgage, and to the extent they are so deposited, these General and Refunding Mortgage bonds share in the security of the First Mortgage on the property.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania or Connecticut Personal Property tax not in excess of 4 mills, refunded.

Legal Opinion—Simpson, Thacher & Bartlett, New York (for the Bankers); Whitman, Ottinger, Ransom, Coulson & Goetz, New York (for the Company).

Original Offering—First publicly offered ($2,870,000) in March, 1927, at 100½ and accrued interest to yield about 4.97%, by Otis & Co., New York, etc.

Owns entire capital stock and bonds of The Greenwich Gas Company; entire capital stock of Greenwich Water Company; entire capital stock of Port Chester Water Works; entire capital stock of St. Johnsbury Gas Company; and over 98% of the Common stock and over 90% Pfd. stock of the Vermont Lighting Corporation. The Company manages the North Attleboro Gas Light Company (see General Index) and **Ware Gas Company** in Massachusetts.

Through its subsidiaries the Company supplies gas to Greenwich, Conn., including Sound Beach, Cos Cob, Riverside, Borough of Greenwich, Glenville and East Port Chester, Conn., and Barre, St. Albans, Springfield and St. Johnsbury, Vt.; and water to Greenwich, Conn., and Port Chester and Rye, N. Y. Population

as of Jan. 1, 1928, there were 10,500 water customers and about 11,000 gas customers. It is estimated that the new gas construction now under way in Greenwich will add in the Spring of 1928 over 800 additional gas customers.

Water company properties include 173 miles of pipe line; two steel stand pipes, a mechanical filtration plant having a normal capacity of about 4,000,000 gallons per day; a new rapid sand filtration plant of the latest type of construction with coagulation, sedimentation and aeration basins, which has added an additional capacity of 8,000,000 gallons per day; a 2,000,000 gallon pumping plant; and a system of reservoirs having a combined storage capacity of 1,084,000,000 gallons.

The gas properties include over 140 miles of distribution mains, four complete water gas and two coal gas manufacturing plants and ten storage holders

CAPITAL STOCK

Authorized, 100,000 shares Common of no par value and $2,300,000 6% cumulative Pfd., par, $100; outstanding, 100,000 shares Common and $2,117,500 Pfd. All the Common stock owned by Community Water Service Co. The previously outstanding 7% Pfd. was called for redemption on Aug. 1, 1927, at $107 and accrued dividend per share. The 6% Pfd. was created in August, 1927.

Preferred Stock Provisions—Pfd. stock has preference for assets and dividends, and in voluntary dissolution or liquidation is entitled to receive $107 per share and cumulative dividends and in involuntary dissolution or liquidation to $100 per share before any distribution is made upon any other class of stock.

No increase can be made in authorized amount of Pfd. stock without consent of 60% of holders of outstanding Pfd.; and no changes can be made in provisions, nor can any other class of stock be created having priority over the Pfd. either as to assets or earnings, except with consent of 80% of outstanding Pfd. stock.

Voting Powers—Pfd. has no voting power unless dividends are in arrears eight quarterly payments, or if Company is in default on which action has been taken by bondholders or the Trustee of any Mortgage or Indenture under which any indebtedness of Company or its subsidiaries has been issued, or if Company is declared bankrupt or is in receivership, in any of which events Pfd. stock has right to elect 50% of Board of Directors.

Callability—6% Pfd. stock is subject to call as a whole or in part at $107 per share on any dividend date on 30 days' notice plus all accumulated dividends up to time of redemption.

Transfer Agent—The Travelers Bank & Trust Co., Hartford, Conn.

Registrar—Hartford National Bank & Trust Co., Hartford, Conn.

Tax Provision—Dividends are exempt from present Normal Federal Income tax.

Legal Opinion—Storey, Thorndike, Palmer & Dodge, Boston.

Original Offering—First publicly offered ($1,935,000 6% Pfd.) in June, 1928, at 99½ and dividend to yield 6.03%, by Putnam & Storer, Inc., Hartford and Providence.

Dividends—Dividends on 7% Pfd. regularly paid from issuance to date of redemption. Initial dividend of $1.50 was paid on 6% Pfd. Oct. 1, 1927, which quarterly rate since maintained to date; payments J, A, J & O 1.

FUNDED DEBT

$3,575,000 COLLATERAL TRUST 5% GOLD BONDS, SERIES "A"; DUE APRIL 1, 1952

Dated April 1, 1927.

Interest Payable April and October 1, at The Atlantic National Bank of Boston, Mass.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Atlantic National Bank of Boston, Mass.

Provisions of Issue—Authorized amount, unlimited; outstanding, $3,575,000.

Indenture provides that additional Collateral Trust bonds for the purpose of acquiring securities to be pledged under the indenture may be issued only (1) par for par for subsidiary companies first mortgage bonds bearing similar or higher rates of interest (the term "subsidiary company" is confined to such companies as qualify within the terms of the indenture as subsidiary companies); (2) not exceeding 80% of the cost or fair value of other securities of any one or more of such subsidiaries; provided that in the latter case the collateral trust bonds so issued, plus all of the securities of the said subsidiaries that are not pledged and which are prior or equal to the securities so pledged do not exceed 75% of the fair value of the property of the said subsidiaries, and provided in all cases of the issue of additional collateral trust bonds the consolidated net earnings as defined in the trust indenture, for twelve consecutive months out of fifteen months immediately preceding the issue of the additional collateral trust bonds shall have been not less than twice the interest on all collateral trust bonds outstanding and the bonds proposed to be issued.

Purpose of Issue—Proceeds were used to provide funds for the acquisition by the Company of additional capital stock and first mortgage bonds of operating companies issued to pay for new construction, for refunding securities bearing higher rates of interest, including the Collateral Trust 6% Bonds of the Company, and for retiring current bank loans.

Callability—Subject to call as a whole or in part on any interest date on 30 days' notice at 103 and interest up to and including April 1, 1947, and thereafter at 100 and interest.

Sinking Fund—Indenture provides an annual sinking fund so long as any Series "A" Bonds are outstanding, payable Dec. 1, each year, beginning 1929, equal to 10% of the consolidated net earnings of this Company and its subsidiaries (as defined in the Indenture) for the preceding calendar year (but not exceeding $50,000 in each of the first five years and $100,000 thereafter) such payments to be used for the retirement of bonds of this issue. In the event additional Series "A" Bonds are issued, the maximum payment for each year will be proportionately increased.

Security—Bonds are the direct obligation of the Company and are secured by deposit with the Trustee, of 100% of the outstanding capital stocks of Greenwich Water Co., Port Chester Water Works, The Greenwich Gas Co., St. Johnsbury Gas Co.; over 86% of the Common stock and over 89% of the Pfd. stock and $125,000 First Mortgage bonds of the Vermont Lighting Corp.; the entire outstanding $1,100,000 First Mortgage bonds of the Port Chester Water Works and $700,000 First Mortgage bonds of The Greenwich Gas Co. The Indenture contains restrictions against any such subsidiary company issuing any secured debt in excess of 80% of the fair value of its property and against issuing any securities not pledged under the indenture, other than for current indebtedness as provided in the indenture, if the interest or dividends in respect of such securities shall reduce the said consolidated net earnings to less than twice the interest charges on the outstanding collateral trust bonds. The indenture also provides that no additional collateral trust bonds or securities of such subsidiaries, unless pledged with the Trustee under the indenture, shall be issued to an amount that the interest and Pfd. dividend thereon of such bonds or securities in the hands of the public, will reduce the net earnings after deducting interest

charges on the collateral trust bonds to less than 20% of the gross earnings of the Company and such subsidiaries.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Personal property taxes not to exceed 4 mills per annum in Vermont, Connecticut, Pennsylvania and California, the New Hampshire income tax on the interest not exceeding 4 mills per annum on each dollar of principal amount and the Massachusetts income tax on the interest not exceeding 6% of the annual interest refunded to resident holders upon request within 60 days after payment, as provided in the Indenture.

Legal Opinion—Storey, Thorndike, Palmer & Dodge, Boston.

Original Offering—First publicly offered ($3,450,000) in March, 1927, at 95 and interest to yield over 5.35% by E. H. Rollins & Sons, New York; Putnam & Storer, Inc., Stone & Webster & Blodget, Inc., and Brown Bros. & Co., Boston.

BOND AND NOTE RETIREMENT

The entire issue of Collateral Trust 6% Gold bonds, Series "A," due Jan. 1, 1946, were called for redemption as of July 1, 1927, at 105 and accrued interest. All the outstanding Two-Year 6% Gold Notes, due Jan. 1, 1928, were retired Sept. 3, 1926.

LEXINGTON WATER COMPANY

(A Direct Subsidiary of Community Water Service Company)

History and Property—Incorporated by Act of Legislature approved Feb. 27, 1882, in Ky., as Lexington Hydraulic & Manufacturing Co.; name changed to present title by amendment to charter filed Oct. 20, 1922. Charter amended on Sept. 15, 1927 to permit merger with Blue Grass State Water.

Company supplies water for domestic, municipal and industrial purposes to the City of Lexington, Ky., and adjacent territory.

The water supplied is surface water impounded in four large reservoirs with a combined capacity of 1,580,000,000 gallons. The reservoirs and that part of the watershed owned by the Company comprise approximately 2,100 acres of land. This storage capacity, equal to a year's supply for the whole system, may be readily increased by raising certain of the dams. The average daily consumption is 4,500,000 gallons on the basis of present population, and the total pumping capacity is approximately 8,000,000 gallons per day.

Control of this Company was acquired by Community Water Service Co. in Aug., 1927, from the former owners, Federated Utilities, Inc.

THE NEW ROCHELLE WATER COMPANY

(A Direct Subsidiary of Community Water Service Company)

History and Property—Incorporated Feb. 13, 1885, in New York. On Sept. 15, 1927, Company purchased and merged the properties of Pocantico Water Co., serving Dobbs Ferry, Ardsley, Hastings-on-Hudson and Scarsdale (at wholesale); this Company served a population of about 20,000 and had an annual gross revenue of $168,000. The Company has been supplying water for domestic, municipal and industrial purposes to New Rochelle, N. Y., and adjacent territory for over forty years. The communities served are contiguous and include New Rochelle, Dobbs Ferry, Ardsley, Hastings-on-Hudson, Bronxville, Tuckahoe, North Pelham, Pelham Manor, Fort Slocum, Eastchester, Scarsdale (at wholesale) and a portion of Pelham, all of which are located in Westchester County adjacent to New York City. This territory is mainly residential, and a large percentage of the inhabitants commute daily to New York City. The population served is estimated at over 96,000.

Water Supply—The Catskill Aqueduct, which carries the principal water supply of New York City, has a capacity of 600,000,000 gallons per day and passes through Westchester County. Under the laws of the State of New York, water from this aqueduct is available for distribution to the communities served by The New Rochelle Water Company, in an amount equal to the per capita consumption of New York City. The consumption of water in New York City is at present about twice the per capita consumption of the territory served by The New Rochelle Water Company. The statutes, therefore, give this territory the right to use about 13,000,000 gallons daily on the basis of the present population. The present consumption is about 8,000,000 gallons daily. The Company also has under lease further water rights capable of supplying about 3,500,000 gallons daily. The Pocantico division secures its water from the Pocantico River, which has a watershed of 11 square miles and is impounded at Pocantico Lake, having a capacity of 190,000,000 gallons.

CAPITAL STOCK

Authorized, 45,000 shares Common stock of no par value, and $2,000,000 7% cumulative Pfd., par, $100; outstanding, 45,000 shares Common and 1,300,000 Pfd. All the Common shares are owned by Community Water Service Co.

Preferred Stock Provisions—Has preference over all other stocks for assets and dividends.

Additional shares of 7% cumulative Pfd. stock shall be issued and sold only when net earnings of Company available for dividends thereon for a period of 12 consecutive calendar months within a period of 15 consecutive calendar months next preceding the date of issue and sale of such additional Pfd. stock, shall be at least 1¾ times the required dividends on all 7% Pfd. stock then outstanding and proposed to be issued. Has no voting power except upon failure of Company to pay when due eight successive quarterly dividends, in which case voting power shall be vested in the 7% Pfd. stock on an equal basis share for share with the Common stock, which right, however, shall cease when all accumulated and unpaid dividends on said Pfd. stock shall have been paid in full; provided, however, that the holders of 7% Pfd. stock shall be entitled to vote in a proceeding for the sale of the franchises and property of the Company, for the increase or reduction of the authorized amount of the 7% Pfd. stock, or for establishing priorities or creating preferences among the classes of stock of the Company, for consolidation, for voluntary dissolution, or any proceeding for mortgaging the property and franchises of the Company, as provided in the Corporation Laws of the State of New York.

Callability—Pfd. stock is subject to call in whole or in part on any dividend date, upon 30 days' published notice, at $105 per share and accrued divends.

Transfer Agent—The National City Bank of New Rochelle, N. Y.

Registrar—New Rochelle Trust Company.

Legal Opinion (Pfd. stock)—Chapman, Cutler & Parker, New York and Chicago.

Original Offering—$850,000 Pfd. stock first publicly offered in November, 1926, at 100 and dividends; an additional $450,000 Pfd. offered in September, 1927, at prices to yield 6.80%; both by Thomson, Fenn & Co., Hartford, Conn., etc.

Annual Meeting—Fourth Friday in March.

Dividends—Pfd. dividends regularly paid quarterly, M, J, S & D 1.

FUNDED DEBT

$3,225,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES "A"; DUE NOVEMBER 1, 1951

$1,100,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "B"; DUE NOVEMBER 1, 1951

Dated—Series "A" November 1, 1926; Series "B" May 1, 1927.

Interest Payable May and November 1 at office or agency of Company in New York City or Chicago.

Denominations—Coupon bonds in interchangeable denominations of $500 and $1,000; principal may be registered.

Trustee—Farmers' Loan & Trust Co., New York.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $3,225,000 Series "A" 5½s and $1,100,000 Series "B" 5s.

Additional bonds may be issued for not in excess of 80% of cost or fair value, whichever is lower, of permanent improvements, extensions or additions to property, provided net earnings of Company, as defined in the mortgage, for 12 consecutive calendar months within 15 calendar months immediately prior to issuance of such additional bonds, have been at least 1¾ times interest charges for a like period on all bonds outstanding under the mortgage and those to be issued. In the calculation of net earnings at least 5% of gross earnings must be charged for maintenance.

Purpose of Issue—The proceeds from the sale of $1,100,000 Series "B" 5s were used to reimburse Company in part for the cost of acquisition of properties of Pocantico Water Co., Inc., which served Dobbs Ferry, Scarsdale (at wholesale), Ardsley and Hastings-on-Hudson, N. Y.

Maintenance and Depreciation Fund—Company covenants to establish a maintenance and depreciation fund equal to not less than 9% of its annual gross earnings derived from operations of the mortgaged property. This fund may be expended by Company for maintenance, replacements and renewals; it may also be expended for improvements, additions and extensions to the properties, against which no First Mortgage bonds may be issued.

Callability—Series "A" 5½s are subject to call as a whole or in part, on any interest date on 30 days' notice to Nov. 1, 1930, at 105 and interest; thereafter, to Nov. 1, 1935, at 103 and interest; thereafter, to Nov. 1, 1943, at 102 and interest; and thereafter to May 1, 1951, at 101 and interest.

Series "B" 5s are subject to call in whole or in part on any interest date on 30 days' notice to and including Nov. 1, 1930 at 103; thereafter to and including Nov. 1, 1943 at 102; thereafter to and including May 1, 1951 at 101; plus interest in each case.

In the event the communities served acquire all or the major portion in value of Company's property and do not assume payment of the principal and interest of the bonds, the bonds may, at the option of Company, be declared due and payable at 100 and interest.

Security—Secured by a first mortgage on entire property of Company and such property as may be hereafter acquired, as provided in the mortgage. The value of Company's property, as independently appraised, together with actual costs of additions and betterments made subsequent thereto on Dec. 31, 1927 was $7,787,756.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain California, Connecticut, District of Columbia, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, Pennsylvania and Virginia taxes are refundable upon proper application.

Legal Opinion—Chapman and Cutler, Chicago.

Original Offering—First publicly offered ($3,225,000 Series "A" 5½s in November, 1926, at par and interest, to yield 5.50%; $1,100,000 Series "B" 5s offered in Aug., 1927, at 96½ and interest to yield over 5.25%; both by P. W. Chapman & Co., Inc., New York, etc.

NEW JERSEY WATER COMPANY

(A Direct Subsidiary of Community Water Service Company)

History and Properties—Incorporated April 29, 1913, in New Jersey, as New Jersey Water Service Co. (see 1925 Manual, page 222); on Aug. 24, 1914 merged with Camden County Water Supply Co.; on Aug. 18, 1925, merged with The Stockton Water Co. and at the same time changed its name to present title. In May, 1926, the Egbert Water Company was purchased. On Dec. 10, 1926, Company was reorganized.

The New Jersey Water Co., or its predecessors have been supplying a portion of the City of Camden, N. J., and adjacent territory on the opposite bank of the Delaware River from Philadelphia, with water for domestic and industrial purposes, for over 34 years. Company supplies water to the 11th and 12th Wards of Camden, N. J., the boroughs of Haddon Heights, Audubon, Oaklyn, Barrington, Rummenede and a portion of the borough of Haddonfield and portions of Delaware, Haddon and Center townships. The total population served is in excess of 54,000. More than 12,500 consumers are supplied by the water system owned by Company, which consists of deep water wells, four pumping stations in operation and one under construction, and over 135 miles of distribution mains. The pumping capacity is over 7,000,000 gallons per day.

To supply the constantly increasing demand for water resulting from the remarkable growth of the territory served by this plant, the New Jersey Water Company has been constantly increasing its water supply by the drilling of new wells. Only a small part of the natural supply underlying the land owned by the Company has been developed.

There has recently been constructed at the cost of approximately $40,000,000, the first bridge to span the Delaware River from Camden, N. J., to Philadelphia, and as a result of this convenience, the territory served by Company has become easily accessible from downtown Philadelphia. The construction of this bridge has resulted in a remarkable development of Camden, N. J., and contiguous territory for both industrial and residential purposes.

Franchises—The franchises of Company are without limitation as to time. Company operates under the jurisdiction of the Board of Public Utility Commissioners of the State of New Jersey.

PENNSYLVANIA STATE WATER CORPORATION

(A Direct Subsidiary of Community Water Service Company)

History and Properties—Incorporated March 15, 1927, in Delaware. The Corporation, through its subsidiaries, owns and operates water properties supplying water without competition for domestic, industrial and municipal purposes to various communities located in the Commonwealth of Pennsylvania, among which are Uniontown, Monongahela City, Lewisburg, Milton, Northumberland, a portion of Altoona, and others in the vicinity of Harrisburg, Pittsburgh and Altoona, and to the City of Moundsville, W. Va. The Corporation, owns and operates, through its subsidiaries, 25 properties which have been in continuous and successful operation for various periods up to 44 years, and which serve an estimated population of 180,000. The territory served includes important communities situated in one of the richest mining, agricultural and manufacturing sections of the Commonwealth of Pennsylvania.

The Pennsylvania State Water Corp. owns all of the outstanding stock (except qualifying shares) of The Uniontown Water Company and The Waynesburg Water Company (see appended statements), the Vandergrift Water Company, The Apollo Water Works Company, The Leechburg Water Works Company, Hyde Park Water Company, The Monongahela City Water Company, The Allegheny Water Company, the Mountain City Water Company, Londonderry Water Company, the Ramey Water Company, the Madera Water Company, Montola Water Co., Myerstown Water Company, Northumberland Water Company and Moundsville Water Company (latter three acquired subsequent to Dec. 31, 1927), White Deer Mountain Water Company, Clarks Summit Water Company, North Abington Water Company and more than 95% of the outstanding stock of the North Annville & Gravel Hill Consolidated Water Supply Company, the Houtzdale Water Company, the West Houtzdale Water Company and the Osceola Water Supply Company.

Vandergrift Water Company serves the city of Vandergrift, Pennsylvania, located about 40 miles northeast of Pittsburgh in a rich manufacturing and mining territory. The boroughs of Vandergrift, East Vandergrift, and Vandergrift Heights have been formed within the chartered territory of company. The water supply is derived from 30 drilled wells, all water is filtered with modern filter devices. The Company has a standpipe storage capacity of over 2,100,000 gallons. The system is entirely metered.

The Apollo Water Works Co.—The Leechburg Water Works Co.—Hyde Park Water Co.—These properties are situated adjacent to the property of the Vandergrift Water Company and are operated as a single unit. The water supply is obtained from impounding surface waters on Beaver Run. Impounding reservoir storage capacity is 55,000,000 gallons. The water flows by gravity from the impounding reservoir to the pumping station where it is pumped to the distributing reservoir which has a capacity of 10,000,000 gallons. There are approximately 20 miles of distributing mains, 111 fire hydrants and 2,130 meters in the system.

Monongahela City Water Company serves the City of Monongahela and surrounding territory located approximately 30 miles south of the City of Pittsburgh. The Monongahela River provides an unfailing supply of water which is treated and filtered. The Company has a distribution reservoir capacity of 1,500,000 gallons.

The Allegheny Water Company through a gravity water supply system furnishes water to a portion of the city of Altoona, Pa., and to a growing suburban section of that city to the south as far as Hollidaysburg. Mill Run, the source of supply, is a typical mountain stream of pure cold water of the highest quality. The Company's storage reservoir, with a drainage area of seven square miles above it, has a capacity of 65,000,000 gallons, thus insuring an adequate supply for the needs of consumers at all times.

The Mountain City Water Co.—This company renders complete water service to the borough of Frackville, Pa., and adjoining villages. It is located in one of the richest hard coal regions in the world. The source of water supply is a deep well system, the wells varying in depth from 400 to 615 feet. The water is raised from wells by compressed air into a receiving pool at the pumping station. The water is pumped from the receiving pool by duplicate plunger pumps into an equalizing reservoir located at an elevation of approximately 165 feet above the pumping station.

The White Deer Mountain Water Company—This Company serves water for domestic, commercial and manufacturing purposes to the following communities: Milton, Lewisburg, Watsontown, White Deer, New Columbia, West Milton, East Lewisburg, West Lewis-

burg, Montandon and Dewart. The territory is in central Pennsylvania, lying approximately sixty miles north of Harrisburg and thirty miles south of Williamsport. The water supply is secured from two separate water sheds owned by the Company and is delivered under pressure by gravity. The Company has also acquired and holds for future use additional acreage and water rights. In the distribution system there are two reservoirs and one stand pipe with capacities of over 3,000,000 gallons. The average daily consumption is approximately 2,000,000 gallons.

The Osceola Water Supply Company—Montola Water Company—These Companies supply water to Osceola Mills, Montola and part of Rush Township, in central Pennsylvania, approximately 30 miles north of Altoona. The Montola Water Company is a subsidiary of the Osceola Water Company, but the two properties are operated from the same office. The source of supply for both companies is a 5 square mile watershed with two collecting reservoirs, with combined capacity of 1,600,000 gallons. Distribution is by gravity from the reservoirs with booster pump in the distribution system.

Houtzdale Water Company—West Houtzdale Water Company—Ramey Water Company—Madera Water Company—This group of water properties supplies the following towns and parts of townships lying from 6 to 12 miles west of the Osceola properties; Houtzdale, West Houtzdale, Brisbin, Madera, Ramey, Smoke Run, Janesville and parts of Bigler, Woodward and Gulich Townships. The Houtzdale and the Ramey Water Company own the sources of supply and through physical connection sell to the other companies. The sources of supply are mountain streams, the principal stream being Mountain Branch. The waters are collected in reservoirs and distribution is by gravity to all parts of the distribution system. The principal industries are the manufacture of fire brick and the mining of bituminous coal.

North Annville and Gravel Hill Consolidated Water Supply Co.—This company serves water for domestic, industrial and municipal purposes in North Annville Township, North Londonderry Township and the borough of Palmyra, and Derry Township, Pa. This territory is located midway between Harrisburg and Reading. The company purchases its water supply from the Lebanon Valley Consolidated Water Supply Company by contract. This latter company obtains its supply from Swarta Creek at a point approximately five miles above Lebanon where water is filtered by modern mechanical gravity filters, then pumped into a distributing reservoir two miles north of Lebanon; from the distributing reservoir the water is delivered by gravity to all parts of the Lebanon system and the North Annville and Gravel Hill system.

Londonderry Water Co.—This company serves contiguous territory with the North Annville and Gravel Hill Consolidated Water Supply Company. These properties will in the future be operated as a unit. The source of supply is from impounded and treated surface supplies, springs and drilled wells. The distribution is by gravity from impounded reservoirs.

CAPITAL STOCK

Authorized, 100,000 shares Common and 30,000 shares $7 cumulative Pfd., both of no par value; outstanding, 60,000 shares Common and 16,500 shares Pfd. The entire Common stock (except qualifying shares) is owned by Community Water Service Co.

Change in Capitalization—On April 26, 1927, authorized Pfd. stock was changed from $3,000,000 7% cumulative Pfd. par $100, to 30,000 shares $7 cumulative Pfd. of no par value. In July, 1927, the authorized Common shares were increased from 50,000 to 100,000.

$7 Preferred Stock Provisions—The $7 Pfd. stock has preference for assets and dividends over the Common stock, and is entitled to cumulative dividends at the rate of $7 per share per annum.

Callability—Pfd. stock is subject to redemption as a whole or in part on any dividend date, upon 30 days' notice, at $107 per share and accrued dividend.

Liquidation Price—In the event of liquidation, dissolution or winding up of the Corporation, there shall be paid to the holders of the $7 cumulative Pfd. stock $100 and accumulated dividends before any amount is paid to the holders of the Common.

Issuance of Additional Shares—Additional shares of Pfd. stock may be issued only when the then value of the assets of the Corporation and its subsidiary corporations, as shown by its and their books of account, including the proceeds of the shares of stock proposed to be issued, after deducting (a) the aggregate of all outstanding funded and other evidences of indebtedness and liabilities, other than contingent liabilities, of the Corporation and its subsidiaries; (b) the par value of all outstanding Preferred stock of subsidiary corporations having a par value, or if without nominal or par value, then the amount by their terms to be paid on such shares in liquidation; and (c) the book value of all outstanding Common stock of subsidiary corporations not held by or for the benefit of the Corporation or of any of its subsidiary corporations, shall be in the aggregate not less than $200 for each share of the then outstanding $7 cumulative Pfd. stock and for each share proposed to be issued, and only when the net consolidated income of the Corporation and of its subsidiary corporations, as shown by its and their books of account, for twelve consecutive calendar months within fifteen calendar months immediately preceding the date of issue of such additional $7 cumulative Pfd. stock shall be in the aggregate not less than twice the annual dividend requirements on all $7 Pfd. stock then outstanding and proposed to be issued.

Voting Powers—Pfd. stock has no voting power except upon failure of the Corporation to pay six successive quarterly dividends in which case the holders of the Pfd. stock shall be entitled to elect a majority only of the Board of Directors and to vote on all other matters so long as any dividends shall be unpaid, which right, however, shall cease when all accumulated and unpaid dividends shall have been paid in full or resources are available to make such payment.

Transfer Agent—The Seaboard National Bank of the City of New York.

Registrar—The New York Trust Co., New York.

Annual Meeting—Fourth Thursday in March.

Original Offering—$7 Pfd. stock was first publicly offered (5,000 shares) in April, 1926 at 100 and dividends 3,500 shares additional Pfd. offered in July, 1927 (price on application); both by Hale, Waters & Co., New York, etc.

Dividends—Initial quarterly dividend of $1.75 per share was paid on the $7 cumulative Pfd. stock June 1, 1927, which quarterly rate maintained to date; payments quarterly, M, J, S & D 1.

FUNDED DEBT

$5,200,000 FIRST LIEN 5.50% GOLD BONDS, SERIES "A"; DUE MARCH 1, 1952

Dated March 1, 1927.

Interest Payable March and September 1, at the office or agency of the Corporation in either New York or Chicago.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—The Seaboard National Bank of New York.

Provisions of Issue—Authorized amount, not limited; issued and outstanding, $5,200,000 Series "A" 5.50s.

Additional bonds may be issued under Trust Indenture in series on the following basis, provided net consolidated earnings as defined in the Trust Indenture for 12 consecutive calendar months within 15 calendar months immediately prior to the application for such additional bonds, shall have been not less than 1¾ times the total interest charges on all bonds outstanding under the Indenture and on all additional bonds then proposed to be issued, and then only: (a) For not in excess of 80% of the cost or fair value, whichever is lower, of extensions, enlargements, additions, betterments or improvements to the properties owned or operated by the subsidiaries; (b) for subsequently acquired subsidiaries or systems in an amount not in excess of 66 2/3% of the fair value as determined by independent engineers, provided the Corporation owns or is concurrently acquiring not less than 95% of the Common stock of each company to be operated as a subsidiary; (c) to refund a like principal amount of bonds of any previous series of bonds issued and outstanding under the Trust Indenture.

Purpose of Issue—Proceeds were used to retire all funded indebtedness against the properties outstanding in the hands of the public and for other corporate purposes.

Callability—Subject to call at any time as a whole or in part, on 30 days' notice, to and including Sept. 1, 1931, at 105 and interest; thereafter to and including Sept. 1, 1936, at 103 and interest; thereafter to and including Sept. 1, 1944, at 102 and interest; thereafter to and including March 1, 1951, at 101 and interest, and thereafter at par and interest.

Depreciation and Maintenance Fund—Corporation covenants to cause each subsidiary to create a depreciation and maintenance fund equal to 9% of its gross earnings derived from the operation of its properties. This fund may be expended for improvements, additions or extensions and for the maintenance of its properties, but no bonds may be issued under the Trust Indenture against such improvements, additions, extensions or maintenance. In this manner is established ample depreciation charges and adequate provision for the proper maintenance of the operating properties.

Security—Secured by a direct first lien, through pledge with the Trustee, of all of the outstanding stock except qualifying shares) of 16 of the 25 Companies owned and operated about May 1, 1928, and more than 95% of the outstanding stock of the remaining 9 companies. This renders the bonds in effect a first charge upon the physical properties of the subsidiaries, inas-much as they will have no bonds or Pfd. stock outstanding in the hands of the public, and the Trust Indenture provides that any funded obligations or Pfd. stock and the proportionate part of Common stock of any of the subsidiary companies, subsequently issued, shall be pledged with the Trustee. The aggregate value of the physical properties of the subsidiaries at Dec. 31, 1927, was $9,992,739, and about May 1, 1928, over $10,190,000.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain Pennsylvania, Connecticut, Kansas, Iowa, California, Maryland, Michigan, Minnesota, New Hampshire, Kentucky, District of Columbia, Virginia and Massachusetts taxes refunded upon timely and proper application.

Legal Opinion—Chapman and Cutler, Chicago and New York.

Original Offering—First publicly offered ($1,300,000) in March, 1927, at 98 and interest, to yield about 5.65%; an additional $775,000 offered in April, 1927, at 98 and interest to yield 5.65%; an additional $1,500,000 offered in July 1927, at 98 and interest to yield about 5.65%; an additional $600,000 offered in April, 1928, at 102 and interest, to yield about 5.30%; all by P. W. Chapman & Co., Inc., New York, etc.

PEORIA WATER WORKS COMPANY

(A Direct Subsidiary of Community Water Service Company)

History—Incorporated March 25, 1898, in New Jersey, as successor, under plan of reorganization, to the property of the Peoria Water Co., sold under foreclosure. The Richwoods Water Company was subquently organized to supply the territory lying beyond the limits of the city, and to provide for additional water supply. In 1908 the Illinois Water Company, organized under the laws of Delaware, took over the Richwoods property and in 1913 the property of the Illinois Water Company was taken over by the Peoria Water Works Company. Amendments to charter made Dec. 9, 1912 and Aug. 20, 1925.

The Peoria Water Works Co., or its predecessors, has served the City of Peoria and adjacent territory with water for domestic and industrial purposes since 1868. The Company supplies water, without competition to the city of Peoria, Averyville, Peoria Heights and Bartonville and the townships of Peoria, Richwoods and Limestone. Population served, over 109,000.

Physical Property—The water supply is derived from a system of ten wells which penetrate a gravel strata bearing an underground flow of exceptionally pure water constituting, in the opinion of the engineers, a supply sufficient for years to come. The present wells are normally operated only at one-third of their capacity and are at all times sufficient for the demands of the City under the most extraordinary conditions. The known water resources which are owned by the Company are capable of materially greater development. The pumping equipment has a daily capacity in excess of 30,000,000 gallons, which is augmented by a 19,000,000 gallon reservoir which is located at an elevation of 220 feet above the business section of the City. The average daily consumption is approximately 8,500,000 gallons. The distribution system of the Company consists of over 171 miles of mains and has a total of 23,200 active services.

The properties of the Company are operated under the Illinois Public Utilities Act and under the jurisdiction of the Illinois Commerce Commission, which administers this Act. The Act assures, in the opinion of counsel, the continued right to serve communities

occupied to the extent of public convenience and necessity, free from private competition.

CAPITAL STOCK

Authorized, 15,000 Common shares of no par value, and $1,000,000 7% cumulative Pfd., par $100; outstanding, 5,000 Common shares and $250,000 Pfd. All the Common stock is owned by the Community Water Service Company.

Preferred Stock Provisions—Has preference for assets and dividends over all other classes of stock of Company.

Callability—Subject to call in whole or in part at any time on 30 days' notice at $105 and accrued dividends.

Voting Power—Pfd. stock has no voting power except upon failure of the Company to pay when due, 8 consecutive quarterly dividends, in which case voting power shall be vested in the Pfd. stock on an equal basis share for share with the Common stock, which right, however, shall cease when all accumulated and unpaid dividends on said Pfd. stock shall have been paid in full.

Purpose of Issue—The proceeds of the sale of $250,000 7% Pfd. stock was used for extensions and betterments made to the properties and for other corporate purposes.

Original Offering—First publicly offered ($250,000 7% Pfd.) in Feb., 1927, by P. W. Chapman & Co., Inc., New York and Chicago, at $100 per share and accrued dividend, to yield 7%.

(3)

$1,222,000 FIRST & REFUNDING MORTGAGE GOLD 5s, SERIES "A"; DUE AUGUST 1, 1950

Dated August 1, 1925.

Interest Payable February and August 1, at office of P. W. Chapman & Co., Inc., New York and Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Authorized amount, unlimited; outstanding, $1,222,000 Series "A" 5s. Issued to retire purchase money mortgages, partially to reimburse Company for extensions and betterments made to the properties, and for other corporate purposes.

The mortgage securing these bonds provides that additional bonds may be issued thereunder to refund an equal amount of underlying bonds or bonds issued under this mortgage, or for not in excess of 80% of the actual cost or fair value whichever is lower, of additions, extensions, and permanent improvements to the property of the Company, provided net earnings of Company, as defined in the mortgage for 12 calendar months within 15 calendar months immediately prior to the issuance of the new bonds have been at least 1¾ times the annual interest charges on all bonds which will be outstanding in hands of the public under this and all underlying mortgages after the proposed issue shall have been made. In the calculation of net earnings at least 5% of gross earnings must be charged to maintenance. Of the initial issue $220,000 of the bonds have been issued against extensions and improvements to the property, which bonds Company covenants to dispose of only provided net earnings are equal to 1¾ times the annual interest on all bonds outstanding and those to be issued.

Maintenance and Improvement Fund—Company covenants to establish a maintenance and improvement fund equal to 9% of the annual gross earnings of Company derived from the mortgaged property. This fund may be expended for improvements, additions and extensions to the properties, but no First and Refunding Mortgage bonds may be issued against such improvements, additions and extensions.

Callability—Subject to call as a whole or in part on 60 days' notice to and including August 1, 1930, at 103 and interest; thereafter, to and including August 1, 1940, at 102 and interest; and thereafter, to and including August 1, 1949, at 101 and interest, and thereafter at 100 and interest. In the event the City purchases Company's property and does not assume the bonds, the bonds will become forthwith payable at 100 and interest.

Security—Secured by a first mortgage on the larger part of Company's property which lies outside of the city limits of the City of Peoria as existing in 1898, which includes distributing systems in suburban communities. Since 1898 the city limits have changed and a portion of this property now lies in the City of Peoria. In addition, through deposit with the Trustee of $874,000 Consolidated Mortgage bonds, this First & Refunding Mortgage issue will share in the security of the Consolidated Mortgage (closed) of which there are outstanding $1,326,000 in the hands of the public. The Consolidated Mortgage is subject only to a closed issue of $800,000 Prior Lien bonds, which are secured by a direct mortgage on all the property of Company which was inside the city limits of Peoria as existing in 1898, and on such of the property of the Company as lies outside the said city limits which is not covered directly by the First & Refunding Mortgage or by the Consolidated Mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse to resident holders upon proper and timely application

the Pennsylvania, Connecticut, Kansas and California taxes not to exceed 4 mills, Maryland 4½ mills tax, Michigan 5 mills exemption tax, Kentucky 5 mills tax, Virginia 5½ mills tax, and Massachusetts income tax not to exceed 6%.

Legal Opinion—Chapman and Cutler, New York and Chicago.

Original Offering—First publicly offered ($1,200,000 Series "A") in October, 1925, at 90 and interest, to yield about 5.77%, by P. W. Chapman & Co., Inc., New York and Chicago.

WESTMORELAND WATER CO.

(A Direct Subsidiary of Community Water Service Company)

History—Incorporated Sept. 24, 1886, in Pa. This company is a consolidation of various water companies known as Westmoreland Water Supply System, including among others, the Derry Water Co., Irwin Water Co. and Westmoreland Water Co. of Unity Township. Owns 97% of the entire outstanding capital stock and the entire issue ($125,000) of First Mortgage bonds of The Dennison Water Supply Company (see appended statement).

The Company supplies water without competition for domestic, municipal and industrial purposes to sections of Westmoreland county located about 30 miles from the city of Pittsburgh, Pa. This district includes Greensburg, Youngwood, Jeannette, Penn Manor, Irwin, North Irwin, and the Borough of Derry, all of which are contiguous with the exception of Derry which is situated 16 miles east of Greensburg. The Company, through its subsidiary, The Dennison Water Supply Company, also supplies water to the City of Dennison, Ohio, which is midway between Pittsburgh, Pa., and Columbus, Ohio. Greensburg and Dennison are industrial and commercial centers. The territory served has a combined population estimated in excess of 78,000.

Water Supply, Greensburg District, Pa.—The water supplied is soft surface water. The Company owns three impounding reservoirs with a combined capacity of 738,000,000 gallons, on three streams. By virtue of the Company's rights in Indian Creek, which is the source of supply for the Mountain Water Supply Company of the Pennsylvania Railroad, water is taken under a long-term agreement form that company's transmission main to augment the supply owned by the Greensburg plant. The average daily consumption of water is 3,500,000 gallons.

Derry District, Pa.—The supply comes from three reservoirs having a total capacity of 160,000,000 gallons, two of which are located on a stream one mile southeast of Derry, with a drainage area of one square mile, and the third near the edge of the town. The water is treated in a sedimentation basin and, after chlorination, is pumped into the distribution system. The daily consumption is 500,000 gallons.

Dennison District, Ohio—The water supply is taken from a storage reservoir having a capacity of 271,000,000 gallons, and a tributary drainage area of 141 square miles. Water is purified in a modern filter plant of 4,000,000 gallons per day capacity and pumped into a distribution reservoir. The amount of water consumed daily averages 2,200,000 gallons.

Regulation—The Westmoreland Water Company and The Dennison Water Supply Company operate under the jurisdiction of the Public Service Commission of Pennsylvania, and the Public Utilities Commission of Ohio, respectively.

Control—Control of this Company was acquired by Community Water Service Co. on Dec. 20, 1927.

CAPITAL STOCK

Authorized, 15,000 shares Common and 15,000 shares $6 cumulative Pfd., both of no par value; outstanding, 15,000 shares Common and 6,500 shares Pfd. Over 99% of the Common stock owned by Community Water Service Co. Capital stock was changed from $1,500,000 authorized, $1,298,950 outstanding, par, $50, in the early part of 1928.

Preferred Stock Provisions—Has preference for assets and dividends and in liquidation is entitled to $100 per share and accrued dividend. Pfd. stock has no voting rights except upon failure of Company to pay six quarterly dividends in which case the holders of Pfd. stock shall be entitled to vote at all stockholders' meetings so long as any dividends shall be unpaid, which right, however, shall cease when all accumu-

lated and unpaid dividends on Pfd. stock shall have been paid in full.

Callability—Subject to call as a whole or in part on any dividend date, on 30 days' notice, at $103 and accrued dividend per share.

Transfer Agent—The Seaboard National Bank of New York, N. Y.

Registrar—The Farmers' Loan & Trust Co., New York.

Tax Provisions—Dividends are exempt from present Normal Federal Income tax and stock is free of Pennsylvania 4 mills tax to resident holders.

Legal Opinion—Chapman and Cutler, Chicago.

Original Offering—First publicly offered (6,500 shares $6 Pfd.) in Feb., 1928, at $99.50 and dividend per share to yield 6.03%, by P. W. Chapman & Co., Inc., New York, etc.

Annual Meeting—Second Tuesday in February at Greensburg, Pa.

Dividends—Pfd. dividends are payable quarterly, J, A, J & O 1. A special dividend of $19.25 per share was paid Dec. 20, 1927, on the previously outstanding capital stock.

FUNDED DEBT

$2,480,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE DECEMBER 1, 1952

Dated December 1, 1927.

Interest Payable June and December 1 at the office or agency of the Company in either New York or Chicago.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—The Seaboard National Bank of the City of New York.

Provisions of Issue—Authorized amount, not limited; issued, $2,500,000 Series "A" 5s, of which $20,000 held in Treasury. Additional bonds may be issued for not in excess of 80% of the actual cost or fair value, whichever is lower, of physical property additions as defined in the mortgage, provided the consolidated net earnings of the Company, as defined in the mortgage, for twelve consecutive calendar months within the fifteen calendar months immediately prior to the issuance of such new bonds, have been at least 1¾ times the annual interest charges on all bonds outstanding under said mortgage and those to be issued. Additional bonds are issuable in the principal amount of $20,000 against pledge of additional shares representing the present outstanding minority interest of Dennison Water Supply Co.

Purpose of Issue—Proceeds were used to reimburse the Company in part for the cost of acquisition of the properties, to refund outstanding bonds and for other corporate purposes.

Callability—Series "A" 5s are subject to call as a whole or in part, on any interest date on 30 days' notice to and including Dec. 1, 1930, at 103 and interest; thereafter, to and including June 1, 1952 at 101 and interest. In the event the communities served acquire all or the major portion in value of the Company's property and do not assume payment of principal and interest of the bonds, the bonds, may, at the option of the Company, be declared due and payable at 100 and interest.

Sinking Fund—None provided.

Maintenance, Renewal & Replacement Fund—The Company covenants to expend or reserve in every calendar year for maintenance, replacements, renewals, improvements, additions and extensions, an amount which shall not be less than 9% of gross earnings, derived from the operation of the mortgage property, provided no bonds shall be issued under the mortgage to reimburse the Company for expenditures made and charged to the reserve so covenanted to be maintained.

Security—Secured by a first mortgage on the entire physical property of the Company, consisting of land, water mains, reservoirs, pumping stations and other equipment, and such other property as may be hereafter acquired, as provided in the mortgage. Bonds are additionally secured by the pledge with the Trustee of $125,000 (entire issue) First Mortgage bonds and not less than 97% of the entire outstanding capital stock of The Dennison Water Supply Co. The property value of the Westmoreland Water Co. and The Dennison Water Supply Co. at Dec. 31, 1927 was $4,575,859.

The mortgage contemplates the execution and delivery of a new mortgage by The Dennison Water Supply Co., which will be similar in form to the mortgage securing these bonds. Bonds secured by said new mortgage will be issued bond for bond in substitution for present First Mortgage bonds of said Company, and additional bonds will be issued in not exceeding $92,000, principal amount to refund present indebtedness other than first mortgage bonds and against physical property additions. All such additional bonds must be pledged under the mortgage securing these bonds against the pledge of which additional First Mortgage Gold Bonds of Westmoreland Water Company may be issued in aggregate principal amount equal to the aggregate principal amount of additional bonds so pledged. All additional bonds and not less than 97 per cent of all additional capital stock of The Dennison Water Supply Company upon issuance thereof shall be pledged with the Trustee under the mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. California, Connecticut, District of Columbia, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire and Virginia taxes refundable upon timely and proper application. Free of Pennsylvania four mills tax to resident holders.

Legal Opinion—Chapman and Cutler, New York and Chicago.

Original Offering—First publicly offered ($2,480,000 Series "A" 5s) in Dec., 1927, at 99 and interest to yield over 5.07% by P. W. Chapman & Co., Inc., New York, etc.

BOND REDEMPTION

All the previously outstanding First & Refunding Mortgage 5% 50-Year Gold Coupon bonds, due Jan. 1, 1964, were called for redemption on Jan. 1, 1928 at par and interest at Girard Trust Co., Philadelphia, Trustee.

WILLIAMSPORT WATER COMPANY

(A Direct Subsidiary of Community Water Service Company)

History—Incorporated Jan. 16, 1884 in Pennsylvania; charter amended Sept. 14, 1927. On Jan. 12, 1912 merged Citizens Water & Gas Co. of Williamsport and Summit Water Co. Supplies water for domestic, municipal and industrial purposes to the City of Williamsport, Pa., and adjacent territory.

The source of supply for the more than 12,000 consumers consist first of the water from a water shed of about 17 square miles, the safe average yield of which is approximately 10 million gallons per day, and secondly, artesian wells with a capacity of 10 million gallons per day. The present consumption is about six million gallons daily. The impounded storage consists of Mosquito Creek and Hagermans Run reservoirs with a combined capacity of 28 million gallons. Surrounding these reservoirs is a natural forest area of which the Company owns in excess of 11,000 acres. Floating on the distribution system is a newly constructed reinforced concrete reservoir of four million gallons capacity which stabilizes the pressure in the low service district. Connected to this balancing reservoir is an automatically controlled pump station which lifts water into the new high reservoir of 500,000 gallons capacity which is situated on the highest convenient point above the town. It is capable of delivering water under a maximum pressure of 170 pounds to the high service district and above 200 pounds to the low service district in an emergency.

Franchise—The franchises of the Company are without limitation as to time. The Company operates under the jurisdiction of The Public Service Commission of the Commonwealth of Pennsylvania.

DETROIT UNITED RAILWAY

History—Incorporated Dec 31, 1900, in Mich.; consolidation of the Detroit Citizens' St. Ry. Co.; the Detroit Electric Ry Co.; the Detroit, Fort Wayne & Belle Isle Ry Co., and the Detroit Suburban Ry Co., embracing all street railway lines at that time in the city of Detroit. Subsequently absorbed the Detroit & Northwestern Ry., now known as the Orchard Lake Division; the Detroit & Pontiac Ry. now the Pontiac Division; the Detroit & Flint Ry., formerly the Detroit, Rochester, Romeo & Lake Orion Ry., operated as the Flint Division; and the Wyandotte & Detroit River Ry., now the Wyandotte Division.

The Detroit United Railway owns all the of the capital stock of the Detroit & Port Huron Shore Line Ry. (Rapid Railway System), the Detroit, Monroe & Toledo Short Line Ry. and the Detroit, Jackson & Chicago Ry. (For dates of acquisition of these companies, see Manual for 1916, page 235). It also owns the entire issued stocks of the following companies: Monroe Piers & Park Resort, Electric Depot Co., River Rouge Ry., Newport Stone Co. and Anchor Bay Salt Co.

Company also owns the entire capital stock of the Detroit, Almont & Northern RR. Co. the properties of which it leases for 50 years from 1915, and guarantees and assumes its bonds as a direct obligation by endorsement.

Motor Truck Freight Line—In Nov., 1923, Company organized the **Detroit United Ry. Trucking Co.** to operate between Jackson and Sturgis, Mich. The truck lines will serve as a feeder for the electric lines, connecting with them at Jackson, and will afford freight service to and from Detroit to a territory which hitherto has been difficult to reach.

In April, 1927, it was announced that Company, together with its associated motor coach and electric lines had purchased, with consent of the Federal Court, the capital stock and other assets of the Detroit-Toledo Trackless Coach Co., including a major portion of its bus equipment. Latter company has been operating buses between Detroit and Toledo and will continue to do so under the new management. As a part of the negotiations, however, the Trackless Co. will discontinue operations between Detroit and Chicago.

In April, 1927, it was also announced that Del A. Smith, general manager of Municipal Street Railways, was authorized to negotiate with Company for purchase of tracks on Grand River Avenue from Meyer's Road to city limits and on Michigan Avenue from Wyoming Avenue to Division Road, Detroit, Mich.

Receivers Appointed—As of March 10, 1925, Security Trust Company, Detroit, Mich., and Joseph W. Simard, Montreal, Can., were appointed receivers for the Company. In August 1925, Willis C. Dunbar, of Philadelphia, was named receiver to succeed J. W. Simard who resigned. On Jan. 22, 1927, A. L. Drum, of Chicago, was appointed receiver, supplanting Security Trust Co. and W. C. Dunbar, who resigned.

In October, 1925, the Highway Motor Bus Co., a subsidiary of Company, was placed under receivership. The receivers are the same as those for the parent Company. All other subsidiaries were to be placed under the same receivers.

In October 1925, People's Motor Coach Co., a subsidiary of Company, acquired through its receivers, the Star Motor Coach Line operating 24 coaches between Pontiac and Detroit.

Failure of Plan—Shortly after receivers were appointed for the Company a plan, devised by directors of the Company, was submitted to stockholders, for the purpose of refinancing the Company. The plan required stockholders to subscribe to an $8,000,000 General Mortgage bond issue to the extent of 40% of their par holdings, and for unsecured creditors to exchange their claims for a like amount of bonds. Announcement was made in July, 1925, of failure of the plan through lack of support by stockholders, and foreclosure under the mortgages securing the defaulted bond issues was expected.

Bond Issues in Default—The July 1, 1925 interest was defaulted on the following bond issues: Detroit United Ry. First Mtge. & Collateral Trust 6s, due 1929; the First Mtge. 5s, due 1950, of Detroit & Port Huron Shore Line Ry.; and the First Mtge. 5s, due 1933, of Detroit, Monroe & Toledo Short Line Ry. Interest due July 1, 1925 on First Consol. 4½s, of 1932, was paid.

The August 1, 1925 interest was defaulted on the following issues: Detroit, Almont & Northern Ry. First 6s, due Feb. 1, 1940; Detroit, Ypsilanti Ann Arbor & Jackson Ry. First Cons. 5s, due Feb. 1, 1926; Detroit, Jackson & Chicago Ry. First Cons. 5s, due Feb. 1, 1937; and Detroit United Ry. Two-Year 6% Coll. Trust Notes, due Feb. 1, 1926.

Bondholders' Committee—In July, 1925, holders of Detroit, Monroe & Toledo Short Line Ry. First Mtge. 5% bonds; Detroit & Port Huron Shore Line Ry. First Mtge. 5% bonds; Detroit, Jackson & Chicago Ry. First Consolidated Mtge. 5% bonds; Detroit, Ypsilanti, Ann Arbor & Jackson Ry. First Consolidated Mtge. 5% bonds; Detroit, Almont & Northern Ry. First Mtge. 6% bonds, and Detroit United Ry.

Two-Year 6% Collateral Trust notes due February 1, 1926, were notified that a committee had been formed to protect the interests of the bondholders. The Committee includes Henry H. Sanger, William G. Larchen, Frank D. Nicol and S. R. Livingstone, with Charles R. Dunn, Secretary, Detroit, Mich., and Beaumont, Smith & Harris as Counsel. Bondholders were asked to deposit their holdings with the Union Trust Co., Detroit, Depositary.

Bondholders' Committee for Detroit United Ry. First Mortgage & Collateral Trust S. F. 6s, due July 1, 1929—Theodore G. Smith, Chairman; W. A. Durst, Henry Solomon, Julius H. Haass, R. W. Martin, and Karl H. Behr, with C. E. Sigler, Secretary, 80 Broadway, New York. The Central Union Trust Co., New York, is depositary. The date on which the right to deposit bonds under the Protective Agreement expired was fixed by the Committee as Aug. 14, 1926.

Sale of Canadian Properties—As of March 31, 1920, the Company disposed of its Canadian properties—the Sandwich, Windsor & Amherstburg Ry. and the Windsor & Tecumseh Electric Ry.—to the Hydro-Electric Commission of Ontario, so that the operations are now confined to the States of Michigan and Ohio.

Sale of City System—In Feb., 1922, negotiations resulted in an agreement to sell the Company's so-called "City System" to the City of Detroit, which were ratified by the stockholders on March 11, 1922, and by the voters at a special election held April 17, 1922. The purchase price was fixed at $19,850,000 of which $2,770,000 was paid in cash and the balance in semi-annual installments of not less than $500,000 each, making minimum deferred payments of $1,000,000 per annum until Jan. 1, 1932, when the entire balance is to be paid. The deferred payments bear interest at the rate of 6% annually, payable quarterly.

In October, 1921, a board of arbitration fixed $2,297,700 as the price the city would have to pay the company for 29.50 miles of line, including equipment, which lines were formally taken over by the city on Dec. 22, 1921.

On May 15, 1922, the transfer of the city lines to the City of Detroit was effected. The Company will operate the short lines outside the city limits. The lines taken over and those already constructed by the city are being operated by the Department of Street Railways. Preliminary to the transfer of the city lines, the city paid $3,177,000 to the company, of which amount $2,770,000 was to take care of the first payment on the purchase contract of $19,850,000.

In the plans with reference to dealing with the future of the company, the following bonds secured by mortgages were agreed to be allocated to the City System and to be paid out of the proceeds of the sale.

All bonds in the hand of the public issued and outstanding under the Company's Consolidated 4½% Mortgage of 1902	$12,150,000
Bonds originally issued against the Detroit, Fort Wayne & Belle Isle Ry. assumed by the company and still outstanding in the hands of the public	900,000
Bonds originally issued against The Detroit Railway and assumed by the Company and still outstanding in the hands of the public	1,194,000
	$14,244,000

These were direct liens against the City System.

Fixed assets after sale of City System compared to funded liabilities.

The capital liabilities and funded indebtedness of the company are approximately as follows:

Capital stock liability	$15,375,000
Funded indebtedness, about	14,266,500
	$29,641,500

while the physical assets approximate as follows:

Physical value of property of company, consisting of railways, equipment, real estate, plants, etc., employed in the service	$31,000,000
Value of so-called non-operating property (property not used in operation of the company) about	2,500,000
	$33,500,000
Surplus	$3,858,500

In December, 1926, Judge Chas. C. Simmons signed an order in the Federal Court at Detroit for the disposal of 12 sub-stations and four main power houses of Company to the Woodmere Scrap Iron & Metal Co. for $800,000.

Valuation Fixed—The Michigan Public Utilities Commission on June 23, 1923, issued an order fixing the valuation of the company and its various lines at $33,975,613 and the rate of fare at 2 cts. a mile, but no fare less than 5 cts. With these rates the lines' earnings will be on a 7% basis. Company was ordered to effect such economies as will reduce cost of operations and maintain efficiency.

Proposed Debt Payment—On March 7, 1924, it was announced that Henry Ford would be requested to lend to the city of Detroit sufficient money to pay off the debt of $15,000,000 to the Detroit United Rys. Co. incurred by the city's purchase of the system. This action was made possible March 6, 1924, by decision of the Michigan Supreme Court in favor of the city in the allocation suit brought to settle a controversy over outstanding bonds of the railway. If Mr. Ford should lend the amount needed, the city would meet the loan by payments running for 20 years.

Court Decision—The Michigan State Supreme Court in March, 1924, affirmed the decision of the Circuit Judge Moynihan allocating bonds of the old Detroit United Ry. to the city lines and to the interurban lines of the present Detroit United Ry. The total of bond issues held by the Guarantee Trust Co. of New York against the old Detroit United Rys. System is $20,000,000. Of this amount bonds against the city under the decision totals $15,850,000, and those allocated to the Detroit United Ry. Interurban System amounted to $4,455,000.

Rates of Fare—In the Legislature of the State of Michigan, at the Session of 1921, a law was enacted providing for temporary rates of fare for interurban railways, pending an official valuation of the Company's property under the direction of the Public Service Commission. The final rate was to be based on the operating expense of the company, cost of maintenance, etc., and a fair return upon the value of the company's property employed in rendering service to the public.

Under the provisions of the law referred to, fixing the temporary rate, the rate was first fixed at 1½ cts. per mile per passenger carried. This rate prevailed for a period of about six months, or into Feb. 1, 1922, when by the operation of the same law, the temporary rate became fixed at 2 cts. per mile per passenger carried.

The segregation of the City System from the Interurban System of the Company was made effective as of June 1, 1922, and since that date the operations of the company have been confined to the operations of its Interurban properties, and have been subject to the 2 ct. fare rate referred to. Effective Jan. 10, 1924, the Michigan Public Utilities Commission authorized the company to increase the rate of fare on its interurban lines approximately 25%.

On June 27, 1925, announcement was made that authority had been given the company, by the Michigan Public Utility Commission, to increase fares to 3 cents a passenger mile.

In September, 1925, a 25% increase in fares was approved by the suburban towns of River Rouge, Trenton, Wyandotte, Riverview and Sibley. Increase was conditional upon Company's agreement to put on one-man cars and start installation of paving and double tracks. The agreement is believed to be an amicable settlement of the differences between Company and the various towns mentioned.

In November, 1925, receivers for Company accepted the ordinance passed by Pontiac City Commission providing for an increase in fares on lines in Pontiac from 5 to 7 cents. The new rates became effective Nov. 19, 1925.

Bus Lines Increase Fares—Company with permission of the Michigan Public Service Commission, in October, 1925, increased fares on several of its bus line routes. Wolverine Transit Co., a subsidiary, increased fares between Detroit and Mount Clemens to 40 cents from 32 cents. People's Motor Coach Co., another subsidiary, increased fares to Redford from 22 to 25 cents, and the rate to Farmington from 40 cents to 45 cents. An increase of two to three cents a mile became effective on the roundabout route from Mount Clemens to Port Huron by way of Algonac.

Abandonment Application Granted—Application of receivers of Company to abandon approximately 10 miles of track between Ypsilanti and Saline, Mich., was granted by Judge Charles C. Simons in United States District Court, Sept. 21. Track is held under a 30-year franchise which expires in a year. Portions of the road bed will be used as a part of the State's project for a second all concrete highway between Detroit and Chicago.

Dual Operation—On Dec. 15, 1921, joint operation over certain of the Company's lines and certain of the City's lines was inaugurated. Cars are operated by the city and the company over the lines of each other and transfers are exchanged.

Equipment, Dec. 31, 1924— The Company's rolling stock consisted of 453 passenger cars, 101 freight cars, 169 express cars, 105 work cars, 3 locomotives, 29 snow plows, 1,865 motors and 1,716 trucks. There are three active power stations with a combined capacity of 13,250 k. w. and fourteen sub-stations with a combined capacity of 13,950 k. w.

Track Mileage, Dec. 31, 1924— Detroit United Ry., 268.5303 miles; Rapid Ry. System (Detroit & Port Huron Shore Line Ry.), 148.2944 miles; Detroit Monroe & Toledo Short Line Ry., 85.2054 miles; Detroit, Jackson & Chicago Ry., 111.8675 miles—total, 613.8976 miles, compared with 603.7906 miles at Dec. 31, 1923.

Reorganization—A plan of reorganization was announced on April 30, 1928, embracing only the Detroit United Railway and the Detroit, Monroe & Toledo Short Line Railway, together with all the motor bus companies owned by the former, but not including the rail properties of Detroit & Port Huron Shore Line Ry., Detroit, Jackson & Chicago Ry., and Detroit, Almont & Northern Railroad, the stocks of which were owned by Detroit United Railway. With the announcement of the plan notices were sent to holders of Detroit United Ry. First Mortgage & Collateral Trust Sinking Fund 6s and Detroit, Monroe & Toledo Short Line Ry. First Mortgage 5s, urging the deposit of these securities under the plan and naming May 31, 1928 as the time limit for such deposit.

Reorganization Committee—Theodore G. Smith, Chairman; Karl H. Behr, W. A. Durst, Julius H. Haas, Julian H. Harris, Bruce Johnstone, R. W. Martin, Henry Salomon, with C. E. Sigler, Secretary, 80 Broadway, New York. Depositaries: Central Union Trust Co. of New York for Detroit United Ry. 1st Mtge. & Coll. Tr. 5s and Detroit, Monroe & Toledo Short Line Ry. 1st Mtge. 5s and also Union Trust Co., Detroit for latter bonds.

DIGEST OF REORGANIZATION PLAN, DATED APRIL 1, 1923

New Companies—It is intended to organize a new company under the laws of Michigan or such other State as the reorganization committee shall determine, or the charter of some existing corporation may be utilized. Such company is herein called the New Detroit company.

It is likewise intended to organize a second new company under the laws of Michigan or such other State as the reorganization committee shall determine, or the charter of some other existing corporation may be utilized. Such company is herein called the New Toledo co.

All of the stock of the New Toledo company is to be vested in the New Detroit company.

It is intended to acquire the sales, the properties of the Detroit United Ry. and of the Toledo, Monroe & Toledo Ry. to be offered for sale thereunder or such part thereof as the reorganization committee shall determine.

It is entended to vest in the New Detroit company by direct ownership the lines of interurban railway now subject to the mortgage securing the Detroit bonds which shall be acquired at such sale (other than the lines running from Farmington (1) to Northville and (2) to Pontiac and the north part, or possibly all, of the line running from Detroit to Mt. Clemens) and the city lines in Flint and Pontiac. Such other properties, as shall be purchased by or for the reorganization committee as it shall determine to vest the New Detroit company may be vested in the New Detroit company directly or through stocks or stocks and obligations representative thereof.

It is intended to vest in the New Toledo company by direct ownership the lines of interurban railway and all or substantially all the other property now subject to the mortgage securing the Toledo bonds which shall be acquired at such sale except that if the reorganization committee shall so determine, the line of interurban railway and other property situate in the State of Ohio may be vested in the New Toledo company through stocks or stocks and obligations representative thereof.

It is intended to cause to be paid or otherwise discharged all receivers' certificates, all past due taxes and all supply and damage claims adjudged to have priority over the Detroit bonds in respect of properties vested in the New Detroit company or over the Toledo bonds in respect of properties vested in the New Toledo company.

Issue of New Securities—It is contemplated that the New Detroit company will issue (a) $3,350,000 Detroit First Mortgage bonds (b) $4,915,000 Adjustment Mortgage bonds, and (c) 200,000 shares Common fully paid and non-assessable.

It is contemplated that the New Toledo company will issue (a) $1,800,000 General Mortgage bonds and (b) all its authorized shares of Common stock.

Provisions of Securities of New Detroit Company—The Detroit First Mortgage & Collateral Trust bonds will be secured by a mortgage embracing all or substantially all lines of railroad, franchises and equipment owned by new company; there shall also be pledged all shares of stock and securities vested in new company in accordance with the Plan. These bonds are limited to $5,000,000 at any one time outstanding. They are to be redeemable on any interest date, in whole or in part, on 30 days' notice, at 107 and interest, to July 1, 1932, and at declining premiums to 1% from July 1, 1952 to 1956.

The Adjustment Mortgage bonds are to be limited to $4,915,000 outstanding at any one time and are, in effect a second mortgage on properties of new company taken into reorganization. Interest on these bonds is a contingent charge, being payable if earned as defined under its mortgage; interest is cumulative. The adjustments are convertible between Jan. 1, 1930, and July 1, 1938, into Common stock at rate of four shares for each $100 principal amount of bonds. The adjustments are callable on any interest date, on 30 days' notice, at par and accrued interest.

Authorized amount of Common stock will be 400,000 shares, of which only 200,000 shares are to be issued in reorganization and balance only for conversion of adjustment bonds until expiration of conversion period. Shares issued in reorganization are to be issued to Theodore G. Smith, A. L. Drum and George T. Bishop as voting trustees for a period expiring not later than July 1, 1933.

Provisions of Securities of New Toledo Company—There will be authorized First Mortgage bonds to mature July 1, 1958. None of these bonds will be issued in reorganization. They will be limited to an amount not exceeding $2,000,000 at any one time outstanding. They are to be issued in denomination of $1,000. Interest will be payable January and July 1, at not exceeding the rate of 7% per annum. They are to be secured by a mortgage to Central Union Trust Co., trustee, which is to embrace all or substantially all the lines of railway, franchises and equipment owned by the New Toledo company at the time of the execution thereof. To the extent that the line of interurban electric railway and other property situate in the State of Ohio now subject to the mortgage securing the Toledo bonds shall not be subjected to the lien of the Toledo First Mortgage then stock or stock and obligations representative of such line and of such property or of substantially such property shall be pledged under the Toledo First Mortgage. Such other and additional property may be covered by or pledged under the Toledo First Mortgage, as the reorganization committee shall determine or as may be provided by the Toledo First Mortgage. Provision may be made in the Toledo First Mtge. for a series of bonds secured thereby maturing not earlier than July 1, 1958 and carrying interest at a rate less than 7% per annum, and for the issuance thereof either in exchange or substitution for an equal principal amount of the Toledo First Mortgage bonds at any time outstanding or in lieu of the isuance of an equal principal amount of the Toledo First Mortgage bonds.

The Toledo First Mortgage bonds may be issued only against acquisitions after Jan. 1, 1929, of property of any description in addition to the property vested in the New Toledo company in the reorganization which shall be subjected to the Toledo First Mortgage and/or against additions to and betterments of properties subject to the lien of he Toledo First Mortgage made after Jan. 1, 1929, but only to a principal amount not exceeding 75% of the cost of such acquisitions, additions and betterments and, in the case of acquisitions not exceeding 75% of the value of the properties acquired.

The Toledo First Mortgage bonds are to be redeemable in whole or in part at the option of the New Toledo company, on any interest date on not less than 30 days' notice, at the principal amount thereof together with accrued and unpaid interest thereon to the date fixed for the redemption thereof and if on or before July 1, 1932, at a premium of not exceeding 7%; if after July 1, 1932, and on or before July 1, 1936, at a premium of not exceeding 6%; if after July 1, 1936, and on or before July 1, 1940, at a premium of not exceeding 5%; if after July 1, 1940, and on or before July 1, 1944, at a premium of not exceeding 4%; if after July 1, 1944, and on or before July 1, 1948, at a premium of not exceeding 3%; if after July 1, 1948, and on or before July 1, 1952, at a premium of not exceeding 2%, if after July 1, 1952, and on or before July 1, 1956, at a premium of not exceeding 1%.

General Mortgage bonds will be issued in reorganization, limited to an amount not exceeding $1,800,000 at any one time outstanding, in denominations of $1,000, $500 and $100. Maturity will be July 1, 1958. Interest will not become due until Jan. 1, 1930, and during that year 1% will become due with the rate increasing in subsequent years to Jan. 1, 1935, when interest shall become fixed at 5½% annually. They are to be redeemable in whole or in part at the option of the New Toledo Company on any January 1 or July 1 on not less than 30 days' notice, if on or before July 1, 1929 at par, and if after July 1, 1929, at par and interest accrued thereon from the interest date next preceding that fixed for the redemption thereof. They are to be secured by a mortgage and deed of trust to Union Trust Co. (of Detroit), as trustee, covering the property embraced in the Toledo First Mortgage and such properties as from time to time shall become subject thereto. The general mortgage in all respects shall be subject and subordinate to the Toledo First Mortgage and to the prior payment out of the mortgaged property of all Toledo First Mortgage bonds at any time issued and outstanding under the Toledo First Mortgage. The general mortgage may contain provisions permitting the property covered thereby to be embraced in a new mortgage securing an issue of bonds maturing not earlier than July 1, 1958 and bearing interest at a rate less than 7% per annum and having a lien thereon prior to the lien of the general mortgage, provided the principal amount of such bonds plus the principal amount of the Toledo First Mortgage bonds at any time outstanding shall not exceed in the aggregate $2,000,000.

All Common stock of the New Toledo Company issued in reorganization will be owned by the New Detroit Company and will be pledged under the latter's First Mortgage and Collateral Trust bonds.

New Detroit Company Shall Not Assume Any Bonds—The New Detroit company shall not in the reorganization assume any liability directly or indirectly for the payment of the principal or of interest upon either the Toledo First Mortgage bonds or the general mortgage bonds or for the observance or performance of any of the covenants and (or) agreements on the part of the New Toledo company to be contained in the Toledo First Mortgage bonds, the general mortgage bonds and(or) in the respective mortgages and deeds of trust securing said issues of bonds.

Treatment of Detroit United Railway First & Collateral Trust 6s—Holders of these bonds may participate in reorganization by depositing their bonds with Central Union Trust Co., New York, on or before May 31, 1928. At time of receivership these bonds were outstanding to amount of $8,275,000. Since receivership, instalments of $2,500,000 of purchase price of city lines sold to Detroit and pledged under the Mortgage of these bonds have been collected and 31% of $8,275,000 bonds has been paid and distributed pro-rata among bondholders, reducing original $1,000 bond outstanding at receivership to $690.

Holders of these bonds who agree to the reorganization will receive for each bond: $50 in cash, $550 principal amount of adjustment Mortgage bonds and 4 shares of Common stock of the New Detroit company. In addition depositary bondholders are entitled to subscribe to the underwriting syndicate to a maximum sum of $500 for each original $1,000 bond.

Treatment of Detroit, Monroe & Toledo Short Line Ry. First Mortgage 5s—Holders of these bonds may become parties to reorganization of that property by depositing their bonds on or before May 31, 1928, with Central Union Trust Co., New York, or Union Trust Co., Detroit. They will receive $600 principal amount of the New Toledo company General Mortgage bonds for each $1,000 old bond, a 60% basis.

Syndicate—A syndicate of which George T. Bishop and A. L. Drum are managers and with the maximum obligation of $4,137,500 has been formed, under an agreement dated as of April 1, 1928 between the reorganization committee of the first part, the managers of the syndicate of the second part and the subscribers to the syndicate of the third part.

Upon the terms and conditions set forth in the syndicate agreement, the syndicate has agreed to supply the reorganization committee with $3,015,000, for which the syndicate is to receive: $3,350,000 principal amount of New Detroit co. First Mortgage bonds, $364,100 principal amount of New Detroit Co. Adjustment Mortgage bonds and Voting Trust Certificates for 136,900 shares of Common stock of the New Detroit co.

The syndicate agreement provides for the compensation of the syndicate managers from syndicate assets and no commission or other compensation is to be paid to the syndicate or its managers as part of the expenses of the reorganization or is to be assumed by the New Detroit company or by the New Toledo company, save and except that there shall be paid as part of the expenses of the reorganization the charges of counsel for the syndicate managers for services rendered the Syndicate managers in connection with the organization of the syndicate and the formulation of the plan and their disbursements incurred in connection with such services.

In consideration among other things of the cancellation of the provision for extra compensation (in addition to monthly compensation) contained in the contract between the receivers and A. L. Drum & Co. approved by the U. S. District Court by order entered May 8, 1925, there is to be delivered to or upon the order of A. L. Drum voting trust certificates for 30,000 shares of the Common stock of the New Detroit company.

Callability—Subject to call on any interest date at 103 and interest.

Sinking Fund—Sinking fund not provided.

Security—A first mortgage on 20 miles of interurban railway.

Guaranty—Unconditionally guaranteed and assumed as a direct obligation, by endorsement, by the Detroit United Ry., which covenants that in the event of any new issue of Refunding or General Mortgage bonds being placed on the Detroit United Ry. or its subsidiaries, sufficient of such bonds shall be authorized and reserved for the retirement of the Detroit, Almont & Northern bonds at maturity.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Original Offering—First publicly offered ($400,000) in July, 1915, at par and interest, by Eversy & Co., Chicago.

(4)

$268,000 DETROIT, FORT WAYNE & BELLE ISLE RY. FIRST GOLD 5s; DUE APRIL 1, 1927

These bonds are allocated to the "City System" and are to be paid from the proceeds of the sale of same to the City of Detroit.

Dated April 1, 1898.

Interest Payable April and Oct. 1, at Agents Bank of Montreal, New York. New York Trust Co., Trustee. Coupon (principal may be registered), and registered, $1,000. In addition to the $268,000 outstanding, $118,000 are pledged as collateral to loans. Subject to call at 105 and interest on 60 days' notice. Assumed by Detroit United Ry. A first lien on 25 miles of track, constituting the Fort Street Line, which is a part of the street railways and property being purchased by the City of Detroit under contract made with the Detroit United Ry. on March 10, 1922. Company pays Normal Federal Income Tax up to 2%.

At maturity on April 1, 1927, the receiver did not have the funds with which to pay the principal. However, the installments of purchase money to be paid by the City of Detroit will be adequate and sufficient to pay in full this issue of bonds as well as all other bonds secured by lien on the street railways and property covered by the contract, and under the contract the purchase price must be applied to the payment of such bonds. To assure the earliest possible payment of all these bonds, both principal and interest, the Court on March 28, 1927, made an order and pursuant thereto the receiver executed and delivered to the New York Trust Co., as Trustee, an assignment. This arrangement, it is believed, will result in the payment of the last of the bonds in June, 1928. Interest coupons due April 1, 1927, were paid when presented. Interest on all bonds outstanding was paid on Oct. 1, 1927, and April 1, 1928, on presenting the bonds to be stamped or the bonds may be retained until funds are available to pay the principal and then presented for payment of both principal and interest.

(11)

$8,275,000 DETROIT UNITED RAILWAY FIRST MORTGAGE & COLLATERAL TRUST SINKING FUND 5-YEAR 6s; DUE JULY 1, 1929

Dated July 1, 1924.

Interest Payable Jan. and July 1, at Central Union Trust Co., of New York.

Denomination—Coupon, $1,000; principal may be registered, exchangeable for fully registered bonds.

Trustee—Central Union Trust Co., of New York.

Provisions of Issue—Authorized, $10,000,000. These bonds were issued ($9,000,000 of which $528,000 retired by sinking fund to Dec. 31, 1924) to provide for the redemption of the company's Twenty-Year First Mortgage Collateral 8% Sinking Fund Gold bonds, and divisional bonds now outstanding on the property directly owned; to acquire $3,000,000 First Consolidated 4½% bonds or underlying bonds on the City lines in anticipation of the payments by the City of Detroit; for capital requirements, and for other corporate purposes.

Callability—Subject to call as a whole, or in part only for the sinking fund, on any interest date on 30 days' notice at 103 and accrued interest, to and including July 1, 1926, and thereafter at ½ of 1% less for each six months elasped to maturity.

Sinking Fund—The Mortgage provides for an annual sinking fund of $1,500,000 for the first three years of the life of the issue and an annual sinking fund of $500,000 for the remaining two years, payable semi-annually, to be applied to the purchase of bonds of this issue if obtainable at or below the call price, of if not so obtainable, to the redemption of bonds at the call price. To meet in part these sinking fund payments the company will deposit with the Trustee $3,000,000 Detroit United Railway First Consolidated 4½% bonds due 1932, or underlying bonds on the City lines. These bonds are deliverable $500,000 semi-annually at their face value to the City of Detroit against which the City has agreed under the contract of March 10, 1922, to pay $500,000 cash semi-annually toward the deferred purchase price of the lines within the City of Detroit which were taken over by the City in 1922. These payments by the City of Detroit assure the provision of more than half of the total cash requirements for the sinking fund.

Security—These bonds are secured by direct first mortgage lien on 226 miles of electric railroad, including the lines from Detroit to Flint and from Detroit to Pontiac and are further secured by the pledge of the entire stocks of subsidiary companies owning 357 additional miles, subject to $9,900,000 divisional bonds which cannot be increased in amount.

The Michigan Public Utilities Commission has placed (July, 1924) a value of $16,064,473 for rate-making purposes on the property on which these bonds will be a direct first mortgage and a value of $17,048,546 on the property by which the bonds will be collaterally secured.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Present Pennsylvania Four-Mill tax and present Connecticut and Maryland State property taxes refunded on application.

Original Offering—First publicly offered ($9,000,000) in June, 1924, at 99 and interest, to yield over 6.20%, by Dillion, Read & Co., New York.

Default—July 1, 1925, interest in default.

Bondholders' Committee—See a preceding page.

Pursuant to an order of the Court, a payment of 18½% of the principal amount of these bonds was made on and after Aug. 2, 1926 to holders thereof and holders of certificates of deposit therefor upon presentation to the Central Union Trust Co. of New York. Another distribution of 6½% of principal was ordered made on and after Jan. 3, 1927. Another distribution of 6%, making a total of 31%, was ordered paid on and after July 1, 1927. In each case interest was not included.

NOTE: In the proposed reorganization these bonds will receive for each bond: $50 in cash, $550 principal amount of Adjustment Mortgage bonds and 4 shares of Common stock of the New Detroit company. In addition depositing bondholders are entitled to subscribe to the underwriting syndicate to a miximum sum of $500 for each original $1,000. See reorganization Plan on a preceding page.

NORTH CAROLINA PUBLIC SERVICE COMPANY

(Controlled by Duke Power Co. through Southern Public Utilities Co.)

History—Incorporated Feb. 26, 1924, under the laws of North Carolina, as successor to The North Carolina Public Service Company, (see 1923 Public Utility Manual, page 1630), Greensboro Electric Company and Greensboro Gas Company, of Greensboro, N. C., and the High Point Electric Power Company, of High Point, N. C.; and in 1924 acquired the property of the Piedmont Power and Light Co., of Burlington, N. C. On July 1, 1926 the Winston-Salem Gas Co. (see 1926 Public Utility Manual, page 1883) was merged. The company owns all the $500 outstanding capital stock of **Greensboro Bus Company**, incorporated in Nov. 1924, in North Carolina, to provide motor bus transportation service in and near Greensboro, N. C. Also owns practically all the capital stock of the Salisbury & Spencer Railway Company, the property of which it operates under lease.

The Company supplies electric light and power service in Greensboro, Burlington, Salisbury and other important industrial communities in central North Carolina, including Mebane, Lake Latham, Haw River, Graham, Glen Raven, Elon College, Gibsonville, Four Mile, McLeansville, Alamance, White Oaks, Hamtown, Battle Ground, Pomona, Guilford College, Vandalia, Pleasant Garden, Jamestown, Oakdale, Archdale, Trinity, Spencer, East Spencer, Summerfield, Sedgefield, Sumner, Efland, Whitsett, Randleman, Terra Cotta, Stokesdale, Sedalia, Keech's Lodge, Hill Top, Groomtown, Bessemer and Hamilton Lakes. It sells electric power at wholesale for distribution in High Point.

The company supplies gas service in Greensboro, High Point, Salisbury, Winston-Salem and suburban territory. The city of Burlington granted a franchise in April, 1925, and a gas plant and high pressure distribution system was completed and placed in operation there in Sept., 1926. Passenger transportation service is furnished in Greensboro, High Point, Salisbury and Spencer.

The population of the territory served is estimated at 215,000. Greensboro and Winston-Salem, the largest cities served, are important manufacturing centers. While industries are diversified, there are many cotton mills throughout this section. Large railroad shops are located at Spencer, and High Point is one of the most important furniture manufacturing centers in the world. Winston-Salem, the largest city in the State, is an important tobacco center.

Property—The Company's gas plant at Greensboro has a daily capacity of 1,420,000 cubic feet, and its gas holders give it a storage capacity of 250,000 cu. ft. The High Point gas plant has a daily capacity of 220,000 cubic feet, while the storage capacity is 98,000 cubic feet. The Salisbury gas plant has a daily capacity of 240,000 cubic feet, with holders providing 170,000 cu. ft. storage capacity. The Winston-Salem gas plant has a daily capacity of 610,000 cu. ft. and storage capacity of 240,000 cu. ft. The Burlington gas plant has a daily capacity of 400,000 cu. ft. and storage capacity of 100,000 cu. ft. The Company has 255 miles of gas mains. Coke is sold at Greensboro, High Point, Winston-Salem and Salisbury as a by-product of the manufactured gas.

The Company has 25 miles of street car lines.

The electric system of the company, which includes 95 miles of high tension transmission lines and 720 miles of distribution lines, carries current purchased

THE SOUTH CAROLINA GAS AND ELECTRIC COMPANY

(Controlled by Duke Power Company through Southern Public Utilities Company)

History—The Company was incorporated in Sept. 1922, under the laws of Maryland, as successor to the South Carolina Light, Power and Railways Company, which was formed by merger in 1912.

The South Carolina Gas and Electric Company supplies electric light and power service in the city of Spartanburg and other important industrial communities in northern South Carolina, including Pacolet, Cowpens, Woodruff, Inman, Boiling Springs, Fairforest, Glenn Springs, Roebuck, Converse, Cedar Springs, Hayne, Whitestone, Glendale, Switzer and Arcadia. It also sells electric power at wholesale for distribution in Gaffney and Blacksburg.

The company supplies gas service in Spartanburg. It furnishes, in conjunction with the **Spartanburg Bus Company** (incorporated Nov., 1924, in S. C.) whose $1,000 outstanding Common stock it owns, motor bus and street car service in Spartanburg and suburban territory including Hayne, where there are large railroad shops; Clifton, Arkwright, Whitney, Saxon and Glendale. There are 21 miles of track in the street railway system.

The total population of the territory supplied with electric service is estimated at 73,900, with transportation service at 40,000, and with gas service at 50,000.

While the entire territory has a diversity of industry, it is one of the most important cotton growing areas of the South and is noted for its manufactured cotton products. The industries which are large consumers of electric power include cotton spinning, knitting, ginning, oil and fertilizer plants, woodworking mills, creosoting plants, railroad repair shops, reed and harness plants, flour mills, foundries and brick plants.

Plants—The company owns a hydro-electric generating station located at Gaston Shoals, the total generating capacity being 10,800 k.w.

The gas plant in Spartanburg has a daily capacity of 420,000 cu. ft. Two gas holders give the company 250,000 cu. ft. storage capacity, and it has 46 miles of gas mains.

Lines—The company has 103 miles of high tension transmission lines and 419 miles of distribution lines. A new high tension, double circuit steel tower line, connecting Spartanburg with the Broad River Power Company's system at Parr Shoals was completed and placed in operation in 1926. This connection provides, from the present large hydro-electric and new steam generating stations at Parr Shoals, the additional power required by expansion of industry in Spartanburg and surrounding territory. The South Carolina Gas and Electric Company also has an arrangement for exchanging power with the Southern Power Company.

New Control—On July 29, 1927, General Gas & Electric Corp. conveyed to the Southern Public Utilities Co., a subsidiary of Duke Power Co., the controlling interest in the Common stock of this Company.

Receivership Asked—In Jan., 1928, it was announced that the Merchants and Farmers Bank of Spartanburg, S. C., had instituted an action in the U. S. District Court for the Western District of South Carolina asking the appointment of a receiver for Company.

Protective Committee for 6% Convertible Mortgage Bonds—Due to the default in the payment of the interest due Dec. 15, 1927 on The South Carolina Gas and Electric Co. 6% Convertible Ten-Year Mortgage Gold bonds, due Dec. 15, 1932, the following committee was organized to protect the interests of the holders of these bonds under a Bondholder's Agreement dated Jan. 3, 1928: Nathaniel F. Glidden, Robert T. Sheldon, Robert C. Rathbone, and William Macalister, Jr., with M. H. Donlon, Sec., 72 Wall St., New York, N. Y. Bondholders were requested to deposit their bonds with American Exchange Irving Trust Co., 60 Broadway, New York, N. Y., Depositary, under the Agreement. A majority of the bonds had been deposited up to May 17, 1928 and no bonds were to be deposited under the Agreement after May 28, 1928 except on such terms as may be fixed by the Committee.

Agreement for Sale of 6% Convertible Mortgage Bonds—Pursuant to the Bondholders' Agreement the above Committee on May 29, 1928 filed with American Exchange Irving Trust Company as Depositary a plan and agreement for sale of deposited bonds. Certificate holders may withdraw from the Bondholders' Agreement prior to June 22, 1928 in the manner provided in the said Bondholders' Agreement upon paying to American Exchange Irving Trust Company their pro rata share of compensation and expenses of the Committee. Certificate holders who fail to withdraw shall be conclusively deemed to have assented to the plan and agreement.

Protective Committee for First Mortgage 6% Bonds—Due to the precarious financial condition of Company and the default in the payment of the interest due March 15, 1928 on the First Mortgage Twenty-

Year 6% Gold bonds, due Sept. 15, 1942, the following committee was organized to protect the interest of the holders under a Deposit Agreement, dated March 24, 1928: Charles C. Hood (Chairman), 160 Broadway, New York, James T. Monahan, and William H. Eshbaugh, with Richard B. Tillinghast, Sec., 160 Broadway, New York, and Henry M. Earle and Kobbe, Thatcher, Frederick & Hoar, 128 Broadway, New York, N. Y., Counsel. Bondholders were requested in April, 1928 to deposit their bonds with The New York Trust Co., 100 Broadway, New York, Depositary under the Agreement.

CAPITAL STOCK

ALLIED POWER & LIGHT CORPORATION

History—Incorporated May 5, 1928, in Delaware, and has contracted to acquire the business, assets and contracts of Hodenpyl, Hardy & Co., Inc., and the entire capital stock of Stevens & Wood, Inc., together with substantial stock interests in Commonwealth Power Corporation, Penn-Ohio Edison Company, Northern Ohio Power Company and other power and light systems. Hodenpyl, Hardy & Co., Inc., and Stevens & Wood, Inc., have for many years been engaged in the management and supervision of electric power and light properties.

Allied Power & Light Corporation, either directly or through subsidiaries, will act in a supervisory capacity for a number of power and light companies and will supply engineering, supervisory and financial assistance in connection with the development and operation of these companies and the construction of additions to their properties. It will take a financial interest in electric power and light and other companies through the purchase of their securities and will be prepared to supply the necessary capital and direction for the re-organization or consolidation of properties of the above mentioned character. It will also furnish engineering services and do general construction work.

Hodenpyl, Hardy & Co., Inc., was organized in 1914 and with its predecessors has for over thirty years been interested in the organization, development and operation of public utility properties. Many of such properties are now component parts of the Commonwealth Power Corporation system.

Stevens & Wood, Inc., directly or through predecessor companies, have for many years been engaged in the general engineering and construction business and also in the managing, supervising and financing of public utility corporations. In addition, it has done a considerable and varied amount of engineering work for the industrial field.

Among the important power house undertakings at the present time are the Toronto Station of the Ohio River Edison Co., the completion of the Fairbanks (Alaska) Power Station for the U. S. Smelting, Refining & Mining Co., and the design and construction of the new Deepwater Power Station (Wilmington, Del.) for the American Gas & Electric Company and the United Gas Improvement Company, which is to be used jointly by these Companies and also to supply process steam to E. I. du Pont de Nemours and Co. This latter power station is the first new station to be designed for 1,200 pounds steam pressure and has attracted national attention due to the many progressive features in its design. Stevens and Wood, Inc., will continue business as a subsidiary of Allied Power & Light Corporation.

First Pfd. Stock Provisions—The First Pfd. stock, $5 Series has priority over the Preference and Common stocks with respect to dividends and assets. Upon dissolution or liquidation, whether voluntary or involuntary, the First Pfd. stock shall be entitled to receive, out of the assets of the Corporation $100 per share and accumulated dividends before any payments are made on the Preference and/or Common stock.

The First Pfd. stock has no voting power except as required by the laws of Delaware and except upon failure of the Corporation to pay, when due, dividends for successive dividend periods totaling one year, in which case the holders of the First Pfd. stock shall be entitled to one vote per share so long as such failure to pay dividends continues; but such voting power will cease upon subsequent payment by the Corporation of all such accumulated and unpaid dividends, subject, however, to renewal on similar failure to pay dividends.

Preference Stock Provisions—The Preference stock, $3 Series, is preferred as to dividends and assets over the Common stock. Upon dissolution or liquidation, whether voluntary or involuntary, the Preference stock shall be entitled to receive, out of the assets of the Corporation $50 per share and accumulated dividends before any payments are made on the Common stock. Except as otherwise required by the laws of Delaware, the holders of the Preference stock have no voting powers.

Purpose of Issue—The proceeds from the sale of 150,000 shares of First Pfd. stock, together with the proceeds from the sale of Preference stock and Com-

mon stock, were used in the acquisition of the above described assets, and for general corporate purposes.

Callability—The $5 Series First Pfd. stock is redeemable, as a whole or in part, at the option of the Corporation, at any time, upon not less than 30 days' notice at $107.50 per share and accumulated dividends. The Preference stock, $3 Series, is redeemable as a whole or in part, at the option of the Corporation, at any time, upon not less than 30 days' notice, at $52.50 per share and accumulated dividends.

CENTRAL CALIFORNIA TRACTION CO.

(Joint Control)

History and Property—Incorporated Aug. 7, 1905 in Cal. On Jan. 1, 1928, control of the company was acquired jointly by Southern Pacific Company, The Atchison, Topeka and Santa Fe Railway Company and the Western Pacific Railroad Company, upon payment by each of the said companies of one-third of the cost of the securities acquired. This condition was agreed to by the Southern Pacific Company with the modification that, prior to the consummation of the arrangements for such joint control, the Central California Traction Company should sell its street car lines in the City of Stockton, Cal. to the Stockton Electric Railroad Company, a wholly owned Southern Pacific subsidiary, which had been operating the street car lines under lease for a number of years.

Company is a freight and passenger electric railway operating between Sacramento and Stockton, Cal., with a branch from Lodi Junction to Lodi, Cal., a total of 55 miles, and under joint control it will continue to be operated as an independent line.

CAPITAL STOCK

Authorized, $3,000,000 Common and $1,000,000 Pfd.; outstanding, $290,300 Common and $792,800 Pfd.; par, $100. An assessment of $5 per share levied on Common stock in 1923. Delinquents were sold out and stock bid in by company, when the stock was decreased from $2,928,000. Annual meeting, first Wednesday in August, at San Francisco, Cal. No dividends paid.

FUNDED DEBT

$1,471,000 FIRST MORTGAGE GOLD 5s; DUE APRIL 1, 1936

Dated September 1, 1906.

Interest Payable April and October 1, at Wells Fargo Bank and Union Trust Co., San Francisco.

Reduced Interest, Etc.—In March, 1917, holders of the First Mortgage bonds were requested to sign an agreement (a) reducing the interest rate from 5% to 2% for the years 1917, 1918 and 1919; (b) waiving default in interest and also the sinking fund provision. The reason for this action was given as the jitney competition. A new agreement was signed in 1919 to run to Oct. 1, 1922 under same conditions and modifying sinking fund provisions as above. Another new agreement was signed in 1922 to run to Oct. 1, 1925 where bondholders agree to accept 2½% instead of 5%. By agreements, dated March 29, 1926, and Sept 30, 1926, bondholders accepted interest at rate of 2½% per annum instead of 5% for coupons due April 1, 1926, and October 1, 1926. No action has been reported taken on the April 1, 1927 interest coupon. Sinking fund provisions remain the same.

Denomination—Coupon, $1,000.

Trustee—Wells Fargo Bank and Union Trust Co., San Francisco.

Provisions of Issue—Authorized, $1,500,000.

Callability—Subject to call on any interest date at 105 and interest on 60 days' notice.

Sinking Fund—Sinking fund, modified to begin 1924, $15,000 annually for eight years; $30,000 for two years; and $340,000 for one year. The amounts given above to be paid to the sinking fund are contingent upon the total authorized issue of bonds being outstanding at the time when such sinking fund payment is due; if the total issue is not outstanding, the amount of the payment shall be in the same proportion as the amount outstanding bears to the amount authorized.

Security—A first lien on entire property.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Original Offering—First publicly offered in March, 1907, at 97½ and interest, by California Safe Deposit & Trust Co., San Francisco; California National Bank, Sacramento and Stockton Savings & Loan Society, Stockton, Cal.

CAPITAL STOCK

Authorized and outstanding, 20,000 shares Common of no par value and $500,000 7% cumulative Preferred of $25 par value.

FUNDED DEBT

$1,000,000 FIRST MORTGAGE AND COLLATERAL TRUST 5½% GOLD BONDS, SERIES "A"; DUE MAY 1, 1943

Dated May 1, 1928.

Interest Payable May and November 1, at Chicago Trust Company, Chicago, Ill.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Chicago Trust Co., Chicago, Ill.

Provisions of Issue—Issued, $1,000,000 Series "A" 5½s. Additional bonds may be issued under this mortgage for the acquisition of additional properties, in an amount not exceeding 75% of the total amount of actual cash expenditures or fair value thereof, whichever is lower, provided the net earnings during twelve of the preceding fifteen months were equivalent to 1¾ times the bond interest and dividend charges during such twelve months.

Purpose of Issue—Proceeds of this issue were to be used in part to reimburse Company for expenditures in connection with the acquisition of properties, to retire all funded indebtedness outstanding in the hands of the public against the properties, to provide for extensions and improvements and for working capital and other corporate purposes.

Callability—Subject to call as a whole or in part on the first day of any calendar month prior to maturity upon 30 days' notice, at 105 and interest, less 1% for each full three-year period expired after May 1, 1928.

Special Fund—Company agrees to deposit with the Trustee in a special fund, beginning May 1, 1930, and on or before May 1 of each succeeding year until the maturity of these bonds, an amount equivalent to 25% of the gross earnings for the respective year immediately preceding, less expenditures made for maintenance repairs, renewals, replacements (excluding renewals and replacements not chargeable to capital) additions to and extensions of the system, and the purchase and/or redemption of bonds of this issue or underlying bonds. Moneys so deposited are applicable only to expenditures of the nature above described.

Security—A direct obligation of Company, constituting its entire funded debt. Secured by a first mortgage on all of the physical property of the Company in Texas and Arkansas, also by a direct first lien on capital stock of Wisconsin and Illinois subsidiaries pledged with the Trustee under the Indenture of Mortgage. The Indenture of Mortgage further provides that so long as any of these bonds are outstanding and unpaid, any and all funded obligations or Preferred stock and the proportionate part of the Common stock of any of the subsidiary companies, subsequently issued, shall be pledged with the Trustee under the terms of the Indenture of Mortgage. The properties securing these bonds have been recently appraised and reported upon by Hagenah & Dorsey, Chicago, who determined their cost of reproduction new as $1,978,962 and depreciated sound value as $1,631,775.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund, upon proper application, to holders of these bonds, any tax assessed and paid under the laws of any state, territory, district or possession of the United States, to the extent of 5 mils per year upon each dollar of principal thereof.

Legal Opinion—John P. Barnes, of Levinson, Becker, Frank, Glenn & Barnes, Chicago.

Original Offering—First publicly offered ($1,000,000) in May, 1928, at 97½ and interest, to yield 5.75%, by E. H. Ottman & Co., Inc., Chicago, Engineers National Co., Inc., New York., and Keane, Higbie & Co., Inc., Detroit.

KAMINISTIQUIA POWER CO., LTD.

History and Properties—Incorporated in Canada in 1925; successor to Kaministiquia Power Company, Limited (see 1925 Public Utility Manual, page 79). Shareholders of the predecessor company received the equivalent of $145 per share for their stock, $95 per share in cash and the balance in 7% cumulative Pfd. stock of the present company.

Owns and operates at Kakabeka Falls on the Kaministiquia River in the Province of Ontario, a complete hydro-electric development of a rated capacity of 35,000 h.p. Company owns in fee simple the power site. Water rights are adequate and are held in perpetuity. The dams are built on solid rock foundations and are of concrete construction. The initial installation was made in 1906. The entire power output of the plant has been disposed of on favorable terms to customers including the principal industrial power users in the City of Fort William. Franchise to supply electrical current for industrial and commercial power purposes in the City of Fort William is in perpetuity and carries exemption from all municipal taxation in that City, except special and school taxes. Company is at present supplying approximately 4,700 h.p. to the City under contract.

Property Valuation—The physical assets, including power site and station and transmission and distribution systems, but excluding franchises, contracts and good-will, have been valued as at September, 1925, by Walter J. Francis & Co., Consulting Engineers, Montreal, at a replacement value of $6,326,565, against which there is carried in the books of the Company a depreciation reserve of $661,825.

AMERICAN NATURAL GAS CORPORATION

History—Incorporated Oct. 11, 1927, in Delaware, as Natural Gas Service Corp.; name changed to present title Oct. 18, 1927. Company owns over 99% of the Common stock of Oklahoma Natural Gas Corp. (see appended statement).

American Natural Gas Corporation, and its subsidiaries, including those under contract of purchase, will constitute one of the largest natural gas systems in the United States and will serve a population of approximately 600,000 in some 50 communities. The population of the counties in which the pipe lines are located is over 1,400,000.

In Oklahoma, the cities of Tulsa, Sapulpa and Okmulgee, among others, are served at retail, and Oklahoma City, Muskogee, Shawnee, Norman, Guthrie, and many other communities at wholesale. A number of large industrial consumers, such as power plants, cotton gins, and oil refineries, are also supplied. Among the companies served are Oklahoma Power Co., The Texas Corp., Oklahoma Gas & Electric Co., Mid-Continent Petroleum Corp., and The Producers and Refiners Corp.

The Kansas properties serve a number of important industrial plants, including large cement plants, oil refineries, brick plants, and smelters. Among the companies served are the Edgar Zinc Co., a subsidiary of the United States Steel Corp., the Peerless Oil and Refining Co., the Ash Grove Lime and Portland Cement Co., and the Iola plant of the Lehigh Portland Cement Co. The Kansas properties will also serve gas at wholesale to the cities of Iola and Chanute, and at retail to the city of Erie.

San Angelo, Texas, a city of approximately 23,000 population, and several nearby towns will be served at retail. Gas will also be served for industrial purposes, the most important market of this character being a subsidiary of West Texas Utilities Co., which under a contract now in force is expected to take a minimum of 72,000,000 cubic feet per month.

The gas sales of the subsidiaries of American Natural Gas Corp., including those under contract of purchase, amounted in 1926 to over 34,000,000,000 cubic feet.

The properties include gas leaseholds on more than 215,000 acres and gas purchase contracts covering more than 125,000 acres of additional reserves and procure their gas from more than 950 producing gas wells. There are over 2,275 miles of transmission and distribution lines and 15 modern compressor stations.

It is estimated that the open flow capacity of the wells, from which the properties derive their gas, is in excess of 2,500,000,000 cubic feet per day. This gas supply has enabled the Oklahoma property to draw upon only a fraction (currently less than 3%) of the open flow capacity of the wells connected to its lines. In addition the properties have a call on gas reserves, comprising approximately 100,000 acres, owned by the Phillips Petroleum Co. in the Amarillo field in Texas.

CAPITAL STOCK

Authorized, 2,000,000 shares Common and 250,000 shares cumulative Pfd., all shares of no par value; outstanding Oct. 31, 1927, 651,200 shares Common and 50,000 shares $7 Series Convertible Pfd. In addiiton, 598,800 shares Common are reserved for delivery upon the exercise of stock purchase privilege of below described Debentures and stock purchase options, and for conversion of $7 cumulative Convertible Pfd.

Voting Trust—525,000 out of the 651,200 shares outstanding Common are held under a Voting Trust, expiring in 1932.

Preferred Stock Provisions—Preferred stock has preference for assets and dividends. The $7 Convertible Pfd. is entitled in liquidation to $110 per share and accrued dividends, before any distribution may be made to Common.

The authorized Pfd. stock may be issued in different series, but all authorized Pfd. stock, irrespective of dividend rates, redemption prices and amounts payable upon dissolution, shall constitute one class of stock and shall be of equal rank, preference and priority as to dividends and assets.

Additional Pfd. stock may not be issued unless the net consolidated income, as therein defined, for 12 consecutive calendar months within 15 calendar months next preceding the date of the additional issue is at least three times the annual dividend requirements on all Pfd. outstanding, including that to be issued. Without the consent of the holders of at least 2/3 of the $7 cumulative Convertible Pfd. stock, the Company may not: (a) authorize or issue any stock or class of stock having priority or preference over the Pfd. stock as to dividends or as to distribution of assets upon dissolution or liquidation; or (b) amend the provisions of the $7 cumulative Convertible Pfd. stock.

Holders of the Pfd. stock of all series are entitled to elect a majority of the Board of Directors if at any time dividends shall be in arrears and unpaid on the Pfd. stock for 4 successive quarterly periods, until all accrued dividends have been paid.

Callability—The $7 Series Convertible Pfd. stock is subject to call, in whole or in part, on any dividend date on 60 days' notice at $110 per share and accrued dividends.

Convertibility—The holders of each share of $7 Series Convertible Pfd. stock shall be entitled, subject to previous redemption, to convert such share into Common stock as follows: To and including Feb. 1, 1930, into 5 shares; thereafter, to and including Feb. 1, 1932, into 4 shares; thereafter, to and including Feb. 1, 1935, into 3 shares; thereafter, to and including Feb. 1, 1938, into 2 shares; thereafter, to and including Feb. 1, 1945, into 1 share. Any of such Pfd. which may be called for redemption will be convertible to and including the date fixed for redemption. Upon any conversion cash adjustment will be made of accrued dividends. The Certificate of Incorporation contains provisions designed to safeguard the interests of holders of $7 cumulative Convertible Pfd. in the event of the payment of dividends in Common stock, and also in the event of the issuance of Common stock, other than through existing stock purchase or conversion rights, for cash or property at less than the then existing price at which the conversion privilege of this Pfd. stock may be exercised, computing the Pfd. stock at $100 per share.

FUNDED DEBT

$10,000,000 6½% SINKING FUND GOLD DEBENTURES, SERIES DUE OCTOBER 1, 1942

Dated October 1, 1927.

Interest Payable April and October 1 in New York.

Denominations—Coupon in interchangeable denominations of $500 and $1,000; principal may be registered.

Trustee—Central Union Trust Co. of New York, N. Y.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $10,000,000 6½% Series due 1942.

No additional Debentures may be issued, except for refunding purposes, unless the net income of the Corporation, as defined in the Indenture, for 12 consecutive calendar months within the preceding 15 calendar months shall have been at least 3 times the annual interest charges upon all outstanding funded indebtedness of the Corporation, including the Debentures then proposed to be issued.

Callability—6½% Series due 1942 is subject to call in whole or in part, on any interest date upon 60 days' notice, at 105 and accrued interest to and including Oct. 1, 1941; thereafter at par and accrued interest.

Stock Purchase Privilege—The holder of each $1,000 Debenture will be entitled, subject to previous redemption of the Debenture, to purchase 10 shares of the Common stock of Corporation at the following prices: To and including Feb. 1, 1930, $20 per share; thereafter, to and including Feb. 1, 1931, $25 per share; thereafter, to and including Feb. 1, 1933, $35 per share; and thereafter, to and including Feb. 1, 1937, $50 per share. The holder of each $500 Debenture will have a proportionate purchase privilege at the same prices. Holders of Debentures called for redemption may exercise their stock purchase privilege until the date fixed for redemption. The Indenture contains provisions safeguarding the interests of Debenture holders in the event of the payment of dividends in Common stock, and also in the event of the issuance of Common stock, other than through existing stock purchase of conversion rights, for cash or property at less than the then existing price at which the stock purchase privilege of these Debentures may be exercised. The Indenture further provides that all cash received through the exercise of such stock purchase privilege shall be applied to the retirement of Debentures.

Sinking Fund—Indenture provides for fixed minimum payments to the Sinking Fund, payable in quarterly installments, beginning Jan. 1, 1928, in cash, or in Debentures at par, and continuing until the maturity of this issue. These fixed minimum payments to the Sinking Fund alone should retire 75% of the Debentures of this series by maturity. The Indenture further provides for additional payments to the Sinking Fund, payable in cash or Debentures at par, at semi-annual intervals beginning March 1, 1928, equal to a certain specified percentage of the consolidated net earnings of Corporation, as defined in the Indenture, for the periods specified therein.

Security—A direct obligation of Corporation, but not secured by Mortgage. Corporation covenants that it will not isssue any secured funded debt, as defined in the Indenture, unless all Debentures issued under the Indenture shall be secured ratably therewith, and will not create any unsecured funded debt, as defined in the Indenture, other than Debentures issued thereunder.

Tax Provisions—Corporation pays Normal Federal Income Tax up to 2%, and agrees to reimburse resident holders, upon proper application, for personal property and securities taxes of any state of the United States or of the District of Columbia, for not to exceed ½ of 1% of the principal amount and Massachusetts income tax not to exceed 6% of the interest thereon, all as further provided in the Indenture.

OKLAHOMA NATURAL GAS CORPORATION

(Controlled by American Natural Gas Corporation)

History—Incorporated in Maryland July 12, 1926 and in the latter part of that year acquired substantially all the assets of Oklahoma Natural Gas Co., incorporated in 1906 and dissolved Sept. 22, 1926 (see 1926 Public Utility Manual, page 636), Kingwood Pipeline Co., formed in 1924 (see 1926 Industrial Manual, page 3566), and Southern Gas Co., as well as almost all the capital stock of Okmulgee Gas Co., incorporated in 1907. On March 1, 1928, Corporation acquired, effective Dec. 1, 1927, the natural gas properties formerly owned by Oklahoma Gas and Electric Co. (see 1927 Manual, page 1355).

Upon acquisition of additional distributing properties under contract of purchase about Feb., 1928, the Corporation will own and operate the largest gas gathering, transmission and distribution system in Oklahoma, which state leads all others in the production of natural gas. The Corporation will also own and operate gas utility properties in Kansas and Texas. Among the larger cities served at retail by these properties are Oklahoma City, Tulsa, Muskogee, Shawnee, El Reno, Okmulgee, Sapulpa, Enid and Norman, Okla., and San Angelo, Tex. The population of the territory served is estimated to be in excess of 600,000. The total gas sales of the properties in 1927 exceeded 44,100,000,000 cubic feet, of which about 99% was distributed to domestic and industrial consumers through lines now owned or presently to be acquired.

Over 92% of the gas distributed by the properties is purchased under contracts from producers. It is estimated that the open flow capacity of the wells, from which the properties derive their gas, is in excess of 2,500,000,000 cubic feet per day. The enormous gas supply available for use has enabled the properties in Oklahoma to draw upon only a fraction (currently less than 3%) of the open flow capacity of the wells connected to their lines.

The properties include leaseholds on more than 215,000 acres and gas purchase contracts covering more than 125,000 acres of additional reserves. Gas is procured from more than 1,250 producing gas wells. The distribution lines include more than 1,510 miles of mains through which over 111,000 metered consumers are served. The transmission and distribution systems comprise over 3,400 miles of mains and also include 19 modern compressor stations with an installed capacity of 13,993 h.p.

CAPITAL STOCK

Authorized, 500,000 shares Common of no par value and $10,000,000 cumulative Pfd., par, $100; outstanding March 1, 1928, 406,508 shares Common, $1,400,000 7% Series Pfd. and $7,548,100 6½% Series Pfd. Over 98% of the Common stock is owned by American Natural Gas Corporation.

Preferred Stock Provisions—Has preference for assets and dividends over Common. In event of liquidation or dissolution the 7% Series Pfd. is entitled to $110 per share and dividends, and the 6½% Series Pfd. is entitled to $100 and accrued dividends per share, plus a premium of $5 per share if such liquidation be voluntary.

Holders of the 7% Series Pfd. have the same voting rights share per share as the Common stock. Holders of the 6½% Series Pfd. are entitled to vote share and share alike with Common holders if at any time dividends shall be in arrears and unpaid for 8 consecutive quarterly periods, and until all such dividends shall have been paid.

Authorized Pfd. stock may be issued in different series, having different dividend rates, redemption prices, amounts payable upon dissolution, and voting rights, but all such series shall be of equal rank, preference and priority as to dividends and assets.

Additional Pfd. stock may be issued only subject to the following restrictions: (1) The net earnings available for dividends on the Pfd., as defined in Articles supplementary and in the Certificate of Incorporation, for any 12 consecutive calendar months within the 15 calendar months preceding the date of such additional issue, shall have been at least 3 times the annual dividend requirements on all Pfd. outstanding and on that proposed to be issued; (2) the aggregate par value of Pfd. outstanding shall at no time exceed 50% of the amount by which the value of the properties of the Corporation as of Dec. 31, 1927, including the value of the properties under contract of purchase about that time, plus the cost of any new properties and/or additions, extensions and betterments to the properties of the Corporation and its subsidiaries, acquired or constructed subsequent to Dec. 31, 1927, or the fair value thereof, whichever shall be less, shall exceed the total outstanding funded indebtedness of the Corporation and its subsidiaries, all as more fully provided and set forth in said Articles supplementary.

The Articles supplementary to the Certificate of Incorporation further provide that without the consent of the holders of at least two-thirds of the 6½% Series Pfd., the Corporation may not: (1) Authorize or issue any stock or class of stock having priority or preference over any Pfd. stock as to dividends or as to distribution of assets upon dissolution or liquidation; or (2) amend the provisions of the 6½% Series Pfd. so as to affect adversely any of the preferences and other rights given to the holders thereof, except to increase the authorized number of shares of Pfd. and/or Common stock.

FUNDED DEBT

$12,620,000 FIRST MORTGAGE 6% GOLD BONDS, SERIES "A"; DUE JULY 1, 1946
$14,000,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "B"; DUE FEBRUARY 1, 1948

Dated, Series "A," July 1, 1926; Series "B," February 1, 1928.

Interest Payable January and July 1 on Series "A" and February and August 1 on Series "B" at The Seaboard National Bank of the City of New York, or The Colonial Trust Co., Pittsburgh, Pa.

Denominations—Coupon, $100 (Series "A" only), $500 and $1,000; principal may be registered. Smaller denominations of Series "A" interchangeable into bonds of $1,000 denomination on or before July 1, 1928, but not thereafter. The Series "B" denominations are interchangeable.

Trustee—The Seaboard National Bank of the City of New York.

Provisions of Issue—Authorized amount, unlimited; issued, $15,000,000 Series "A" and $14,000,000 Series "B," of which 2,380,000 Series "A" retired.

The Mortgage, as amended by Supplemental Indenture, dated Feb. 1, 1928, provides that additional bonds may be issued for not exceeding 60% of the cost or fair value, whichever may be less, of permanent additions (as defined in the amended Mortgage), acquired or constructed by Corporation, provided that for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of the application for such additional bonds, either: (1) Corporation's net earnings, as defined in the Mortgage, which requires deduction of sinking fund payments, have been at least twice the annual interest charges on all bonds outstanding under the Mortgage, and those then proposed to be issued; or (2) Corporation's net earnings, as defined in the Supplemental Indenture, which will not require deduction of sinking fund payments, have been at least two and one-half times such annual interest charges; whichever constitutes the greater restriction. Whenever all Series "A" bonds have been retired, additional bonds may be issued against permanent additions and may also be issued against the deposit of first mortgage bonds of subsidiaries on a basis of par for par, but only if such net earnings comply with the requirements of (2) above. Not more than 25% of the bonds at any time outstanding under the Mortgage, as amended, may be issued against first mortgage bonds of subsidiaries, and then only if the restrictions on the issuance of such subsidiary bonds are substantially equivalent to the restrictions on the issuance of additional bonds under the Mortgage, as amended.

Purpose of Issue—The proceeds from the sale of $14,000,000 Series "B" 5s, together with $7,500,000 6½% Pfd., were used for acquisition of certain properties, the greater part of which are additional distribution facilities, and for other corporate purposes.

Callability—Series "A" bonds are subject to call as a whole or in part at any time on 60 days' notice at the principal amount thereof and accrued interest plus a premium of 5% of such principal amount if the date fixed for redemption is on or before July 1, 1931, with successive reductions in said premium of ¼% during each year thereafter until maturity.

Series "B" bonds are subject to call in whole or in part, on any interest date, on 60 days' notice, to and including Feb. 1, 1933, at 105; thereafter, to and including Feb. 1, 1938, at 103; thereafter, to and including Feb. 1, 1943, at 102; and thereafter, to and including Aug. 1, 1947 at 101; plus accrued interest in each case.

Sinking Fund—The Corporation covenants to pay to the Trustee for interest and sinking fund requirements, the sum of $750,000 on July 1, 1927, and thereafter, aggregate payments of at least $1,200,000 annually, as long as any Series "A" bonds are outstanding. This sinking fund is designed to retire over 75% of this issue by maturity. The moneys thus paid to the Trustee are to be used in the payment of the semi-annual interest coupons of this issue and as a sinking fund to purchase Series "A" bonds at not exceeding the redemption price, or, if not so obtainable, to redeem these bonds through call by lot at the redemption price. All bonds so retired are to be cancelled.

Corporation covenants, as is provided in the Supplemental Indenture, to make quarterly payments to the Trustee in cash or in Series "A" or Series "B" bonds at par, beginning Feb. 1, 1929, as a sinking fund for the Series "B" bonds. Moneys in this fund may be used to purchase and redeem Series "A" or Series "B" bonds. This fund will be in addition to the sinking fund for the Series "A" bonds now provided for in the Mortgage. The operations of these sinking fund are calculated to retire, before their respective maturities, at least 68%, in the aggregate, of all Series "A" and Series "B" bonds now outstanding.

Security—Secured by a first mortgage on the entire fixed properties of the Corporation now owned or hereafter acquired. The depreciated reproduction value of the properties, as appraised by independent engineers, plus the actual cost of recently constructed properties, improvements and additions, is reported as over $52,900,000, as compared with $26,620,000 principal amount of First Mortgage bonds now outstanding. In the above valuation only about $6,400,000 has been included for the value of Corporation's immense gas holdings, consisting of gas acreage, leaseholds and valuable gas purchase contracts.

Tax Provisions—Corporation pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders of Series "A" bonds for certain income or personal property or securities taxes of certain states including California, Pennsylvania and Massachusetts, and also holders of Series "B" bonds for certain Minnesota, Pennsylvania, Connecticut and California taxes

not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Virginia and District of Columbia taxes and Michigan exemption tax not to exceed 5 mills, and Massachusetts Income tax not to exceed 6%.

Legal Opinion—Cotton & Franklin, and Wing & Russell, New York (for the bankers) for Series "A" bonds, and White & Case, New York, (for the bankers), and Larkin, Rathbone & Perry, New York, and Allen, Underwood & Smith, Tulsa, Okla., (for the Corporation), for Series "B" bonds.

Public Offering—In February, 1927, White, Weld & Co. and Blyth Witter & Co. offered $3,795,000 of these bonds at par and interest yielding 6%. $14,000,000 Series "B" 5s were first publicly offered in Feb., 1928 at 96¼ and interest, to yield over 5.30%, by G. L. Ohrstrom & Co., Inc., Halsey Stuart & Co., Inc., Graham, Parsons & Co., Blyth, Witter & Co., Coffin & Burr, Inc. and Shields & Co., Inc., New York, etc.

DEBENTURES REDEEMED

All the outstanding 6½% Convertible Sinking Fund Gold Debentures, due Sept. 1, 1941, were called for payment on Nov. 18, 1927 at 105 and interest at Bankers Trust Co., New York, Trustee.

UNITED GAS COMPANY

History—Incorp. May 23, 1928, in Del. Controls, through its operating subsidiaries, four complete and unified systems for the production, transmission and sale of natural gas to the principal population centers and industrial markets of eastern and southern Texas, and also in western Louisiana. Company owns over 59% of the outstanding Common stock of Houston Gulf Gas Company; over 50% of the outstanding Common stock of Dixie Gas and Utilities Company and over 93% of the outstanding Common stock of South Texas Gas Company (see statements appended); over 53% of the outstanding Common stock of Dixie Gulf Gas Company (see Industrial Volume). The subsidiaries serve directly or indirectly an estimated population in excess of 900,000 including the cities of Houston, San Antonio, Austin and Beaumont and surrounding territory.

The combined leases and gas purchase contracts owned or controlled by these subsidiary companies cover the gas rights on over 400,000 acres of land in Texas and Louisiana, the gas reserves being estimated as sufficient for present and contemplated requirements for a period of at least twenty years. The total length of the main trunk lines of the entire system is approximately 1,200 miles with over 1,100 miles of gathering and distributing lines. The properties are inter-connected at several strategic points, making the great natural gas reserves of the several western Louisiana and eastern and southern Texas gas fields ultimately available to any markets upon the inter-connected system. These properties constitute the principal natural gas holdings of the Moody-Seagraves interests.

CAPITAL STOCK

Authorized, 2,500,000 shares Common and 100,000 shares Pfd., both of no par value; outstanding, 975,000 shares Common and 25,000 shares $7 cumulative Dividend, Series "A" Pfd. In addition, 25,000 shares Common are held in the treasury for issuance against warrants.

Preferred Stock Provisions—The $7 cumulative Dividend, Series "A," Pfd. stock is entitled to cumulative dividends, when declared, at the rate of $7 per annum in preference over the Common stock and is entitled to $110 per share and accrued dividends in the event of voluntary or involuntary liquidation in preference over the Common. It is subject to redemption as a whole or in part at any time at $110 per share and accrued dividends, upon 30 days' notice. The remaining 75,000 shares of Pfd. stock, or any part thereof, may be issued either in the present series having the same dividend rates, dividend payment dates, redemption prices and other preferences, rights and qualifications, or, if not issued in the present series, may be issued in other series differing as to the rate of dividends thereon, as to the redemption price thereof, as to the amount per share which the holders shall be entitled to receive in case of voluntary liquidation, as to the provision for the conversion thereof into other shares of stock, or bonds, debentures, or other obligations of the Company, and as to other terms and provisions as provided in the Certificate of Incorporation. Except as otherwise required by law or by the Certificate of Incorporation, the entire voting power shall be vested in the Common stock, the Pfd. stock, $7 cumulative Dividend, Series "A," having no voting power unless dividends on the Series "A" stock shall be in arrears and unpaid for four quarterly periods, in which event the Series "A" stock shall have equal voting power with the Common stock, so long as such default shall continue.

Warrants—Each share of Pfd. stock, $7 cumulative Dividend, Series "A," carries a non-detachable warrant entitling the holder to receive without additional cost one share of the Company's Common stock, without par value, on June 1, 1929, or earlier at the option of the bankers.

Purpose of Issue—The proceeds from the sale of 25,000 shares of Pfd. stock were used in part payment for the securities of the Company's subsidiaries and for other corporate purposes.

Transfer Agent (Preferred)—Chatham Phenix National Bank and Trust Co., New York.

Registrar (Preferred)—Guaranty Trust Company of New York.

Legal Opinion—White & Case (for the Bankers), and Vinson, Elkins, Sweeton & Weems, Houston, Texas (for the Company).

DIXIE GAS AND UTILITIES COMPANY

(Controlled by United Gas Company)

History—Incorporated May 19, 1927 in Delaware as a holding company. Company has acquired all the outstanding bonds and capital stock of the Marshall Gas Co., owning the gas distributing property in Marshall, Texas, and Cedar Grove, La., as well as a 31-mile pipe line extending from Marshall to Mooringsport, La.; and all of the capital stock of the State Line Oil & Gas Co., controlling extensive gas lands in the Waskom field from which it supplies in part the gas requirements of the city of Shreveport, La. In Aug., 1927, Company acquired the Commercial Natural Gas Co. which owns a 64-mile pipe line leading from the Waskom field.

The Company, through its subsidiaries, serves directly the domestic requirements of the following towns: Beaumont, Scottsville, Jonesville, Hallsville, Marshall, Henderson, Jacksonville, Rusk, Kilgore, Orange, Carthage, Garrison, Nacogdoches, Timpson and Livingston, Texas, and Cedar Grove, La. In addition the Company sells gas at wholesale for distribution in Palestine, Longview and Tyler, Texas and Shreveport, La. The total population of the communities served upon completion of construction program is approximately 195,000.

Gas Sales Contracts—Dixie Gulf Gas Company (see Industrial Manual) controlled by interests closely identified with the Company, has completed the construction of a main trunk pipe line extending from the Shreveport area to Houston and Port Arthur, Texas. In addition to the long term contract for the purchase of gas from the Dixie Gulf Gas Company, which affords the Company and its subsidiaries the opportunity of purchasing gas for distribution, the Company also will sell to the Dixie Gulf Gas Company large quantities of gas from its acreage in the Shreveport area, and a contract will be entered into with the Moody-Seagraves Gas Company, Inc., for the sale to it of gas from its Richland Parish holdings. This last mentioned contract will be unconditionally guaranteed by the Moody-Seagraves Company, which owns all of the capital stock of the Moody-Seagraves Gas Company, Inc. It is estimated that sales from these two sources alone will amount to or exceed thirty million cubic feet of gas per day.

CAPITAL STOCK

Authorized, 500,000 shares Common of no par value and $5,000,000 7% cumulative Pfd., par $100; outstanding, 150,000 shares Common and $1,500,000 Pfd.

Preferred Stock Provisions—Pfd. stock has preference for assets and cumulative dividends at the rate of 7% per annum, and in the event of liquidation, either voluntary, or involuntary, it is entitled to $100 per share and accrued dividends before any distribution may be made on the Common stock. No stock having priority over this stock or parity with it (other than the Pfd. stock now authorized) may be issued without the consent of two-thirds of the shares of the Pfd. stock then outstanding, nor can the Pfd. stock provisions of the Certificate of Incorporation of the Corporation as amended, be amended so as to adversely effect any of the preferences and other rights of the Pfd. stock above mentioned two-thirds consent. Pfd. stock has full voting rights.

Callability—Pfd. stock is subject to call on any quarterly dividend date as a whole or in part on 30 days' notice at $110 per share and accrued dividends.

Preferred Stock Reserve Fund—The Certificate of Incorporation, as amended, provides that beginning April 1, 1928, a sum equal to 25% of the consolidated net income of the Corporation and its subsidiaries after the payment of Federal taxes and dividends on the Pfd. stock of this company and upon Pfd. stock of subsidiary companies not owned by Dixie Gas and Utilities Co., but before depreciation and depletion, will be set aside annually for (a) investment in permanent additions to the properties of the Corporation or its subsidiaries as defined in the Certificate of Incorporation as amended, or (b) if not so expended within six months this sum shall be used for the retirement of this Pfd. stock.

Purpose of Issue—Proceeds from the sale of the Pfd. stock were used in part to complete the purchase of all of the outstanding stock of the State Line Oil & Gas Co., all of the outstanding stock and bonds of the Marshall Gas Co., 31 miles of pipe line extending from Marshall, Texas, to Mooringsport, La., for the acquisition of additional properties and extensions, and for cash working capital.

Transfer Agents—The Bank of America, New York; Commonwealth Trust Co., Pittsburgh, and Old Colony Trust Co., Boston.

Registrars—Chatham Phenix National Bank & Trust Co., New York and The Bank of Pittsburgh, N. A., Pittsburgh.

Legal Opinion—Beekman, Bogue, Clark & Griscom, New York (for the Bankers).

Original Offering—First publicly offered ($1,500,000 Pfd.) in June, 1927, at $100 per share, each share of Pfd. carrying with it two shares of no par Common, by Goddard & Co., Moore, Leonard & Lynch, New York, Hutchison & Co., Providence and Hale, Waters & Co., Boston.

Annual Meeting—Third Wednesday in April at Houston, Texas.

Listed—Both classes are listed on the Pittsburgh Stock Exchange. Common is also listed on the Boston Stock Exchange.

Price Range (1927)—Preferred: High, 85; low, 80. Common: High, 8; low, 7½.

Dividends—Initial quarterly dividend was paid on the Pfd. Oct. 1, 1927; payments, regularly thereafter, J, A, J & O 1.

FUNDED DEBT

(1)

$3,000,000 TEN-YEAR SECURED 6½% SINKING FUND GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1938

Dated February 1, 1928.

Stock Purchase Warrants—Each Series "A" bond carries a non-detachable warrant entitling the holder to purchase shares of the no par value Common

stock of the Company at the rate of ten shares for each $1,000 principal amount of bonds, at $11.00 per share at any time on or before Feb. 1, 1929; thereafter and at any time on or before Feb. 1, 1931, at $12.50 per share; thereafter and at any time on or before Feb. 1, 1933, at $14 per share; and thereafter and at any time on or before Feb. 1, 1938, at $15 per share. Provision is made in the Trust Indenture for the appropriate adjustment of the purchase price of the Common stock covered by the warrants and/or of the amount of shares or assets purchasable in the event of stock changes, consolidations, etc. The warrants will be non-detachable during the life of the bonds, except upon exercise of the warrant, or upon the redemption of the bond to which the warrant is attached. Any money received from the purchase of stock under these warrants shall be used for retiring Series "A" bonds, in addition to the regular sinking fund.

Interest Payable February and August 1.

Denominations—Coupon bonds in interchangeable denominations of $500 and $1,000; principal may be registered.

Trustee—Chatham Phenix National Bank & Trust Co., New York.

Provisions of Issue—Authorized, $25,000,000; issued, Series "A," $3,000,000. The Trust Indenture provides that the bonds may be issued in series, bearing such dates, interest rates, redemption provisions, sinking fund provisions and other provisions as the Board of Directors from time to time may determine. Additional bonds of Series "A" and of other series may be issued for the acquisition of securities of present and/or new subsidiary companies and/or properties (to be more fully defined and provided in the Trust Indenture) provided that net earnings (to be defined in the Trust Indenture), after depreciation and depletion, for twelve consecutive months out of the fifteen months next preceding the application for additional bonds shall have been equal to at least two times the aggregate annual interest charges of all bonds outstanding under the Trust Indenture, including the bonds then applied for. Additional bonds may be issued in accordance with the terms of the Trust Indenture to refund bonds issued under the Trust Indenture.

Purpose of Issue—The proceeds from the sale of these bonds, together with the proceeds from $1,500,000 Three-Year 6% Convertible Gold Notes and 50,000 shares of no par value Common stock, were used to reimburse the Company and its wholly owned subsidiary companies for, or to provide for, the cost of properties recently acquired, to defray the cost of construction now in progress, and to provide additional working capital.

Callability—Subject to call at any time as a whole, or from time to time in part, on not less than 30 days' notice at 105 and accrued interest on or before Feb. 1, 1929, the premium decreasing ½ of 1% for each 12 months or fraction thereof elapsed thereafter.

Sinking Fund—The Series "A" bonds will be entitled to the benefit of a sinking fund payable Feb. 1, 1929, and quarterly thereafter, calculated to retire a minimum of 50% of the total amount of Series "A" bonds prior to maturity. The sinking fund payments may be made either in cash or in Series "A" bonds. In addition, all sums received by the Company from the exercise of Stock Purchase Warrants attached to the Series "A" bonds will be used to purchase Series "A" bonds for the sinking fund. All Series "A" bonds acquired for the sinking fund will be cancelled.

Security—Bonds are a direct obligation of the Company and are secured by deposit and pledge with the Corporate Trustee, under the Trust Indenture, of all outstanding bonds and stock (less only directors' qualifying shares) of the present subsidiary companies. The principal amount of these pledged bonds exceeds the principal amount of the bonds issued.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. The Company will reimburse the holders of these bonds, upon timely application, for certain state taxes, including the Connecticut and Pennsylvania personal property taxes not exceeding four mills per annum, Maryland securities tax not exceeding 4½ mills per annum, Michigan and California personal property taxes not exceeding 5 mills per annum, and the Massachusetts Income tax on the interest not exceeding 6% per annum.

Legal Opinion—Beekman, Bogue, Clark & Griscom, New York (for the Bankers) and Vinson, Elkins, Sweeton & Weems, Houston (for the Company).

Original Offering—First publicly offered ($3,000,000) in Feb., 1928, at 99½ and interest to yield over 6.55% by Goddard & Co., Inc., Moore, Leonard & Lynch, Hale, Waters & Co., Frederick Peirce & Co., New York, etc., and Hutchison & Co., Providence.

(2)

HOUSTON GULF GAS COMPANY

(Controlled by United Gas Company)

History—Incorporated July 31, 1925, in Delaware. The Houston Gulf Gas Company's property is located in Southern and Southwestern Texas. It has approximately 75,000 acres of gas lands under lease on the Refugio and White Point gas fields adjacent to the Company's pipeline. Its principal business is the production, transportation and purchase and sale of natural gas. The Houston Gas and Fuel Company distributes natural gas in Houston, Texas. The Southern Gas Company supplies natural gas under contract to San Antonio Public Service Company for distribution in the City of San Antonio, Texas, and distributes natural gas to several large customers outside the limits of San Antonio. Southern Gas Utilities, Inc., distributes natural gas in New Braunfels, Seguin, Hondo, Diltanis, and other communities west and northeast of San Antonio, and supplies natural gas under contract to Rio Grande Valley Gas Company for distribution in Brownsville, San Benito and other communities along the lower Rio Grande Valley. The Western Gas and Fuel Company supplies natural gas under contract to the Peoples Utility Texas Corporation for distribution in Austin, Texas, and natural gas directly for boiler fuel to the Deepwater generating station of Houston Lighting and Power Company. The Houston Gulf Pipe Line Company owns a gas transmission line extending between Refugio and White Point gas fields, connecting with the main transmission line of the Houston Gulf Gas Company at the Refugio field.

Controlled Companies—Houston Gulf Gas Company will own, upon completion of its financing, the entire Common stock of Houston Gas and Fuel Company, all the outstanding stock of Houston Gulf Pipe Line Company and over 93% of the Common stock of Southern Gas Company, which in turn owns over 83% of the Common stock of Southern Gas Utilities, Inc., and 100% of the stock of Western Gas and Fuel Company. It also owns or controls the following subsidiary companies: Robstown Gas Company, Robstown Pipe Line Company, Sinton Gas Company, Gulf Natural Gas Company, Refugio Gas Company and Seagraves Gas Company.

Property—The physical plant and equipment of the above companies include the following total amounts of major construction: Gathering lines, 70.73 miles; main lines, 620.18 miles; distributing lines, 652.72 miles; compressor stations, 5. The gas reserves and production controlled by the companies are summarized as follows: Acres under lease (operated, 20.074; unoperated, 259.136), 288.210; acres controlled by contract (operated, 1,857; unoperated, 19.370), 1,876.370; number of wells (owned, 141; controlled, 91), 232.

The gas reserves controlled by the Houston Gulf Gas Company lie in the Refugio, White Point, Saxett, Markham and Edna gas fields of the Gulf coast of Texas. Those controlled by the Southern Gas Company and its affiliated companies are situated in the following fields of Texas: Gas Ridge, Adams of Medina County, Carolina, Texas, Cole, Bruni Station, Albercas, Kitselman, St. Albans, East Jennings and Simmons, a total of fourteen separate gas fields.

The total reserves controlled by the Houston Gulf Gas Company in the gulf gas fields through leaseholds and gas purchase contracts are estimated to be 173,837,000,000 cubic feet; for the Southern Gas Companies and affiliated companies the total reserves have been placed at 102,108,000,000 cubic feet; making an estimated total of gas reserves for all of the properties of more than 275 billion cubic feet. In addition to gas purchase contracts covering acreage in the producing fields of these companies, and as above enumerated, the Houston Gulf Gas Company has a contract for the purchase of a substantial quantity of gas from Dixie Gulf Gas Company.

CAPITAL STOCK

Authorized, 600,000 Common shares of no par value, $1,000,000 7% cumulative Pfd., Series "A" and $1,500,000 7% cumulative Pfd., Series "B"; outstanding, 449,102½ Common shares, $1,000,000 7% Pfd., Series "A" and $1,500,000 7% Pfd., Series "B"; par of Pfd., $100. Over 59% of the Common stock is owned by United Gas Company.

Preferred Stock Provisions—Preferred stock has preference for assets and dividends, being entitled to payment at $100 per share and all accrued dividends before any disbursement to Common shares in case of liquidation or dissolution, voluntary or involuntary. It is subject to redemption at 107 and accrued dividends on any dividend date upon three weeks' notice. It is non-voting except in the event that six consecutive quarterly dividend payments thereon are in arrears; in which event so long as these dividends and

current dividends remain in arrears this stock is entitled to vote in the same manner as the Common stock. Beginning Jan. 1, 1931, and each three months thereafter the Company will set aside $50,000 ($200,000 per annum) for the purchase or call of its Series "A" Pfd. stock. This sinking fund will be sufficient to retire approximately all this Pfd. stock by Jan. 1, 1936.

FUNDED DEBT

(1)

$11,000,000 FIRST MORTGAGE AND COLLATERAL 6% GOLD BONDS, SERIES "A"; DUE APRIL 1, 1943

Dated April 1, 1928.

Interest Payable April and October 1, at Chatham Phenix National Bank & Trust Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Chatham Phenix National Bank & Trust Co., New York.

Provisions of Issue—Open mortgage; outstanding, $11,000,000 Series "A" 6s. The Indenture provides among other things that:

Additional bonds may be issued as Series "A" or as other series bearing such rates of interest, maturing on such dates, redeemable on such terms and containing such other rights, limitations and provisions permitted by the Indenture as the Board of Directors of the Company may determine prior to the issuance thereof.

Except for the refunding of bonds of the Company or of a subsidiary company, additional bonds under the Indenture may be issued up to 70% of the net tangible asset value, as defined in the Indenture, of securities of a subsidiary company pledged under the Indenture, and to the extent of 70% of the cost or fair value, whichever may be less, of property additions and improvements of the Company or a subsidiary company represented by securities pledged under the Indenture, and against the deposit of cash, provided net consolidated earnings, before depreciation and depletion, applicable to bond interest for 12 out of the 15 months immediately preceding, are at least twice the annual interest charges on all bonds issued and outstanding under this Indenture, including those proposed to be issued and bonds of subsidiary companies, all as defined in the Indenture.

Certain provisions of the Indenture or any supplement thereto may be modified in any part with the written assent of the holders of 80% in aggregate principal amount of bonds issue under this Indenture, not including any bonds owned or controlled by the Company, provided that nothing shall permit the extension of the maturity of any bonds or the reduction in rate of interest thereon or any other modification in the terms of payment of such interest without the consent of the holder thereof.

Purpose of Issue—Proceeds from the sale of these bonds, together with $8,000,000 Debentures and $1,500,000 Pfd. stock were used to retire the Company's then outstanding funded debt; to acquire the Common stocks of Houston Gas and Fuel Company and Southern Gas Company, and the properties of Houston Gulf Pipe Line Company; for working capital and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date at the option of the Company on not less than 30 days' published notice at 105 and accrued interest on or before April 1, 1933, the premium decreasing ½ of 1% for each twelve months or fraction thereof elapsed thereafter.

Sinking Fund—The Indenture provides for quarterly payments to the Sinking Fund for the retirement of Series "A" bonds. The first payment will be made Feb. 1, 1930, at the annual rate of $200,000 and in amounts gradually increasing to $800,000 for the year commencing Feb. 1, 1942. Such payments shall be used to retire Series "A" bonds by purchase in the open market at not to exceed the prevailing redemption price or by redemption of bonds of such series. In addition all money received by the Company from the exercise of Stock Purchase Privilege of its 6½% Gold Debentures due 1943 shall be paid into the Sinking Fund of Series "A" bonds. The proportion of the sinking fund attributable to the Company's 6½% Gold Debentures due 1943, which shall be released by the conversion of any Debenture into Pfd. stock, shall also be paid into the Sinking Fund of Series "A" bonds.

Security—Secured by a first mortgage on the fixed assets of the Company comprising 219 miles of trunk lines, 80 miles of gathering and distributing lines, gas rights on over 75,000 acres of land in 8 separate gas fields (subject to any farm mortgages and other liens) and 3 compressing stations of 5,760 h.p. capacity, all of which represent a value not less than $16,000,000. They are further secured through deposit with the Trustee of all the Common stock of Houston Gas and Fuel Company and over 93% of the present outstanding Common stock of Southern Gas Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund upon proper application all personal property and securities taxes in any State or in the District of Columbia, not exceeding in any year six mills for each one dollar principal amount, and all income taxes of any such State or such District not exceeding in any year 6% of the income derived from the bonds.

Legal Opinion—White & Case, New York (for the Bankers), and Vinson, Elkins, Sweeton & Weems, Houston, Texas (for the Company).

Original Offering—First publicly offered ($11,000,000) in April, 1928, at 99½ and interest, yielding approximately 6.05%, by Blair & Co., Inc., G. E. Barrett & Co., Inc., and Estabrook & Co., New York

(2)

$8,000,000 6½% SINKING FUND GOLD DEBENTURES; DUE APRIL 1, 1943

Dated April 1, 1928.

Interest Payable April and October 1, at Guaranty Trust Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Guaranty Trust Co., New York.

Provisions of Issue—Authorized and issued, $8,000,000. The Indenture provides among other things that:

The Company shall issue no secured funded debt as defined in the Indenture (other than its First Mortgage and Collateral Gold bonds) unless the mortgage or pledge whereunder the same are issued shall by its terms secure in a like manner and to the same ratable extent all Debentures at the time outstanding under the Indenture.

Certain provisions of the Indenture or any supplement thereto may be modified in any part with the written assent of the holders of 80% in aggregate principal amount of Debentures issued under this Indenture, not including any Debentures owned or controlled by the Company, provided that nothing shall permit the extension of the mautrity of any Debentures or the reduction in rate of interest thereon or any other modification in the terms of payment of such interest without the consent of the holder thereof.

Purpose of Issue—Proceeds from the sale of these Debentures, together with $11,000,000 bonds and $1,500,000 Pfd. stock, were used to retire the Company's then outstanding funded debt; to acquire the Common stocks, above referred to, of Houston Gas and Fuel Company and Southern Gas Company, and the properties of Houston Gulf Pipe Line Company; for working capital and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date at the option of the Company on not less than 30 days' published notice at 105 and accrued interest on or before April 1, 1933, the premium decreasing ½ of 1% for each 12 months or fraction thereof elapsed thereafter.

Sinking Fund—The Indenture provides for quarterly payments to the Sinking Fund for the retirement of these Debentures. The first payment will be made Feb. 1, 1930, at the annual rate of $200,000 and in amounts increasing to $800,000 for the year commencing Feb. 1, 1942. Payments shall be used to retire Debentures by purchase in the open market at not to exceed the prevailing redemption price or by redemption of Debentures. It is estimated that the operation of the Sinking Fund will retire all of these Debentures by maturity. Upon conversion of any of the Debentures that part of the sinking fund payments proportional to the amount of Debentures converted into Pfd. stock will be paid into the sinking fund provided for the Company's First Mortgage and Collateral 6% Gold bonds, Series "A."

Stock Purchase Privilege and Conversion—Each $1,000 Debenture ($500 denomination in proportion) carries a non-detachable warrant entitling the holder to purchase prior to April 1, 1930, 5 shares of the Common stock of the Company at $17.50 per share; or thereafter prior to April 1, 1932, at $20.00 per share; or thereafter prior to April 1, 1934, at $25.00 per share; or thereafter prior to April 1, 1936, at $30.00 per share; or thereafter prior to April 1, 1938, at $35.00 per share. In the event that the Debentures are called, the stock purchase privilege may be exercised prior to April 1 or October 1 next following the redemption date.

All money received by the Company from the exercise of the Stock Purchase Privilege of these Debentures shall be paid into the sinking fund of the Company's First Mortgage and Collateral 6% Gold Bonds, Series "A."

These Debentures are convertible at par into the Company's 7% cumulative Pfd. stock, Series "B", after January 1, 1931 (unless called for prior redemption) and the Company has covenanted to create a sufficient amount of such Preferred stock for each purpose prior to that date.

Security—A direct obligation of Company, but not secured by mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund upon proper application all personal property and securities taxes in any State or in the District of Columbia, not exceeding in any year six mills for each one dollar principal amount, and all income taxes of any such State or such District not exceeding in any year 6% of the income derived from the Debentures.

Legal Opinion—White & Case, New York (for the Bankers), and Vinson, Elkins, Sweeton & Weens, Houston, Texas (for the Company).

Original Offering—First publicly offered ($8,000,000) in April, 1928, at 99 and interest (with stock purchase privilege), to yield approximately 6.60%, by Blair & Co., Inc., G. E. Barrett & Co., Inc., and Estabrook & Co., New York.

BOND AND NOTE REDEMPTION

All outstanding First Mortgage 6½% Sinking Fund Gold bonds, due Jan. 1, 1931, have been called for redemption on July 1, 1928, at 103 and interest at Chatham Phenix National Bank & Trust Co., New York, Trustee.

All the outstanding 2-Year 6% Secured Gold notes, due April 1, 1929 have been called for redemption on Oct. 1, 1928 at par and interest at Guaranty Trust Co. of New York.

FUNDED DEBT

$2,000,000 FIRST MORTGAGE & COLLATERAL 6½% GOLD BONDS, SERIES "A"; DUE MARCH 1, 1938

Dated March 1, 1928.

Interest Payable March and September 1 at Chatham Phenix National Bank & Trust Co., New York.

Stock Purchase Warrants—A detachable warrant with each $1,000 bond ($500 denomination in proportion) entitles the holder thereof to purchase ten shares of the Company's Common stock, without par value at any time on or before Sept. 1, 1929, at $5 per share; thereafter and at any time on or before March 1, 1931 at $15 per share; thereafter and at any time on or before March 1, 1933 at $25 per share; and thereafter and at any time on or before March 1, 1938 at $40 per share. Warrants may be exercised until maturity date, unless the entire bond issue is previously redeemed, in which case warrants may be exercised until March 1 or Sept. 1 next following the redemption date. It will be provided that all cash received by the Company through the exercise of the warrants shall be applied to the retirement of these bonds so long as any thereof shall remain outstanding.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Chatham Phenix National Bank & Trust Co., New York.

Provisions of Issue—Authorized, $12,000,000; issued, Series "A," $2,000,000. The Indenture provides that bonds may be issued in series bearing such dates, interest rates, redemption, sinking fund and other provisions, as the Board of Directors may from time to time determine. In accordance with the terms of the Indenture an additional $1,000,000 principal amount of Series "A" bonds may be issued, provided that net earnings for the first year thereafter of complete operation (to be defined in the Indenture), as estimated by Ford, Bacon & Davis, Inc., Engineers, or other engineers satisfactory to the trustee will be equal to at least three times the aggregate annual interest charges of all bonds outstanding under the Indenture, including the bonds then applied for. It is contemplated that these additional bonds will be reserved for the acquisition of securities of new subsidiary companies and for other corporate purposes under the present program. Additional bonds may be issued in accordance with the terms of the Indenture to refund bonds of any other series previously issued under this Indenture and (with the above earnings restrictions) for not exceeding 75% of the cost or fair value, whichever is less, or additional properties, extensions, improvements or betterments, or for 75% of the cost or fair value, whichever is less, of additional securities of any present or future subsidiary company, as defined in the Indenture, to be pledged under the Indenture and/or of additional properties, extensions, improvements or betterments of such subsidiary company evidenced by bonds or evidences of indebtedness pledged under the Indenture.

Purpose of Issue—Proceeds were used in part for the acquisition of properties, extension of pipe lines, construction of cracking plant, for working capital and other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date on 30 days' notice at 105 and interest, if redeemed, on or before March 1, 1933, at 102½ and interest, if redeemed thereafter. Under the terms of the Indenture securing this issue, the Company agrees to deposit monthly with the trustee, beginning April 25, 1930, 25% of its net earnings for the preceding month available after deducting operating expenses (not including depletion or depreciation), taxes, interest charges and dividends on the Pfd. stock, which money is to be used for purchasing and cancelling outstanding bonds tendered to the trustee at or below the redemption price or for calling for redemption bonds selected by lot from all bonds outstanding at the redemption price. In addition thereto the Company will agree to deposit with the trustee, beginning Sept. 1, 1930, and on or before the first day of each March and Sept., thereafter, a fixed sum of $75,000, to be used for purchasing and cancelling bonds tendered to the trustee at or below the redemption price or for calling for redemption bonds selected by lot from all bonds outstanding at the redemption price.

Security—Secured by a first mortgage on all of the fixed physical property of the company, and by deposit with the Trustee of all of the first mortgage bonds and capital stocks, except directors' qualifying shares, of the subsidiary companies owning the distributing systems, wells, leases, purchase and sales contracts, etc.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. All personal property taxes of any state or of the District of Columbia, not exceeding in any year 6 mills for each of one dollar principal amount, and all income taxes of any such State or such District not exceeding in any year 6% of the income derived from the bonds, refunded upon timely and appropriate application.

Legal Opinion—White & Case (for the Bankers) and Vinson, Elkins, Sweeton & Weems, Houston, Tex. (for the Company).

ATLANTIC PUBLIC SERVICE CORPORATION

(Controlled by Atlantic Public Utilities, Inc.)

History—Incorporated January 30, 1928 in Delaware with a perpetual charter, to operate public utility properties through subsidiaries. The following comprise, among others, the subsidiary companies controlled as of March 1, 1928:

Ohio Northern Public Service Company
Indiana Light & Power Company
Southern Public Service Company
Shenandoah River Power Company
Potomac Valley Power Company
Caribou Water, Light & Power Company
The City Water Co., Bowling Green, O.
Millbury Water Company
Mystic Valley Water Company
Grafton Water Company
Stockton Springs Water Company
Salisbury Water Company
Hampton Water Works Company

The subsidiaries furnish electric light and power or water service to 49 communities in Connecticut, Maine, Massachusetts, New Hampshire, Indiana, Ohio, Virginia and West Virginia, and ice service to the territory extending from Roanoke, Va., through the Piedmont section of North Carolina and South Carolina and into Georgia.

The utility properties serve a population estimated to exceed 180,000. Electric light and power service is furnished to some 28 communities centered around and including Caribou, Me.; the Shenandoah Valley territory in northern Virginia extending some 50 miles between Winchester and Harrisonburg; the Potomac Valley in West Virginia; Bowling Green and Deshler, O.; and Brookville, Ind. Water service is provided in and around 23 communities in New England, including Salisbury, Grafton and Millbury, Mass.; Hampton, N. H.; Caribou, Presque Isle, Sangerville, Mars Hill, Blaine, Guilford and Stockton Springs, Me., and Mystic and Stonington, Conn.; water service is also provided in Bowling Green, O. The Piedmont district, which is served by the ice properties, is a rapidly growing industrial section which affords an excellent opportunity for the further development and expansion of the business.

The electric light and power properties include electric generating stations supplying current through 650

miles of high tension transmission lines which serve more than 11,000 customers. During 1927 the output of electrical energy was approximately 8,000,000 k.w.h., which included about 1,200,000 k.w.h. of power purchased under favorable contracts. The water service system, which serves 7,829 customers, comprises storage reservoirs having 71,000,000 gallons capacity and 157 miles of mains. The ice plants have a manufacturing capacity of 1,600 tons daily. Approximately 63% of the Corporation's total net income is derived from electric light and power and water service.

Management—Corporation is managed by Chase & Gilbert, Inc., Boston, under the supervision of the Board of Directors.

CAPITAL STOCK

Authorized, 300,000 shares Common, 235,000 shares $7 Dividend cumulative Pfd. and 15,000 shares Second Pfd., all shares of no par value; outstanding, 300,000 shares Common, 15,000 shares $7 Dividend Pfd. and 15,000 shares Second Pfd. Stock control held by Atlantic Public Utilities, Inc.

Transfer Agent (Pfd.)—Seaboard National Bank, New York.

Annual Meeting—Second Tuesday in March.

Dividends—Initial dividend on $7 Pfd. paid May 1, 1928 at Seaboard National Bank, New York.

FUNDED DEBT

(1)

$4,650,000 FIRST LIEN AND SECURED 5½% GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1953

Dated February 1, 1928.

Interest Payable February and August 1 in New York, Chicago and Boston.

Denominations—Coupon, $500 and $1,000, interchangeable; $1,000 bonds registerable as to principal.

Trustee—State Street Trust Co., Boston.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $4,650,000 Series "A" 5½s. Proceeds of these bonds and of certain securities junior thereto were applied toward the acquisition, retirement or refunding of subsidiary stocks and securities, and other corporate purposes.

Additional bonds of Series "A," and additional bonds in one or more other series, with interest rates, maturity dates, redemption provisions and other terms and conditions to be determined by directors as each such other series is created, may be issued up to 75% of cost or value, whichever is less (a) of after acquired subsidiaries, or (b) of additions, acquisitions and betterments to physical operating properties, deduction being made in both cases for unpledged stocks and securities if any, provided, however, that consolidated net earnings (as defined in Indenture) for a period of 12 months out of the preceding 15 months shall equal at least twice annual interest charges on all bonds outstanding and those proposed to be issued, or (c) for refunding in like principal amount bonds of other series and bonds outstanding against properties hereafter acquired (but not to exceed 75% of cost or value, whichever is lower, of such properties). Additional bonds may also be issued up to 75% of cost of additional voting stocks of present electric light and power and water subsidiaries.

Callability—Series "A" 5½s are subject to call as a whole or in part, on 60 days' notice to and including Aug. 1, 1933 at 105 and interest, premium thereafter decreasing ¼ of 1% for each 12 months, or fraction thereof.

Sinking Fund—None provided.

Security—First Lien and Secured Gold bonds are secured by deposit with Trustee of all outstanding bonds, notes and other securities (not including current obligations) and capital stock (not including certain minority interests) of subsidiary companies operating, electric light and power and water properties, except certain securities and minority stocks for acquisition of title to which cash has been deposited with Trustee. These bonds are further secured by pledge of all Common stock of the Southern Public Service Co., which with its subsidiaries, controls the ice properties.

The Trust Indenture provides that no securities (except current obligations and stock to which minority stockholders, if any, may be entitled) shall be sold or disposed of by any subsidiary electric light and power or water company for any purpose whatsoever unless same shall be acquired forthwith by the Atlantic Public Service Corp., or by a subsidiary thereof, and pledged with the Trustee as security for these bonds. The Trust Indenture also provides that deposited capital stock, bonds, notes or other securities may be sold for the fair value established by competent authorities, provided the proceeds are deposited with the Trustee and all such proceeds used to acquire, under the restrictions of the Trust Indenture, other capital stock, bonds, notes or securities or to retire First Lien and Secured bonds.

Maintenance and Improvement Fund—There shall be set aside in each calendar year as a reserve for maintenance and depreciation, a sum equal to 10% of gross income derived from water, 12½% of gross income derived from the sale of electric light and power and 50 cents per ton on each ton of ice sold. After providing for maintenance, the balance of this fund shall be devoted to replacements, acquisitions or additions to property which shall not be made the basis of issue of additional bonds, or to the retirement of bonds issued under this Indenture or subsidiary securities outstanding in the hands of the public.

Tax Provisions—Corporation pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders of these bonds, upon proper application, for the Pennsylvania, Vermont and Connecticut 4 mills taxes, the Maryland 4½ mills tax, the District of Columbia 5 mills tax and the Massachusetts income tax on the interest not exceeding 6% of such interest per annum.

Legal Opinion—Ropes, Gray, Boyden & Perkins, Boston, (for the bankers), and Peabody, Brown, Rowley & Storey, Boston (for the Corporation).

Original Offering—First publicly offered ($4,650,000 Series "A" 5½s) in March, 1928, at 97½ and interest to yield over 5.68%, by Spencer Trask & Co., H. M. Byllesby & Co., Inc., New York, etc., and Emery, Peck & Rockwood Co., Chicago.

(2)

$2,000,000 15-YEAR 6% GOLD DEBENTURES; DUE FEBRUARY 1, 1943

Dated February 1, 1928.

Interest Payable February and August 1 in New York, Boston and Chicago.

SOUTHERN PUBLIC SERVICE COMPANY

(Controlled by Atlantic Public Service Corp.)

History—Incorporated Jan. 21, 1928 and acquired the business and properties of companies engaged in the manufacture and distribution of ice in Roanoke, Va., and vicinity, and Greensboro and Gastonia, N. C. Owns over 95% of the stock of the Carolina-Georgia Service Co. (see appended statement), doing a similar business in and around 18 communities in South Carolina and Georgia, including the cities of Greenville, Anderson and Aiken, S. C., and Augusta, Ga. Additional communities served are Greenwood, Laurens, Abbeville, Clinton, Honeapath, Westminster, Belton, Seneca, McCormick and Ninety-Six, S. C.; Gainesville, Cornelia, Toccoa and Lavonia, Ga. The permanent population of the territory served by the Company and it subsidiaries is about 500,000.

Company and its subsidiares own and operate 27 ice manufacturing plants, equipped with modern type of ice-making machinery and having daily capacity of over 1,400 tons. Company distributes largely through its own delivery system, equipped with wagons and motor equipment.

It is the intention of the management to acquire hydro-electric and other public utility properties in the South and toward this end the acquisition of two electric light and power properties was underway in Feb., 1928.

CAPITAL STOCK

Outstanding, 25,000 shares Common and 10,000 shares $7 cumulative Pfd., both of no par value. All owned by Atlantic Public Service Corp.

FUNDED DEBT

(1)

$1,150,000 FIRST MORTGAGE AND COLLATERAL LIEN 6% GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1943

Dated February 1, 1928.

Interest Payable February and August 1 at Seaboard National Bank, New York.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Seaboard National Bank, New York.

Provisions of Issue—Authorized amount, unlimited; issued and outstanding, $1,150,000, Series "A" 6s.

Additional bonds may be issued in series under conservative restrictions of Trust Indenture on following basis: provided consolidated net earnings of Company and its subsidiaries, as defined in Indenture for 12 successive months included in 15 months immediately preceding application for issuance of additional bonds, shall have been at least four times annual interest charge on all bonds at time outstanding under Indenture, on bonds at time applied for and on underlying bonds on property of Company and its subsidiaries, if any consolidated net earnings in so far as they are derived from a public utility as defined in Indenture to be doubled for the purposes of such computation): (a) For not over 60% of cost or fair value, whichever is lower, of additions and extensions (including properties acquired as an entirety) to physical properties of Company; (b) for acquiring at least a majority of voting stock of any corporation engaged in business of a public utility (such term to include those enterprises generally regarded as such, excluding the business of selling and distributing natural gas) but not in excess of 75% of cost of stock and other securities, if any, so acquired, or of fair value of physical properties represented thereby, whichever is lower, subject to further limitations set forth in Indenture; (c) for the acquisition, retirement or pledge under the Indenture, of first mortgage bonds of Carolina-Georgia Service Co. in principal amount not in excess of the principal amount of such bonds acquired and retired or pledged. Additional bonds may also be issued for purpose of refunding bonds from time to time issued under Indenture in principal amount not in excess of principal amount of bonds refunded.

Callability—Series "A" 6s are subject to call, on 30 days' notice, to and including Aug. 1, 1933, at 105 and interest, premium thereafter decreasing ½ of 1% for each 12 months, or fraction thereof.

Sinking Fund—Commencing Aug. 1, 1928, Company shall make semi-annual payments to Trustee for a cumulative sinking fund on the Series "A" bonds which payments, when added to semi-annual interest on bonds outstanding, shall amount to $51,000 until and including Feb. 1, 1943. These payments are to be used to purchase such bonds in open market at not to exceed prevailing call price or if not so obtainable, then for call of such bonds by lot. Indenture will provide that in event additional bonds of Series "A" are issued, sinking fund will be proportionately increased. Company may at its option make these payments with such bonds at cost not to exceed par and interest in lieu of cash. On foregoing basis it is calculated that over 60% of these bonds will be retired by maturity.

Maintenance & Improvement Fund—Company covenants it will set aside in each calendar year as consolidated reserve for maintenance and depreciation a sum equal to the aggregate of following 12½% of consolidated gross income derived from electric light or power and/or other public utility business and/or furnishing of cold storage facilities; and 50c per ton for each ton of ice manufactured and sold by Company and its subsidiaries. Such sums shall be expended for maintenance and replacements, acquisition of additional property, which may not serve as basis for issue or further first mortgage bonds, retirement of funded debt and/or acquisition of minority interests in subsidiaries.

Security—Secured by a direct first mortgage on all fixed properties owned by Company and, except for liens existing at time of acquisition, on all fixed properties hereafter acquired. The properties to be owned have been examined and appraised and reported as having a sound depreciated going value of $3,010,828. There will be pledged certain stocks and/or voting trust certificates of subsidiary companies representing directly or indirectly more than 95% of Common stock of Carolina-Georgia Service Company which, based on a similar valuation, and after deducting prior securities show a sound value of over $1,010,000. Balance sheet as of Oct. 31, 1927, giving effect to this financing and foregoing appraised values, shows net tangible assets behind these bonds of $4,259,000, equal to over $3,700 per $1,000 bond to be outstanding. 75% of stock of Roanoke Ice Delivery, Inc., is also pledged.

Tax Provisions—Company pays Normal Federal Income tax up to 2%, and covenants to refund to holders of Series "A" bonds, any personal property taxes (other than succession or inheritance taxes) paid by the holders not in excess of five mills on the principal amount and any State income taxes not in excess of 6% per annum on the interest thereon, subject to the limitations and in the manner set forth in Indenture.

Legal Opinion—Peabody, Brown, Rowley & Storey, Boston (for the Company) and Chapman & Cutler, Chicago (for the Bankers).

Market—Admitted to unlisted trading privileges on New York Curb Market.

Original Offering—First publicly offered ($1,150,000 Series "A" 6s) in Feb., 1928, at 97½ and interest to yield over 6.25%, by Henry D. Lindsley & Co., Inc., Toy, Gilson & Taylor, Inc., New York and Emery,

Peck & Rockwood Co., Gorrell & Co., Inc., and Dangler-Lapham & Co., Chicago.

FUNDED DEBT

(1)

$1,100,000 FIRST (CLOSED) MORTGAGE 6% SINKING FUND GOLD BONDS, SERIES "A"; DUE JUNE 1, 1942

Dated June 1, 1927.

Interest Payable June and December 1 at American Exchange Irving Trust Co., New York.

Denominations—Coupon, $500 and $1,000, interchangeable, principal may be registered.

Trustee—American Exchange Irving Trust Co., New York.

Provisions of Issue—Authorized and issued, $1,100,000, Series "A." Additional bonds may be issued in series, other than Series "A," with interest rates and maturities as directors may determine, par for par to refund bonds outstanding under the indenture or for 60% of the cost or fair value, whichever is lower, of additional property; provided further that net earnings as defined in the Indenture for 12 consecutive calendar months, within the 15 months next preceding application for such bonds, shall have been not less than 3 times annual interest requirements on all bonds then outstanding under the Indenture, including those proposed to be issued, less bonds then to be retired. Company agrees that while any of the bonds are outstanding, no dividends upon the Common stock will be declared which will reduce net current assets, exclusive of inventories, below $100,000.

Callability—Subject to call as a whole or in part, on 30 days' notice, at par and interest plus a premium of 1/3 of 1% for each full year to maturity.

Sinking Fund—Indenture provides that commencing Oct. 1, 1928, Company shall make semi-annual payments to Trustee for sinking fund, each of which, when added to the semi-annual interest on the bonds outstanding, shall amount to $46,750 until and including April 1, 1931, and thereafter $49,500. These payments are to be used to purchase bonds at not to exceed the call price or if not so obtainable, then for call of bonds by lot. On the foregoing basis it is calculated that over 60% of these bonds will be retired by maturity. The proceeds from the sale of stock through the exercise of warrants attached to these bonds will be applied by Company as additional sinking fund for the retirement of these bonds.

Maintenance and Improvement Fund—Company agrees that commencing June 1, 1927, it will expend annually not less than 12½% of its gross operating revenues for one or more of the following purposes: (a) Maintenance, renewals and replacements; (b) retirement of funded debt by sinking funds or otherwise; (c) additional property, which may not serve as the basis for issue of further first mortgage bonds.

Stock Purchase Warrants—The bonds will be accompanied by non-detachable warrants entitling the holders to purchase 10 shares of Common stock for each $1,000 bond and 5 shares for each $500 bond, at $10 per share to and including June 1, 1929, and at $12.50 per share thereafter and to and including June 1, 1932. Indenture provides that in cases of bonds with warrants attached being called for redemption the Trustee will detach the warrants and issue in their place new warrants in the name of the bondholder. Indenture also contains customary provisions for the protection of the warrant holders in the event of consolidation, sale or increase of number of shares of stock of Company.

Security—Secured by a direct first mortgage or first deed of trust covering all the lands, buildings, equipment and other fixed assets owned or hereafter acquired. Properties owned have been appraised at a going concern value depreciated of $3,264,386.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse bondholders residing in Pennsylvania, Connecticut, Maryland, Massachusetts, District of Columbia or Virginia for taxes levied by said States or District on the bonds or income derived therefrom, properly paid by such holders, not exceeding the personal property or income taxes in effect therein on June 1, 1927.

Legal Opinion—Kobbe, Thatcher, Frederick & Hoar, New York, Chapman, Cutler & Parker, Chicago, and Ropes, Gray, Boyden & Perkins, Boston.

Original Offering—First publicly offered ($1,100,000 Series "A") in June, 1927, at 97½ and interest, to yield over 6.25%, by Henry D. Lindsley & Co., Inc., E. R. Diggs & Co., Inc., New York, etc., and Gorrell & Co., Inc., Chicago.

(2)

Dated June 1, 1927.

Interest Payable June and December 1, at Fidelity Trust Co. of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Fidelity Trust Co. of New York.

Provisions of Issue—Authorized and issued, $500,000.

Purpose of Issue—Proceeds used to provide a portion of the cost of Company's properties.

Callability—Subject to call as a whole or in part at any time on 30 days' notice at 105 and accrued interest on or before June 1, 1928; at 104 and interest thereafter on or before June 1, 1929; at 103 and interest thereafter on or before June 1, 1930; at 102 and interest thereafter on or before June 1, 1931, and at 101 and interest thereafter prior to maturity.

Sinking Fund—Sinking fund provides for the payment of $25,000 June 1, 1928, thereafter each June 1 and December 1 at least $40,625. Such payments will be applied to the purchase of notes in the open market at not exceeding the then redemption price, but if not so obtainable, notes will be called for redemption by Trustee in accordance with the terms of the Agreement. It is also provided in the Agreement that all cash received from the exercise of stock warrants at-

tached to the notes, will be used to retire notes of this issue. Furthermore, it is provided, that no cash dividends in excess of $1.50 per share per annum shall be paid on the Common stock unless an amount equal to any dividends declared in excess of said $1.50 per share per annum shall be devoted to the retirement of funded debt.

Stock Purchase Warrants—Each $1,000 note is accompanied by a detchable stock purchase warrant, entitling the holder thereof to purchase as a block 10 shares of Common stock of Company without par value, at $10 per share on or before June 1, 1932. On the same terms, each $500 note is accompanied by a detachable stock purchase warrant, entitling the holder thereof to purchase as a block 5 shares of Common stock.

Security—Secured by deposit with Trustee of a closed issue of $750,000 General Mortgage Gold bonds, due June 1, 1932, which bonds are secured by a general mortgage lien, subject only to lien of first mortgage on all property owned.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund certain California, Connecticut, Maryland, Massachusetts, New Hampshire, Pennsylvania and District of Columbia taxes.

Legal Opinion—Ropes, Gray, Boyden & Perkins, Boston (for the Company) and E. H. Tatum, New York, and Chapman, Cutler & Parker, Chicago (for the Bankers).

Original Offering—First publicly offered ($500,000) in July, 1927, at 98¾ and interest, to yield over 6.75%, by E. R. Diggs & Co., Inc., New York.

Upon completion of financing it will also render gas service in the Philippine Islands and electric service in the Dominican Republic through the ownership of the outstanding capital stock of The Islands Edison Company (see appended statement), which in turn will own all of the funded debt and substantially all of the outstanding capital stock of the local operating companies. The territories served have an aggregate population in excess of 1,140,000 and the customers aggregate over 47,000. On January 1, 1928, the companies had 22,466 customers for electricity, 20,731 customers for gas and 3,989 customers for water. The system will include 8 hydro-electric plants, 11 steam plants, 5 ice plants, 5 water supply systems, 4 gas plants and distributing systems, 1 street railway system, 2 bus systems and 1,919 miles of transmission and distribution lines. The electric companies have a total electric generating capacity of 10,167 k.w. and purchase their additional requirements under contracts. The gas properties include generating plants of a daily capacity of 4,210,000 cubic feet with 214 miles of gas mains. The water properties have a capacity of 4,691,200 gallons per day and a distributing system consisting of 73 miles of water mains. The electric railway property consists of 24½ miles of gas mains. The water properties have a capacity of 4,691,200 gallons per day and a distributing system consistsing of 73 miles of water mains. The electric railway property consists of 24½ equivalent miles of single track. During the year ended December 31, 1927 the total electric output of the properties was 22,483,079 k. w. h. and an additional 27,164,726 k.w.h. were purchased for resale and there were made 548,884,119 cubic feet of gas.

These properties have been in continuous operation for many years in territories where there is an increasing demand for service. For the 12 months ended March 31, 1928, more than 74% of the gross revenues and 80% of the net earnings before depreciation were derived from electric, gas and water service.

FUNDED DEBT

(1)

$10,500,000 THIRTY-YEAR 5% FIRST LIEN AND COLLATERAL TRUST GOLD BONDS, SERIES "A"; DUE APRIL 1, 1958

Dated April 1, 1928.

Interest Payable April and October 1 at E. H. Rollins & Sons, Boston, Mass., New York, N. Y. or Chicago, Ill.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Bank of America National Association, New York.

Provisions of Issue—Issued $10,500,000. The principal amount of bonds issuable under the trust indenture is not limited to any specific amount, but additional bonds may be issued only under the conservative restrictions set forth in the trust indenture.

Purpose of Issue—Proceeds from the sale of these bonds and of other securities being issued were to be used to retire outstanding funded debt of the Company; to acquire or redeem funded debt and Preferred stocks of certain subsidiary companies, to acquire through a subsidiary certain electric properties located in the Dominican Republic and for other corporate purposes.

Callability—Subject to call in whole or in part on the first day of any month, on 30 days' notice, at 102½ and interest, if redeemed on or prior to April 1, 1957 and thereafter at 100 and interest.

Maintenance Fund—The trust indenture provides that Company and its subsidiaries will expend an amount equal to 12½% of their total gross operating revenues from electric business, 25% of their total gross operating revenues from transportation business and 10% of their gross operating revenues from other types of public utility business (less in each case 75% of the cost of electricity, gas, water and/or ice purchased for resale) for maintenance, repairs, renewals and replacements, for the retirement of bonds issued under the trust indenture and unpledged funded debt of subsidiaries and for additions and acquisitions against which no bonds can be issued under the trust indenture.

Security—These bonds will be initially secured by pledge and deposit of all of the outstanding capital stock, first mortgage bonds and other obligations (except current indebtedness) of its subsidiary companies, with the exception of unimportant minority holdings of Preferred and Common stock of certain subsidiaries and $4,623,000 bonds of subsidiaries, of which $4,500,000 constitute the funded debt of The Islands Edison Company.

Equity—The market equity of the securities junior to this issue to be outstanding upon completion of present financing, as represented by the face value of $3,000,000 Thirty-Year 6% Sinking Fund Gold Debentures, Series A and the present market value of Preferred and Common stocks, is approximately $10,000,000.

Valuation—The properties of the Company and its subsidiaries, including those to be acquired in connection with present financing, have a value as a going concern as of March 31, 1928, based upon engineers' valuations and audits by certified public accountants, after deducting funded debt of subsidiaries in hands of public equivalent to more than 150% of the total principal amount of this issue of Thirty-Year 5% Series "A" bonds. All except one of the smaller properties have been appraised by independent engineers.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund, upon application, to resident holders the following taxes: Pennsylvania Four Mill tax, Maryland Security tax, not exceeding 4½ mills, Connecticut Personal Property tax, not exceeding 4 mills, California Personal Property tax, not exceeding 4 mills, District of Columbia Personal Property tax, not exceeding 5 mills, and Massachusetts income tax on interest not exceeding 6%.

Legal Opinion—Chadbourne, Hunt, Jaeckel & Brown, New York (for the bankers) and Piper, Carey & Hall, Baltimore (for the Company).

(2)

(Controlled by Southern Cities Utilities Company)

History—Incorporated in 1927 in Maryland as The Manila Gas Company; name changed to present title in 1928. Owns the entire funded debt and over 99½% of the entire capital stock of Manila Gas Corporation (see appended statement), which furnishes artificial gas without competition in the City of Manila and in Pasay, its adjacent suburb, in the Philippine Islands, and entire capital stock (acquired about May 1, 1928) of the **Compania Electrica de Santo Domingo,** which furnishes electric light and power without competition in the Cities of Santo Domingo and San Pedro de Macoris in the Dominican Republic.

The territory served in the Philippine Islands has an estimated population of 340,000 and gas service is rendered to approximately 14,000 customers. The properties include a modern coal gas and water gas plant with a capacity of 1,750,000 cu. ft. per day, a distribution system of 110 miles of mains and approximately 19 acres of land located on waterways, on which are located numerous modern buildings and structures of concrete construction. Franchises expire 1962.

The territory served in the Dominican Republic has an estimated population of 55,000 and electric service is rendered to 4,519 customers. The electric system has a total installed generating capacity of 3,300 k.v.a. with 44 miles of modern distribution lines.

During the year ended December 31, 1927, the total electric output of the properties was 3,093,849 k.w.h., and the total gas production was 365,409,419 cu. ft. of gas. Sales of by-products from manufactured gas during 1927 included 1,638 tons of coke and 295,216 gallons of tar. The gas system has gained at a rate of about 1,000 meters per year since operation started.

Trustee—The Baltimore Trust Co., Baltimore, Md.

Provisions of Issue—Authorized, $3,000,000; issued, $2,250,000. Any additional bonds issued are required to be deposited under the indenture securing The Islands Edison Company 25-Year 5½% Series "A" bonds, due March 1, 1953, described below.

Callability—Subject to call as a whole or in part on any interest payment date on 30 days' notice, at 103½ and accrued interest, on or before Oct. 1, 1930, and thereafter at 103½ and accrued interest, less ½ of 1% for each twelve months or fraction thereof elapsed after Oct. 1, 1930.

Sinking Fund—The Deed of Trust securing the First Mortgage 6% Bonds of Manila Gas Corporation pledged under the Indenture provides for a minimum sinking fund of $41,000 per annum applicable to the purchase or call and redemption of the First Mortgage 6% bonds of Manila Gas Corporation. The Trustee of the Indenture securing this issue will deliver the bonds pledged as collateral necessary for sinking fund requirements on the basis of 102½ and interest. The proceeds of the bonds as delivered will be deposited with the Trustee and may be used to purchase or call and redeem bonds of this issue or at the option of the Company may be paid to the Manila Gas Corporation for reimbursement for capital expenditures subsequent to Oct. 1, 1927, to the extent of 100% of cost, the Trustee securing promissory notes of Manila Gas Corporation for the payments so made which will be pledged as additional collateral for this issue.

Security—Secured by a first lien on the pledged collateral and in effect, a first lien on the properties of Manila Gas Corporation through deposit of $1,480,000 First Mortgage 6% bonds due 1946 (entire outstanding amount) and more than 99½% of its entire capital stock, and through covenants in the Indenture securing these bonds, which provide that no additional First Mortgage bonds or other funded debt nor any additional capital stock may be issued by Manila Gas Corporation unless such securities are immediately pledged with the Trustee of these bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax, Maryland Security Tax not exceeding 4½ mills, District of Columbia, Virginia and Kentucky Personal Property taxes not exceeding 4 mills each, Connecticut and Cali-

fornia Personal Property taxes not exceeding 4 mills each, and Massachusetts Income Tax not exceeding 6% on the interest refunded.

Legal Opinion—Piper, Carey & Hall (for the Company) and Venable, Baetjer & Howard (for the Bankers).

Original Offering—First publicly offered ($2,250,000)in October, 1927, at 98½ and interest, to yield 5.70%, by Ames, Emerich & Co., Inc., and Hambleton & Co., Inc., New York, etc.

(2)

$2,250,000 THE ISLANDS EDISON COMPANY 25-YEAR 5½% SINKING FUND GOLD BONDS, SERIES "A"; DUE MARCH 1, 1953

Dated March 1, 1928.

Interest Payable March and September 1 at E. H. Rollins & Sons, Boston, New York or Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Bank of North America & Trust Co., Philadelphia, Pa.

Provisions of Issue—Authorized amount unlimited; issued, $2,250,000 Series "A" 5½s. Additional bonds may be issued under the Trust Indenture, and as therein set forth, in respect of (a) obligations and/or stock of present or future subsidiary corporations acquired by the Company and pledged and deposited under or subject to the lien of the Trust Indenture; (b) the pledge and deposit of The Manila Gas Company First Lien Collateral Trust Ten-Year 5½% Gold bonds and (c) the refunding of bonds issued under the Trust Indenture, but, as set forth in the Trust Indenture, only under conservative restrictions as to earnings and as to the principal amount of bonds issuable in respect of the cost or fair value of obligations and/or stock of subsidiary corporations acquired as aforesaid.

Purpose of Issue—Proceeds from the sale of these bonds were to be used in the purchase of the Compania Electrica de Santo Domingo in the Dominican Republic.

Callability—Subject to call on the first day of any month on 30 days' notice as a whole or in part at 105 and interest prior to March 1, 1943, thereafter at 102½ and interest prior to March 1, 1952, and thereafter at par and accrued interest.

Sinking Fund—The Trust Indenture provides for semi-annual payments to the Trustee of $73,000 each for the purpose of paying the interest on these bonds and for creating a cumulative sinking fund estimated to be sufficient to retire, at par, one-half of these bonds by maturity.

Security—These bonds will be initially secured by the pledge and deposit of all outstanding capital stock and obligations (except current indebtedness and directors' qualifying shares) of the Compania Electrica de Santo Domingo, and a lien, subject to the lien of the Indenture securing The Manila Gas Company First Lien Collateral Trust Ten-Year 5½% Gold bonds, on all of the outstanding capital stock and funded debt (except 52 shares of Common stock) of Manila Gas Corporation. Pending the completion of certain refinancing of Southern Cities Utilities Company in process as of May, 1928, said securities of Manila Gas Corporation will also be subject to the lien of an indenture securing certain other obligations, which in such refinancing are to be paid on or before June 1, 1928.

Legal Opinion—Chadbourne, Hunt, Jaeckel & Brown, New York (for the bankers) and Piper, Carey & Hall, Baltimore (for the Company).

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to reimburse the resident holders of these bonds if requested within 60 days after payment in the manner provided in the Trust Indenture for the following taxes: Pennsylvania 4 mills tax, Maryland security tax not exceeding 4½ mills, Connecticut personal property tax not exceeding 4 mills, California personal property tax not exceeding 4 mills, District of Columbia personal property tax not exceeding 5 mills, and Massachusetts income tax not exceeding 6%.

Original Offering—First publicly offered ($2,250,000) in May, 1928 at 96 and interest, to yield 5.80% by E. H. Rollins & Sons, Blair & Co., Inc., H. M. Byllesby & Co., Inc., and Howe, Snow & Co., Inc., New York, etc.

Through these subsidiary companies, the Corporation will own and operate properties supplying water for domestic, industrial and municipal purposes in 27 cities and towns in the State of Pennsylvania, and 7 cities and towns in the States of Kentucky and West Virginia, serving a total population of about 134,000. Certain of the communities served are important manufacturing centers, and others are in districts where mining and agriculture predominate. Operations of the subsidiary companies are conducted under franchises which are said to contain no burdensome restrictions. Total storage capacity of the combined properties exceeds 545,000,000 gallons; the distributing systems total 321 miles of mains with 1,133 fire hydrants connected and serve 25,153 consumers.

CAPITAL STOCK

Authorized; 50,000 shares Common of no par value and 100,000 shares cumulative Preferred of no par value; outstanding as of December, 1927, 25,000 shares Common.

FUNDED DEBT

(1)

$4,000,000 FIRST LIEN 5½% GOLD BONDS, SERIES "A"; DUE DECEMBER 1, 1952

Dated December 1, 1927.

Interest Payable June and December 1, at Guaranty Trust Co., New York.

Denominations—$500 and $1,000; principal may be registered.

Trustee—Guaranty Trust Company, New York.

Provisions of Issue—Authorized issue unlimited; issued $4,000,000 5½% Series "A," due 1952. The Trust Agreement provides that additional bonds of Series "A," or bonds of other series (which bonds may differ from bonds of Series "A" in respect of interest rate, maturity, and in other ways provided in the Trust Agreement) may be issued under the Trust Agreement, in principal amount not exceeding 80% of cost or fair value (whichever is the lower) of physical property additions of subsidiaries, or in principal amount not exceeding 80% of cost or fair value (whichever is the lower) of securities of any after acquired subsidiary deposited with the Trustee at the time of acquisition of such subsidiary, provided the net earnings including the net earnings from the properties of the subsidiary being acquired, for 12 consecutive calendar months ending not more than 3 calendar months preceding the filing of the request for authentication of additional bonds, shall have been at least 1¾ times the annual prior charges, if any, and the interest on all bonds outstanding under the Trust Agreement including those then proposed to be issued; all as defined in the Trust Agreement. Additional bonds of Series "A," or bonds of other series, may also be issued under the Trust Agreement to refund a like principal amount of bonds previously issued under the Trust Agreement, or to pay, refund or acquire securities of any after acquired subsidiary remaining outstanding after the acquisition of such subsidiary, or securities issued in place of such securities; all as defined in the Trust Agreement.

Purpose of Issue—Proceeds from the sale of this issue, together with the proceeds of debentures and Common stock of the Corporation were to be used in connection with the acquisition of the subsidiary companies (named under "Security" below) and for other corporate purposes.

Callability—Subject to call as a whole or in part upon 30 days' notice at any time to and including December 1, 1932 at 105; thereafter to and including Dec. 1, 1937 at 103; thereafter to and including Dec. 1, 1942 at 102; thereafter to and including Dec. 1, 1947 at 101; thereafter to and including June 1, 1952 at 100½; thereafter to and including maturity at 100; plus in each instance accrued interest to the redemption date.

Maintenance and Improvement Reserve—For the purpose of establishing a maintenance and improvement reserve the Corporation agrees to have its subsidiaries, among other things, set aside annually out of their earnings, an amount equal to at least 9% of their gross operating earnings. Such reserve may be expended for the maintenance of the property of the subsidiaries or for improvements, additions or extensions against which no bonds may be issued under the Trust Agreement.

Security—Series "A" bonds are a direct obligation of Corporation secured by pledge and deposit with the Trustee of all of the outstanding bonds and shares of capital stock (except directors' qualifying shares) of all the subsidiary companies being acquired by the Corporation at the time the bonds were issued, which include the Hanover & McSherrystown Water Company, Gettysburg Water Company, Riverton Consolidated Water Company, Ellwood Consolidated Water Company, Mohnsville Water Company, West Penn Water Company, Parkesburg Water Company, Consumers Water Company of Girardville, Biglerville Water Company, Latrobe Water Company, Consumers Water Company of Montrose, Paris Water Works Company, Central City Water Service Company, Louisa Water Company, Dunbar Water Works Company, Corbin Service Company, Dawson Springs Water Works Company, and Madison Water Works Company.

The Trust Agreement provides among other things that no new mortgage shall be created upon any of the properties of the subsidiary companies above referred to and that no additional bonds or other securities will be issued under existing mortgages of such subsidiaries, unless, in any such case, all bonds or other securities issued under any such new or existing mortgage are forthwith pledged and deposited with the Trustee as security for all bonds outstanding under the Trust Agreement; all as defined in the Trust Agreement.

Tax provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund to holders of the bonds, residents in such states, respectively, upon proper application within 60 days after the payment thereof, the Pennsylvania 4 mills tax, Connecticut Personal Property tax not exceeding 4 mills, the Maryland 4½ mills tax, the California and Kentucky 5 mills Personal Property tax, the Kansas 5 mills tax, the Iowa 6 mills Moneys and Credits tax and the Massachusetts and Oregon Income taxes on the interest thereon not exceeding 6% of such interest per annum.

Legal Opinion—Chadbourne, Stanchfield & Levy, New York (for the Bankers) and Chapman and Cutler, (for the Corporation).

Original Offering—First publicly offered ($4,000,000) in December, 1927 at 99½ and interest, to yield over 5.50% by A. B. Leach & Co., Inc., New York, etc., A. L. Chambers & Co., Buffalo, N. Y.; and Toy, Gilson & Taylor, Inc.

(2)

$1,375,000 CONVERTIBLE 6% FIFTEEN-YEAR GOLD DEBENTURES, SERIES "A"; DUE DECEMBER 1, 1942

Dated December 1, 1927.

Interest Payable June and December 1, at Guaranty Trust Company of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Guaranty Trust Company of New York.

Provisions of Issue—Authorized issue unlimited: issued, $1,375,000 Series "A" 6s. Additional debentures may be issued upon compliance with the terms of the Trust Agreement, but Corporation covenants, among other things, that no additional Debentures will be issued, except for the refunding of a like principal amount of Debentures issued under the Debenture Agreement, unless the consolidated net income, as defined in the Agreement, for 12 consecutive months, within the 15 months immediately preceding, shall have been at least 2½ times the annual interest charges on Debentures outstanding and to be issued, and unless consolidated net assets, as defined in the Agreement, shall not be less than twice the aggregate principal amount of Debentures then outstanding and to be issued.

Callability—Subject to call as a whole or in part upon 30 days' notice at any time to and including Dec. 1, 1930 at 105; thereafter to and including Dec. 1, 1933 at 104; thereafter to and including Dec. 1, 1936 at 103; thereafter to and including Dec. 1, 1939 at 102; thereafter to and including June 1, 1942 at 101; thereafter to and including maturity at 100; plus in each instance accrued interest to the redemption date.

Convertibility—Convertible at any time prior to maturity, or, if called prior to maturity, up to and including the fifth day prior to the date set for redemption, into $6.50 cumulative Preferred stock, on the basis of conversion of a $1,000 Debenture at 100 into 10 shares of Preferred stock at $98 per share with cash adjustment of balance of principal and of accrued interest and accrued dividends. Debentures of $500 denomination are convertible on the same relative basis.

Security—A direct obligation of the Corporation but not secured by mortgage.

Tax Provisions—Corporation pays Normal Federal Income tax up to 2% and agrees to refund to holders of the Debentures, residents in such states, respectively, upon proper application within 60 days after the payment thereof, the Pennsylvania 4 mills tax, Connecticut Personal Property tax not exceeding 4 mills, the Maryland 4½ mills tax, the California and Kentucky 5 mills Personal Property tax, the Kansas 5 mills tax, the Iowa 6 mills Moneys and Credits tax and the Massachusetts and Oregon Income taxes on the interest thereon not exceeding 6% of such interest per annum.

Legal Opinion—Chadbourne, Stanchfield & Levy, New York (for the bankers) and Chapman and Cutler (for the Corporation).

Original Offering—First publicly offered ($1,375,000) in December, 1927, at par and interest by A. B. Leach & Co., Inc., New York, etc., A. L. Chambers & Co., Inc., Buffalo, N. Y., and Toy, Gilson & Taylor, Inc.

EARNINGS

(Combined earnings of the properties for twelve months ended Sept. 30, 1927, after giving effect to the management's estimate of earnings of the Girardville property, which was municipally owned, and their estimate of savings in salaries already effected or to be effected; these estimates have increased by $36,383 the balance applicable to interest on funded debt, depreciation, and Federal Incomes Taxes)

Gross earnings, including other income	$795,769
Operating exp., maintenance, taxes (except Federal Income tax) and other charges	353,476
Balance applicable to interest on funded debt, depreciation and Federal Income tax	$442,293

UNION WATERWORKS COMPANY

(Controlled by North American Water Works Corporation)

History—Through its subsidiaries, Company supplies without competition water for domestic and industrial purposes to the cities of Glasgow, London, Pineville, Barbourville, Harlan, Richmond, Horse Cave, Morgantown, Kentucky, and St. Albans, West Virginia; the subsidiaries also serve electric light and power to Morgantown, Barbourville and Monticello, Kentucky; ice to Monticello and Horse Cave, Kentucky and St. Albans, West Virginia, and gas for industrial and domestic purposes to the city of Richmond, Kentucky. This diversified service is rendered without competition under franchises which in the opinion of counsel are satisfactory. The population of the communities served is estimated in excess of 50,000. Practically 90% of the revenue is derived from the sale of water, electric light and power, the balance being derived from the sale of gas and ice.

CAPITAL STOCK

Authorized, 25,000 shares Common of no par value and $1,500,000 Preferred stock, par, $100; outstanding, 10,000 shares Common. Stock control is held by North American Water Works Corporation.

FUNDED DEBT

$1,450,000 FIRST LIEN 15-YEAR 5½% GOLD BONDS, SERIES "A"; DUE MARCH 15, 1942

Dated March 15, 1927.

Interest Payable March and September 15, at Central Trust Co. of Illinois, Chicago, or at Chase National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Central Trust Co. of Illinois, Chicago.

Provisions of Issue—Authorized amount, unlimited; issued, $1,450,000. Indenture provides that no mortgage or lien shall be placed against any of the properties mentioned above, other than the mortgages to be deposited with the Trustee to secure the bonds of this

issue, and that any mortgage existing against the properties of any subsidiary will be retired from the proceeds of the sale of these bonds or cash deposited with the Trustee insuring such retirement, and that no additional bonds will be issued against these properties for the purpose of retiring any junior indebtedness of the Company except when and as earnings for a period of 12 consecutive calendar months within the 15 calendar months immediately preceding are equal to twice interest charges on bonds then outstanding, including those proposed to be issued. In no event shall bonds be outstanding for an amount in excess of 75% of the appraised value of such properties. The indenture further provides that bonds of this issue may be certified and delivered by the Trustee upon receipt of the entire capital stock (except Directors' qualifying shares) and first mortgages on the properties of the respective subsidiaries, in accordance with a schedule contained in the Indenture, which is based upon the proportionate values of said subsidiaries as appraised. The indenture further provides for the reduction in the amount of bonds of this issue outstanding, provided the mortgages or stocks herein of any one or more subsidiaries are not deposited with the Trustee. Such deduction shall be based upon the proportional values of such subsidiaries, as established by the appraisement. Bonds of future series for extension, betterments or improvements, or for the acquisition of additional properties, may only be issued for 80% of the cost of such extensions, betterments or improvements or for 80% of the cost or fair value as established by appraisement (whichever is lower) of such additional properties, and then only when the net earnings for 12 consecutive calendar months of 15 preceding months equal at least 1.75 times interest charges on all bonds, including those proposed to be issued.

Purpose of Issue—Proceeds provided in part for funds for use in connection with the acquisition of properties and for other corporate purposes and to establish in trust the $200,000 rehabilitation and reserve fund.

Callability—Subject to call as a whole or in part at any time on 30 days' notice, at 103 and interest, up to and including March 15, 1932, the redemption premium decreasing ¼ of 1% each year thereafter.

Security—Bonds are a direct obligation of the Company and are secured by deposit with the Trustee of all the stocks and bonds of several subsidiaries.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain Pennsylvania, Maine, Massachusetts, Connecticut, California, Maryland and District of Columbia taxes refunded upon proper application.

Legal Opinion—Hyde, Henning, Thulin, Westbrook & Watson (for the Bankers).

Original Offering—First publicly offered ($1,450,000) in March, 1927, at 97½ and interest, by Hambleton & Co., Inc., New York, etc., and Aylward & Co., Chicago.

Local Office, Richmond, Ky. **Executive Office**, 11 Broadway, New York.

MONTREAL WATER & POWER COMPANY

History—Incorporated March 17, 1891, by Letters Patent confirmed on June 24, 1892, by Special Act of the Quebec Legislature. Has exclusive right to supply water to the following suburbs, which practically girdle the City of Montreal, viz.: St. Henry, Ste. Cunegonde, Cote St. Louis (now St. Denis Ward), Cote de Nieges (now Mt. Royal Ward), Villeray, Westmount, St. Louis, Maisonneuve, Outremont, Cote St. Paul, De Lorimer, all of which, with the exception of Westmount and Outremont, have become part of the City of Montreal. Franchises are generally for a term of fifty years, from 1891, and except in three instances, provide for a compulsory rate. The Company owns two reservoirs, one of 7,000,000 gals. capacity and the other, recently completed, of about 45,000,000 gals. Pumping capacity, approximately 104 million gallons imperial.

Purchase Resolution Reaffirmed—The Montreal City Council on March 14, 1927 and Aug. 6, 1927, reaffirmed its resolution of Feb. 14, 1927 to acquired by purchase the properties of Company. An arbitration board is to fix the purchase price, with the understanding, agreed to by the Company, that whatever the arbitration award, the City shall not pay more than $14,000,000 for the system. The Company's plant has already been merged with the civic plant.

MIDWEST GAS COMPANY

History and Properties—Incorporated Oct. 26, 1926, in Delaware, and acquired the business and properties of the Oklahoma Service Company, and the Williams Gas Company, in Oklahoma, and the Industrial Fuel Corporation, the Wilco Oil & Gas Company, Fall River Oil & Gas Company, Lincoln Gas & Pipe Line Company and the M. E. Eakin production properties, in Kansas. Upon the completion of contemplated plant additions and extensions, the Company will own and control approximately 292 miles of main pipe line system. It will control gas rights on more than 20,000 acres of proven leases, containing approximately 410 producing wells.

The territory served embraces some 23 representative towns and communities, including Lawton and Altus, Oklahoma, and Neodesha, Kansas, totaling approximately 100,000 in population.

The present operations are principally the transportation and wholesaling of gas to industrial companies, and to distributing companies owning the franchises in the towns supplied. The Company will include among its customers the Standard Oil Company of Kansas, the Southwestern Gas & Fuel Company (an Insull property) and a number of large brick, cement and gypsum manufacturers, with total contracts for a daily delivery in excess of 17,500,000 cubic feet and estimated sales of 20,000,000 cubic feet per day. The majority of these contracts are of ten years' duration with the privilege of renewal.

The supply of gas in Oklahoma is taken from the Chickasha and Sayre gas fields. The Company's present wells in the Sayre field have been producing for more than three years with small reduction in rock pressure or volume, and have an estimated open flow in excess of 60,000,000 cubic feet per day and at a rock pressure of 940 pounds. The Chickasha gas field is one of the largest gas fields in Oklahoma. The Company's contracts in this field are for the duration of the gas supply and command a total reserve estimated in excess of 150,000,000 cubic feet open flow per day.

The gas supply in the Company's Kansas territory is taken from more than 375 shale gas wells now supplying in excess of 7,500,000 cubic feet of gas per day. The record of shale gas wells indicates production for more than fifteen years with little diminution in either pressure or volume.

CAPITAL STOCK

Authorized, 300,000 shares Common stock of no par value; outstanding, 200,000 shares. Of the authorized stock 30,000 shares are reserved for stock purchase privilege attached to the bonds.

Transfer Agent—The Guaranty Trust Co., New York.

Annual Meeting—First Tuesday in June, at Wilmington, Del., or at such other place as the directors may fix.

FUNDED DEBT

$2,500,000 FIRST MORTGAGE 7% GOLD BONDS, SERIES "A"; DUE NOVEMBER 1, 1936

Dated November 1, 1926.

Interest Payable May and November 1, at First National Bank, Boston, and Guaranty Trust Co., New York.

Denominations—Coupon $500 and $1,000; principal may be registered.

Trustee—Guaranty Trust Co. of New York.

Provisions of Issue—Authorized, Series "A," $3,000,000; outstanding, $2,500,000; $500,000 Series "A" bonds are reserved for the acquisition of additional properties and for other corporate purposes contemplated. Under the indenture securing these bonds, additional bonds may be issued in different series and at different rates of interest in amounts equivalent to two-thirds of the cost of additional property, but not unless net earnings for a 12 months' period ended within the last previous 15 months shall have been at least two times the annual interest and fixed sinking fund requirements on the bonds outstanding and about to be issued.

Purpose of Issue—Proceeds were used to construct approximately 40 miles of high pressure gas transmission lines, to lay distribution systems in the towns where franchises are to be acquired, to liquidate the outstanding indebtedness of the Company, to provide additional working capital and for other corporate purposes.

Stock Purchase Privilege—The holder of each $1,000 bond (and $500 bonds in proportion) are entitled to purchase, up to and including Nov. 1, 1936, regardless of prior call or redemption, ten shares of no par value Common stock of the Company up to and including Dec. 31, 1929, at $15 per share and thereafter at a price increasing $2.50 per share per calendar year.

Callability—Subject to call as a whole or in part on any interest date on 30 days' notice at 105 and interest on or before Nov. 1, 1931, and at 102½ and interest thereafter until maturity.

Sinking Fund—Fixed sinking fund payments are to be made monthly to the Trustee, first payment to be made May 25, 1928, for the previous month and in amount equivalent to a rate of $150,000 per annum and increasing each year thereafter at a rate equivalent to $50,000 per annum to $350,000 per annum beginning May 25, 1932, and thereafter until May 25, 1936, and thereafter at $400,000 per annum until maturity or redemption of all the bonds. Fixed sinking fund is designed to retire the entire offering at maturity. In addition to the fixed sinking fund a percentage of the net earnings after interest and fixed sinking fund will be set aside for the redemption of additional bonds. Percentage sinking fund payments shall be made monthly to the trustee, first payment to be made for the month of April, 1927, at 25% of the net earnings, and thereafter at this rate until April, 1930, and thereafter at 15% until maturity or redemption of bonds. Sinking fund moneys are to be used for redemption and cancellation of bonds by the Trustee at or below the redemption price. If tender of bonds to the Trustee is not sufficient to exhaust the sinking fund, bonds may be purchased in the open market by the Trustee at or up to the redemption price, and if not so obtainable, shall be called by the Trustee.

Security—Secured by a direct first mortgage on all the physical property of the Company, and additionally secured by deposit of important contracts, leases and agreements.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain income, personal property and securities taxes of certain states, including California, Pennsylvania, Massachusetts, Connecticut and Maryland, refunded upon proper application.

Legal Opinion—White & Case (for the Bankers), and W. J. Holleman, Oklahoma City, and Robert M. Miles, New York (for the Company).

Original Offering—First publicly offered ($2,500,000) in November, 1926, at 100 and interest to yield 7%, by G. E. Barrett & Co., Inc., New York, etc., and Frederick Peirce & Co., Philadelphia.

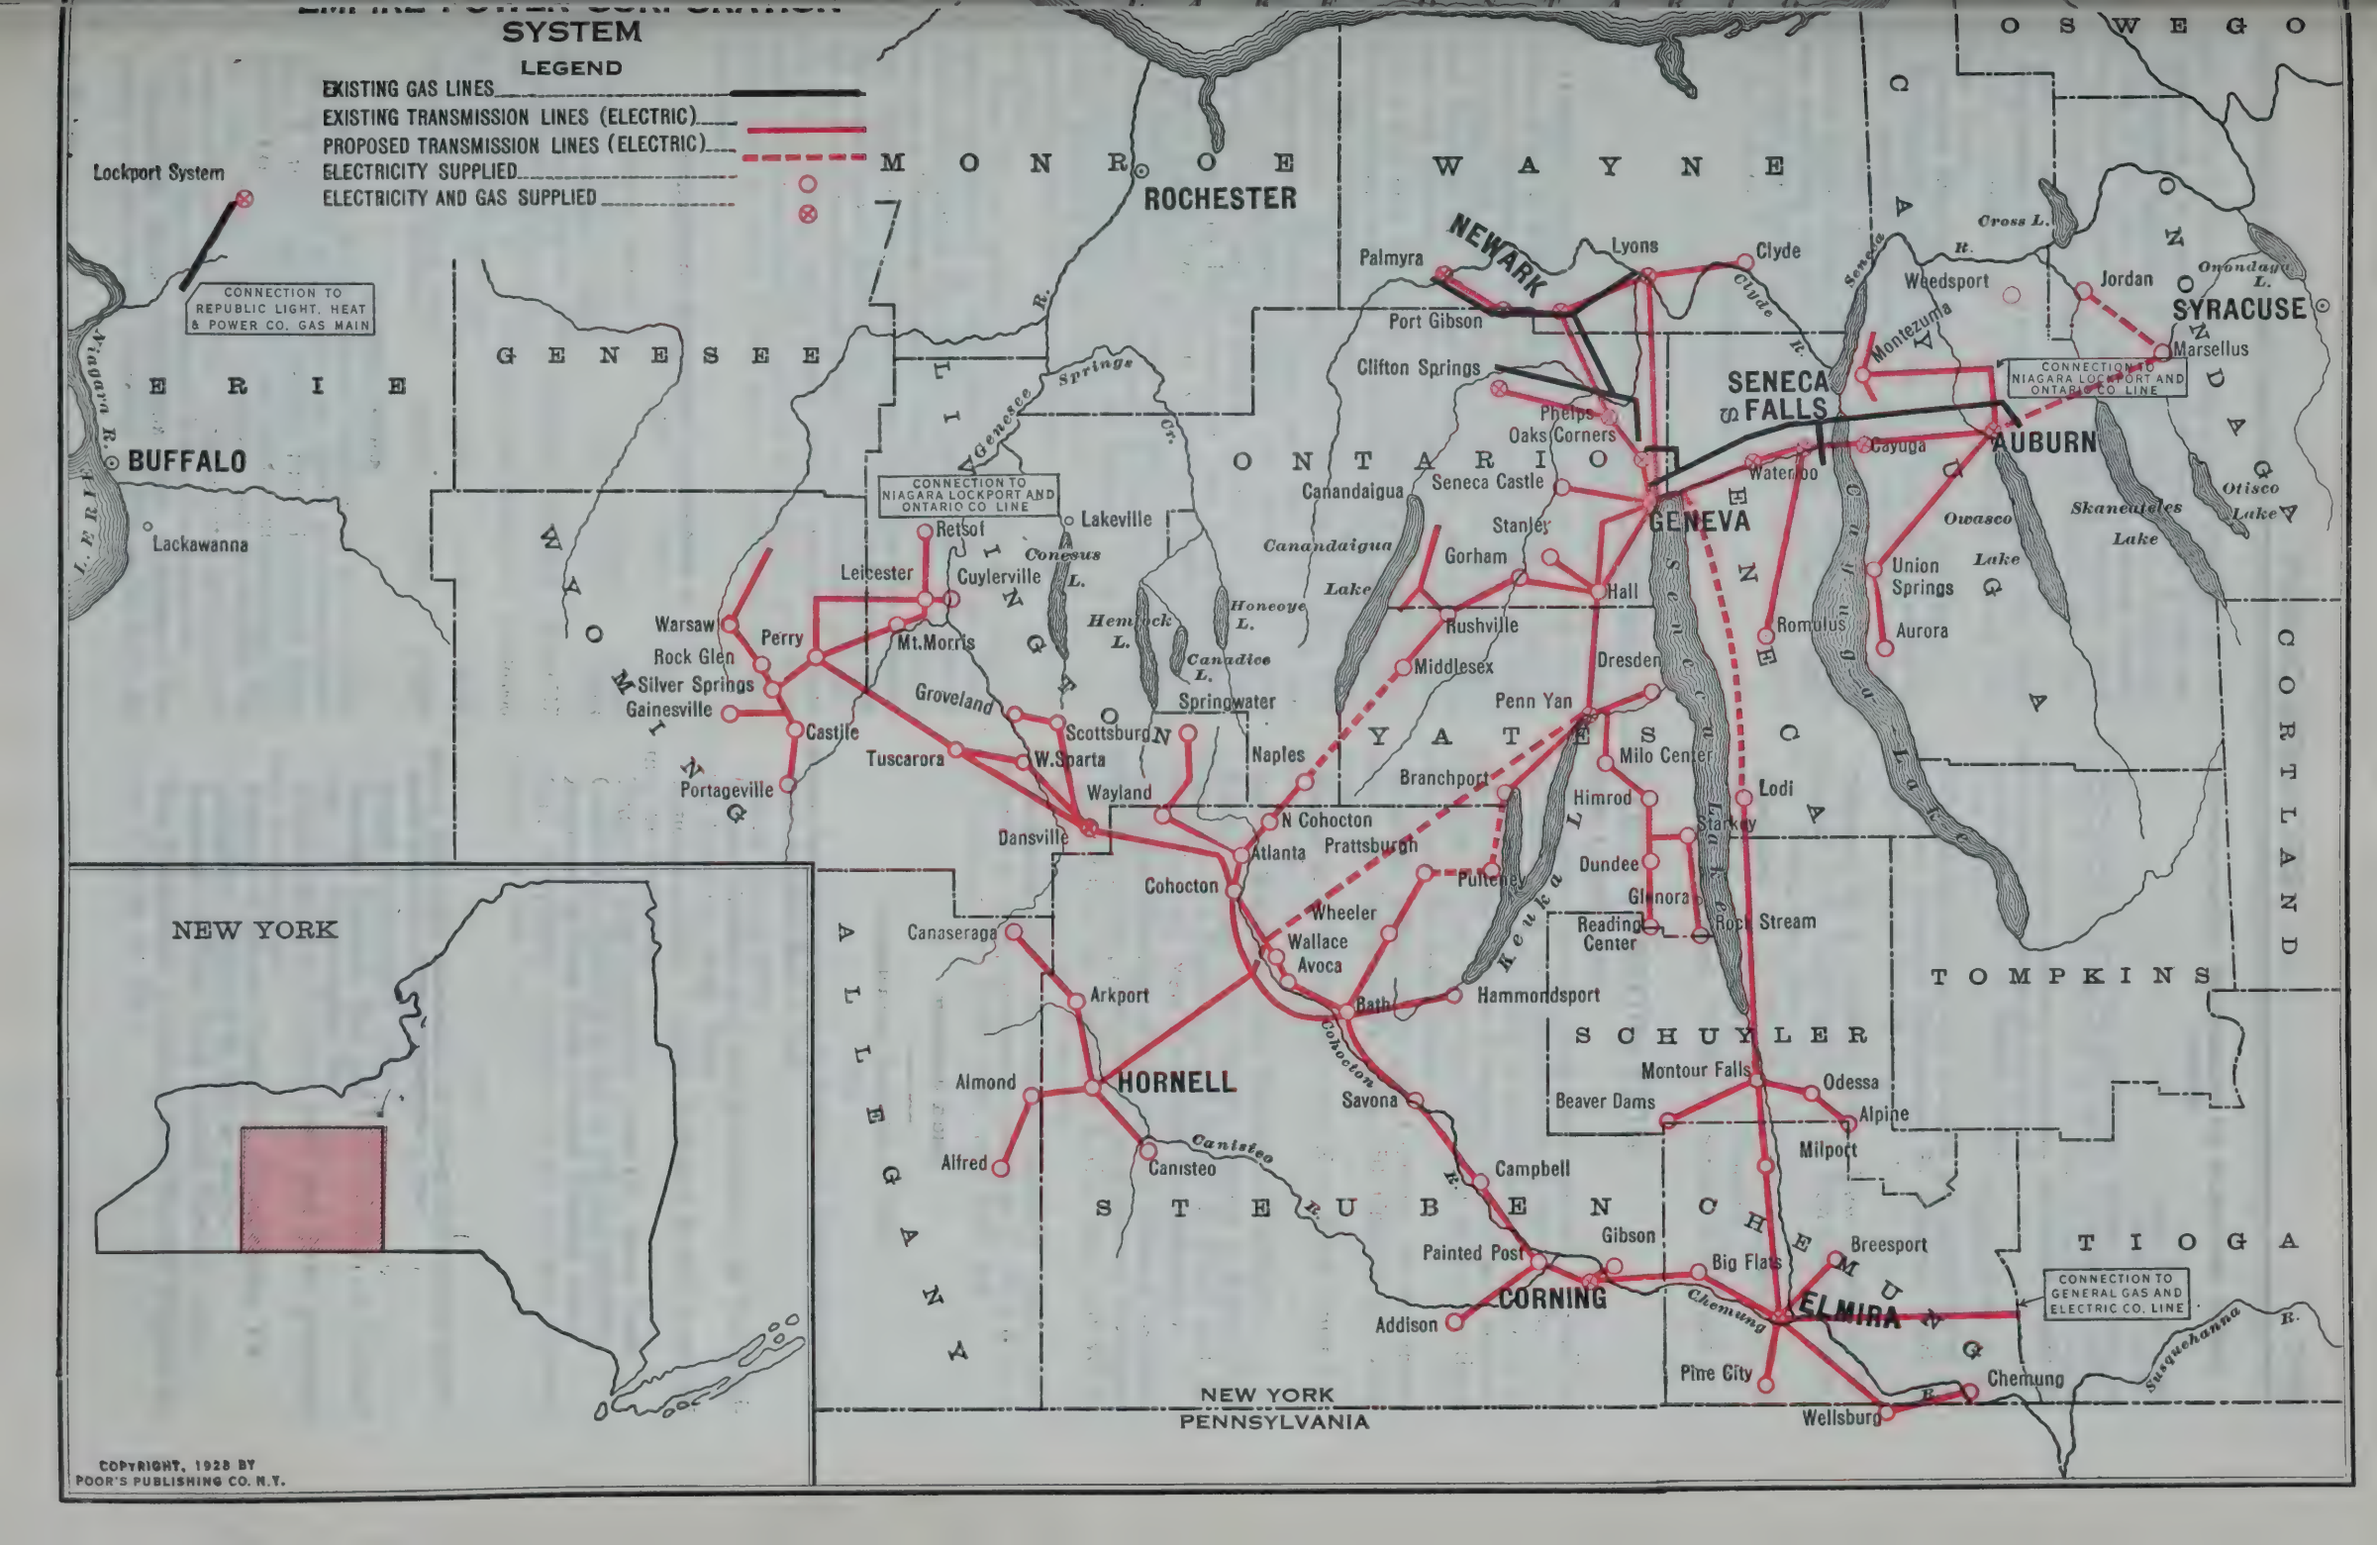
EMPIRE POWER CORPORATION

(See Accompanying Map)

History—Incorporated Nov. 1, 1924 in New York. On Jan. 27, 1925 merged The Empire Coke Company. Corporation owns all the Common stock of New York Central Electric Corporation (acquired Jan. 27, 1925), and over 97% of the Common stock of The United Gas and Electric Corporation. The New York Central Electric Corp. owns the entire Common stock of Empire Gas and Electric Company. The United Gas and Electric Corp. controls Lockport Light, Heat and Power Company and Elmira Water, Light and Railroad Company. Control of The United Gas and Electric Corp. was acquired in Feb., 1926 through an exchange of shares on the following basis: Two shares of Participating stock of Empire Power Corp. was issued for one share of Common stock of The United Gas and Electric Corp. Stockholders of the latter Company also received the option of $63 in cash for each share.

The Empire Power Corp., either directly or through subsidiaries serves 70 communities with electric light and power and 15 communities with gas in the central part of New York, the principal communities so supplied being Lockport, Auburn, Geneva, Elmira, Newark, Seneca Falls, Dansville, Lyons, Corning, Hornell, Perry, Penn Yan and Warsaw. The Corporation also supplies electric railway service in Elmira and vicinity, and steam heating service in Lockport and Hornell. The total population served is in excess of 500,000.

CAPITAL STOCK



Authorized, 600,000 shares Participating stock of no par value, 600,000 shares Common stock of no par value and 100,000 shares $6 cumulative Preferred of no par value; outstanding, 400,000 shares Participating, 400,000 shares Common and 74,000 shares Preferred. Authorized stock was increased from 250,000 shares Common of no par value and 25,000 shares 7% cumulative Preferred of $100 par value, Feb. 1, 1926. Participating stock has a preference over Common, of $2.25 per share (cumulative) and in liquidation a preference over Common of $40 a share and dividends.

Preferred Stock Provisions—Has preference for assets and dividends over the Participating and Common stocks. It is subject to redemption as a whole or in part, after Jan. 1, 1929, on any dividend payment date at $110 per share and accrued dividends. No stock having superior preferences to the $6 cumulative Preferred stock shall be authorized unless holders of a majority of outstanding $6 cumulative Preferred stock shall consent thereto, and no funded debt shall be authorized either directly or by the guarantee of obligations of another corporation, unless holders of a majority of all the then outstanding shares of stock of all classes shall consent thereto.

Tax Provisions—Company pays Pennsylvania and Connecticut personal property taxes, not exceeding 4 mills per annum, and Massachusetts Income tax, not exceeding 6% per annum, refunded upon application within 30 days.

Legal Opinion—Seibert & Riggs, New York (for the bankers) and Henry R. Frost and Elmer B. Sanford, New York (for the Corporation).

Original Offering—Preferred stock was first publicly offered (74,000 shares) in February, 1926, at 93½

Provisions of Issue—Additional bonds of either of the series outstanding or of any other series, having such rates of interest, maturity dates and other provisions as the Directors may determine, may be issued (a) up to 75% of the cost or fair value to the Corporation, whichever is less, of properties acquired in their entirety, and (b) up to 75% of the cost or fair value, whichever is less, of betterments, extensions, or additions to the plants and properties of the Corporation, less the total principal amount of any liens outstanding thereon, at the time of acquisition, provided in either case that the net earnings of the Corporation, for twelve consecutive months within the fifteen months next preceding such issue are at least twice the annual interest charges on all bonds outstanding under the indenture, including bonds proposed to be issued, and on all underlying bonds as defined in the indenture. Additional bonds also may be issued par for par to refund bonds of any other series, or to refund underlying bonds as defined in the indenture.

Subject to the above earnings restrictions, the Corporation may issue bonds against the deposit with the Trustee of an equal amount of cash or equal par value of the obligations of the United States Government.

Callability—5½% Series of 1950 subject to call in whole or in part on any interest date on at least 30 days' published notice at 106% on or prior to March 1, 1928; and at 1% less during each period of four consecutive years thereafter up to and including March 1, 1948; and at 100% thereafter to maturity, plus accrued interest in each case. 5% Series of 1952 subject to call in whole or in part on any interest date on at least 30 days' published notice at 105% on or prior to July 1, 1930; and at 1% less during each period of five consecutive years thereafter up to and including July 1, 1950 and at 100% thereafter to maturity, plus accrued interest in each case.

Improvement Fund—The Corporation covenants that it will deposit cash in a special trust fund with the Trustee, annually on Jan. 15 of each year, beginning Jan. 15, 1928, and continuing thereafter during the life of the indenture, in an amount equal to 1% of the aggregate par value of all bonds of the Corporation issued under the indenture prior to the third calendar year next preceding the date of such payment and then outstanding. This fund shall be known as the "Improvement Fund." Cash in this fund may be used only for the purpose of paying for permanent betterments, extensions and additions to the plants, properties and equipment of the Corporation. These expenditures shall not be used to form a basis for the issuance of First Mortgage bonds, or underlying bonds.

Security—The mortgage securing these bonds is a direct first mortgage on the entire property of the Corporation (except stocks, bonds, and other securities owned, and except consumable and/or sale materials and supplies) owned at the date of the indenture, and upon betterments, extensions and additions thereto, and upon properties subsequently acquired in their entirety subject only to underlying bonds on such properties outstanding at the time of their acquisition.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund the Pennsylvania and Connecticut Personal property taxes, legally assessed against and paid by the holder, not exceeding four mills per annum in either State, upon application within 30 days after such payment by the holder thereof.

Original Offerings—First publicly offered ($1,500,000 5½% Series of 1950) in April, 1924, at 95 and interest, yielding about 5⅞%, by the Manufacturers Trust Co., New York.

Manufacturers Trust Co., New York, has also publicly offered the following additional amounts of these bonds: In August, 1924, $600,000 at 97 and interest yielding over 5.70%; in February, 1925, $500,000; in April, 1926, $500,000 at 101 and interest to yield over 5.40%. EMPIRE GAS AND ELECTRIC COMPANY

(Controlled by New York Central Electric Corp.)

History and Properties—Incorporated April 12, 1911, in N. Y.; consolidation of the Auburn Gas Co., the Inter-Urban Gas Co., the Seneca Falls & Waterloo Gas Light Co. (see Manual for 1911, page 1750); the Auburn Subway & Electric Co., (see Manual for 1911, page 1369), and the Citizens Light &

Power Co. of Auburn. The Weedsport Electric Light Co. was merged in 1915, and the Central New York Gas & Electric Co., early in 1916. The Company on Nov. 1, 1920, purchased a coke plant from Empire Coke Co. In Aug., 1922, purchased the municipal electric plant plant from Village of Clifton Springs; in 1927 purchased the entire plants and properties of Seneca Power Corp. (see 1927 Manual, page 2336), Union Springs Light and Power Co. and Ledyard Lighting Co., Inc.

Company produces its own gas, distributing same in Geneva, Waterloo, Seneca Falls, Cayuga, Auburn, Phelps, Palmyra, Newark, Lyons and Clifton Springs. Does the entire gas and electric business in these cities, together with the entire electric business in Weedsport, Clyde, Union Springs and Aurora. Population served, 130,000.

Company's coke-oven plant at Geneva, N. Y., has capacity of 300 tons of coke and approximately 4,000,000 cu. ft. of illuminating gas per day. It also has a gas plant and an electric generating plant in Auburn, a gas plant at Newark, a steam electric generating plant at Geneva and a water power plant at Seneca Falls, and in addition purchases power under contract from the Niagara, Lockport & Ontario Power Co. Also operates the Tracy Development Co's Waterloo water power plant.

(6)

$1,860,000 EMPIRE GAS & ELECTRIC CO. GENERAL & REFUNDING GOLD 6s, SERIES "A"; DUE JUNE 1, 1952

Dated June 1, 1922.

Interest Payable January and July 1, at American Exchange Irving Trust Co., New York.

Denominations—Coupon bonds in interchangeable denominations of $500 and $1,000; principal may be registered.

Trustee—American Exchange Irving Trust Co., New York.

Provisions of Issue—Authorized amount of Series "A" bonds, $6,000,000. The remaining $4,140,000 of Series "A" bonds may be issued only by the deposit with the Trustee of a like amount of Empire Gas & Electric Co. and Empire Coke Co. Joint First and Refunding Mortgage 5% Gold bonds and/or Central New York Gas & Electric Co. First Mortgage 5% Sinking Fund Gold bonds. Additional series of bonds, other than Series "A" may be issued, having such rates of interest, maturity dates and other provisions as the Board of Directors may determine, but only for 80% of the cost of hereafter acquired property or of additions, betterments and improvements to property, provided net earnings are at least twice the annual interest requirements on the total mortgage debt of the Company including bonds proposed to be issued, and also to refund underlying bonds. At all times bonds may be issued against the deposit with the Trustee of an equal face amount of obligations of the United States Government or cash.

Purpose of Issue—The proceeds from the sale of these bonds will be used to retire underlying bonds and notes and for extensions and improvements to property.

Callability—Subject to call as a whole or in part on 30 days' notice at 110 during the first fifteen years, less 1% each year during the following ten years and at par thereafter, plus accrued interest in each case.

Security—The General and Refunding Mortgage bonds are secured by a general mortgage subject only to existing liens on the entire property of the Company now owned or hereafter acquired. These $1,860,000 Series "A" bonds are additionally secured by the deposit with the Trustee of an equal principal amount of Empire Gas & Electric Co. and Empire Coke Co. Joint First & Refunding Mortgage 5% Gold bonds, or in lieu thereof cash or obligations of the United States Government. Through the deposit of these securities the Series "A" bonds share in a first lien on about 75% of the Company's property. Issuance of these bonds subject to authorization by the Public Service Commission of the State of New York. The indenture provides that all underlying mortgages will be closed except Empire Gas & Electric Co. and Empire Coke Co. Joint First & Refunding Mortgage and bonds thereunder will only be issued as security for bonds issued under the General & Refunding Mortgage. The indenture further provides that in 1941 the Company will cause the General & Refunding Mortgage to become a first mortgage on all of the properties of the Company by the retirement of all underlying bonds outstanding in the hands of the public and by the cancellation of such underlying bonds as may be pledged with the trustee of the General & Refunding Mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Seibert & Riggs, New York.

Legal for Savings Banks in Maine.

Original Offering—First publicly offered ($1,100,000) in Oct., 1922, at 96 and interest, yielding 6.30%, by W. C. Langley & Co., New York.

GENERAL PUBLIC UTILITIES COMPANY

(Controlled and Operated by Day & Zimmermann, Inc.)

History and Properties—Organized Jan. 4, 1926, in Florida, as South Florida Ice Company. On March 29, 1926, the charter was amended, changing the name to General Public Utilities Company. The Company owns ice plants in the State of Florida, and through its subsidiaries operates electric light, water and/or ice plants in the states of Louisiana, Texas, New Mexico, Arizona, Nebraska and South Dakota. Its subsidiaries are: Southwestern Public Service Company, Gulf Public Service Company, Consolidated Power & Light Company of South Dakota, The Dakota Power Company, Nebraska Light & Power Company, and Gothenburg Light & Power Company.

The General Public Utilities Company operates two ice plants in the City of Miami, one in Coconut Grove, one at Miami Beach, one at Homestead, one at Florida City, and one at West Palm Beach, with a total daily capacity of 520 tons, serving a permanent population of approximately 200,000. In addition the Company does a cold storage business at several of its plants.

Company and its subsidiaries render service as follows: Electric Service: Population served, 200,000, customers, 31,839; plant capacity, 24,802 k.v.a. Water Service: Population served, 65,000; customers, 10,877; communities served, 6. Ice Service: Population served, 250,000; tons capacity, 957; communities served, 28.

Management—The management of Company and its subsidiaries is under the direction of Day & Zimmermann, Inc., Philadelphia. Pa.

CAPITAL STOCK

Authorized, 500,000 shares Common of no par value and 200,000 shares $7 cumulative Pfd. of no par value; outstanding, Dec. 31, 1926, 400,000 shares Common and 23,237 shares Pfd. Day & Zimmermann, Inc., Philadelphia, Pa., through control of Day and Zimmermann Securities Corp. holds a substantial stock interest.

Preferred Stock Provisions—Has preference for dividends at rate of $7 per share per annum, and in event of voluntary or involuntary liquidation, for assets up to $110 per share and dividends. Subject to call as a whole or in part at $110 per share and dividends. Pfd. stock in excess of 22,500 shares may not be issued unless surplus income, calculated as provided in the Charter and before deduction for depreciation, amortization and income or profits taxes, for 12 consecutive calendar months within 15 calendar months immediately preceding the issuance thereof, shall have been at least 2½ times the annual dividend requirements on the entire amount of Pfd. stock issued and outstanding together with that proposed to be issued. The Charter also provides that no class of Pfd. stock with prior rights to $7 cumulative Pfd. will be created without consent of holders of 75% of $7 cumulative Pfd.; that no Pfd. stock of equal rank with $7 cumulative Pfd., entitled to cumulative Pfd. dividends at a rate exceeding $7 per share per annum or to more than $110 per share in dissolution, will at any time be created if holders of ¼ of outstanding $7 cumulative Pfd. object thereto; that there will be no reduction in dividend rate or cumulation thereof, redemption price or amount payable on distribution of assets, without consent of all the holders of $7 cumulative Pfd. The Charter will not be amended so as to otherwise alter the preferences, etc., of the $7 cumulative Pfd., without consent of 75% of outstanding stock. The $7 cumulative Pfd. stockholders have no preemptive right to subscribe to any issue of capital stock of Company, or issue of securities convertible into Common stock, and are not entitled to vote unless dividends amounting to $3.50 per share are in arrears, in which event they are entitled in the aggregate to ½ of the total number of votes which the holders of all other classes of stock are then entitled to cast. Stockholders entitled to vote may cumulate their votes at all elections of Directors.

in the Indenture, for 12 consecutive calendar months within the 15 months next preceding, shall have been at least 1¾ times the annual interest charges on all bonds of subsidiaries then in the hands of the public and on all bonds of this issue then outstanding and those proposed to be issued, and when such earnings remaining after deducting annual interest on bonds of subsidiaries then in the hands of the public shall have been for such period at least twice the annual interest charges on all bonds of this issue then outstanding and those proposed to be issued.

Purpose of Issue—The proceeds from the sale of these bonds were used to acquire or retire $3,200,000 indebtedness of subsidiaries and to provide funds for the acquisition of properties, construction and other corporate purposes.

Callability—Subject to call as a whole or in part on the first day of any month on 30 days' notice, at 105 and accrued interest, reducing on the first day of April, 1936, and each April thereafter, ¼ of 1% to maturity.

Sinking and Improvement Fund—The sinking fund provides a sum of money within the life of the issue, which will equal the aggregate principal amount of Series A bonds ever issued, and will be expended as follows, against which expenditures no additional bonds have or may be issued: (a) For the retirement of Series A bonds: (b) for extensions, improvements and betterments to the properties; (c) for other purposes for which bonds are issuable under the Indenture.

Security—These bonds are a direct obligation of Company secured by an absolute first mortgage on properties having an appraised value of $3,500,000, and further secured by the pledge and deposit under the Trust Indenture of first mortgage bonds, secured obligations and stocks of subsidiary companies whose properties have an appraised value (in excess of bonds, obligations and stocks of such companies not deposited under the Indenture) of over $7,700,000. The properties have been appraised at an amount in excess of $19,000,000, which, after deducting $7,755,750 of bonds and obligations and $40,160 of Pfd. stocks of subsidiaries outstanding in the hands of the public, leaves an equity of over $11,200,000, or the equivalent of over 160% of this issue. The Trust Indenture provides that bonds and Pfd. stocks of subsidiary companies may only be issued for pledge and deposit under the Trust Indenture.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Connecticut, Pennsylvania and California personal property taxes not exceeding 4 mills per annum, the Maryland tax not exceeding 4½ mills per annum, the District of Columbia tax not exceeding 5 mills per annum, and the Massachusetts Income tax on the interest not exceeding 6% of such interest per annum, refunded upon 60 days' application.

Legal Opinion—Dickson, Beitler & McCouch, Philadelphia (for Company), and Chadbourne, Hunt, Jaeckel & Brown, New York (for Bankers).

Original Offering—First publicly offered ($6,300,000) in May, 1926, at 98 and interest, to yield 6.65% by Howe, Snow & Bertles, Inc., New York, etc. and R. E. Wilsey & Co., Inc., Chicago. $500,000 additional were offered in July, 1926.

HYDRO-ELECTRIC POWER COMMISSION OF THE PROVINCE OF ONTARIO

History—The Commission acts in an advisory capacity in connection with the operation of the Hydro utilities of the various municipalities with which it has contracts. In this connection the Commission arranges for the purchase or construction of distribution systems and assists the municipal officials in making their financial arrangements to pay for the cost of these systems. The Commission also recommends all necessary rate adjustments, as provided under the Power Commission Act, and generally supervises the management and operation of all systems, more especially in the smaller municipalities, which, individually, are not of sufficient size to employ a manager with the technical knowledge necessary to handle properly all phases of the System's operation.

The first Commission was created in 1903. Work was begun on a comprehensive transmission system in 1909, and by the end of 1910 a total of 280 miles of 110,000 volt line had been completed, serving 13 municipalities, which then comprised the Niagara System. The Commission has since formed other smaller systems, and is now serving about 529 municipalities and townships in the Province of Ontario, together with 92 industrial companies and government industries. In Nov., 1922, purchased the electric distributing system of the Toronto and Niagara Power Co. in the vicinity of Toronto.

Since 1924 the properties of the Electrical Development Company of Ontario, Ltd., The Ontario Power Company of Niagara Falls, and The Ontario Transmission Company, Ltd. have formed an integral part of the Hydro-Electric Power Commission's Niagara System and are being operated as part of that System. The agreement of transfer was authorized by the Power Commission and Companies' Transfer Act 1924. The charters of these three companies are being kept alive because of certain obligations referred to in the Agreement of Transfer.

The Hydro-Electric Power Commission also owns and operates the Essex District Railways, Guelph District Railways and Toronto and York District Railways.

FUNDED DEBT

$300,000 GUARANTEED FIRST GOLD 6s; DUE DECEMBER 1, 1952

Dated December 1, 1912.

Interest Payable June and Dec. 1, at New York Trust Co., Trustee. Denominations, $500 and $1,000; registered bonds, and coupon bonds, registerable as to principal. Authorized issue, $400,000; issued, $300,000 of which $46,000 held alive in sinking fund Dec. 31, 1926, balance reserved for extensions at 85% of cost.

Sinking fund provision requires the payment of $2,750 per annum, beginning Sept. 1, 1915, for the purpose of purchasing bonds at not more than 106 or call at that figure; and such bonds while becoming non-negotiable, continue to draw interest, which income is credited to the sinking fund. In lieu of cash the Company may deposit with the Trustee the equivalent amount in bonds at 106. The mortgage further provides that if any more bonds are issued out of the treasury, in addition to the $300,000 outstanding, a proportionate increase shall be made in the annual sinking fund levy. On Dec. 31, 1926, $46,000 bonds were held alive in sinking fund.

A first lien on entire property. Unconditionally guaranteed, principal and interest, by Bristol Gas & Electric Company. First publicly offered ($300,000), in Jan., 1913, at 101 and interest. Company pays Normal Federal Income Tax up to 2%.

CENTRAL HUDSON GAS & ELECTRIC CORPORATION

History and Properties—Incorporated Dec. 31, 1926, in New York, as a consolidation of Central Hudson Gas & Electric Company, The Dutchess Light, Heat & Power Company, United Hudson Electric Corporation, Upper Hudson Electric and Railroad Company, Kingston Gas and Electric Company, and Ulster Electric Light, Heat & Power Company. All the stock of these companies has been exchanged for stock of the Corporation. The Citizens Railroad, Light and Power Company and Southern Dutchess Gas & Electric Company were merged by Central Hudson Gas & Electric Company in January, 1926. Prior to the consolidation, the properties of the companies were operated under unified control as a single system, known as the Central Hudson System. The Corporation serves the territory situated in the Hudson River Valley between New York City and Albany which embraces substantially all of Dutchess, Ulster and Greene and parts of Columbia, Albany and Orange Counties. The Corporation supplies both gas and electricity, without competition, in and around Poughkeepsie, Beacon, Kingston, Newburgh and Catskill. The territory served with electricity includes, in addition to these cities, more than 190 villages and smaller communities as well as a large suburban and rural population. The population of the territory served is in excess of 272,000. Owns entire capital stock of **Cornwall Telephone Co., Philipstown Electric Corp.** and **United Hudson Realty Corp.**

The electric properties include four steam stations and six hydro-electric generating plants with an aggregate installed capacity of 41,700 k.w., and high tension electric transmission lines over 41,700 miles in length. The gas properties include five gas plants having a total daily capacity of over 7,000,000 cubic feet with gas distribution systems aggregating about 184 miles of mains. The electric properties are connected with the lines of important companies in adjacent territory. The franchises under which the Corporation operates are, with minor exceptions, perpetual and contain no burdensome restrictions.

from the sale of these bonds, together with other funds, were used to refund mortgage debt bearing interest at 6% or more.

Additional bonds may be issued in one or more series, in such amounts and having such rates of interest, maturity dates and other provisions as the Board of Directors may determine under the limitations in the Mortgage for the following purposes: (a) To refund in whole or in part an equal principal amount of any other series of bonds; (b) to a principal amount not exceeding 75% of the cost or fair value of physical property and of betterments and improvements to the property of the Company constructed or acquired on or after Jan. 1, 1927, provided the consolidated net earnings of the Company and its subsidiaries, as defined in the Mortgage, for 12 consecutive months out of the 15 months immediately preceding shall have been at least 1¾ times the annual interest charges on all outstanding bonds and those proposed to be issued.

The Mortgage provides that should the transportation properties be sold to a separate corporation, all of the Common stock of which will be owned by the Company, except Directors qualifying shares, and deposited under the Mortgage, additional bonds may be issued, subject to the foregoing restrictions, for physical property, betterments or improvements acquired or made by such subsidiary, provided an equal principal amount of first mortgage bonds of such subsidiary is deposited under the Mortgage and provided further that bonds issued for such purpose shall not exceed 25% of all bonds outstanding under the Mortgage.

The Mortgage provides that in the event of any sale (other than as provided in the foregoing paragraph) of the transportation facilities and real estate used in connection therewith, the proceeds shall be applied to (a) physical property or betterments or improvements to the Company's electric light and power properties to be covered by the lien of this Mortgage and against which no additional bonds shall be issuable, or (b) to retirement of bonds, provided, however, that when a sufficient amount of such bonds have been retired to reduce the amount outstanding to not more than 50% of the appraised value of the electric light and power properties as of Dec. 31, 1926, and of subsequent improvements at cost, the balance of such proceeds may be released from the lien of the Mortgage.

Callability—Subject to call at 105 and accrued interest, on three weeks' notice, on or before Feb. 28, 1937, the redemption price being reduced on March 1, 1937, and on each March 1 thereafter, ½ of 1% to maturity.

Sinking Fund—Company will pay to Trustee, beginning Jan. 1, 1930, and annually thereafter, a sum equivalent to 1% of the principal amount of all bonds issued and outstanding, to be applied to the purchase or redemption of bonds at not exceeding the then prevailing redemption price. Should the company create a sinking fund for any subsequent series of bonds in a larger proportionate amount than the aforesaid sinking fund, such additional sinking fund provisions shall apply to Series "C" bonds.

Security—Secured by an absolute first mortgage on all property of the company. Mortgage provides for the release of transportation properties under conservative restrictions.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse holders for the present Personal Property taxes in the states of Pennsylvania, Connecticut, California, Maryland and the District of Columbia and for the present Massachusetts Income Tax.

Legal Opinion—Johnson, Gilkyson & Freeman (for the Company), and Townsend, Elliott & Munson (for the Bankers), Philadelphia, Pa.

Original Offering—First publicly offered ($2,100,000) in March 1927 at 96½ and accrued interest to yield over 5.75%, by Harrison, Smith & Co., and Howe, Snow & Bertles, Inc., New York, etc.

First Mortgage bonds may also be issued to refund equal par amounts of the same or other series of bonds issued under this mortgage and prior liens (as defined in the mortgage), if any, on after-acquired property. First Mortgage bonds may be issued from time to time in series with such provisions as may be determined by the Board of Directors, subject to the restrictions of the mortgage. The bonds of additional series may bear such dates, rates of interest, mature at such times and carry such redemption, sinking fund, tax refund provisions, and such other varying or distinguishing provisions as may be determined by the Board of Directors, subject to the restrictions of the mortgage, but, except as to sinking funds which may be established for the exclusive benefit of a particular series, all bonds of all series shall be equally and ratably secured by the mortgage.

Purpose of Issue—Proceeds were used in connection with the acquisition of new properties and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date up to and including Sept. 1, 1932 at 105 and accrued interest; after Sept. 1, 1932 to and including Sept. 1, 1937 at 103 and accrued interest; after Sept. 1, 1937 to and including Sept. 1, 1942 at 102 and accrued interest; thereafter at 101 and accrued interest.

Convertibility—Bonds, unless previously called for redemption, may be converted into Pfd. stock of the Company at any time prior to Sept. 1, 1942 in the following ratio: On or prior to Sept. 1, 1932 at $105 in par value Pfd. stock for each $100 principal amount of bonds; after Sept. 1, 1932 and on or prior to Sept. 1, 1942, $100 in par value of Pfd. stock for each $100 par value bond. Any stock so issued on such conversion shall be entitled to dividends at the rate of 7% per annum from the date of its issuance. As to bonds called for redemption, this right of conversion must be exercised on or prior to the call date.

Sinking Fund—None provided.

Improvement and Maintenance Fund—The mortgage and indenture supplemental thereto provides for an improvement, maintenance and depreciation fund equal to 25% of the gross operating revenue. Such fund may be used by the Company for maintenance and depreciation, for the redemption or retirement of bonds and/or to reimburse the Company for the cost of property additions not made the basis for the issuance of additional bonds.

Security—Secured by a direct first mortgage on all the fixed properties of the Company now owned, which mortgage covers like after-acquired properties.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Company will reimburse holders of these bonds for the Pennsylvania and Connecticut four mills tax; Maryland 4½ mills tax and Massachusetts income tax not exceeding 6%.

Preferred Stock Offered—In May, 1928, 17,500 shares $6.50 cumulative Pfd. stock were publicly offered at 99½ and accrued dividend to yield over 6.53% (each share carrying ½ share of Common stock), by Edmund Seymour & Co., Inc., Charles D. Robbins & Co., and Glidden, Morris & Co. A description of this stock follows:

Provisions of Issue—This $6.50 Pfd. stock is preferred as to assets and dividends over the Common stock, and is fully paid and non-assessable. In event of dissolution or liquidation, entitled to $100 per share and accrued dividends.

The Pfd. stock, authorized at 150,000 shares, may be issued in different series and with different dividend rates, redemption prices, and amounts payable upon dissolution. All authorized Pfd. stock shall constitute one class of stock and shall be of equal rank, preference and priority as to dividends and assets.

In addition to the 35,000 shares of $6.50 cumulative Pfd. stock authorized by the certificate of incorporation, additional Pfd. stock may not be issued unless the net consolidated income, as defined, for 12 consecutive calendar months, within 15 calendar months next preceding the date of the additional issue is at least twice annual dividend requirements on all Pfd. stock outstanding, including the additional shares to be issued.

The Certificate of Incorporation provides that on or before July 1, 1930, and semi-annually thereafter, there will be set aside, but only out of surplus, a Sinking Fund equivalent to $2.50 per share on the number of shares of the $6.50 Dividend Pfd. stock outstanding at the time of such Sinking Fund payments, for the purchase and the retirement of such Pfd. stock, or the reimbursement of the Corporation for such purchase at not exceeding $100 per share, provided, however, that if at any time or from time to time permanent additions are made to the properties of the Corporation or its subsidiaries as defined in the Certificate of Incorporation, the Sinking Fund shall be credited with an amount equal to the cash cost or fair value, whichever is lower, of such permanent additions, and no subsequent semi-annual payments to such Sinking Fund need be made unless and until such credit shall have been exhausted. If the Corporation shall not have been able to purchase, at the price aforesaid, sufficient shares of the $6.50 cumulative Pfd. stock to exhaust the amount of the Sinking Fund within 60 days after the Sinking Fund payment shall have been made, any balance thereof shall be released from the obligations of the Sinking Fund and returned to the surplus of the Corporation.

In the event that the Corporation shall be in default in the payment of four successive quarterly dividends on the Pfd. stock, the holders thereof shall have equal voting powers with the holders of the Common stock (the holders of the Common stock having one vote for each share held by them).

The Corporation may not, without the consent of the holders of at least two-thirds of the $6.50 cumulative Pfd. stock, authorize or issue any stock or class of stock having priority or preference over the Pfd. stock as to dividends or as to distribution of assets upon dissolution or liquidation; or amend the provisions of the $6.50 Dividend Pfd. stock so as to affect adversely any of the preferences and other rights given to the holders thereof.

Callability—The $6.50 Pfd. stock is redeemable in whole or in part on any dividend date upon 60 days' notice at $105 per share and accrued dividends.

Transfer Agent—The Seaboard National Bank of the City of New York.

Registrar—Empire Trust Co., New York.

Dividends—Pfd. dividends are payable quarterly, F, M, A & N 1.

NEW BOND ISSUE

$3,000,000 (ENTIRE ISSUE) TENTH SERIES COLLATERAL TRUST 4½% GOLD BONDS; DUE MAY 1, 1953

Dated May 1, 1928.

Interest Payable May and November 1, at Old Colony Trust Co., or at The Chase National Bank of the City of New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Wilmington Trust Co., Wilmington, Del.

Purpose of Issue—The proceeds from this issue of Tenth Series 4½% bonds were used to retire the first six series of 5% Collateral Trust bonds of the Company, outstanding in the amount of $1,012,000, and for the purchase of additional securities.

Callability—Subject to call in whole or in part at the option of the Company on any interest date on 30 days' published notice at 102 up to and including May 1, 1943, thereafter at 101 up to and including May 1, 1948, thereafter at 100½ up to and including May 1, 1951 and thereafter prior to maturity at 100, in each case with accrued interest.

Retirement Fund—The Indenture of Trust provides that the Company shall deposit the sum of $50,000 on May 1 of each year beginning in 1933 to be used by the Trustee in purchasing for cancellation bonds of the Tenth Series offered to it for sale at not exceeding principal amount and accrued interest. Any part of such sum not exhausted on July 1 reverts to the Company.

Security—The $3,000,000 Tenth Series 4½% bonds are a direct obligation of the Company and are secured by pledge of collateral with a market value of over $4,000,000. The Indenture by which this Series is secured provides that the market value of the pledged collateral, consisting of bonds, notes, stocks and other securities shall be equal at all times to not less than 120% of the principal amount of bonds of the Tenth Series at the time outstanding and shall include bonds, notes or other evidences of indebtedness of a market value not less than 60% of the principal amount of bonds of this Series outstanding. Within the above limitations the Company may make withdrawals and substitutions of collateral in the conduct of its business. Securities of other than railroad and public utilities may be substituted as collateral if the Company or a successor corporation is hereafter authorized to hold them.

Valuation—The appraisal value of the present holdings of bonds, notes and stocks based on market prices as of March 31, 1928, plus cash on hand upon completion of financing, totals over $12,400,000 or more than $2,200 for each $1,000 bond outstanding, including this issue.

Legal Opinion—Ropes, Gray, Boyden & Perkins.

Tax Provision—Company pays Normal Federal Income Tax up to 2%.

Original Offering—First publicly offered ($3,000,000) in April, 1928, at 94¼ and interest to yield 4.90%, by Estabrook & Co., Stone & Webster and Blodget, Inc., and Parkinson & Burr.

Stock Dividend—Following authorization by stockholders of Corporation April 17, 1928 of an authorized issue of 400,000 shares of no par value $6 cumulative Preference stock, redeemable at $107.50 a share, and junior to the authorized 400,000 no par $6 cumulative First Pfd. stock, directors declared a stock dividend to holders of no par value Class "A" and Class "B" Common shares of record April 23, 1928, consisting of one share of the new Preference stock for each five shares Common stock held.

AMERICAN TELEPHONE AND TELEGRAPH COMPANY

(See also statement on page 522)

Subscription Privilege—Stockholders of record June 1, 1928, received the right to subscribe for approximately $185,000,000 additional stock in the proportion of one share for each six shares held. Subscription privilege expires August 1, 1928 and payment for shares subscribed were due as follows: $20 per share Aug. 1, 1928; $40 per share Dec. 1, 1928 and $38.65 ($40 less $1.35) on April 1, 1929. Interest at rate of 5% per annum, amounting to $1.35 per share, will be allowed on the first two installment payments from their respective due dates to April 1, 1929, when it will be paid by crediting the amount on the final installment payment. Stock so paid for will be issued as of April 1, 1929, and will participate in dividends payable after April 15, 1929. Subscribers will be permitted to anticipate the installment payments and to pay the full amount on August 1, 1928, provided in such case they pay $3.40 per share in addition to the par value of the stock as adjustment of the excess of 9% dividends over interest at the rate of 5% to April 1, 1929, making the full payment on August 1, 1928, $103.40 per share. Stock so paid for will participate in dividends payable after August 1, 1928. Subscribers who have paid the installment due August 1, 1928, will be permitted to pay the two remaining installments of $40 each on December 1, 1928, provided in such case they pay $2.50 per share in addition to the amount of the installment payments as adjustment of the excess of 9% dividends over interest at rate of 5% to April 1, 1929, making the payment on December 1, 1928, $82.50 per share. Stock so paid for will participate in dividends payable after December 1, 1928. Purpose of this issue is to provide funds for new construction needed by the Bell System to care for additional business resulting from the constantly greater use of telephone service.

(See also statement on page 142)

Property and Service (Revised)—The Company's property includes three generating plants, one located on the East River at Hudson Avenue, another on the East River at Gold Street, and the third on New York Bay at 66th Street, which have an aggregate rated capacity of 419,500 kilowatts in generators, with the necessary condensing, switchboard and auxiliary equipment.

The installation of a 110,000 kilowatt generating unit at the Hudson Avenue Generating Station was started in October, 1927, to provide for additional load in 1928. It is planned to have this unit ready for operation in the coming summer. This is the fifth generating unit to be installed at Hudson Avenue and will bring the total capacity of the station up to 340,000 kilowatts, and the aggregate rated capacity of the three generating stations to 529,500 kilowatts. The Hudson Avenue Station supplied approximately three-quarters of the total energy generated in 1927.

There are twenty-seven substations containing 78 units, with a total rated capacity of 94,780 kilowatts for converting alternating current into direct current, and 42 units of alternating current transforming capacity, totaling 420,000 kilovolt amperes. The substation adjacent to the Hudson Avenue Generating Station has a 35,000 kilovolt ampere frequency changer set used for tying in the twenty-five cycle system to the sixty cycle system.

The transmission and distribution systems include 7,489 miles of overhead construction carried on 51,400 poles, and 7,224 miles of underground construction laid in subway conduits. There are 744,323 meters in use on the system, the territory served being estimated to have a population of over 2,250,000.

Proposed Exchange of Stock—President Sloan of Brooklyn Edison Company, Inc., in letter to stockholders on May 19, 1928, accompanying Deposit and Exchange Agreement for exchange of capital stock of Brooklyn Edison Company, Inc., for $5 cumulative Pfd. stock and Common stock of Consolidated Gas Company of New York, dated May 15, 1928, outlined the plans as follows:

This plan provides for the issue by the Consolidated Gas Company of one share of its Common stock, on which dividends are paid at the rate of $5 a year, and one share of its $5 cumulative Pfd. stock, in exchange for each share of the capital stock of this Company.

As soon as holders of at least 70% of the capital stock of this Company deposit their certificates of stock with the Depositary (The National City Bank of New York) for which they will receive transferable certificates of deposit from the Bank, the Trustees of the Consolidated Gas Company have agreed to call a meeting of the stockholders of that Company, to take action upon the proposed issue of its Pfd. and Common stock in exchange for the stock of this Company, on the basis above stated. If the stockholders of the Consolidated Gas Company should decide to divide each of its present shares of Common stock into two shares, then the basis of exchange will be two shares of Common stock and one share of $5 cumulative Pfd. stock for each share of Brooklyn Edison stock.

In case the stockholders of the Consolidated Gas Company should fail to carry into effect the said recommendation of its Board of Trustees prior to Aug. 1, 1928, or within such additional time as the Committee of the Brooklyn Edison Company stockholders may deem advisable, The National City Bank of New York will, upon the surrender of the certificates of deposit, return to the respective depositors, or their assigns, the certificates of stock deposited with it, as aforesaid.

Depositary—The National City Bank of New York.

Stockholders' Committee—Nicholas F. Brady, James H. Post, Matthew S. Sloan.

Proposed New Holding Company—See paragraph under Consolidated Gas Company of New York below.

CONSOLIDATED GAS COMPANY OF NEW YORK

(See also statement on page 748)

Proposed Merger—Plans for merging Brooklyn Edison Company, Inc. into Company through an exchange of stock, received formal action from directors of the two companies May 15, 1928. Merger is expected to be completed by midsummer. Consolidated Gas Company of New York announced a plan by which it proposes, providing 70% of Brooklyn Edison Company stock is deposited by June 15, 1928 to exchange two shares of Common stock for each share of existing Consolidated Gas Company Common, subject to approval of the New York Public Service Commission. For further details of the merger plan, see paragraph on Proposed Exchange of Stock under Brooklyn Edison Company, Inc. above.

Capitalization—Proposed exchange of stock and the two-for-one split-up of Common shares of Consolidated Gas Company will increase the outstanding Common stock of Consolidated Gas Company from 4,320,000 to 10,440,000 of which Consolidated Gas Company holders would receive 8,640,000 and Brooklyn Edison Company stockholders, 1,800,000 shares. Consolidated Gas Company has issued 1,200,000 of $5 Preferred stock and this would be increased by 2,100,000 shares by the exchange.

Proposed New Holding Company—Shortly after consummation of merger of Brooklyn Edison Company, Inc. with Company, it is planned to form a holding company which will probably be organized as the Consolidated Gas and Electric Company, the shares of which would be exchanged share for share for those of Consolidated Gas Company of New York, after the proposed split-up of Common shares of the latter on the basis of two for one.

Provisions of Issue—Authorized amount, unlimited. Authorized, Series "A," $4,000,000; issued, $3,500,000. The balance of $500,000 may be issued from time to time in the discretion of the Directors. Further bonds in addition to those now authorized may be authorized and issued from time to time, as additional bonds of Series "A" or other series, but only to the extent of 75% of the cost or fair value, whichever is less, of additional property of a fixed or permanent nature as defined in the Trust Deed, acquired or constructed by the Company after Jan. 1, 1928, and then only when net earnings as defined in the Trust Deed for the Company's preceding fiscal year shall have been at the rate of not less than one and one-half times the annual interest charges on bonds then outstanding and those proposed to be issued.

Purpose of Issue—Proceeds were used for the retirement of $2,250,000 Nova Scotia Tramways and Power Company 5% First Mortgage Gold bonds, due 1947 and $1,414,500 7% General Mortgage Gold bonds, due 1952.

Callability—Series "A" bonds are subject to call as a whole or in part, on 30 days' notice at a premium of 5% if redeemed on or before June 1, 1933, and if redeemed thereafter on or before June 1, 1957, at a premium of 5% less 1/5 of 1% for each year or part of a year elapsed between June 1, 1933 and the date of redemption, and after June 1, 1957 without premium; in each case with accrued interest to date of redemption.

Sinking Fund—An annual cumulative sinking fund for the redemption of bonds of Series "A" is provided, which requires that the Company shall pay to the Trustee on the first day of June in each year, commencing June 1, 1930, a sum equal to 1% of the aggregate principal amount of bonds of Series "A" previously issued under said mortgage, together with a sum equal to the interest on bonds of Series "A" previously redeemed through the sinking fund. The Trust Deed provides that the sinking fund on further series of bonds shall not be less than the sinking fund payable on Series "A" bonds.

Security—Bonds are secured by a first mortgage and charge on all the properties of the Company, present and future, specific as to real estate, plants, equipment and franchises and by way of a floating charge as to all other assets.

Tax Provisions—Company assumes United States Normal Income Tax up to 2%.

Legal Opinion—Covert, Pearson and Rutledge, Halifax, N. S. (for the Company) and Henry, Stewart, Smith and McCleave, Halifax, N. S. and Victor E. Mitchell, Montreal (for the Bankers).

Original Offering—First publicly offered ($3,500,000) in April, 1927, at 99½ and interest to yield over 5% by Royal Securities Corp., New York.

BOND REDEMPTIONS

All of the First Mortgage 5% Gold bonds, due Dec. 1, 1946, were called for redemption on June 1, 1928, at 105 and interest at Bank of Montreal, New York, Montreal, Que. or London, Eng.

All of the outstanding Series "A" 7% General Mortgage Gold bonds, due April 1, 1952 were called for redemption on Oct. 1, 1928 at 110 and interest at Eastern Trust Co., Montreal, etc., Trustee, or at the Canadian Bank of Commerce, Halifax, Montreal, etc., or at the agency of the Canadian Bank of Commerce in New York. Holders may present their bonds at any time after June 1, 1928 and prior to Oct. 1, 1928 and receive 110 and interest to date of surrender.

NEW BOND ISSUE

$4,000,000 NORTHERN ELECTRIC COMPANY AND NORTHERN PAPER MILLS FIRST MORTGAGE 5% SERIAL GOLD BONDS, SERIES OF 1928; DUE $75,000 ANNUALLY, NOV. 1, 1934 TO 1936; $100,000 ANNUALLY, NOV. 1, 1937 TO 1943; $125,000 EACH, NOV. 1, 1944 AND 1945; $150,000 NOV. 1, 1946; $175,000 NOV. 1, 1947 AND $250,000 MAY 1, 1948

Dated May 1, 1928.

Interest Payable May and November 1, in Chicago and New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustees—Harris Trust & Savings Bank, Chicago, and M. H. MacLean.

Provisions of Issue—Issued $4,000,000 Series of 1928 5s. Additional bonds of other series, having such rates of interest, maturity dates, and other provisions as the Board of Directors may determine, and as are permitted by the Mortgage, may be issued for (a) not more than 70%, in the case of electric property, or 50%, in the case of paper mill property, of the cost, or fair value, whichever is less, of additions, (as defined in the Mortgage) constructed or acquired subsequent to May 1, 1928; or (b) for refunding, in accordance with the above restrictions, prior lien bonds which may be outstanding on property hereafter acquired. Not more than $3,000,000 of such escrow bonds may be issued for paper mill property.

No additional bonds may, however, be issued unless net earnings (as defined in the Mortgage) for twelve consecutive calendar months ending not more than 90 days preceding application for issuance shall have been at least equal to two and one-half times the annual interest requirements on all outstanding prior lien bonds, if any, and all bonds issued and outstanding under the Mortgage, including those proposed to be issued and unless, also, average earnings as described in the Mortgage for the three consecutive fiscal years next preceding such application shall have been not

less than two and three-quarters times such interest charges.

Callability—Subject to call on any interest date on 60 days' notice at 100 and interest and a premium of ½ of 1% for each year or part of year the bonds have to run before their designated date of maturity, but premium in no event to exceed 5%.

Depletion Fund—The Mortgage provides for a depletion fund into which will be paid the sum of $2.00 per cord of pulpwood cut on the Algoma tract and $4.00 per thousand feet of timber cut on the Ontanagon tract. The moneys so deposited may be used for (1) the purchase of additional pulpwood timber tracts in fee at the rate of $2.00 per cord, $4.00 per thousand feet, or cost, whichever be less; or (2) the retirement of bonds of the last maturity of this series secured thereunder.

Security—Secured by a direct first mortgage upon all the physical properties of Northern Electric Company and Northern Paper Mills now owned or hereafter acquired subject only to lease of space on the transmission line to Wisconsin Gas and Electric Company. Included in the mortgaged properties will be the fee timber holdings in Michigan and Canada. The bonds are the joint and several obligation of the Northern Electric Company and Northern Paper Mills to the full amount of principal and interest.

The companies agree that, while any of the bonds secured by this Mortgage are outstanding, combined current assets will be maintained at least equal to 1½ times combined current liabilities and combined net current assets shall not at any time be less than $750,000, nor shall any dividend payments or distributions of assets be made to stockholders which will reduce combined current assets to less than 2 times combined current liabilities.

Tax Provisions—The Companies pay Normal Federal Income Tax up to 2% and agree to reimburse holders of these bonds, upon application within 60 days after payment, for the Pennsylvania personal property tax not exceeding 4 mills per $1 per annum, and for the Massachusetts income tax on interest not exceeding 6% of such interest per annum.

Legal Opinion—Cutting, Moore and Sidley, Chicago.

Original Offering—First publicly offered ($4,000,000) in May, 1928, at prices ranging from 99¼ to 98½% and accrued interest, yielding approximately 5.10%; by Harris, Forbes & Co., Inc., H. M. Byllesby & Co., Inc., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal.

Net earnings available for interest, depreciation, royalties,* etc.	$1,900,568	$1,573,151

*The City has covenanted to subordinate royalty charges accruing to it for franchises held by the Company, to current interest and sinking fund charges on these bonds.

NOTE—All conversions from German to United States currency have been made at the rate of 4.2 Reichsmarks to the dollar.

FURTHER DESCRIPTION OF SINKING FUND MORTGAGE 6% BONDS, SERIES "A"

Issue of Additional Bonds—Bonds in addition to, and ranking equally with, the Series "A" bonds may be issued in series up to 60% of cost or fair value, whichever shall be less, of additional fixed assets to be mortgaged (other than fixed assets acquired with the proceeds of the Series "A" bonds), but only if average annual net earnings of the Company, available for interest, depreciation and royalties, for the two fiscal years immediately preceding such issue, shall have been at least 2½ times maximum annual interest and sinking fund charges in respect of all bonds to be outstanding under the Indenture after such issue and all other debt of the Company then to be outstanding and ranking equally with or prior to the Series "A" bonds, and only if such average annual net earnings shall have been at least 3 times maximum annual interest charges in respect of all such bonds and other debt, all as may be more fully stated and defined in the Indenture. Additional bonds may also be issued against the deposit of cash or for refunding purposes. Bonds of the several series may differ as to maturity dates, interest rates, redemption, sinking fund, and in such other respects as may be provided in the Indenture.

Callability—Series "A" 6s are subject to call as a whole or in part on any interest date on 60 days' notice at 100 and interest.

Security (Revised)—Series "A" bonds are secured by direct gold mark mortgages on substantially all of the Company's electric light and power properties, its gas generating plants and its water filtration, central pumping and supply plant. These mortgages will be first mortgages on such electric light and power properties and direct mortgages on the gas and water properties, subject to a repurchase right with respect to the water works property effective only if the property ceases to be used as a water works and to a prior lien in the maximum amount of $140,476. This lien secures a debt of the City of Altona which was not assumed by the Company when the Company acquired the property from the City, and the City has indemnified the Company against any liability for interest or principal thereon.

As the Company is municipally owned, it is not subject to a capital charge under the Dawes Plan, and its property is, therefore, free from the so-called Dawes Mortgage. However, in accordance with the laws of the German Reich, enacted to put the Dawes Plan into effect, the Company is obligated to make annual payments, which on the basis of present assessments, are estimated at about $50,000 per year.

Original Offering—First publicly offered the United States portion of $5,000,000 Series "A" 6s, in May, 1928 at 93 and interest to yield over 6.55%, by A. G. Becker & Co., and International Acceptance Bank, Inc., New York, etc.

Listed—Listed in Boston Stock Exchange and application will be made to list these Series "A" on New York Stock Exchange.

Bonds
for Investment

Every month, for many years, we have compiled an extensive list of selected bonds for conservative investment which we own and offer with our recommendation.

This list includes Government, Municipal, Public Utility, Railroad, Farm Loan, Real Estate and Industrial Bonds, both domestic and foreign. We shall be glad to place your name upon our mailing list to receive a copy, if you so desire.

We also invite inquiries regarding new financing and offer the benefit of recommendations based upon our accumulated experience of more than forty-five years.
